PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *thereby Patent can be procured several weeks earlier*, he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in warning inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1852. eodly

North American Soap Co.

MANUFACTURERS, City and Country Dealers and the public are requested to give their Soap a trial. It is cheaper than other good Family Soap; can be used in cold, SALT or HARD water as efficiently as the softest; will remove *Grease, Tar, Paint, &c.*, and contains no ingredients injurious to the skin or most delicate fabric; is superior for Woolen Goods, and clothes washed with it require NO BOILING and but little rubbing. Numerous testimonials might be appended, but the proprietors rest upon its merits. Sold by their principal Grocers throughout the country. All orders promptly attended to. M. B. BIGELOW,
152 Washington st, up stairs, Boston.
M3md15 Agent for Massachusetts.

BOSTON MACHINE WORKS.

Henry Goulding, Proprietor,

No. 2 Andover street, Between Fitchburg and Lowell Depots.

AT THE BOSTON MACHINE WORKS may be found MACHINERY of all kinds and descriptions, including STEAM ENGINES and BOILERS, of from one to fifty horse-power, either horizontal, vertical or oscillating style—attached or separate from the boilers.

New and Improved Steam Regulators and Valves can be attached to engines now running, and perfect regulation secured.

Also, Gang Saw Mill Work of the most approved construction, either attached to engines or run with belting. Also, Saw Arbors or Shafts, Shafting, Pulleys, Belting, &c. &c., either new or second hand; if not on hand, can be furnished at the shortest notice.

N. B.—All Machinery sold at this Establishment is warranted to give entire satisfaction to the purchaser.

Boston, Dec. 15, 1852. M1aw3m

THE ART OF BEING BEAUTIFUL.

IT has long been a *desideratum* that some scientific man should apply himself to the study of the human scalp. Dr. JACOBY, the great Pathologist, from Berlin, has done this, and in this new field has attained the most brilliant results.—Satisfied by an analysis of the red colored alcohols and other washes, of their deleterious effects, he compounded his celebrated Berliner Haar Wasche, to the efficacy of which thousands of witnesses might be summoned, of the accompanying character:—

BOSTON, Jan 1, 1848.

This is to certify that I have had an article called the Berliner Haar Wasche applied during the past five or six weeks to my head, for the purpose of renewing and strengthening the hair. It has been very effective in producing such a result; and I can cheerfully recommend the same to those afflicted with baldness or diseases connected therewith. JONAS CHICKERING.

It frequenaly happens that ladies suffer from *hair eaters*, and apply some of the nostrums prepared by apothecaries, who think, because they can make poor soda water, they can prepare good hair wash. The effect of these is often dreadful or injurious. Ladies, see none of them,—consult Dr. Jacoby, who will eradicate the nuisance and guarantee a beatiful head of hair. His motto is, *no cure, no pay.*

To those at a distance, the Champoo Washes Nos. 1 and 2, and Haar Wasche, are recommended.—There is, however, no universal specific, and all persons troubled, should if possible see Dr. Jacoby.

In the course of his scientific research, Dr. Jacoby has discovered a Hair Dye that does not stain the skin, will give any shade of color, and will stand exposure in all weather. The accompanying certificate, from a highly scientific source, must satisfy the most incredulous.

BOSTON, Nov. 18, 1851.

I have seen Mr. Moses Jacoby's Hair Dye, used in coloring hair of a deep brownish black, of a beautiful natural color, and can certify that it is perfectly efficient and permanent.

CHARLES T. JACKSON, M.D.,
Assayer to the State of Mass.

Dr. Jacoby's rooms are at No. 9 Franklin street, Boston, where he may be consulted at all hours.—There are always in attendance in both ladies' and gentlemen's rooms the most skilful hair dressers.

Boston, Dec. 16, 1852. M1aw3m

Marble Mantles, Monuments, &c.

THE subscriber being about to change the location of his Marble Establishment, it is desirable to dispose of as much of the finished work now on hand as possible, previous to the removal, and therefore invites purchasers to an examination of a variety of

MARBLE MANTLES, MONUMENTAL WORK, &c., of various qualities and patterns, which will be sold at prices lower than usual, and as low as the imitation. The mantles consist of Italian Statuary, and veined, Broccatello, Sienna, Egyptian, Mosaic, and other fancy Marble.

Freight Train each way daily. Office 17 Merchants' Row, Boston.

JOHN KINSMAN, Superintendent.

JACKSON & Co.'s BOSTON EXPRESS.

C. C. JACKSON and JOSEPH D. AKERMAN, having entered into copartnership for the purpose, give notice that they will continue, under the firm name of JACKSON & CO., the business formerly carried on by WALKER & JACKSON, and respectfully request the patronage of the public.

Leave Portsmouth daily at 7 and 10½ o'clock, A.M. and Boston at 5 o'clock, P.M.

We shall continue to run our Express Car for the transportation of small freight, which shall be delivered as cheap as can be done by any other conveyance.

Personal and prompt attention will be given to collecting Notes, Drafts and Bills, or paying the same.

California Drafts collected if desired.

Bills of Exchange on Ireland or England, from one pound up, procured at short notice.

Passages engaged from Liverpool to Boston or New York.

The purchase or sale of Railroad, Bank or other stocks attended to promptly.

Gold Dust forwarded to the Mint, and prompt returns made. C. C. JACKSON,
a2 JOSEPH D. AKERMAN.

CHENEY & CO.'S.

Concord & Portsmo. Express.

THE Subscribers having an exclusive contract with the Directors of the Portsmouth & Concord Railroad, to run Cars with the Passenger trains daily, on said Road, for the transmission of MONEY, MERCHANDIZE, &c., respectfully give notice that they will forward all articles in their line of business, daily each way, (Sundays excepted.)

Packages forwarded daily from Epping, Raymond, Candia and Suncook, to Exeter, Haverhill, Lawrence and Boston, and intervening towns. Also from Greenland to any of the above named places.

Notes, Drafts and Bills collected and paid in any of the towns above named, and all business attended to personally and promptly.

Packages forwarded to all parts of New Hampshire, Vermont and the Canadas.

The Express Train will leave Portsmouth every Tuesday for Montreal and Stanstead, and return on Saturday of each week.

N. B.—The subscribers are alone responsible for the injury or loss of any article or property of any description entrusted to their care, nor is any risk assumed by the Railroad Company mentioned.

Office in Portsmouth, at Jackson & Co's Express Office, corner of Fleet and Congress streets.

☞ Merchandize and packages designed to go by this express, should be marked "*Cheney & Co.'s Express.*" NATHANIEL WHITE, Concord, N. H.

B. F. CHENEY,
n16 Railroad Exchange, Court sqr, Boston.

DAILY CHRONICLE—$4 per annum, payable half-yearly; or $3 strictly in advance. If payment is made for a year, within six months of the time of subscribing, fifty cents will be deducted.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

BOOK, JOB AND CARD PRINTING

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

FUGUE SINGING.

In a new work entitled "The Rector of St. Bardolph's," is the following graphic description of the mode of singing a hymn "in fugue," as practised at St. Bardolph's:

"When you heard the brass rings rattle over the iron rod to which the red curtain was attached, shutting up the choristers in the seclusion of their perched-up loft, then you might know that some grand exploits of vocalism were to come off. The sexton, who had been despatched in good season to the 'sacristy,' to obtain from the Rector the number of the psalm and hymn, having returned with a small slip of paper on which they were indicated in pencil, a great whispering and consultation having taken place, which resulted in the selection of tunes, Mr. Tubingen placed the music book on the rack, and the bellows of the little-big organ were put in play. Never was a more brilliant sparkle and scintillation elicited from the windy bellows of a blacksmith's forge. The head and shoulders of the organist swayed up and down like those of a Chinese eater of the narcotic drug, in the accompaniment of an improvisation upon the keys, which made the whole congregation involuntarily twist their necks and look aloft, and at last, with a full choral blast from tenor, bass and treble, the magical effect was complete.

There were, no doubt, many present who came expressly to 'hear the music,' and the knowledge of this fact inspired the artists with a desire to do themselves justice. It is true some of the old people did not like the concatenation of sounds. These, however, were considered behind the age, and the opinion of such as worthy of small respect in the onward 'march of improvement.' They were swept away in their slender opposition by the force of public opinion, if not by a whirlwind of sound. At any rate, Death was fast removing them, one by one, while their deaf ears were becoming sealed to such annoyance. It was to the great surprise of the Rector that the choir one day struck upon the *Te Deum*, which he had been hitherto accustomed to read and through various turns, and windings, and repetitions, they discoursed upon it for full half an hour. It was, however, the last time that they so distinguished themselves before the musical world.

There was no piece of cathedral composition which the choir at St. Bardolph's did not consider themselves competent to perform, and had they been allowed their own way, would have sung the sermon, and made more out of the *Amen* than any other part. Mr. Hivox had indeed composed something original out of the theme of an *Awmen*, full fifteen minutes long, and we are sure that when it was finished no hearer of sound judgment but would have instinctively ejaculated with his whole heart, *Awmen!* But the triumph of all the voices was in some of the *fugue* tunes in which they emulated to interrupt and outstrip each other, as in the one hundred and thirty-third psalm:

'True love is like that precious oil
Which, poured on Aaron's head,
Ran down his beard, and o'er his robes
Its costly moisture shed.'

In the prodigious effort of this performance, the ear-splitting combination of the several voices hardly bore a resemblance to that oily current poured on Aaron's head, and which

'Ran down his beard and o'er his head ——
Ran down his beard ——
—— —— his robes
And o'er his robes ——
Ran down his beard —— ran down his
—— —— o'er his robes ——
His robes, his robes, ran down his beard
Ran down his —— o'er his robes
Ran down his beard
h-i-s b-e-ard
Its costly moist ——
Ran down his beard ——
—— ure—beard—his—beard—his—shed
ran down his beard—his—down
his robe—its costly moist—his beard
ure shed—his—coat—his robes—his robes—ure shed
I-t-s c-o-s-t-l-i-e mois-ture ——shed!'

It was of this very composition, similarly performed, that the late Bishop Seabury on one of his visitations was asked his opinion, and his reply was that he had paid no attention to the music; but that his sympathies were so much excited for poor Aaron that he was afraid that he would not have a hair left!"

A GOOD STORY.

A lady who was actively engaged in the circulation of the Holy Scriptures and religious Tracts, went on one occasion to the quay at Plymouth and requested permission to go on board a man-of-war, in which were about eight hundred men, and many dissipated females. The Captain said:

"Madam, it will be of no avail; you will only meet with abuse."

She answered, "With your leave, I'll go."

"Certainly, madam;" and she went. Some thing occurred during the time to irritate the Captain, who swore a most dreadful oath. The lady said:

"Sir, as you have granted me one favor, I hope you will confer another."

"Certainly, madam."

It is then that you will please keep from swearing while I am on your ship. This he complied with. After the lady had gone round the ship and given away some Tracts, (and to the honor of the British sailors be it said, they treated her with the greatest respect,) she returned to the Captain, who was standing at the entrance of the vessel, and thanked him kindly, saying:

"I've yet one more favor to ask of you. I hope you will comply with it."

"Certainly, madam."

"It is this," said she, presenting him the New Testament, "I desire you will read it through twice."

"I will, madam," he replied, "for my word's sake."

Some years afterwards, when on a visit to a place about two miles from Plymouth, on the Lord's day, she went to church when she heard an excellent sermon. As she was returning through the church yard a gentleman accosted her and said:

"Do you remember, madam, giving a Captain a new Testament while distributing some tracts on board a man-of-war, and desiring him to read it through twice?"

"Yes sir."

"I am the man to whom you gave it, and have been preaching to you to-day. Through your instrumentality, God has brought me to love that book which I once despised."

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured several weeks earlier*, he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent*, than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——

"R. H. EDDY, Esq., Boston, MASS.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1852. eodly

HOUSE AND LIFE PROTECTORS

AGAINST FIRE AND LIGHTNING.

PATENT METALLIC

LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

DAILY
Morning Chronicle.

PORTSMOUTH:
TUESDAY, FEBRUARY 15, 1853.

A GRAND RAILROAD PROJECT.

The citizens of Belfast, Me., have held a public meeting to forward the plan of a railroad from that place to Mooschead Lake, 80 miles, at a presumed cost of $2,000,000. Col. Rowland Carlton presided, and A. G. Jewett presented a series of resolutions, which state that the road to this lake will open a channel of communication to the heart of the forest of Maine, surrounding, as it does, said lake, and lying upon the head waters of the Kennebec, Penobscot, Chaudiere and St. John rivers, and will immediately increase the value of lands belonging to Massachusetts and Maine, to public institutions, corporations, companies and individuals.

They further state that the slate quarries, inexhaustible as they are, along the line of said road, and yielding slate of a quality superior to any imported into this country, would become more valuable to the State and to individuals, than are the coal mines of Pennsylvania to the citizens of that State, by the construction of this road, because no other mines are yet known in this country, to rival them in a market limited scarcely by the boundaries of the United States.

And lastly they state, that Maine is the largest ship-building State in the Union, and that by constructing this road from Belfast bay, open to commerce throughout the year, they can greatly benefit the ship building interest, and of course all other business throughout the State.

It was resolved to ask the State for a due proportion of the public lands, and recommended that the city should lend its aid to the project to the extent of $250,000, and committees were appointed to carry out the designs of the meeting.

LIQUOR LAW MOVEMENTS.

In Vermont, returns from 138 towns of the vote upon the question of accepting the new liquor law, stand—yeas, 13,529; nays 10,783; majority, 2746.

In Maine, a great State Temperance Convention was holden at Augusta on Tuesday evening and Wednesday of last week. Neal Dow was among the speakers: and among the resolutions were the following:

Resolved, That in the Maine Law, if faithfully executed, we have those things:—We shut up grog shops; we abolish all liquor debts; we stop off private gain from a public vice; we guard the young and weak from temptation; we put the sale of spirits into responsible hands for lawful purposes, and devote its profits to the relief of public burdens; and for all these reasons it has our hearty support and our honest vote.

Resolved, That we deny that the movement by which this law has been carried and sustained is a fanatical movement, or belongs to a party. Our party is the people of the state; and our law is the embodiment of the state's common sense, forced upon us by the experience of twenty years.

Resolved, That in the name of God and humanity, the bands be forbidden between rum and religion of whatever sect, and rum and politics of whatever party; that an union holy and indissoluable, of affection as well as of interest, be proclaimed between temperance, religion and poltiics of every party and every sect.

Thirty-Second Congress—Second Session.

WASHINGTON, Feb. 12.

SENATE.—Mr. Hale, of New Hampshire, presented a petition from Portage, Ohio, praying that steps be taken to induce foreign governments to extend civil and religious liberty to their people.

Mr. Davis reported back the bill he introduced last week proposing reciprocal fishing rights and privileges between American and British fishermen in waters of both countries. It was taken up, when Mr. Davis urged its passage now, stating that difficulties might hereafter occur of a serious nature.

Mr. Mallory of Florida said this bill would have an effect to introduce into important fisheries of Southern waters a class of people that he had no desire to see introduced. He hoped that it might lay over till Monday, that he might have time to prepare an amendment. The bill was postponed.

HOUSE.—The Senate bill for relief of Col. Fremont, appropriating $19,500 to pay certain legal costs in England, was taken up, debated, and being amended so as to provide for ultimate return of money from Fremont's estates, was passed.

THE YELLOW FEVER AT RIO JANEIRO.—*Pensacola, Feb. 10.*—The frigate Saranac arrhere to-day, and the Norwegian brig Tordenskiold yesterday, both with dates from Rio Janeiro to the 9th of January, and their accounts of the ravages of the yellow fever are truly alarming. Lieut. Harwood of the Saranac, and seven of the crew, had died whilst in that port, and the captain, mate, and two of the crew of the Norwegian brig, died of the same disease at sea, and within ten days sail of their destination. Strange to say, the city of Rio Janeiro was healthy, but the mortality on shipboard was frightful. Business was dull, and coffee came to market very sparingly.

The property of James B. Clay, Esq., son of the late Henry Clay, six miles north of St. Louis, was sold on the 26th ult., at private sale, to Archbishop Kenrick, for $50,000.—There are 320 acres in the tract. It is to be used in part as a Catholic Cemetery.

CONSUMPTION OF SPIRITS IN ENGLAND.—The following statement is published in English papers on the authority of Parliamentary documents, showing an increase of consumption of spirituous liquors within the last ten years:

In 1841 the total population of Great Britain and Ireland—to wit, 26,852,578 persons—consumed 24,172,697 gallons of spirits, or 9-10 of a gallon each; in 1850, the same people, increased to 27,435,322 persons, consumed 28,654,107 gallons of spirits, 104 gallons each, being 14-100, or rather less than the seventh part of a gallon of spirituous liquors more consumed on the average by every man, woman and child in the United Kingdom in 1850 than in 1841.

If increased consumption here means increased drinking, then the increase is large. But if, as we suppose, it means to include spirits used for burning, and for mechanical and medical purposes, it is a small increase, and betokens no increase of drinking whatever.

PUTNAM'S MONTHLY.—Mr. Shores has furnished us with the February number—which is better even than the first. We have no periodical we prize above this.

☞ Fowlers & Wells' Magazines for February—"The Phrenological Magazine," and "The Water Cure Journal"—are received, filled with interesting and instructive, amusing and improving matter, in good variety.—J. P. Morse is agent. $1 a year each.

PIERCE'S CABINET.—The following persons are named by the Washington correspondent of the New York Herald as those who are to form Gen. Pierce's Cabinet:

Caleb Cushing, Mass., Sec. of State;
A. C. Flagg, N. Y., Sec. of the Treasury;
R. F. Stockton, N. J., Sec of the Navy;
Jefferson Davis, Miss., Sec. of War;
James C. Dobbin, N. C., Sec. of the Int.;
R. M'Clelland, of Mich., Postmaster Gen.;
James Campbell, of Penn., Attorney Gen.

Whether this list is correct or not we shall know in about three weeks.

Information is wanted of Bennett Hampson, formerly of Horwich, near Bolton, Lancashire, England, and who was employed at the Hamilton Print Works, Lowell, in the summer of 1849. Any person knowing where he now resides, if alive, will confer a favor on his anxious friends by addressing a few lines to the Lowell Courier office.

NEW PANTALOON STUFFS.—Our fashionable tailors, says the Boston Transcript, must be on the lookout for the new fashions introduced in Paris under the reign of Emperor Napoleon. Ornamental cassimeres have been made with stripes in different colors, running round the leg below the knee, and plain above. Only think of a fashionable young man going to the opera in a pair of cork screws!

Gen. Pierce will arrive in the city to-day, and remain till Tuesday, when he proceeds to to Washington direct. Six likely negroes have volunteered with clubs to keep off the New York office-seekers, who are already swarming like unhived bees at the Tremont.—*Boston Mail of Saturday.*

GEN. PIERCE'S INAUGURATION SUIT.—The Concord (N. H.) correspondent of the New York Herald gives the following description of Gen. Pierce's inauguration outfit, now being made up in Boston:—

Some of Gen. Pierce's liberal personal friends in New England seem determined that he shall go to the White House handsomely equipped, albeit he is as modest and unpretending in his habits of living as the average of "mankind in general." The Bostonians appear to be vieing with each other in this matter. The newspapers have already announced that some friends in that city will present him with an elegant coach and span of horses on the 21st inst. I learn that others are now preparing to donate an elegant suit of clothes, to be completed on Thursday of the present week. A friend who has obtained a peep at the *programme des integumens* has furnished me with a description, which I shall transcribe for the Herald and the edification of the "ton" in New York and Paris. The suit consists of six garments, as follows:—

1. A fine black dress coat, made from the same cloth which took the premium at the last world's Fair in London. Coat superbly lined with satin dechené; sleeve linings also of satin. Style about a medium between the gravity of age and the foppery of 'upper tendom.'

2. Undress waistcoat of plain black silk; back of satin dechene, and lined throughout with white satin.

3. Full dress vest of plain white silk; back and linings of white satin. On the satin lining of the right side are thirty-one stars, representing the States of the Union, forming a circle, wrought in silver. Within this circle of stars is the Anchor of Hope, worked in gold. Outside of all is an endless circle, at the top of which is the All Seeing Eye, wrought and radiated with gold. Translation of these emblems: 'In the Union of the States is our only hope. God watches over the republic—eternal be its duration!' On the opposite white satin lining is wrought a chaplet of bay leaves, tied at the bottom with a golden knot, outside of which is another circle of gold.—within the chaplet, fancifully wrought in gold, are the words 'God and Liberty.'

4. Pants of plain black doeskin, of the finest material that can be procured.

5. Undress pants of a plain black, very fine, silk and wool mixture.

6. Overcoat of plain black, superbly lined, and made in the form of a surtout.

This suit is being manufactured by Mr. E. ARMINGTON, Washington Street, Boston, a gentleman who is to the tailoring art what Greenough was among sculptors. It is intended that the suit shall be the finest specimen ever manufactured in America.

Mr. Armington is one of the very *best* tailors in the country.

LOCAL.

☞ Mr. Moses' Juvenile Concert, this evening, at the Cameneum, will fill up the vacancy left by the postponement of the lyceum lecture, very agreeably. His talent and industry exerted in teaching music, always speak for themselves in the performance of his juvenile classes.

☞ The hearts of our stable keepers have been made glad by the snow storm of Sunday. About 10 inches of snow fell, and after being broken down a little will make excellent sleighing.

LATEST FROM CALIFORNIA.

Two steamers arrived at New York on Sunday, viz. the Northern Light from San Juan del Norte, with 160 passengers, having connected at San Juan with the steamer Independence, which left San Francisco on the 15th, and the Uncle Sam from Aspinwall, Feb. 23, with 350 passengers and $450,00 in specie.

The Uncle Sam left Kingston on the 7th.

Business at San Francisco for the fortnight had been tolerably fair. Flour was less firm and selling at $32 a 32 50. No. 3 Corn meal $9 50. Coffee, Rio, 15 a 16c.; Java 12 1-2 a 13c. Butter 31 a 44c. Hams 21c. Keg Lard 21c. Prime Pork 25c.; mess 31c.; clear 35c. Rice was unchanged. Sugars were better. Stock of Liquors were large with a small demand; prices were unchanged. There is a speculative movement in Provisions, and large sales have been made on private terms.

The Legislature was in session at Valejo.

J. B. Wall of Monterey was chosen Speaker of the House. Governor Bigler's Message was read in the Senate on the 5th January. Among the suggestions, he recommends an extension of the water-front of San Francisco, by encroachments on the harbor, and a memorial to Congress to abolish the land commission.

A bill has been brought before the California Legislature, having for its object the prevention of monopolies in provisions, and the punishment of all combinations for raising the prices of articles of food; the penalties are very severe—imprisonment from one to five years and fines of from $1000 to $50,000.

A proposition is on foot to run a steamer to the head of navigation of the Colorado river, within 400 miles of Salt Lake city, and to which point the Mormons will undertake to build a railroad from their capital.

Madame Biscaccianti gave her farewell concert on the 10th, preparatory to her departure for South America.

The steamer Ohio, from Aspinwall, with the treasure and mails, arrived at Kingston on the 7th, as the Uncle Sam was leaving. The Ohio has on board nearly $1,750,000 in specie.

The steamship Cortes, which arrived at San Francisco on the 5th, lost 27 passengers on the trip from Panama. Amongst them were L. Woodbridge, of Dartmouth, Mass.; R. Waterman, D. Grover, and R. Walker, all of Maine.

The steamer S. S. Lewis from San Juan, arrived at San Francisco on the 3d, having lost eleven passengers.

The steamer Panama also arrived at San Francisco on the 11th, and the steamer California on the 16th. The former lost 8, and the latter 7 passengers by death.

The steamship New Orleans was to leave San Francisco on the 16th for San Juan and Panama.

It was rumored that a boat containing 13 passengers by the Golden Gate was upset in Chagres River, and all but one drowned.—Among them were 3 women 2 children.

Eighty men arrived at Shasta on the 3d of January from Eureka, thirty of whom were more or less frozen. It is reported that snow is four or five feet deep at Trinity. The whole of that region of country was suffering from want. There had been no flour at Eureka for 40 days. So great has been the scarcity of provisions in the mining districts, that flour has been sold for $1 50 per pound.

Dates from Oregon are to the 3d of January. The weather was very severe, and large quantities of snow had fallen. Many overland emigrants were arriving in a very destitute condition. Snow was reported to be ten feet deep on the Calapooya mountains.

The citizens of Northern Oregon had met in convention and adopted a memorial to Congress for the creation of a new territory North of the Columbia river, to be called the Columbian territory.

CUBA AS IT IS.—Col. Fuller, editor of the New York Mirror, writing from Havana, Jan. 30 says:

This is Sunday in the Christian world, but there are few signs of the day being devoted to rest or religion here. The shops are open as usual; the cafes are crowded; the fruit-venders are in all the streets; The Tacon Theatre presents extra attractions; and a great bull fight is announced for the afternoon. Are a people who thus disregard the most gracious institution of the Sabbath, one-half of whom are slaves, and two-thirds of the other half unable to read and write, fit to be annexed to the United States, and incorporated into a republic of freemen? Is any Catholic country on earth capable of self-government? There are questions to be asked; and, by all candid persons, to be answered in the negative. I have not one word to say in defence of the Spanish government of Cuba. It is repressive and oppressive beyond endurance to the better portion of the inhabitants. But they are a mixed and incongruous people—presenting difficulties to the political economist without a precedent in history. The Creoles, men of intelligence and education, who have seen better things abroad, are enthusiastic republicans, almost without exception; while the Spaniards are fanatically loyal, maintaining the same sort of blind devotion for the decrees of Spain that an ignorant Catholic cherishes for the church of Rome.

William R. Snow, formerly landlord of the North Adams House, has received the appointment of Steward at the White House, from Gen. Pierce. The salary is $1000 per annum besides the living of the family.

Mr. Charles Jones, a half-way minister and exhorter in general, was sentenced to the State Prison for four years, at Hartford, on Wednesday morning, for robbing the store of John Dean, in that city, some weeks since. Among the stolen goods was a piece of silk, from which he had a ministerial robe made. Donning the garment, he went to a daguerreotype gallery, and had his likeness taken, with one hand and his fore finger pointing heavenward, as though his thoughts and inclinations were in that direction, instead of towards Wethersfield, whither he was tending.—*Post.*

THE STRIKE AT BALTIMORE.—*Baltimore, Feb. 12.*—The engineers and brakemen of the Baltimore and Ohio Railroad resumed their posts last night, and a large accumulation of freight trains which cumbered the streets for many miles in the vicinity of Camden Point station, are now rapidly disappearing. The workmen will go to work in the morning.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

LATEST FROM EUROPE.

By the arrival of the Niagara at New York on Sunday, we have Liverpool dates to Jan. 29. Cotton had advanced 1-8d per pound during the previous week. Breadstuffs are down. Wheat reduced 2d per bush; Flour 1s per bbl; Canadian Flour is quoted at 25s 9d; Baltimore and Philadelphia 27s 6d; Ohio 28s. Yellow mixed Corn 33a34s; white do 36; all closed dull. Beef is active; prime mess, new, 97s 6d a 110s. Pork sells at 1 a 2s advance—but little done. Lard dull at 65s. Tallow is declining and dull.

It is rumored that Wm. Francis Baring will soon succeed Mr. Gladstone as Chancellor of the Exchequer.

A great Peace Conference was held at Manchester, at which Messrs. Cobden, Bright and Sturges attended.

The weather in England and Ireland is favorable for agricultural purposes.

SARDINIA.—The Sardinian government has adopted a law to suppress slave trading by the Sardinians.

ADDITIONAL FOREIGN NEWS.—*N. Y., Feb. 14.*—RUSSIA.—Advices from St. Petersburg say that the Russians are fitting out an expedition for Japan, to consist of the Pallas frigate, and a screw steamer, and a transport, ostensibly for scientific purposes, but in reality to watch the American expedition.

ENGLAND.—It is rumored in England that dissentions had broken out in the Cabinet, and that Mr. Gladstone was about to be succeeded by Sir Francis Baring.

FRANCE.—It is reported in Paris that a further reduction of the army, and also an extensive amnesty, will be made immediately after the imperial marriage. Ministerial changes in France are again spoken of with renewed confidence. It is said that not one of the Ministers who opposed the marriage will remain in office.

A HUMAN ARM AND HAND PICKED UP! An Irish woman found in Summer st. Boston, near Trinity Church, on Saturday afternoon, about 5 o'clock, a human arm and hand, covered with a linen cloth and newspaper. Not opening the package, (she says) she threw it into a bundle of old rags, which were disposed of to a junk dealer in Broad street, who made the discovery of the contents.

Since the above was written, the arm has been identified as one which was skilfully amputated a few days since, from the person of a mechanic, by one of our most experienced surgeons, who resides in Chauncey Place, the mechanic having been so unfortunate as to seriously injure the limb. After amputation, the arm was done up in some waste cotton and placed in a rear room at the residence of the surgeon, from whence the woman who sold it for old rags, is supposed to have stolen it.

VARIOUS MATTERS.—*Washington, Feb. 14.*—Gen. Blake has returned to Florida. It is understood that he anticipates no serious difficulty with the Indians.

General Pierce has rented a pew in Rev. J. C. Smith's new school Presbyterian church, which he attended when Senator.

Wednesday, the 2d inst., was "Candlemas Day." The Philadelphia papers mention that in that city it rained much, accompanied with thunder and lightning in the evening.—This phenomenon argues well for the farmers, as the old rhyme says—

If Candlemas day be fair and clear,
All kinds of grain will be very dear;
If Candlemas day bring storm and rain,
There'll be a great plenty of all sorts of grain.

DEATHS IN CALIFORNIA.—Joseph Smart, (drowned,) of New Hampshire; W. F. Weir, (killed by an avalanche of snow near poker flat); Nathan Kimball, of Roxbury, Mass.; Elizabeth F. Williams, of Hampton, New Hampshire; William Pearce, of Mass.; Jeremiah F. Yersley, Lubec, Me.; Robert O. Rose, Rhode Island; N. K. Rendall, Mass.; E. J. Potter, Mass.

Mr. Lowel Mason, the eminent American musical professor, is now delivering several courses of lectures in London, on Psalmody, and the manner of teaching the elements of vocal music. He is announced for a course of eight lectures, at the first of which the Lord Mayor of London is expected to preside: and will probably return to this country in the course of the month of April.

DAMAGES.—Joseph Damont has received a verdict of $7000 damages, at New Orleans, against the New Orleans and Carrolton Railroad Co. for injuries caused to his daughter, Maria Camilla, by an accident on the railroad in October, 1851. The unfortunate young woman was obliged to submit to the amputation of her left leg and three of the toes of her right foot.

At Cincinnati, Mr. Randall obtained a verdict of $1500 for damages sustained by himself and wife occasioned by his horse taking fright by coming in contact with the wires of the New Orleans Telegraph Co.

GIRL MISSING.—A girl named Hannah Cochran, 16 years of age, of respectable connections, and who has been residing in the family of Marcellus Carpenter, 75 Green street, Charlestown, for the last nine months, has been missing since Saturday evening. She left the Catholic church not long since, and joined the Free Will Baptist church. On Monday last she was induced to visit the priest's house, when, according to her statement, an effort was made to induce her to return to the faith she had renounced, but in vain. She says she was not allowed to leave the house of the priest until a promise was made that she would call again on the next Monday. The records at the police office say that "this probably has something to do with her disappearance."—*Boston Post.*

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair,
CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its unrivalled—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*

f5 H. A. BIGELOW.

BE OFF WITH YOU NOW.

BY CHARLES SWAIN.

Be off with you now—don't I know
That it's only cajoling you are;
With "cheeks like the rose's soft glow,
And glances more bright than the star!"
'Tis true that my waist is but small,
And my ringlets may cut like the vine;
But I'm not like an angel at all!
Nor am I the least bit divine!

So be off with you now—don't I see
You're deluding from eve until dawn!
My step may be bounding and free,
But I'm not in the least like a fawn!
But 'twas ever the method we know,
Since Adam in Eden began—
That bosoms were sure to be snow,
And necks were, of course, like the swan!

Come be off with you now till you learn
To woo like a plain-hearted youth.
Let your mind, if you love me, discern,
To win, you must woo me with truth!
I would rather—instead of these flowers,
In which you are ever so rife—
That you promised to love me all hours,
As long as each other had life!

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at CHAPMAN'S TIN WARE FACTORY.

In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by far the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.

Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 394,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles. These are the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Mantle Thermometers

VOLUME 2. PORTSMOUTH, N. H., WEDNESDAY, FEBRUARY 16, 1853. NUMBER 14.

Office, No. 4 Exchange Bldgs., Pleasant St.

DAILY CHRONICLE—$4 per annum, payable half-yearly; or $3 strictly in advance. If payment is made for a year, within six months of the time of subscribing, fifty cents will be deducted.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

BOOK, JOB AND CARD PRINTING

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

MAGAZINE LITERATURE.

Under caption of "Periodical Literature," the Boston Chronicle of Saturday last gives an interesting *critique* on three of the chief of our American monthlies. The editor of the Chronicle is a man of letters, and we think a portion of his remarks will interest all our readers who take any interest in the Magazines named.

He commences with "HARPER'S NEW MONTHLY MAGAZINE," of which he says:

"At first it was all that could be wished, and it met with the success it merited. But, alas! it has degenerated to such a degree that it is now scarcely worthy of a place upon the table of any one who values his time, and is not worth more money than so much waste paper may be purchased for. It, long ago, by the occupation of its pages with reprints of European articles, ceased to be an American work; and so far as its originality had anything of a national character, it soon became but an advertising sheet—pictures and all—for works about to be published and sold in another shape."

Our reviewer next "lights on" the KNICKERBOCKER MAGAZINE: after acknowledging considerable merit in which, and its success, he remarks:

"But the editor is infected with a desire to render himself noted, if not famous, and has adopted a silly fashion of writing what more properly belongs to the 'Spirit of the Times,' and similar sporting works that is not creditable to a man of literature. He affects to speak familiarly to his readers, and talks gossipingly of his wines, and his stables, as if he was not only a born sportsman, but a man of fashion, and with wealth enough to give the ton to his more modest countrymen. If he is all this, his condescension in working for us uninitiated common people is, we fear, repaid, like many other favors, with base ingratitude."

Further:—

"The editor of Harper's Magazine is a poor imitator in a certain sense, of the poor original of the Knickerbocker, and the 'editor's table' in each work is furnished with so large a proportion of dish-water, to so small a quantity of nutritive matter, that the hungry person who attempts to satisfy his appetite at either, is sure to come away famished at the end of each meal. But the Knickerbocker editor gives us rather a better feast than his brother, for if he steals and cooks over more old jokes, and serves up more flippancy, he does not disgust us with so much heavy nonsense; if he tries to appear, now and then, a bit of a fop and a little of a libertine, he does it good naturedly. And all this while, the dull fellow employed by the Harpers, pretends to piety which nobody can believe that he feels, constantly pushes over to us a dish of some *ism* that turns the stomach of a healthful disposition, and cants of morality in a strain that is as nauseous as a speech from Mr. Butler of Lowell—as unpalatable as a sermon in favor of the Maine liquor law."

From this rather severe, though we think, too true, critique on these two public favorites, the Chronicle turns to "PUTNAM'S MONTHLY," of which he speaks much more favorably, as well he may:

"The two numbers which have been issued are creditable to the periodical literature of the day, and we like them the better, that the names of the writers are not appended to their articles, nor indicated in the table of contents. We wish that the work "*Eminent*" had been left out of the publisher's advertisement. If the writers write well, and the pages of the magazine are filled with good original articles, the public will be satisfied, and the magazine itself will, by this means, become eminent. But the fact that an article is written by an *eminent author* is no addition to its worth; and if it is worthless, it seems the more so from the distinction given to it by the lofty character of the writer."

"In the two numbers before us there is variety; and as we have read every article in them, we can pronounce a verdict in favor of the talent displayed. It is praise sufficient to say, that there is nothing either puppyish or pedantic in them. For a magazine, the work is much better than any other we have, and without aspiring to the ponderosity of a review, it offers many of the advantages of that class of periodicals. The article on "Uncle Tom's Cabin," in the first or January number, is more discriminating and just than any we have seen on that now threadbare subject; and the notices of new publications, so far as we are able to judge from a knowledge of several of the works spoken of, are correct and candid."

The Chronicle finds fault with the too frequent apology for short comings, and the too frequent promise of something that is to come hereafter, particularly noticeable in the February number. Publishers, and editors too, ought to know, that ninety-nine times in a hundred their readers will not find out, or will pass over without regarding them, faults and blemishes, or omissions and errors, if not told of their existence; and that promises, if not made, cannot be broken. We like to think, too, that the work is as perfect as, under the circumstances under which it is presented to us, it has been possible to make it, and all the world likes better to discern improvement from day to day without expecting it, than to be disappointed after having been told to look for it."

We have given thus much space to the above subject, both as a matter of general interest, and to invite an examination and comparison of the different Magazines named, which we doubt not, will result favorably for Putnam's. At all events, we recommend the last-mentioned publication to all who have not seen it. To those who have, it recommends itself.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured several weeks earlier,* he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and, there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1852. eodly

HOUSE AND LIFE PROTECTORS

AGAINST FIRE AND LIGHTNING.

PATENT METALLIC

LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

DAILY
Morning Chronicle.

PORTSMOUTH:
WEDNESDAY, FEBRUARY 16, 1853.

PERSECUTION—BURNING RELICS.

Mr. M'Gee, in his Reformation on Ireland, is quite severe on Henry VIII. of England; though no more so than Goldsmith, the English Historian, who speaks of him in his latter days, as being "more furious than a chained lion. He had been *stern* and severe; he was now outrageous. In this state, he continued near four years before his death, the terror of all, and the tormentor of himself." The same author says:

"Some kings have been tyrants from contradiction and revolt; some from being misled by favorites; some from a spirit of party; but Henry was cruel from a depraved disposition alone; cruel in government, cruel in religion, and cruel in his family. Our divines have taken some pains to vindicate the character of this prince, as if his conduct and our reformation had any connection with each other. There is nothing so absurd as to defend the one by the other; the most noble designs are brought about by the most vicious instruments; for we see even t at cruelty and injustice were thought necessary to be employed in our holy redemption."

M'Gee complains of Henry, not only because he was guilty of double dealing, perfidy and cruelty, but also and especially because he or rather his representatives and agents, burnt and destroyed holy relics and pictures. We think the burning of these things "a great mistake" of Henry's,—a very foolish act,—and criminal also, inasmuch as he destroyed what did not belong belong to him, except by some divine (?) right as a king. By destroying these harmless and useless matters which the Irish Catholics held sacred, he seems to have exasperated them more than by acts of confiscation, or even by destruction of life.

Our readers will be interested in a perusal of M'Gee's account of Henry's sacrilege in destroying the Baculus Jesus, or Staff of Jesus, in the year 1538.

The burning of the "Baculus Jesus," this year, was a wanton and fruitless sacrilege. It was a relic which had been held in universal veneration from the earliest Christian times. Every Life of St. Patrick agrees in the tradition, that on his journey to Rome, it was given him by a hermit of the Tyrrhene Sea, as a staff which our blessed Redeemer himself had carried. Our earliest records notice it as existing at Armagh: that it was used to swear by, and to quell social war. Mailsheachlan, coming into the tent of the monarch, Thurlough O'Brien, A. D. 1080, bearing this staff, induced him to turn back from an invasion of Leinster; in 1143, peace between Connaught and Ulster was ratified by an oath taken on this staff; in 1184, it was translated to Dublin, probably by Philip de Worcester; and so late as 1529, we find oaths taken "upon the holie Massebooke and the great relike of Erlonde, called Bachlum Christi, in presence of the king's deputie, chancellor, tresoror, and justice." The public destruction of this venerable relic was sure to be bruited abroad over thr kingdom, and equally, to produce indignation and opposition. The politicians interposed to prevent the repetition of such indiscretions. In another letter, Browne writes that he has contradicted a rumor that he "intended to pluck down our Lady of Trim and other idols," although he adds, his heart well enough inclined him thereto.

We think that in this sacred "Staff of Jesus," we see the origin of the Irish sprigs of Shillaleh, which the Emerald Islander carries with him wherever he goes, and with which he cracks the crowns of friends as well as foes.

The reformers, as Mr. M'Gee calls them, were not satisfied with destroying the staff merely.

Armed men attended them from church to church, hewing down the crucifix with their swords, defiling the sacred vessels, and defacing the monuments of the dead. "There was not," says the contemporary annalist, "a holy cross, nor an image of Mary, nor other celebrated image of Ireland," within the reach of the reformers, or near their fortresses, "that they did not burn." The celebrated image at Trim, so long respited, "which used to heal the blind, the deaf, the lame, and every disease in like manner,"—to which women in labor offered gifts, and all Ireland rendered respect,—was "burned" with the rest. "The image of Christ crucified, in the Abbey of Ballybogan," also suffered. Pilgrims were forbidden free passages through English districts and towns, and the favored shrines of the faithful were all swept into the treasury of Dublin. The commissioners declared that Henry's warrant directed them to "break in pieces, deform, and bear away the same, so that no fooleries of this kind might henceforth forever be in use in the said land."

The Annals of Ulster, speaking of these same subjects, say,

"A. D. 1587. A heresy and a new error broke out in England, the effects of pride, vainglory, avarice, sensual desire, and the prevalence of a variety of scientific and philosophical speculations, so that the people of England went into opposition to the pope and to Rome. At the same time they followed a variety of opinions, and the old law of Moses, after the manner of the Jewish people, and they gave the title of Head of the Church of God to the king. There were enacted by the king and council new laws and statutes after their own will. They ruined the orders who were permitted to hold worldly possessions, viz., monks, canons, nuns, and brethren of the Cross; and the four mendicant orders, viz., the Minors, the Preachers, Carmelites, and Augustinians. The possessions and living of all these were taken up for the king. They broke the monasteries. They sold their roofs and bells, so that there was not a monastery from Arann of the Saints to the Iccian Sea, that was not broken and shattered, except only a few in Ireland, which escaped the notice and attention of the English. They further burned and broke the famous images, shrines, and relics of Ireland and England.—After that they burned in like manner the celebrated image of Mary which was at Ath-Truim, ... and the staff of Jesus, which was in Dublin, performing miracles from the time of Patrick down to that time, and which was in the hand of Christ while he was among men."

The superstitions of a devout and ignorant people were shocked—and their own aristocracy and priesthood led, and fostered, and kept alive the animosity and hate which such acts inspired. They suffered sad evils and indignities at the hands of the first Protestants they ever knew! Is it a wonder that their descendants hate the very name of Protestant? Would it not, on the other hand, be a wonder, if they were not jealous of every suspected encroachment? of every attempt, even the kindest, to wean them from ignorance and superstition, and bigotry?"

THE PROSELYTE NOT LOST.

We published on Tuesday a paragraph from the Boston Post, about a girl named Honora Cochran, who was said to be missing from Charlestown, and whose concealment was said to have some connection with the fact that she had lately left the Catholic Church, and become a Freewill Baptist.

The Boston Courier of Tuesday is informed that Honora is not missing; but that she is safe and is residing at the house of a relative in Boston. The fact that she is about to renounce her new religion is the cause of the "excitement" which is said to prevail relative to her.

A city item in the Boston Daily Advertiser of Tuesday, says the excitement is about over, since it has become known that the girl has returned to her mother, and wishes to remain with her. A few over-zealous individuals exerted themselves to make a convert of the girl against her will, and have by their acts obliged her to go to her mother for protection, who alone has the right to direct and protect her daughter.

The Boston Chronicle of the same day, says she was concealed by professed friends, who objected to the religious influence by which she was surrounded in the family of Mr. Carpenter, he being a Baptist, and the girl, whose parents are Catholics, having recently become a Protestant. Much excitement exists in Charlestown in reference to the affair. To-day, an application will probably be made by Mr. Carter, of the firm of Fosdick & Carter, Charlestown, to be appointed her guardian.

There is no evidence in all this, that the girl acts freely. She might be influenced by her desire to please her employer, in her recent profession. She may be no less influenced by love or fear of her parents, in her future recantation. She may be, very probably she is, at her age, (sixteen,) both devotional and susceptible—but it is extremely doubtful whether she has a thorough knowledge of the dogmas of either of the two sects which are now contending about her, as earnestly as Michael the archangel disputed with the devil about the body of Moses—albeit we fear they are not doing it quite so politely.

The Boston Journal of Tuesday evening says, at the girl's own request, Mr. Carter of Charlestown has been appointed her guardian, and he informs us that the reports that she has been found are not true. He visited her mother this morning, and she declared she knew nothing about the girl. The case is naturally creating considerable feeling among the friends of the girl.

Thirty-Second Congress—Second Session.

WASHINGTON, Feb. 14.

SENATE.—The deficiency bill was taken up and considered.

Several amendments were discussed, one for paying light-house arrearages.

$25,000 was added for the pay of Senators for the session after the 4th of March.

Mr. Gwin moved an amendment giving $300,000 to California out of the civil fund collected there as duties on imports before her admission into the Union. Without taking the question the bill was postponed.

Mr. Cass's resolution reaffirming the Monroe doctrine, and applying it to Cuba, was taken up, and Mr. Douglass having the floor, proceeded to address the Senate at great length, after which the Senate adjourned.

HOUSE.—The daily hour of meeting was fixed at eleven o'clock, and the order for the evening meeting was rescinded.

A bill was reported to adjust the difficulties rising out of the sales by the general government of swamp lands heretofore granted to certain states.

The bill was laid on the table, 116 to 50. An ineffectual attempt was made to reconsider the subject, when, after passing two Senate private bills, the House adjourned.

☞ The strike among the machinists, founders, engineers, brakemen, &c., in the Middle States, is a formidable affair, embracing three or four thousand men.

YOUNG AMERICA.—Mr. M'Kay, ship builder of East Boston, is constructing a clipper ship of 4000 tons, called the Young America. She is to be commanded by his brother, Capt. M'Kay.

LOCAL.

Reported for the Chronicle.

Court of Common Pleas—Feb. Term.

EXETER—TUESDAY.

In the case of Gordon vs. Clifford et als, the Jury returned a verdict for the defendants.

In case No. 47—Palmer et als. vs. Smith—a question of law arising, the case was taken from the Jury. A case will be agreed upon by the counsel for the parties, and transferred to the Supreme Court.

No. 52.—John M. Neal vs. the Town of South New Market. This is an action brought to recover damages on account of an injury received by the plaintiff, occasioned by an alleged defect in the highway of the town of South New Market, at the junction of the Portsmouth & Concord and Boston & Maine Railroad, over which the plaintiff was driving, and was upset and received the injury complained of. The case was argued Tuesday afternoon, by Mr. Wells for the defendants.

Marston and French for Plaintiff; Stickney, Tuck and Wells for Defendants.

THE GRAND JURY have returned the following indictments:

State vs. Samuel E. Caswell—for breaking, entering and stealing from the house of Joseph Banks, in Nottingham. Arraigned—plead not guilty.

There are several indictments against the respondent, for like offences committed about the same time.

State vs. Charles H. Doe—for breaking, house of A. Branscomb, in New Market.

State vs. C. H. Doe—for breaking store of A. Branscomb.

State vs. C. H. Doe and Charles. B. French for breaking store of R. W. Tenney. French was arraigned—plead not guilty.

State vs. Elderry Bunker—receiving stolen goods from I. B. Tilton.

☞ A free Lecture on the structure and philosophy of the English Language and Elocution, will be given this evening at 7 o'clock in Rechabite Hall, No. 38 Market street. All who wish to commence or extend their acquaintance with those rules and principles that guide classes of gentlemen, when they speak or write, especially young persons who are engaged in the active duties of the day, are respectfully invited to hear the introductory to the Course.

☞ The Auction sales by E. O. Laughton, corner of State and Pleasant Streets, are discontinued. The store will be kept open until Friday the 18th, for all those who wish to purchase fine Linens and other desirable goods at fair average auction prices.

MORE POLITICAL MOVEMENTS.

TUCK AGAIN IN THE FIELD.—The last movement ordered in the marching and countermarching of the whig and free democratic parties, in district number one, is, Right Wheel into Line. We have already seen that Hon. Amos Tuck, the present representative from old district No. 1, was nominated as the candidate of both the above named parties; but not without some dissent in both, nor without some previous doubts of his own, whether he had better suffer his name to be used in the conventions or not. These doubts were removed by representations made to him that no other man could so well unite the votes of both the parties. After his nominations, he declined, as we have before stated—and the parties who had thus united were thrown into some confusion, which gave fair promise of resulting in Mr. Kittredge's election by a very large plurality and perhaps a large majority. Calls had been issued for new conventions, to be held on the 22d February.

But *presto, change!*—the Dover Enquirer of Tuesday contains a notice, that Mr. Tuck, on the exhortation of his friends, has recalled his declinature, and stands before the people distinctly as a candidate, and that the whig party, consequently, have withdrawn their call for a convention. The free democracy will doubtless do the same, and thus the contest will be between Hon. Mr. Kittredge and Hon. Mr. Tuck;—and there will be some animation about it on both sides.

SCHOOL MAPS.—The United States, New England, and the World, all on steel plates, and all finely executed, by J. H. Colton, are recommended for schools and academies, by the very highest authorities.

☞ The Reciprocal free trade and fishery bill seems to have frightened the Augusta Age, lest the lumber trade in Maine should suffer by a reduction in prices.

☞ Gen. Pierce is in Boston, and will set out for Washington via New York this evening.

LOLA MONTES.—At New Orleans, February 8th, Lola Montes was arrested on the affidavit of her servant girl, charging her with assault and battery. When she was brought into Court. Lola went into hysterics, and then fainted. After she was restored, she had to give bail for her appearance.

EGYPTIAN JUSTICE.—A courbash—a whip from the hide of the hippopotamus,—is the chief instrument for settling difficulties between contending parties. The head of the police in Alexandria—equivalent to our city Marshal—carries one of them mounted with silver, as an emblem of of his authority. A blow from it is comprehended by an Arab.

Temperance Meeting.

A PRELIMINARY MEETING of the friends of temperance will be held AT THE TEMPLE, *THIS (Wednesday) EVENING, Feb. 16th,* at 7 o'clock, for the purpose of considering and discussing the following Resolutions:

Resolved, That in the Maine Law, if faithfully executed, we have these things:—We shut up grog shops; we abolish all liquor debts; we stop private gain from a public vice; we guard the young and weak from temptation; we put the sale of spirits into responsible hands for lawful purposes, and devote its profits to the relief of public burdens; and for all these reasons it has our hearty support, and shall have our honest vote.

Resolved, That we deny that the movement by which this law has been carried and sustained is a fanatical movement, or belongs to a party. Our party is the people of the state; and our law is the embodiment of the state's common sense, forced upon us by the experience of twenty years.

Resolved, That in the name of God and humanity, the bans be forbidden between rum and religion of whatever sect, and rum and politics of whatever party; that an union holy and indissoluble, of affection as well as of interest, be proclaimed between temperance, religion and politics of every party and every sect.

Resolved, That while it is the constitutional duty of our legislators to enact such laws as will promote the moral interests of the people; it is also the bounden duty of every citizen not to vote for any person to fill the high office of a law-maker, who is not, in word and action, a thorough-going, whole-hearted friend of temperance.

☞ A general attendance is requested, by the Executive Committee of the F. W. T. A. Society. A. R. BRADBURY,
Portsmouth, Feb. 16, 1853. President.

VALUABLE PROPERTY FOR SALE
IN FRAMINGHAM, MASS.

THE house heretofore known as the FRAMINGHAM HOTEL, situated in Framingham Centre, Mass., having been put in complete and thorough repair throughout, is now offered for sale. The main house is 100 feet on the street, 60 feet of which has a piazza, and contains 30 rooms, including a large hall; has a large and dry cellar, Ice House, and the best of water. The whole premises have been occupied the past year as a private residence, during which time many improvements have been made in and about the house and grounds, the front yard having been enclosed, set with large trees, and grassed. The house is well calculated for a genteel Boarding House or Hotel, for which it is much wanted; and the Board of Education have decided to remove the State Normal School, now located at West Newton, to Framingham, the site for which is only a few minutes' walk from the premises, makes this property particularly desirable for this purpose, as it will secure, in connection with boarders from the city, a profitable business the year round.

It is also desirable as a private residence, having every convenience as such, and being situated in close proximity to the Common, several Churches, High School, (free,) and only a few minutes' walk from the depot. The size of the House, to any one having a large family, would not be objectionable, as the hall and other parts could be fitted up in a manner which would add much to the convenience and comfort of a residence in the country; or a part of it could be so used, and the remainder let, without inconvenience. To persons, therefore, in pursuit of property for either of the above purposes, or for investment, an opportunity offers rarely to be met with. Terms of sale will be liberal, and possession given at any time.

For further information, apply by letter or otherwise, to L. WIGHT, Framingham, or in Boston to J. R. PORTER & CO., 27 Water st.
Dec. 27. WSistf

Open Again.

JUST received on consignment a good assortment of BROADCLOTHS, Bf'k and Fancy DOESKINS, Satinets, Vestings, FURNISHING GOODS, such as Shirts, Collars, Bosoms, Neck Hdk'fs, Pocket Hdk'fs, Suspenders, &c.

Ready-made Clothing.

A good assortment of Sack Coats, Frock and Dress Coats, Pants and Vests of different styles and colors.
f15 JOHN J. MARSTON.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

DEFALCATION—FISHERY BILL.

Washington, Feb. 15.—The defalcation of the Postmaster of Mobile is confirmed. The deficiency is nearly $20,000.

Mr. Davis's bill to settle the fishery difficulty is not satisfactory to the South. Florida will not consent to throw open her fisheries to the world in order to benefit the New England fishermen, and therefore Mr. Mallory intends to introduce an amendment to Mr. Davis's bill, expressly disclaiming any intention to authorize foreigners to fish within the waters of any State, contrary to the laws of such State.

In the Senate, on Monday, Mr. Douglass made a speech on the Monroe doctrine, and on Tuesday the deficiency bill and the fisheries were considered.

Mr. Phelps presented a resolution of the Legislature of Vermont, against free trade with Canada, and

A resolution was agreed to, calling for copies of applications made since 1835 by Great Britain to the United States for the right to fish on the coast of Florida.

REMOVALS FROM OFFICE.—What course Mr. Pierce intends to pursue in relation to this *exceedingly interesting subject*, is unknown. Of course there is great gound for conjecture—for anxiety among office holders, and for hope and expectation among the office-seekers. If he follows the track laid down by his Democratic predecessors, and adopts the memorable rule of Governor Marcy—"To the victors belong the spoils"—there will be *many* changes made soon after the fourth of March. But if he goes further back, and takes Jefferson for his guide, a large portion, at least, of the host of office seekers. will be disappointed.—*Boston Jour.*

No doubt office seekers will be disappointed, by thousands, for there are ten times as many of them as there are offices.

The following are Jefferson's views on this subject, as expressed in a letter to Hon. Levi Lincoln, dated Washington, March 22, 1808:

Dear Sir:—Your lettter on the subject of Mr. Lee came safely to hand. You know our principles render Federalists in office safe, if they do not employ their influence in opposing the Government, but only give their own vote according to their conscience. And this principle we act on, as well with those put in office by others as by ourselves.

Jefferson is rather old fashioned—Jackson and Marcy are the models now.

By an arrangement just completed, passengers before leaving Buffalo for New York, while purchasing their tickets at the office there, are handed a bill of fare, from which they select such articles as they desire. The orders are immediately forwarded by a telegraphic communication to the refreshment room at Warsaw, and numbered tickets are handed to the different passengers. Upon arriving at Warsaw, each finds upon the table whose number corresponds with the card, the breakfast he ordered in Buffalo, and the train waits twenty minutes for him to eat it.

COLONIZATION.—A bill is before the N. Y. Senate, appropriating $50 to defray the expenses of each colored inhabitant of this State above 10 years of age, or $25 if below that age, who may voluntarily emigrate to Liberia. The Governor, Lt. Governor, Comptroller, and Attorney General are constituted a Board to draw the money and to superintend the emigration, employing for the latter purpose, if they see fit, the New York Colonization Society.

If none choose to go, there will be no expense to the State. If many go, it will be a good operation for all concerned. If a few only go, the expense will be too small to be worth naming. New Jersey, Maryland, Virginia, and Indiana have each made appropriations for this object; why should New York lag behind. We hope the bill may pass.—*N. Y. Jour. of Com.*

WAR IN BURMAH.—By the latest advices from Burmah, it appears that the British Gen. Godwin having imprudently stationed an advanced post of only 400 men at Pegu, 60 miles from Rangoon, and within a short distance of the main body of the Burmese army, the Burmese commander immediately attacked it, cut off its communication with Rangoon, seized an ammunition convoy, invested the place, harassing the little garrison day and night, and cut off the approaches from Rangoon.

A naval force, 150 marines, 300 European soldiers, and a steamer, attempted to force the passage, to relieve Pegu, and were driven back with loss.

Two columns, of 2,400 men, left Rangoon, encountered the Burmese, defeated them with great loss, and succeeded in reaching Pegu.

DISTRESSING DEATH.—Jesse Morgan, Esq., of Porter County, Indiana, an old and wealthy farmer, left home on horse-back on the morning of the 3d inst., for Chicago, and in the evening, missing his way, rode into the marsh, near the Calumet river. His cries were heard by the neighbors, but it was in the midst of a storm and they were unable to find him. The body was found next morning.

The New York Times asks the following pertinent question:

"Who can explain the phenomena! Why is it that when a man has made himself rich by a course of honest physical industry, his children should blush to be thought laborers in the same line? Or if he has only acquired a competence and is respected by them, why should they feel loth to confess to necessity of the same employment? The Indian's child is never ashamed to confess that his sire once wandered through the same forest that he now roves in, and brought down the bounding stag with his arrow.

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair,
CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to campare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*

From the London Punch.

SISTERS AND SLAVERY.

AFFECTIONATE REPROOF
BY THE LADIES BULL.

Dearest Sisters, we implore you,
To receive our fond caress,
While we meekly lay before you
An affectionate address;
Do not think we mean to blame you
By a single thing we say,
Or desire at all to shame you
In the slightest kind of way.

But by such a sense of duty
To this course we are impelled,
(From pulchritudinous Beauty—
We're aware—should keep withheld,)
That we must call your attention,
To a tender point we know,
You will guess it when we mention
Mrs. Harriet Beecher Stowe.

Sisters, daughters, wives, and mothers,
Ah! our feelings how it racks,
That your sons, sires, husbands, brothers,
Should so oadly use their blacks!
Oh! we speak with hearts sincerest,
All with love and pity rent;
But why don't you, Sisters dearest,
Make your relatives repent?

———

ENDEARING RECRIMINATION.
BY THE LADIES JONATHAN.

Sisters, darlings, sweetest creatures,
Of a common faith and stock,
Not a word to cloud your features,
Or your gentle bosoms shock,
For a moment would we utter,
For all California's gold,
But now we're churned all that butter,
You must let the truth be told.

You have slaves far worse than niggers,
That in ignorance are sunk,
Who :.e letters know, nor figures,
Vicious, destitute, and drunk;
Have them taught to read their bibles,
And repeat their *A B C*,
Better this than writing libels
On the Nation of the Free.

Go, exhort each male relation,
We would earnestly implore,
To relieve the dire starvation
Which is lying at your door;
'Tis with deepest pain, that others
Of their faults we're forced to tell,
Whilst forbearance gently smothers
Hearts each gushing like a well!

SEASONABLE INTERFERENCE.
BY AN IMPARTIAL ARBITRATOR.

Ladies, ladies, soft and fairly
Interchange your loving raps,
Or you'll scape a quarrel barely,
If not come to pulling caps.
Both have grounds of accusation,
But on one side there's a flaw:
Slaves for *want of Legislation*
Are not quite like *slaves by law.*

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at CHAPMAN'S TIN WARE FACTORY.

In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan which for this stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation

Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, in the parlor and out door use.

Also, a few Papier Mache Mantle Thermometers
JOSEPH H. FOSTER,
f2 No. 5 Market street.

Laws of New Hampshire.

PASSED NOVEMBER SESSION, 1852.

Resolved by the Senate and House of Representatives in General Court convened, That the select committee appointed by the House to take into consideration the resolutions relating to Daniel Webster be authorized and directed to have the chamber of His Excellency the Governor and the Honorable Council, the chamber of the Senate, the hall of the House of Representatives, and the public offices in the State House, suitably trimmed in mourning; and that His Excellency the Governor, the Senators and members of the House of Representatives wear the usual badge of mourning on the left arm during the remainder of the present session of the legislature.

That His Excellency the Governor, the Honorable Council, and the members of both houses of the legislature, attend, in a body, the funeral obsequie of the late Daniel Webster, to be celebrated in Boston on the thirtieth day of November instant.

That the said select committee be authorized and directed to invite the Hon. Ira Perley to pronounce an eulogy upon Daniel Webster, before His Excellency the Governor, the Honorable Council and the members of both houses of the legislature, on the twenty-second day of December next.

That the twenty-second day December next be set apart for the above purpose, and that the said committee, with such as the Senate may join, may have full power and authority to make all necessary arrangements for the occasion, and to carry the foregoing resolutions into effect.

Approved, Nov. 26, 1852.

Resolved, &c., That the legislature of this State tender to the civil authorities of the Commonwealth of Massachusetts, and of the city of Boston, and to the "Sons of New Hampshire" resident in Boston, their grateful acknowledgments for the kind and cordial reception and attention they severally gave to the executive and legislative department, on the occasion of their attending the obsequies of the late Daniel Webster, at Boston, on the 30th ult.

That His Excellency the Governor be requested to forward a copy of the foregoing resolution, under the seal of the State, to the Secretary of State of the Commonwealth of Massachusetts, to the mayor of the city of Boston, and to the President of the "Sons of New Hampshire" resident in Boston.

Approved, Dec. 17, 1852.

Resolved, &c., That His Excellency the Governor, in reply to the letter of the Hon. Marshal P. Wilder, of Nov. 22, in behalf of the "Sons of New Hampshire" resident in Boston, inviting the executive and legislative branches of the government to unite with them as a distinct association in attending the obsequies of the late Daniel Webster in Boston on the 30th of November instant, be requested to inform him that the Senate and House of Representatives respectfully accept the invitation.

Approved, Nov. 26, 1852.

Resolved, &c., That His Excellency the Governor, with advice of the honorable Council, be requested to appoint a suitable person, or persons, not exceeding three, whose duty it shall be to cause to be erected over the grave of Hon Meshech Weare, in Hampton Falls, a suitable monument to his memory, to his patriotism and many virtues; and to defray the expenses of the same the Governor is hereby authorized to draw his warrant on the treasury of this State for a sum not exceeding one thousand dollars, of any money in the treasury not otherwise appropriated.

Approved, Jan. 8, 1853.

Resolved, &c., That the provision of our State constitution, commonly called the "religious test," which makes the possession of a certain religious faith an essential qualification for certain offices, is unjust, anti-republican, contrary to the spirit of the present age, and when the proper time arrives for again calling a convention to revise the constitution, we will spare no efforts to induce the people to assent to the calling of such convention and to the abrogation of a principle which should find no place in the constitution of a free State.

Approved, Jan. 8, 1853.

Resolved, &c., That the several persons now chosen as electors of President and Vice President shall meet at the State House in Concord, on the Tuesday next preceding the first Wednesday in December next, and by ten of the clock in the forenoon of the Wednesday next following said Tuesday, give notice to the Legislature of the number of electors present who accept said office; and if the requisite number of electors are not present, or do not accept, the Senate and House of Representatives shall immediately meet in convention, and, by joint ballot, elect the number wanting to complete the board; and if any person so chosen do not accept, the convention shall immediately fill such vacancy. That the operation of the seventh and eighth sections of chapter twenty-eight of the Revised Statutes be suspended for one year.

Approved, Nov. 25, 1852.

Resolved, &c., That Henry Hubbard be allowed the sum of twenty-two dollars, Jabez A. Douglass be allowed the sum of twenty-four dollars and sixty cents, Samuel Jones be allowed the sum of fifteen dollars and sixty cents, Samuel Webster be allowed the sum of fifteen dollars and forty cents, and Nathaniel B. Baker be allowed the sum of ten dollars and twenty cents, in full for their services as electors of President and Vice President of the United States for this State; that George Minot the secretary of said board of electors, be allowed the sum of ten dollars, and that Moses Cass, doorkeeper, be allowed the sum of six dollars, and that the Treasurer of the State be authorized to pay the same out of any money in the treasury not otherwise appropriated.

Approved, Dec. 1, 1852.

Resolved, &c., That the publishers of the several newspapers within this State who are legally authorized to publish, and have published the bill, entitled "An act for the suppression of drinking houses and tippling-shops," in accordance with a resolution passed by the honorable Senate at the last June session of the legislature, be allowed the sum of ten dollars each therefor, and that the same be paid out of any money in the treasury not otherwise appropriated.

Approved, Jan. 7, 1853.

Resolved, &c., That the selectmen of each town in this State be authorized to pay over to the school commissioner of their county the sums by law required to be appropriated by said town for the support of teachers' institutes.

Approved, Jan. 8, 1853.

Resolved, &c., That His Excellency the Governor be authorized and empowered to convey to Joshua Ingalls, of Concord, the following described piece of land situated in said Concord, and bounded as follows: beginning at the north-west corner of said piece, adjoining land of said Ingalls and also of John McNeal, thence southerly by said McNeal's land fifteen feet to a stake and stones, thence north seventy-nine degrees east ten rods and four links to a stake and stone, thence north in a direct line fifteen feet to a stake and stones, situated at the south-west corner of a lot said Ingalls has agreed to convey in exchange for the above described land, whenever said Ingalls shall in consideration thereof convey and make a perfect title to the State of New Hampshire of the following described piece of land situated in said Concord, and bounded as follows, to wit: beginning at the south east corner of said piece, adjoining land of said State at a stake and stones by a passage-way westerly of the State Prison wall, thence northerly by said passage-way about forty two feet to Tremont street, thence westerly by said street fifty-one feet to a stake and stones, thence southerly on a line parallel with said easterly line of said piece to land of said State, thence easterly by the southerly line of said piece to the bounds first mentioned.

Approved, Jan. 8, 1853.

Resolved, &c., That the report of the commissioners appointed in pursuance of a resolution passed at the last session of the legislature, to compile the laws, with the accompanying papers, be recommitted to the same commissioners, with instructions to proceed with the compilation and include therein the acts of the present session; and complete the same, and procure the same to be printed, with a proper index, in such way and manner as they may deem to be for the best interest of the State.

Approved Jan. 8, 1853.

Resolved, &c., That the State Treasurer be allowed the sum of two hundred dollars for his services the present year, (ending June next,) in addition to his salary, and that the same be paid out of any money in the treasury not otherwise appropriated.

Approved, Jan. 8, 1853.

Resolved, &c., That a sum not exceeding three hundred dollars be and the same is hereby appropriated to cancel the debts of the State Prison, contracted prior to July, 1850, and that the same be paid out of any money in the treasury not otherwise appropriated, under the direction of His Excellency the Governor.

Approved, Jan. 7, 1853.

Resolved, &c., That the sum of two hundred dollars be paid to the Warden of the State Prison, in addition to his present salary, out of any money in the treasury not otherwise appropriated, and that His Excellency the Governor be authorized to draw on the treasury for the same.

Approved, Dec 17, 1852.

Resolved, &c., That the Secretary of State be authorized to retain in his hands out of money received by him for civil commissions, from June, 1852, to June, 1853, the sum of two hundred dollars for extra services and clerk hire in his department for said year.

Approved, Jan. 8, 1853.

Resolved, &c., That the sum of three hundred dollars be and the same is hereby appropriated for the purpose of repairing the road through the town of Lincoln, in the county of Grafton, to be paid out of any money in the treasury not otherwise appropriated; said sum to be expended under the direction of an agent appointed by the Governor of the State.

Approved, Jan. 5, 1853.

Resolved, &c., That the Treasurer be authorized to pay to the town of New Castle the sum of seventeen dollars and eighteen cents, the proportion due that town for railroad tax for years 1850 and 1851, and the same be paid out of any money in the treasury not otherwise appropriated.

Approved, Jan. 7, 1853.

Resolved, &c., That the town of Lisbon be paid the sum of four dollars and twenty-two cents, it being the proportion of railroad tax due said town for 1851, and that the same be paid out of any money in the treasury not otherwise appropriated.

Approved, Jan. 7, 1853.

Resolved, &c., That the Treasurer be authorized to pay to the town of Brookline the sum of ($11 78) eleven dollars and seventy-three cents, that sum being due said town as her portion of the railroad tax for 1850.

Approved, Dec. 29, 1852.

Resolved, &c., That the chaplain of the House of Representatives be allowed the same pay as members for attendance and travel, during the present session, and that the same be paid out of any money not otherwise appropriated.

Approved, Jan. 7, 1853.

Resolved, &c., That the officers and privates of the first light infantry company of the first regiment be allowed one dollar each, being fifty-eight dollars, for performing military duty in May, 1851, and that the same be paid out of any money in the treasury not otherwise appropriated

Approved, Jan. 7, 1853.

Resolved, &c., That the Secretary of State be directed to employ some suitable person to arrange and index such revolutionary documents as are now in the Secretary's office, and which in the opinion of the Secretary may be of sufficient value to be so arranged, and that the sum of two hundred dollars be appropriated out of any money in the treasury not otherwise appropriated, to effect the object of this resolution.

Approved, Jan. 8, 1853.

Resolved, &c., That the business of this session of the Legislature may be brought to a close on Saturday the eighth day of January next.

Approved, Jan. 5, 1853

HOUSE AND LIFE PROTECTORS

AGAINST FIRE AND LIGHTNING.

PATENT METALLIC

LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

DAILY
Morning Chronicle.
PORTSMOUTH:
THURSDAY, FEBRUARY 17, 1853.

MR DOUGLASS.

This gentleman is the leader of the "Young America" portion of the democratic party. On Monday, he made his long promised speech in the House, in support of the Monroe Doctrine. Without very distinctly defining what the Monroe Doctrine *is*, he said that it had been proclaimed thirty years ago, that it had been from that time professed by politicians and orators, when there was no opportunity to enforce it, but "whenever there was an opportunity of so doing, it was always abandoned." The Oregon treaty he said was made in opposition to that doctrine—and some parts of his speech on this subject put us in mind of the great demonstrations all over the country, about our claim to the *whole country* being clear and unquestionable—and of the threats of *fighting* if any thing was held by the British below 54 40. He said "in 1850 the Clayton and Bulwer treaty was made, every word, every line of which was in absolute negation of that doctrine." The Mexican treaty, in Mr. Douglas's apprehension, is little better, and he voted against it. By this treaty he said, and by the treaty with Great Britain, "we are bound forever to violation of the Monroe doctrine."

The Boston Daily Advertiser puts the question, if this doctrine has been thus uniformly disregarded and renounced by the government of the United States, whenever it has had occasion to act upon the subject-matter of it, particularly in three important treaties, negotiated by three different administrations, and each ratified by two-thirds of the Senate—even by a Democratic Senate—what is the authority on which the doctrine stands? Mr. Douglas does not answer the question.

Truly he does not—for the very sufficient reason, that no such rules are ever made without admitting of many exceptions. "Circumstances alter cases," said our old copy-book—and we believe they sometimes alter politicians, and parties also.

THE ERICSSON SHIP.

The caloric ship is about to go (it will hardly be correct to call it *sailing*) from New York to Norfolk, to show herself to the members of Congress, &c. The invention promises to do a great deal for trade and commerce, economy and safety.

The N. Y. Times understands that an offer has been made to the government on behalf of her owners, to construct two or more vessels of the largest class for government service, at the minimum rate of expense for steamers of the same class, to warrant their making ten miles per hour, with a consumption of not over eight tons of coal per day, guaranteeing that all their machinery shall last four years—as long as the boilers of a steamship, and offering bonds in any required amount for the fulfilment of the contract in all its parts. The proposition has been very favorably received by the President and the Secretary of the Navy, and it is for the purpose of giving them an opportunity for personal inspection, that the ship has been summoned to Norfolk.

The Journal of Commerce learns that more than four hundred applications have been made, from different parts of the country, for engines, to be built on the Ericsson principle. It being quite impossible, at present, for the inventor to prepare the drawings for this large number, from which to build them, it is his intention to have stereotype plates prepared, from which any number of copies can be taken. Five engines are now in process of construction on this plan, varying from ten to fifteen horse power. By April next, the business is expected to proceed with greater rapidity. No particular privileges have been granted in any quarter, as it is not the design of Mr. Ericsson to establish a monopoly, but to throw open to the world the benefits which his invention is supposed to confer. Such liberality is not common.

New York, Feb. 15.—The Ericsson Vessel sailed at twelve minutes past three this afternoon. At a quarter past four she reached the Narrows; at a quarter before six she had not reached the Spit. Her average speed was seven knots.

THE MADIAI.—Two letters are published, one from Francisco Madiai, dated Nov. 20, and the other from his wife. The former speaks of his illness, saying that he is still in bed, and unable to write much; but he thinks he shall not die. The wife speaks of the illness of her husband, which she says is her greatest affliction. She closes her letter in the following words:—

"Let the Church pray for us. We hope that, with the blessing of God, who gives strength to weak mortals like us, if any one should be called on to suffer for his cause, he will call to mind how much Jesus has suffered for us."

We think, on perusal of these letters, they were fabrications. We do not believe they are suffered to write and mail such letters.

CHANGE OF LAWS.

On Tuesday, in the Boston Municipal Court Tuesday, Hannah Thompson, colored, was arraigned on an indictment charging her with concealing the death of her child. The defendant has already been arraigned on a charge of murdering her infant and throwing its body into a vault, to which charge she plead not guilty, and on which she will be tried next month. To the new indictment charging her merely with the concealment, she pleaded guilty, and was sentenced to four months confinement in the County jail.

In the year 1868, on the 30th December, Ruth Blay, of South Hampton, was hung in Portsmouth, "for concealing the birth of her child."

The law, in these eighty years, has changed greatly for the better in this respect.

FLORIDA.

They do their business in an odd sort of style in the State of Florida. The Boston Daily Advertiser remarks, that Mr. Brown, the governor of Florida, seems to have a hard time of it. Some months since, if we remember rightly, being of opinion that his term of office had expired, for what reason we did not exactly comprehend, he informed the Assembly by message of the fact, and desired them to make provision according to the constitution for the election and qualification of his successor. To which the Legislature replied by the passage of a joint resolution declaring that his term of office had not expired. This the governor vetoed: whereupon by the "requisite constitutional majority" the resolution was passed notwithstanding his dissent, and he was thus compelled to continue to serve.

The legislature shortly afterwards introduced a bill "to provide for the final removal of the Indians of Florida, and for other purposes," which passed the Senate Jan. 11, and the House Jan. 12. The governor vetoed the bill, on the ground that he deemed it unconstitutional. But the bill was reconsidered by both houses and passed again, notwithstanding the governor's veto, by the requisite constitutional majority, and has accordingly become a law. The Assembly proceeded to elect the commanding officer of the brigade of State troops provided to be raised in this act, and Major A. G. Johnson, of Hamilton, receiving 34 votes out of 43, all the others being blank, was elected. The Floridian says that a better selection could not have been made. That paper further says:

"We presume his excellency, the governor, will proceed at once to raise the regiments which are to compose the brigade, and tender them to the government of the United States, according to the requirements of the law, so that in case the United States refuse to comply with their obligations, or to undertake to remove the Indians by the 4th day of May next, the State may be in readiness to do the business herself."

Here, first, Mr. Brown is a governor in spite of himself—merely because he cannot help it. Next, the legislature passes a bill which he regards as unconstitutional, and which moreover deprives him of the privilege of appointing an important military officer. This he vetoes. They disregard the veto, pass the bill again, and proceed to elect their man. The dominant party in the Assembly, and the Governor, it is hardly necessary to say, are of opposite politics. But we, in New Hampshire, never keep in governors of opposite politics, against *their* will—though they do, sometimes, manage to keep in, against *ours*.

BANKING IN MASSACHUSETTS.—The coalition, about two years ago, passed a general banking law, under which any body might make a bank, who could give security in State or government stock. But although everybody might make a bank, nobody has made one. Now, with the whigs in power, it is proposed to repeal the act, and charter some new banks. But the Committee on Banks in the House of Representatives, report that the law is harmless, and need not be repealed—especially as it does not forbid or interfere with the chartering of an old fashioned bank.

THE PEMBINA MEMBERS.—No station or position is all comfort, without discomfort.—Not long ago we mentioned the members from Pembina, in the legislature of Minnesota, who enjoyed the rare privilege of living so much out of the way, and representing so few constituents, that they could shift over *en masse* from Scott to Pierce or Pierce to Scott, according as success made it desirable to be on this side or that.

Now, we are to present the members from Pembina under the disadvantage of wallowing through the snow.

Mr. Kitson of the Council, and Messrs. Gingrais and Rolette of the House, members of the Legislature of Minnesota from Pembina, left their homes with four trains of dogs, and were twenty days in performing the journey to St. Paul. They made the journey to Cow Wing on snow-shoes, walking ahead of the trains to harden the track for the dogs. The snow in the Pembina region is from three to five feet deep on a level.

LOCAL.

Reported for the Chronicle.

Court of Common Pleas—Feb. Term.

EXETER—WEDNESDAY.

In case No. 52—Neal *vs.* South New Market—the jury after being out during the entire night of Tuesday, on Wednesday morning brought in a verdict for the plaintiff, assessing damages in the amount of $125.

Marstin & French for plaintiff, Stickney & Wells for defendant.

No. 56—Andrew Wiggin *vs.* Stephen Scammon—was commenced on Wednesday morning. This action is brought to recover the price for grafting seventy-four apple trees, for which he was to receive fifty dollars. The case was not concluded Wednesday evening.

INSTRUCTION ON WIND INSTRUMENTS,—BY PROFESSOR ELDERTON.—Those gentlemen desirous of private instruction on any wind instrument, are respectfully informed that Professor Elderton, having been re-engaged for the ensuing six months, by the New Castle Brass Band, and having two evenings each week at present unoccupied, is desirous to employ them in giving private instruction on wind instruments, or the art of arranging. Those desirous of his services are requested to leave their names at the music store of J. S. Harvey. If desirable, pupils will be instructed at their residences.

CLASSES OF GENTLEMEN.—In the Chronicle of yesterday, speaking of some lectures on elocution, we alluded to those "rules and principles which guide *classes* of gentlemen, when they speak or write." The sentence was written, "rules and principles which guide *classical* gentlemen," &c. The latter sentence has a plain meaning: the former can hardly be said to have any.

☞ Mr. Moses' Juvenile Concert at the Cameneum on Tuesday evening, was performed before a full house, and exhibited the talented and earnest teacher, as seen in the progress of scholars on whom musical culture is well bestowed.

A HOPELESS UNDERTAKING.—Gen. James N. Bethune has just commenced at Columbus, Ga., a weekly paper, styled the "Corner Stone." In his salutatory the editor very cooly announces that this print shall be devoted to the *dissolution of the Federal Union*.

The title of the above paragraph (which we find without credit in the Boston Courier,) expresses our opinion exactly. Our interests bind the nation together so strongly, that in spite of our varying and even opposite principles and prejudices, we look on efforts at dissolution as hopeless. Those who *hope* for it, and those who *fear* it, seems to us alike deceived—and yet we have been hearing of its dangers from the days of childhood, and of its being saved half a dozen times.

CHEAP LODGING HOUSES.—In the New York Courier and Enquirer an account is given of a building recently erected as a lodging-house in that city. It says that a wealthy citizen is just about completing, on thirty-seventh street a model building designed, it is true, not for the indigent, but for the laboring classes, and embracing all the principles which should be observed in the erection of cheaper buildings intended to be let for less rent. The edifice embraces the best features of the English lodging-houses, with many original improvements. It is built of Philadelphia brick, with brown stone trimmings, is 120 feet by thirty-seven in area, four stories (exclusive of the basement) in height, and is calculated for the accommodation of thirty-nine families, each set of family apartments consisting of a parlor twelve feet by fourteen with an alcove four by eight, a bedroom 8 feet by 10, a kitchen 8 ft. by 8, with a pantry and coal bin attached. In the basement is a large coal bin capable of containing one hundred and fifty tons, to be filled by the proprietor at that month of the year when coal is cheapest, and to be sold to the occupants of the house without profit. The roof is tinned, and provided with fittings for drying clothes, and with screens to protect in summer against the heat of the sun. Every part of the building is thoroughly ventilated, and supplied with Croton water and gas. In the rear is a yard extending the entire length, and eighteen feet in width. At the main entrance is a small room to be occupied by a portress, whose business it will be to keep clean the staircases and the common halls, and to see that the entire premises are kept in the best order. The structure cost nearly forty thousand dollars, and the rent acquired from its different families will probably average about one hundred dollars per annum, which will yield about ten per cent. profit to the proprietor. It is admirably arranged in every respect.

COPY RIGHT.—We have rumors from Washington that a treaty has been concluded between England and the United States,—and now awaits the action of the Senate,—giving to the authors of each country the control and sale of their books in both. We have no reliable information as to the precise stipulations of this arrangement, but we hear that they are very broad, and cover the whole ground hitherto claimed by the advocates of international copy right—that they give authors the same rights in both countries which they now enjoy in each; that an English author may control the sale of his books in this country without having them reprinted here; and that the object and effect of the Treaty will be to give authors that complete and absolute monopoly of their books which has been claimed by many as their natural and indefeasible right.—*New York Daily Times.*

We doubt whether the Senate of the United States will ratify the treaty. Its propriety is by no means self-evident—and we think the working of it would not be satisfactory to any body except to a few authors.

HALE AND THE EXPRESS.—The Washington correspondent of the New York Express, who is anything but a partisan of Senator Hale, speaks of his leaving the Senate in the following terms:

In that rather dangerous debating club, called the U. S. Senate, the loss of Jack Hale will be a public calamity, abolitionist as he is. He is an admirable foil of Cass & Co. When Cass goes for Cuba, Hale goes for Canada and Nova Scotia. When Cass goes for intervention against Austria, Hale goes for intervention for Ireland. Hale elongates Cass, and dilates him *in extremis*. Hale never is in opposition, but always in extension. Cass lays down a principle, Hale carries it out.—Cass hinted the other day, that Hale's role was on the theatre. Hale retorted, in substance, that if Cass would introduce comedy and tragedy to waste time in the Senate, he (H.) could not leave all the acting to Cass.—Some Senators thirst for liberty everywhere. Hale says abolish slavery first at home. The advice makes some men think in what glass houses they live, and so makes them cautious about throwing stones abroad. Upon the whole Hale is a great conservator, by being a great Destructionist. His loss from the Senate, I have come to the conclusion, will be a serious loss to the country. His place in a certain sort of talent, cannot be supplied.

THE MCDONOUGH WILL CASE.—The position of this interesting case, involving the immense property of the miser McDonough, is stated to be as follows. The Louisiana Supreme Court has decided in favor of the validity of the will, and of the cities' claim to the bequest. The U. S. Circuit Court has decided against the validity of the will, and given the property to the next of kin of John McDonough. On one side is Judge McCaleb; on the other Chief Justice Eustis, Associate Justices Dunbar and Rost; whilst Justice Slidell comes in for a third party, and insists that the property ought to go to the States of Louisiana and Maryland. The New Orleans Delta pertinently remarks:

"What an extraordinary illustration of the glorious uncertainty of the law! That keen-eyed old man was all his life engaged, with the aid of the ablest lawyers of Louisiana, in framing a will to give a particular direction to his property. It was drawn up with as much study and care as Coke gave to his commentaries. Every work was in the handwriting of the testator, and the language is as clear and lucid as that of Thucydides; and yet here we find such wide disagreement between our most distinguished and learned Judges."

If these are fair specimens of legal decisions—we had better decide our cases by lot.

Mrs. Tappan, the wife of the late venerable schoolmaster of that name, died in Gloucester on the 11th inst., aged 77, having survived her husband but a few days.

Feb. 12tf At Kittery Point, Me.

NEW TERM.
Gerry's 'Two Crayon' Drawing

Taught at No. 13 *Vaughan, cor. Hanover st.*

ANOTHER TERM will commence TUESDAY, Feb. 8th. Those who are desirous of taking lessons are requested to call at Mr. Gerry's rooms previous to that time, so that arrangements may be made for the several classes.

The public are requested to examine specimens of Drawing by Mr. Gerry and his scholars at the Book Stores of Messrs. Shores, Foster and Harvey.

☞ Particular attention given to enlarging pictures, which with other instruction will give the scholar a fine idea of sketching Landscapes from Nature.

Persons living out of the city can, by stopping here a few days, complete a course of lessons.

No expense for the scholar while taking lessons, except for tuition. C. F GERRY, A. B.

The Best Portrait of

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

THE TROUBLES IN MEXICO.

The following are the particulars relative to the dismissal of the Mexican Congress.

President Cevalos' bill was under discussion, providing for the convocation of a Convention. Congress went into secret session and agreed to sit until the bill was disposed of. The Committee reported against the bill, recommending that it be sent to the Committee on the Grand Jury. The motion was carried, and the Committee proceeded to present an accusation against him for intriguing against the Constitution.

The President refused to answer, denying the authority of Congress which impeached him.

Congress continued in session amid great excitement. The palace meanwhile was filled with the military. Ammunition was sent to the barracks, and several points were reinforced. It was also arranged that the garrison should pronounce against Congress. The members remained in their seats until half-past ten o'clock.

Don Thomas Marini came into the hall, followed by 100 soldiers of the National Guard, took possession of the avenues, doors, &c., and called the President of the Chamber outside. Senor Montez went out then, when Marini gave a verbal order that the President of the Republic had dissolved the Congress.

Senor Montez returned to the Chamber, announced the fact and vacated the Chair, which was taken by Senor Guzman, Vice President, who desired the session continued. The announcement was agreed to by acclamation.

General Marin then directed their course to the convent of San Francisco, but were forced back by troops, and then went to the Convent Esperito Santo, where they drew up a manifesto and protest. Here the Commander of the National Guards came to them with about fifty men, whom he left at the door, and told the members present that the President requested them to dissolve and not force him to proceed to extremities.

TROUBLE BETWEEN THE POSTMASTER GENERAL AND A MEMBER OF THE HOUSE.—*Washington, Feb.* 15.—Hon. George N. Briggs states that he called on the Postmaster General yesterday, to present the petition of the Chamber of Commerce and some of the principal merchants of New York, asking that a steamboat may be employed to meet the ocean steamers at the Narrows, and transfer the mails to the city, thus gaining several hours; and that he was proceeding to explain the nature of the petition, when he was rudely assailed by Mr. Hubbard, who refused to receive the petition any way. Exciting words ensued, and Mr. Briggs left. We understand that the petition was endorsed by several Senators and upwards of sixty Representatives, and Mr. Briggs intends to bring the object of the petition before the House.

CABINET MOVEMENTS.—The following is from the correspondent of the New York Commercial Advertiser:

"There is nothing certain as to the Cabinet, and whatever may be done at Concord must undergo a review here. There are half a dozen Democratic Senators who have taken charge of the subject, and they make no scruple to declare that if Gen. Pierce should designate a Cabinet without their approval, he will have to change it to suit them. It is a matter of such vital importance to the Democratic oligarchy that they will not suffer Gen. Pierce to take it into his own hands; and so neither will they permit him to select the principal foreign and domestic appointees."

CHINESE EMIGRANTS.—The ship Glentanner, Capt. Chapman, arrived yesterday from Demerara, where she had landed a cargo of Chinese emigrants. She left Amoy, China, on the 12th September, and Algoa Bay, Cape of Good Hope, on the 2d December, having on board 262 Chinamen for Demerara, where she arrived on the 12th January, having lost on the passage forty of them by death.—*Kingston (Jamaica) Journal, Feb.* 2.

RESULT OF CHEAP FARES.—It is stated that since the reduction of fare to Albany on the Harlem road, the receipts for through business have increased 50 per cent. This is another practical demonstration of what has been so often asserted and proven, that low fares almost invariably bring an increase of revenue.

According to some of the British West India papers, her Majesty's colonies are in a fair way of becoming depopulated in consequence of the extensive emigration to Australia.

THE STATE PRISON.—There are four hundred and eighty-two persons at present confined in the Massachusetts State Prison, all or nearly all in good health. Mr. Brewer, the late teller of the Suffolk Bank, is employed in the Clerk's Department, and is in good health.

COURTESIES TO CLERGYMEN.—The Springfield Republican states that clergymen of all denominations are permitted to pass at half price on the Western Railroad, and also on the Connecticut River Road, when on their way to fulfil an appointment to preach, or to exchange with a brother clergyman.

GREECE.—*Failure of the Currant Crop.* A letter from Trieste, 18th instant, states that apprehensions are again expressed of the failure of this year's crop of currants. Owing to the continued mildness of the weather the vegetation of the trees had so far advanced that the leaves and even the blossom had appeared, but covered with the white blight which last season was the unfailing forerunner of disease.

SUDDEN DEATH.—Nathaniel Kimball, long favorably known in this place as the whilom carrier of the Alta California newspaper, dropped suddenly dead on the wharf Tuesday morning, near the landing of the steamer Confidence. The deceased was perhaps 30 years of age, from Roxbury, Massachusetts, and had acquired an enviable popularity by his uniform politeness and amiability of disposition.—*Sacramento Union.*

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair,
CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with it its merits are tested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 22 State Street, Boston.
IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.
Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured several weeks earlier,* he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.
The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.
R. H. EDDY,
Solicitor of Patents.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
"PATENT OFFICE, ——.
"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."
Boston, Dec. 7, 1852. eod1y

FOR sale by
a2 RAYNES & NEIL,
No. 59 Market street.

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at
CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.
Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.
This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.
The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.
Also, a few Papier Mache Mantle Thermometers
JOSEPH H. FOSTER,
f2 No. 5 Market street.

DR. A. PERRY,

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

NORTHERN POLAR VOYAGES.

The Boston Journal contains a report of Dr. Kane's first lecture on Polar Voyages and Voyagers.

These intrepid navigators have made their names illustrious by their discoveries, and many of them lamented by the sacrifice of their lives in the efforts to extend the bounds of human knowledge. Hudson perished at sea; Sir Humphrey Gilbert foundered upon the Arctic coast; and now a cloud of uncertainty hung over the fate of the intrepid Franklin and his associates, which efforts had been made in vain to dispel.

Those efforts were directed towards the polar seas which Sir John, with his hundred associates, had attempted to penetrate. That polar basin was one of great extent, surrounded by three continents, and connected with the waters of the other oceans by three passages. It receives the volumes of immense rivers from Europe, America and Asia. Two of the rivers from the latter continent pour more water into the Arctic Sea in their united volume than the whole flow of the Amazon. The water shed of Siberia towards the north is greater in extent than that which supplies all the rivers which flow into the Indian Ocean.

The lecturer then described the first expedition of Sir John Franklin, in which, after enduring the most inconceivable hardships, he discovered the mouth of the river Coppermine. After his return to England, another expedition, consisting of two vessels—the Erebus and the Terror—were fitted out, and sailed for Baffin's Bay, under his command. When last seen he was moored to an iceberg in Lancaster Sound, and was intending to push his way farther to the North and West as soon as circumstances would permit. Time passed, and he was expected back, but he did not come. Expeditions were fitted out to go in search of him in 1848, but returned without success.

Dr. Kane himself, was attached to the American expedition, of two vessels, fitted out by Mr. Grinnell, and commanded by Lieut. De Haven. The men were 37 in all.

On reaching Melville Bay, upon the western coast of Greenland, they first encountered the drift of ice coming down from the north. This is a mysterious and uncertain sea, dangerous in its navigation, and causing more disaster to the Polar navigator than all others put together. In 1832, one thousand persons were compelled to take to the ice, with the loss of their ships in Melville Bay. It is a vast whirlpool, in whose vortex the accumulated drift of the Polar seas is collected in a huge pack, through which the iceberg, a huge and distinct mass, forces its resistless way, bearing down all which opposes its course.—Through this bay and amid the flow of ice, the expedition worked its uncertain way by means of windlass and hawser, and the various means well understood to the sailor.

They proceeded up Lancaster Sound and Barrow's Straits, until they came to Beechy Island, at the entrance of Wellington Channel, where they fell in with the first traces of the lost mariners. A Scotchman connected with the expedition, having wandered out upon the inhospitable coast, came upon the graves of some of Sir John Franklin's men, and rushing back with more breathless haste than the messenger of Marathon, he exclaimed, graves! graves!

There were three of them, with head stones in the regular manner, which told the names and ages of the deceased, and were erected as sacred mementoes to the memory of the dead. Many other tokens of the expedition were discovered—pieces of soap, a pair of gloves, the remains of a blacksmith's forge with its cinders and pieces of coal, cans which had contained provisions, pieces of paper, and bits of cloth; and strange as it may seem, a *garden*, if he might call it such; a bed of soil obtained from the ship, and placed under glass, where they had reared green plants to please the eye.

In a future lecture Dr. Kane said he should attempt to prove that Sir John Franklin, from this place where he had wintered, went North and West. Lieut. De Haven was frozen into the ice here, from which he tried in vain to extricate his ships. They were drifted towards the North, and in about a month reached the northernmost limit ever touched by the keel of a Christian ship. They discovered land towards the North, to which they gave the name of the patron of the expedition, calling it Grinnell Land; and towards the Northwest they saw a water sky, which indicated an open sea in that direction, and which they expected to reach. But Providence ordered it otherwise.

The wind shifted and commenced blowing south. The ice, which when they were frozen in, was but nine inches thick, was now three feet; and as the huge masses in their retrograde movement impinged upon the projections of the shore, they would be forced up higher than the decks of the vessels. They were borne back past Beechy Island, where were the graves of the Franklin dead, now undiscernable in the dim twilight of an approaching Arctic night. The vessels were in momentary danger of destruction by the resistless pressure of the ice-fields. Sledges were prepared, eight pounds weight of clothing allotted to each man, and their knapsacks furnished in the most economical way for a perilous journey over the ice. The Rescue was abandoned, and both crews taken into the Advance.

"I will not tell you," said the lecturer, how often we rushed out upon the ice in momentary expectation of the catastrophe." "We shall have a *nip* to-night!" says one of the men. "And now," remarked the lecturer, "we will describe a *nip*. The ice has closed up its cracks by the action of external forces, but the seams which are visible are the scenes of strange commotion. The masses of ice many hundreds of square miles in extent, are moving at the rate of two miles an hour under the action of a force which is absolutely Titanic."

Huge cakes, twelve feet thick and one hundred and fifty feet long, are forced up in the position of inclined planes, until they fall over or go down over a superincumbent mass.—Hummocks were raised up to a great height by the opposing forces and counter movements, accompanied with the most appalling, mingled with the most ludicrous sounds. The howling of dogs, the barking of puppies, the hum of bees, the thunder of a train of cars, the hissing of escaping steam, the whistle of the locomotive, shrieks, screams, and groans are all heard in the fearful movements and grinding of the ice.

At one time the crews were forced out upon the ice, when suddenly the vessel was raised up seven feet, and was in danger of careening over; so much so, that an experienced boatswain cried out to stand from under, in expectation that she would go over. It occurred to the officers after a moment, that the coals of the furnace would fall out and burn the ship: one of them venturing on board found a messmate quietly eating his supper. On being remonstrated with for his temerity, he answered coolly that he made it a *point of honor never to desert his crockery*.

Two years ago last night, (the 14th of February, 1851) after repeated alarms, the crew exhausted, were reposing upon their knapsacks, ready for a start at a moment's warning, when they were aroused by the officer of the watch. The thermometer was 30 degrees below zero. The crest of a hummock was seen approaching the ship. On it came in its slow but resistless course; all waited in breathless silence for the final catastrophe! Now it was six fathoms from the ship! now three! now six feet! now three! but it stopped, and never came nearer. That night—the next day—a week—*six months* it stood in fearful proximity to the little vessel, a monument of God's mercy and man's helplessness!

Marble Mantles, Monuments, &c.

THE subscriber being about to change the location of his Marble Establishment, it is desirable to dispose of as much of the finished work now on hand as possible, previous to the removal, and therefore invites purchasers to an examination of a variety of MARBLE MANTLES, MONUMENTAL WORK, &c., of various qualities and patterns, which will be sold at prices lower than usual, and as low as the imitation. The mantles consist of Italian Statuary, and veined, Broccatello, Sienna, Egyptian, Mosaic, and other fancy Marble.

HOUSE AND LIFE PROTECTORS

AGAINST FIRE AND LIGHTNING.

PATENT METALLIC

LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

DAILY
Morning Chronicle.

PORTSMOUTH:
FRIDAY, FEBRUARY 18, 1853.

SILVER COINAGE.

On Tuesday, in Congress, the House of Representatives passed the Silver Coinage Bill. We have not seen it, but the substance of it is given in the Boston Daily Advertiser, from which it appears that "it reduces the weight of the half dollar from 206 1-4 grains, in standard silver, to 192 grains, it being a diminution of intrinsic value of 6.91 per cent. The smaller silver coins are to weigh in the same proportion, according to their nominal value.

"The standard of silver dollars is not changed, and of course none will be coined. The new coinage is made a legal tender, for sums not exceeding five dollars, but is not made receivable in payment to the government; nor is any provision made for the redemption of it, in exchange for gold. The new coinage is to be paid out from the mint, in exchange for gold coin, in sums not less than $100. The profit made on the issue of this depreciated coinage, after deducting the cost of bullion, and the expenses of distribution, is to be paid over from time to time, to the Treasury of the United States.

"One of the amendments to the bill provides for the coinage of three dollar gold pieces. The devices and shape of the pieces are to be determined by the Secretary of the Treasury."

The want of practical men in Congress, is a crying evil. Some of the provisions of this bill will work well: but it is monstrously unjust and inconsistent, for the people to have a currency *from* its government, which the same government will not take *back* from them. If the standard of the silver dollar is to remain unchanged, the silver dollar itself will soon become "an obsolete idea."

ANOTHER VIEW.

A profile and a side view of some faces, look differently. Having given a view of Senator Hale from the N. Y. Express, we now give another, from the Washington correspondent of the Boston Post, who says:

Gen. Cass administered a severe but merited rebuke to the agitator, Hale, in the Senate this morning. It was unquestionably one of the most just and well deserved castigations ever administered in any legislative assembly.—There is no hope, of course, that it can curb the foolish tongue or rein in the buffooneries of the New Hampshire harlequin; but it may tend to show the country that the Senate of the United States has only endured, not endorsed, the Senatorial antics of a political changeling who has seemed to have no higher ambition in this lofty arena than to deal in sarcasm when he was devoid of arguments, and to utter his stale jokes and retail his crude fancies, when at a loss for statesman-like facts. It is well for the dignity of the U. S. Senate that the day of his retirement is so near at hand; and, especially, that such a mere haranguer is to be succeeded by so sound and pure a statesman as Charles G. Atherton.

By the way, Mr. Cass not only castigates Mr. Hale, but also Mr. Douglas. The Washington correspondent of the Boston Chronicle, in his letter of the 14th Feb. says, "Mr. Douglas's speech is regarded as a step on the part of "Young America," indicating the line of action it intends to pursue. To this speech of Mr. Douglas Gen. Cass made a reply. He was *very much excited* and spoke as he rarely does speak."

REJECTED.—We are glad to learn that the nomination of Senator Badger as Judge of the U. S. Supreme Court, has been rejected by the Senate. it has been a wonder to us how any Democratic Senator could favor the appointment of such a man to that place.—*N. H. Patriot.*

We thought the nomination was *postponed*, and deemed such indirect action rather cowardly. We never understood exactly what was the objection to Mr. Badger, in the Senate, but supposed the delay and shuffling over his nomination arose from the desire to keep the Judgeship vacant, until after March 4, when Gen. Pierce would of course nominate some man who voted for him, to fill the place. But as the Patriot speaks of Badger as "*such* a man" as no democratic Senator ought to vote for, we presume there is something seriously against him. Will the Patriot please specify what it is?

STEAMBOATS.—A Chicago paper gives, on the authority of a steamboat inspector, a list of over sixty ports in the United States, with the number of steamboats and the amount of their tonnage in each. St. Louis stands highest in the number of boats, viz., 126, with a tonnage of 80,048; Cincinnati next, with 104 vessels of 24,109 tons; Pittsburg, 101 vessels and 16,384 tons; and New York, the fourth in the number of vessels, viz., 92, but with a tonnage exceeding that of any other port, amounting to 67,447. All the boats at the three first named ports have high pressure engines. Of those at New York, 62 are of low pressure, and 10 only high pressure.

The New York Legislature is just now in a quarrel about the Erie Canal enlargement. The smoke is too thick to see through it; the only fact evident is that the subject, like the liquor, is used as a football for political parties.

THE OUTGOING ADMINISTRATION.

While most eyes look at the rising sun, a few look at the setting orb. One of the latter, a Washington correspondent of the Boston Chronicle, says,

"Mr. Fillmore does not look as if the cares of state, and the responsibilities of this great nation had been at all severe in their influence upon him; he is hale and hearty, and has increased in vigor and size within the last four years. * * * The whig office-holders are getting their houses in order, and as far as they can do so, are getting positions that even Gen. Pierce cannot take away. For many of his friends, the President has done well. Rev. Dr. Dewey is his pastor, and in addition to the round salary of $2000 per annum, the Doctor has held as a sinecure, the post of chaplain in the navy, with a compensation of $1200. As Dr. Dewey has no wish to be sent to sea on a three years cruise, he has just resigned the position, and a clerk in the department has been nominated to the vacant chaplainship."

Dr. Dewey was appointed chaplain in the navy, shortly after his memorable sermon in favor of the fugitive slave law. What other connexion the appointment had with the sermon, we cannot say.

GENERAL PIERCE, the President elect, is on his way to Washington city, to reach a pinacle of elevation to which a year ago he thought it idle to look. Without a great stretch of the imagination, we hear the salutes of cannon and the cheers of the crowd, as he reaches station after station—and see the watchings of a multitude of eager eyes to see the great man and be disappointed. His coming into Washington will be the signal for a general change of officers, according to the modern usage of parties—and then the administration of public affairs will go on (after the new officers "get the hang of the school house,") nearly the same as if no change had occurred.

THE PATRIOT AND MR. TUCK.

In an able article on Mr. Tuck's declination, (written while he was declined,) the N. H. Patriot said:

"We regret this declination of Tuck because another candidate cannot be found who will unite the two factions so far as to make a respectable contest in that district; and the result may be that our friends will not turn out their full strength, and thus we may lose on the State ticket and in the election of members of the Legislature. This our friends there must bear in mind, and take proper measures to prevent.

What may be the course of the opposition, whether these two factions may attempt to unite upon another candidate or run separate candidates, is a matter of little consequence to the Democracy. Whichever course they may take, Dr. Kittredge is bound to be triumphantly elected. He would have been, with Tuck for an opponent, and it is universally admitted that our opponents cannot unite so thoroughly upon any other man."

Since he has concluded to stand, the Patriot has added the following:

P. S.—It is stated that Tuck has been induced to withdraw his declination! "Vel, vot ov it?" What sort of a show can he make in the contest, with a number of whigs against him equal to the whole strength of the free-soil party? Will those whigs go for him who were hissed down in their Convention for asking that a *whig* should be nominated as the whig candidate? We shall see. But let the Democracy act just as if the whole opposition was certain to unite upon him, and then all will be safe.

MR. HUGHES.—The N. H. Patriot says, the managers of the opposition know that it would not be safe for them to adopt the abolition candidate openly, as they are aware that there are many whigs who would publicly repudiate him and denounce the "base bargain." Therefore, to keep these men still, they have prevailed on Mr. Hughes to remain a nominal candidate, while every effort is to be used to induce the whigs to vote for Preston; and thousands will be *cheated* into doing so by printing his name upon the whig tickets.—This is the game to be played, and those of our whig friends who do not wish to be thus transferred over to the support of an abolitionist, must take the proper measures to guard themselves and their friends against it.

The Manchester, N. H. Democrat says that Mr. Hughes consented to be a candidate in the second district, upon the positive assurance of his whig friends that there was not the *slightest danger that he would be elected.*

REAL ESTATE IN BOSTON.—On Wednesday, was sold at Auction, the Quincy House on Brattle Square, belonging to Josiah Quincy, jr.; the corner portion being held by a lease, having about 70 years to run; the balance entirely free. There was a very large company present, the building was very spirited, and the property was finally knocked down to B. B. Mussey, Esq., for $69,200. The premises are under a lease for $6600. The next sold was the adjoining estate, for $21,600.

The lot of land situated between Merrimack, Friend, Canal and Market streets, was also sold. A large lot, containing over 13,000 feet, having the whole front on Market street, from Friend to Canal street, was bid off for $4 20 per foot. Two lots in the rear, containing about 3200 feet, were bought at $4 70 per foot, and the lot in the rear of these, having two fronts on Merrimack and Canal sts., was taken at $5 25 per foot.

BOOK-KEEPING IN ONE LESSON.—Don't lend them.—*Punch.*

LOCAL.

City Council—Feb. 17.

In Board of Aldermen, a request was presented by the teachers of the two High Schools, for Colton's Maps, to be placed in the School Rooms. No action was taken.

A request was presented for the City to light the gas on the corner of Daniel and Penhallow streets—granted.

Several bills were passed for payment, and others referred.

The ordinance, from the Common Council, presenting $50 to the Superintendent of the town farm, was passed in concurrence.

In Board of Common Council, the ordinance relating to tenants, was reported by the committee to which it had been referred, with amendments, which were adopted, and the ordinance was passed and sent up for concurrence.

The committee to whom was referred the subject of removing Engine House No. 5,—reported in favor of removing it from its present location, where it costs an annual ground rent of $30—to the N. E. corner of the Cabot School Lot. The committee state the cost of removal at $60.

The report was adopted, in both branches, and a committee appointed to carry it into effect, consisting of Ald. Stackpole, Brown and Dame; and Messrs. Tucker, Durgin and Berry.

PORTSMOUTH LYCEUM.—The lecture on Thursday evening, was by a gentleman whose name we did not understand,—subject, the Scotch Rebellion of 1745—a trite subject, handled with moderate ability—and the lecture delivered so as to be heard and understood by every body, but felt by no one.

The lecturer announced for Tuesday evening next, was Hon. Josiah Quincy, jr., of Boston.

THE OYSTERS.—Mr. Washington Freeman, having a full supply of the best of oysters, and being moved by generous feeling in anticipation of St. Patrick's Day, supplied us with a bounteous stew on the rainy night preceding that grand anniversary. We closed the labors of the night with all good speed, and ushered in the morning with a fine repast on the "abundance of the seas." *Toast*—may the oysters and the oystermen live a thousand years, and their shadows never be less.

THE HUTCHINSONS.—These favorite singers give their third and last concert for this season, at the Cameneum this evening. They need no puffing here; for everybody that is anybody knows the Hutchinsons; and they make this visit at the special request of some of our musical citizens.

INSTRUCTION ON WIND INSTRUMENTS,—BY PROFESSOR ELDERTON.—Those gentlemen desirous of private instruction on any wind instrument, are respectfully informed that Professor Elderton, having been re-engaged for the ensuing six months, by the New Castle Brass Band, and having two evenings each week at present unoccupied, is desirous to employ them in giving private instruction on wind instruments, or the art of arranging. Those desirous of his services are requested to leave their names at the music store of J. S. Harvey. If desirable, pupils will be instructed at their residences.

Dazzel, the broker, says that shavings at present, are so scarce in State street, that he cannot get enough to light his cigars—*Boston Chronicle.*

Temperance Meeting.

AN ADJOURNED MEETING of the friends of temperance will be held
AT THE TEMPLE,
ON MONDAY EVENING, Feb. 21st,
at 7 o'clock,
for the purpose of considering and discussing the following Resolutions:

Resolved, That in the Maine Law, if faithfully executed, we have these things:—We shut up grog shops; we abolish all liquor debts; we stop private gain from a public vice; we guard the young and weak from temptation; we put the sale of spirits into responsible hands for lawful purposes, and devote its profits to the relief of public burdens; and for all these reasons it has our hearty support; and shall have our honest vote.

Resolved, That we deny that the movement by which this law has been carried and sustained is a fanatical movement, or belongs to a party. Our party is the people of the state; and our law is the embodiment of the state's common sense, forced upon us by the experience of twenty years.

Resolved, That in the name of God and humanity, the bans be forbidden between rum and religion of whatever sect, and rum and politics of whatever party; that an union holy and indissoluble, of affection as well as of interest, be proclaimed between temperance, religion and politics of every party and every sect.

Resolved, That while it is the constitutional duty of our legislators to enact such laws as will promote the moral interests of the people; it is also the bounden duty of every citizen not to vote for any person to fill the high office of a law-maker, who is not, in word and action, a thorough-going, whole-hearted friend of temperance.

☞ A general attendance is requested, by the Executive Committee of the P. W. T. A. Society. A. R. BRADBURY,
Portsmouth, Feb. 18, 1853. President.

UNCLE TOMISM IN SCOTLAND—"UNCLE TOM"—A NEW RENDERING. A niece of the Rev. Dr. Thomas Guthrie, of Edinburg, was collecting in Breechin last week for the "Uncle Tom" Penny Offering, and in going to an old woman, she said, "Well, Clemie, I am collecting for Uncle Tom, and it's just a penny." The ancient dame had never heard of Mrs. Beecher Stowe's famous hero; so she held up her hands in amazement, exclaiming—"Preserve 's, fat in a' the earth's com' owre yer Uncle Tam, that ye're needin' to seek a penny till 'im."—*Dundee Paper.*

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

Thirty-Second Congress—Second Session.

WASHINGTON, Feb. 19.

SENATE.—Mr. Borland moved to amend the provision making an appropriation for the continuation of the Capitol extension, providing that no more money be expended till after the first of April, to allow an investigation into the alleged frauds to be proceeded with. After other amendments had been made, the bill was passed.

HOUSE.—The Post Office appropriation bill passed.

The reciprocal trade bill, at the instance of Mr. Seymour was laid over till Thursday.

The House went into Committee of the Whole on the Civil appropriation bill, various unimportant amendments were made, and the House adjourned.

Washington, Feb. 17.—A large number of the members of the Virginia Legislature have signed a recommendation to the President elect in favor of the appointment of Daniel Radcliff, of this city, to the office of the United States Attorney for the District of Columbia.

THE STRIKE AT BALTIMORE.—*Baltimore, Feb.* 16.—The Baltimore and Ohio Railroad mechanics still refuse to go to work; the Directors having conceded but one dollar per week additional, while fifteen per cent. advance on former salaries was demanded.

The employees at the Gas Works struck to-day for fifteen per cent. advance, which was immediately conceded.

GEN. PIERCE IN NEW YORK.—*New York, Feb.* 17.—Gen. Pierce reached this city last night at 12 o'clock, and immediately proceeded to his rooms at the Astor House. He intends to start for Philadelphia this evening.

SHIP SUNK.—*Philadelphia, Feb.* 16.—The ship Henry Pratt, lately arrived from Palermo, was yesterday morning sunk at her wharf at Southwark, by a block of marble falling through her deck into the hold, in consequence of the breaking of the slings. The block passed down end foremost, crushing its way through both decks, and starting her planks, causing her to settle down in a very short time. She lies in eight feet of water at low tide. All her cargo is out, except about 150 tons of marble. She is owned eastward. The block that fell weighed about five tons.

FIRE IN NEWBURYPORT.

A fire broke out about a quarter past two o'clock on Thursday morning, in a large store house of dry well seasoned lumber, in the rear of the work shop of the Messrs. Choate, ship joiners, Merrimac street. The very great mass of combustible material on the premises, caused the flames to rage with intense fury, and seemed to bid defiance to all efforts to quench them, for more than an hour. Water was very scarce, and was finally brought from a great distance.

The house of Mr. Benjamin Choate, next below the work shop, and the large three story house just above, belonging to Mr Benjamin Picket, of Portland, were much damaged.

The Herald says, the loss in valuable ship lumber and material falls with great, and we fear with discouraging severity, upon those who are among our worthiest and most industrious mechanics.

The Messrs. Choate have insurance at Springfield on their tools and stock to the amount of $1500, but the loss will exceed $4000. The house of Mr. Choate was insured at the Atlantic office, Exeter, for $700.

FIRE ANNIHILATOR SUCCESSFUL.—We learn by a letter just received in town, from the well known concern of S. M. Spencer & Co., of Pittsford, that on the 9th instant the celebrated Philips' Fire Annihilator did good execution in that town, in saving from threatened destruction by fire their entire establishment. The accident occurred in the distillery, by the overflowing of the alcohol into the furnace, and the immense volume of flame, although beyond the reach of extinguishment by water, was instantly annihilated by two of the said machines, recently purchased of A. K. Amsden, of this city. So well satisfied were the Messers Spencers with this demonstration of the efficacy of the Fire Annihilator, that they immediately ordered from Mr. A. additional supplies for the future.—*Rochester Daily Adv.*

A German traveller informs the Rev. Dr. Philips, a missionary in North Africa, that he has discovered a race of negroes near the kingdom of Bambara, that are Jews in their religious rites and observances. Nearly every family, he says, have among them the law of Moses, written on parchment, and although they speak of the Prophets, they have none of them in writing. There are yet vast unexplored tracts of land in Africa, doubtless, inhabited by negroes who have never looked upon the face of a white man. When adventurous travellers penetrate into these regions, much will be discovered and developed to astonish and interest the world.

PROLIFIC.—Mr. Moses Davis, of Dunstable, in Middlesex County, has a sheep nine years old that has had *twenty-four* lambs in eight years—four of them at one time the present winter.

The new Empress of France is less than half the age of her husband—she being 23 years old, and he, 47.

Her mantua-maker says that she is 35, if she is a day old, and this class of trades people usually know the age of their customers.

DIVING DEEP.—Rev. Dr. Scoresby, F. R. S., says that whales are known to descend perpendicularly from 4200 to 4800 feet; and at the latter depth he has calculated, from accurate data, that a large whale would have to sustain the pressure of 211,200 tons distributed over its entire surface, or about 137 1-7th tons on every square foot of its body.

Ice has risen in London to 18s per cwt. retail. Four months since it sold at 14s a ton.

GREGORY'S DAGUERREIAN GALLERY,

No. 33 Congress St., *Opposite City Hotel,*

Where the most PERFECT and CHEAPEST Likenesses can be obtained.

N. B.—Entire satisfaction always given. *o13

WILLIAM H. HACKETT,

Attorney at Law,

No. 17 Congress street, Portsmouth, N. H.

PROSECUTES CLAIMS of every description against the United States, such as Bounty Land, back pay, and three months extra pay to the Soldiers and Marines of the Mexican War, and all other claims arising out of said War. Also Revolutionary Pensions and Claims, and Pensions to officers and soldiers in any of the wars disabled by wounds while in the service, or laboring under sickness contracted in the service.

BOUNTY LAND under the acts of Congress, approved September 28, 1850, and March 22, 1852 Warrants located and the highest cash price paid for them a2

LYON'S KATHAIRON,

For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—Its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURANGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

Sold to the trade at a liberal discount, but *commissioned in no instance.*

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured several weeks sooner,* he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides having a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

For the Chronicle.

THE PAUPER'S PRAYER.

BY JOSEPH ALLAN.

"Fair Lady, in thy silken robes,
With jewels in thy hair,
Oh, leave awhile thy thrilling lute,
And listen to my prayer!

"Give but a diamond from thy brow,
A jewel from thy dress,—
I ask it for a cheerless home
Of want and wretchedness.

"A home where hunger preys by day,
Nor feeds itself by night,
But only shuts its sunken eye,
To ope with morning light?"

She heard him not—but closer bound
Her gems about her hair!
No comfort for the pauper's home,
No answer to his prayer.

She heard him not—her soul was dead
To sympathy and love;
She cared not for the poor below,
Or for the God above.

She turned him coldly from her door;
No gold, no gem was given;
That lady fair, so rich on earth,
But oh, so poor in heaven!

Oh, jewelled breasts that scorn the poor,
Think ye it is "light sin"
That ye should gleam so bright without,
Yet be so cold within!

Portsmouth, Feb. 1852.

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.
Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 298,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.
This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.
The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.
Also, a few Papier Mache Mantle Thermometers

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

THE "DIPPERS."

The "Dippers!" who are they? what are they? what *is* a "dipper?" Well, reader, wait a little, and you shall know. We are not going to treat of a galaxy of stars, nor an article much in demand in the culinary department—neither shall we say a word of that most vexatious water-bird, which at once causes the sportsman so much trouble and furnishes him so much sport, and even *when you get him*, is worthless. No, our dippers are of another description.

In Putnam's Monthly for February, we find a vivid description of a most revolting practice prevalent in Virginia and elsewhere.—Cigar and pipe smoking is bad enough, chewing is worse, snuff taking is still more nauseous to all decent humans—but this snuff *"dipping"* beats all. The writer is describing "a character," and digresses a bit to hit off so abominable a custom:—

But one defect had this model female; I cannot call it a weakness, for Mrs. Braxley had no weaknesses. One defect had she, which I cannot conscientiously pass over in silence. My beloved reader, will you believe it?—this neat, orderly, sin-exterminating woman, rubbed snuff! She kept a snuff-box in her right pocket, filled with the strongest and most pungent Scotch snuff; and she went about all day, brandishing a dangerous looking hickory stick, with a mop end, which she was constantly dipping into this huge black horn snuff-box, and loading with snuff, which I am sorry to say was duly deposited in Mrs. Braxley's mouth.

This horrible practice, called in lower Virginia and North Carolina, dipping, is of respectable standing. I have known many dippers in my life, who like my aunt Braxley, had but that one fault; and I must halt just here, in my description of my aunt, to pay my respects to "dipping." Ladies who confess to "taking a dip," are, I am sorry to say, exceedingly ferocious on the subject. They repel indignantly any attack upon this favorite and genial pursuit.

Beautiful creatures, with rosy, perfumed mouths, will grow restless at "dipping time," and will cautiously desert lover, husband, father, or friends, at the established dipping hour; to draw out, in some snug retreat, these formidable and nauseous-looking hickory sticks with mop ends, and fill their delicate mouths with load after load of horrid Scotch snuff! That estimable lady, who after kissing her own cow, turned round and proclaimed to astonished mankind, *"de gustibus non est disputandum,"* surely had the gift of second sight, and must have had her prophetic eye upon troops of dippers, away down in the vista of time, gliding off with nimble step to this remarkable pursuit.

Forgive me, dippers, if I have played the *sly* in your midst. Forgive me if I have approached your *sancta* with a potent hickory wand, and been injudiciously admitted. Forgive me for having, with grave visage followed your example, and wollopped my mop-stick deep in your black horn boxes, that I might get the "hang" of this delightful recreation. Forgive me for saying, that I have seen you giving each other the wink at dipping-time, and stealing off one by one, with innocent faces and compressed smiles, to range yourselves *a les rayles* in compact circles, around brisk winter fires, or in back summer piazzas, and then luxuriously dipping—dipping—dipping.

By simply arming herself with a hickory stick, and boldly penetrating the charmed circle of these dippers, the curious reader can see human nature in a new light. She (for no gentleman is ever admitted, under and circumstances) will hear ladies inviting ladies to "come over and take a dip." She will see them grouped together with handkerchiefs spread over their laps, snuff-boxes open, and mops at work, dipping, the sly happy creatures! at the maddest rate. Unfortunately, my curious reader will find that they do not confine their dippings to their black horn boxes; they sometimes dip into their friends; The stimulative weed excites these ladies, and they unbosom themselves, spin the longest yarns, and open the darkest pages and dip—and dip—and dip.

"Dippers" are of gregarious habits, going in herds, communicating by signs, and bound together in long unbroken chains. They will face any danger to meet an appointment, and would go through a brush fire to rub their teeth, and wag their heads and chat. Woe be to the absent dipper in such dangerous times. Woe be to her if the community cannot furnish a murder, or a run-away match, or a monster of some kind, for the entertainment—these dippers will most assuredly dip into her.

Sometimes we find a small band of dippers cast into a highly dangerous and anti-dipping community. Public opinion is against dipping; husbands and fathers are against dipping; young men are against dipping. Under these unfavorable circumstances they unite into secret societies, concealing their boxes and mops, abusing the weed publicly and vehemently, resorting to private signs, appointing rendezvous, meeting, mid hairbreadth escapes and thrilling adventures—and then, oh! such royal dips! Dipping into every thing. Dipping into the so-and-so's, and the everybody's, with a vengeance! Dipping into families and friends, probing the sorest wounds with these mopped sticks; brandishing their weaapons more and more fiercely, until, from the stimulating effects of the weed, they turn against their own husbands, and relate such matrimonial trials as would still every mop for reflection.

Marble Manties, Monuments, &c.
THE subscriber being about to change the location of his Marble Establishment, it is desirable to dispose of as much of the finished work now on hand as possible, previous to the removal, and therefore invites purchasers to an examination of a variety of
MARBLE MANTLES, MONUMENTAL WORK, &c., of various qualities and patterns, which will be sold at prices lower than usual, and as low as the imitation. The mantles consist of Italian Statuary, and veined, Broccatello, Sienna, Egyptian, Mosaic, and other fancy Marble.

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.
PATENT METALLIC
LADDER AND CONDUCTOR.
THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.
The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.
☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.
Specimens of the article may be seen at the office of the subscriber.
No. 73 Market Street, up stairs, and orders received by
d2 J. P. BARTLETT, Agent.

DAILY
Morning Chronicle.

PORTSMOUTH:
MONDAY, FEBRUARY 21, 1853.

THE FISHERIES.

"Fifteen thousand copies of Mr. Sabine's full and complete report on the "fisheries," have been ordered to be printed by Congress." So say the papers; and it may be supposed by some readers, that Congress will do something effectual, in the way of opening the Labrador and English Colonial Coast to our fishermen, and our coast and market to hers, &c.

But Mr. Mallory of Florida, has said in Congress that this arrangement would not be satisfactory to the South—that Florida does not wish to see *some* foreign fishermen on her coast.

All this is very plain to those who understand it: the black fishermen of Jamaica might be fishing on the Florida coast; and the slaves from Florida might slip off in their little *fly-boats*, and not being able to take care of themselves, they might suffer terribly in Jamaica, for want of that paternal and patriarchal supervision which they have always enjoyed in Florida.

This argument will so convince Congress, that nothing effectual will be done in that direction, about the fisheries. Congress may pass some act to *accept* new privileges as to the fisheries, if England will grant them—but it will amount to nothing.

If Florida objects, on such ground, New England fishermen can "take nothing by their motion."

MONTENEGRO.

Our readers have doubtless noticed in the foreign news, for a few months past, statements that the Montenegro war still continues, and that the Montenegrins are sometimes successful. We knew that these combatants were fighting in rebellion against the Turks, but where they lived exactly, or how they lived, or who they were, we did not know.—The questions thus raised, are answered in the Boston Courier, whose editor says:

"Montenegro is a territory occupying about fifty miles of the eastern shore of the Adriatic, and extending about thirty miles inland. It is full of mountains covered with pine forests. The country is ill adapted for agricultural purposes, wild, and destitute of roads. The inhabitants are armed shepherds, living with their flocks, ready for plunder, delighting in war. They are a pure Slavonian race, retaining their primitive manners, professing for the most part the faith of the Greek church, and governed to the present day by their own patriarchal institutions. This territory was originally a dependency of Servia, when the latter was a Slavonian kingdom. But when Servia became a tributary of the Porte, Montenegro still preserved its independence, though the Turks nominally included it in the pachalic of Scutari. It has been overrun by Turkish armies, but they were never able to retain possession of the country.

From the commencement of the 18th century, the Montenegrins became the allies of Russia, and whenever that power was at war with Turkey, they actively contributed their aid to the Czar. A second tie which connects them with that potentate, consists in the fact that they are members of the Greek Church, of which he is the recognised protector. The population is somewhere about 60,000. The military strength of the country is comprised in a body of 20,000 warriors. Every man is practised in the use of arms; but besides the actual population of Montenegro, properly so called, a considerable number of families of the same race have gradually settled in the neighboring Turkish provinces of Bosnia, the Herzegowine, and Scutari, who retain a near connexion with their kinsmen and their birth place, and may possibly extend over a much wider field, the hostilities which have broken out in Montenegro.

These free Christian people have now risen against their Turkish masters, and the march of armies to this devoted territory now invests it with an extraordinary degree of importance. Austria and Russia stand looking on, waiting for a favorable moment to strike in on their own account. Little care they, we apprehend, for the cause of freedom, but their national jealousies are awake, and every signal of the downfall of the Moslem is watched by them with intense anxiety. At the latest dates, an Austrian force of twenty thousand men was gathering on the Montenegrine frontier, and the Austrian official press has declared that the position of Montenegro assumes international importance. The Czar, meantime, had offered his "mediation" at Constantinople: and a mediator with a million of soldiers at his back will not forget his own profit in such a business."

This Montenegro war, then, is a contest both of races and religions—and though the country is but a mere patch of territory, and the people comparatively but a handful, yet a fire may be there kindled, which shall rage throughout Europe, and perhaps even destroy the Ottoman empire, and leave the Mahometan religion to stand without the sword, or to fall, as best it can. This view invests what seemed to be a mere petty border warfare, with an intense interest, both religious and political. The fact that the Montenegrins are Slavonians, related to Kossuth's friends and fellow workers in Hungary, will induce some readers to watch their fortunes hereafter, with an increased curiosity.

VERMONT.—*The Liquor Law Question.*—The Windsor Journal has official returns from all the state of Vermont upon the liquor law, and the whole vote officially returned is 45,509, and the majority for the law is 1121. Six counties give majorities for the law, and eight for it. Windsor county gives the largest majority against the law, and Rutland county the largest majority for it. The aggregate vote is 4989 less than the whole official vote for governor last year, and 10,000 at least less than a full vote. The largest vote, as compared with the last gubernatorial election, has been given in Windsor county.

Eleven hundred majority only is given, and the sober state of Vermont is in favor of the Maine liquor law—diluted, as it has been, in many of its stringent provisions—in a vote of 43,000.

The Boston Courier says, "the bill is hardly worth the paper upon which it is written, without a stronger support from the people."

It should be considered, however, that the 10,000 men who did not vote, are as a general thing, law-abiding citizens; and that almost every person who is engaged in the forbidden traffic has probably voted against the law. The state of Vermont has sustained a pretty severe liquor law for several years, and the present vote looks as if she was about to give the new measure a fair trial. It has ever appeared to us a matter of some difficulty—but she seems resolved to encounter it.

The Middlebury Vt. Register remarks, that the Liquor Law, recently passed by the Legislature of that State and sanctioned by the popular vote, is not so "ultra" as it has been represented to be, and that the opposition to it was not so formidable as has been supposed.

"It is much less stringent than the Rhode Island law, and is milder in many respects than that of Maine. The press generally sustained the law, and the clergy nearly or quite universally. Lawyer conservatism was one of the chief obstacles in its way—as in case of the law years ago, abolishing imprisonment for debt.

"The statement that the law has been passed upon by the Supreme Court of this state, and declared constitutional, is also a mistake. The question has never yet come before any of our courts, in any shape, nor has an official opinion been given by any of our judges as to its constitutionality.

MANCHESTER AND LAWRENCE RAILROAD.—The annual meeting of this Corporation was held at Manchester, Wednesday. The following gentlemen were elected Directors:—

George H. Dodge, Hampton Falls; Mark Healey, Boston; E. J. M. Hale, Haverhill; Edward Crane, Boston; Joseph Low, Concord; D. A Bunton, Manchester; Benjamin Eastman, Derry.

The road has earned $22,000 over last year, being about 3 per cent. on the capital. A dividend of 3 1-2 per cent., semi annual, was paid. The Directors were authorized to petition the Legislature at its next session for leave to unite the Manchester and Lawrence Railroad Corporation with the Concord Railroad Corporation.

THE PANTHEON.—Among the minor items of French news, we notice the following rather amusing passage between the Emperor and the Archbishop over the ashes of the infidels. The mixture of superstition and heresy, levity and policy, is truly French.

Napoleon has determined not to remove the tombs of Voltaire and Rousseau from the Pantheon, now known as the Church of St. Genevieve. He knows that the whole literary world of Paris would be indignant at such an act. A bon mot worth repeating is attributed to M. Romieu, the Director of the Beaux Arts, on the occasion of his conveying the Emperor's final resolution on this subject to the Archbishop of Paris. The Archbishop observed that he could not reconcile himself to the idea of saying mass over the ashes of such heretics as Rousseau and Voltaire.—"Monseigneur, said M. Romieu, "you must admit that you cannot do anything to annoy them more."

TRIAL AND CONVICTION OF PANEL THIEVES.—On Friday afternoon, in the Boston Municipal Court, Michael O'Brien *alias* John Brant, William Clark *alias* Bill Oliver, and a female known by the name of Jane Harper, were placed at the bar for trial on an indictment charging them with conspiracy to extort $1000 from Samuel Bigelow of Cambridge, by accusing him of the crimes of adultery and fornication, and were all found guilty by the jury, who were out only five minutes.

☞ Michael Coffee, an Irishman, being intoxicated, as he often was, went into a morocco manufactory in Charlestown, one day last week, and there helped himself to a hearty drink from a bottle which contained some poisonous acids used in preparing the leather. He died after twenty four hours of agony.

Gen. Pierce remained at Philadelphia on Friday, and the telegraphic report states that he will remain there until Monday, unless he is disturbed by political bodies. The New York Times states that the calls of political committees drove him away from that city.

The contrast between the English and American people, may be inferred from the fact that while England has only 10 daily papers, we have about 350.—*Portland Adv.*

Mr. Stephenson, the builder of the Britannia bridge over the Manai Syraits, is on his way to Canada, it is said, to build a similar bridge across the St. Lawrence at Montreal.

LOCAL.

Reported for the Chronicle.

Court of Common Pleas—Feb. Term.

AT EXETER—SATURDAY.

In the case Bartlett *vs.* Towle, Adm'r., the Jury were unable to agree upon a verdict.

The Court will set this week for the trial of criminal cases only. The civil docket will not be taken up until the fourth Tuesday of March next.

The following Jurors are returned to serve this week.

William Haynes, Jona. Philbrick, N. Hampton;
Moses C. Kimball, John M. Kimball, Plaistow;
Daniel Beede, Wm. H. Brown, Poplin;
Jona M. Tredick, Ward 1, }
Thomas D. Bailey, " 2, } Portsmouth;
John H. Jackson, " 3, }
Samuel Dearborn, Ben'j. B. Gilman, Raymond;
Eben'r. Lang, Ira Rand, Rye;
James Griffin, Wm. Griffin, jr, Sandown;
Robert Greeley, George F. Dow, Seabrook;
Samuel Page, Jacob Eaton, S. Hampton;
Wm. M. Paul, Horace C. Smith, S. New Market;
George Barker, John E. Wiggin, Stratham;
Gilman D. Whitaker, Isaac P. Cochran, Windham;
Chase Wiggin, Exeter.

DEARBORN ACADEMY.—We learn that Mr. Albert Blaisdell, of Greenland, who is to build the new Custom House at Bangor, has also contracted to erect the new Dearborn Academy in Seabrook; and that the work on the latter building will be commenced the present week.

AN OLD ACQUAINTANCE.—In the Essex Court of Common Pleas at Salem, Judge Bishop presiding, in the case of Commonwealth *vs.* Jenny F. Bell, three indictments for larceny of clothing, locket, chain, &c., in Lawrence, the defendant pleaded guilty. It appeared in the evidence introduced in mitigation of sentence that she is the somewhat famous Kate Viginia Poole, who was sent to the State Prison of New Hampshire for life, about a year ago, for throwing her child out of the car window, on her way to Concord, and was pardoned out in August last, upon the ground of insanity. She was sentenced to six months in the House of Correction.—*Boston Courier.*

LUCKY!—One of the editors of the Fort Smith (Ark.) Herald was lately shot in an affray, and his life preserved by the pistol ball striking a bundle of accounts in his pocket. The Fort Smith man is about the first individual of the editorial fraternity, we suspect, that ever received a real benefit by the delinquency of his patrons. Had they all paid up, doubtless his pocket would have been empty, as editors are generally too much in debt to keep money in their pockets.

A Connecticut editor has a poor opinion of New York buildings. During a late visit, he put up at a hotel with walls so fragile that he said if he had leaned against one of them while putting on his boots, he would have gone through, and fallen into the street!

Of 47,509,302 passengers conveyed on railways in England in one year, only seventeen were killed; while in New York State, according to the report of the State Engineer, 7,410,653 were carried on the railroads, and 162 were killed. In England, the chances of being killed on a railroad are as 1 to 285,027.

What is our compensation, asks an attendant upon fashionable parties, for tight boots, hack hire, yellow kids, and the sinking of the soul, which these social pleasures superinduce? Answer—Six stewed oysters, and a spoonful of chicken salad! Let us never sneer at the small price for which Esau sold his birthright.

RABBI JOSHUA once met a boy who carried something in a covered vessel.

"My boy," said the Rabbi, "what have you in your covered vessel?"

"If it was intended for you to know," replied the boy, "it would not be covered."

AUSTRALIA.—Twenty years ago, the editor of a paper in Australia wrote home to England, urging some of his scientific friends to come out and go to raising opium, which then began to be produced successfully in that country, and was shipped off to Canton. Says the editor—"Do come, this is a remarkable country, but little is yet known of its resources, but it is my opinion, that in minerals and vegetation, this will, some day, astonish the world! The colonial editor little thought, perhaps, that he was a prophet, or that his office stood over a gold mine!"

IMPROVEMENT IN DENTISTRY.—Since it is a law of civilization, if not of nature, that the human teeth shall decay almost before the rest of the system is developed, occasioning woful temporary pain and permanent inconvenience and deformity, any real improvement in the dental art is even more important to the race than improvements in locomotion. What is it to the toothless to be travelled or rich?—Good teeth are essential to the good looks, comfort and health, without which money is not worth much. These remarks are suggested by the new mode of effecting the adhesion of artificial teeth, introduced and most successfully practised by Dr. J. A. Cummings, of 23 Tremont Row. The plate to which they are attached, is so formed on its opposite side that it cannot be separated from the gum directly, without a force equal to the full atmospheric pressure of 15 pounds to the square inch, and yet there is no disagreeable sensation from the close adhesion. The effectiveness of this principle was seen long ago, but Dr. Cummings, by a contrivance as lucky as it is simple, has for the first time made it really available. Entire and partial sets, and even *single* teeth, are thus kept in their places, neatly and firmly, without hooks or clasps, and answer fully all the purposes for which teeth were designed by nature, as more than one hundred persons who are wearing them in this city can testify. Some who have experienced the comfort of these cunning substitutions of gold and porcelain for their lost ivory, put the invention on a par with Ericsson's, and not without reason.—*Boston Transcript.*

ANTHRACITE COAL.—The use of coal for fuel is one of the first facts within our recollection. When a mere child, we remember being at a place, where a gentleman brought home a piece of Lehigh coal to try, as he said. He placed it upon the hearth in a wood fire, and in two days took it out as large and hard as ever, and said, 'they would never try to fool him again with that stuff. It might heat red hot where there was a strong draught and a plenty of wood with it, but it would never burn, or give more heat of itself than granite or iron.'

In 1820 the product in Pennsylvania was but 365 tons—just one ton per day to the whole state. In 1852 the same state had invested not less than seventy million dollars in its production and transportation, and brought into the market five millions and fifteen thousand tons. To what extent the business may hereafter be carried, as the means of transportation cheapen and increase, it is impossible to tell; for one single bed of it is said to extend nine hundred miles, from Pennsylvania to Alabama, embracing an extent of fifty eight thousand square miles, which is equal to the entire surface of England.—*Newburyport Union.*

From the N. H. Independent Democrat.

Anti-Slavery in the Granite State.

MR. EDITOR,—With your permission, I wish to announce that my friend Stephen S. Foster and myself propose spending a few weeks in the State of New Hampshire, to call the attention of the humane portion of the people to the subject of Slavery. This we shall do independent of all parties in politics, and sects in religion. And it is to the people themselves, in *their primitive capacity*, that we wish to speak—and not to them as political partizans, or religious sectarians.

The anti-slavery enterprise, as represented by us, is strictly *moral and religious* in its character. We believe in a Law higher than all Human Enactments or Constitutions. And we regard slavery as it exists in this country, a violation of every one of its principles and provisions. And it is as such that we assail it, at all times, in all places.—With us, the Slave Trade was as much Piracy before 1808, as it was after the law of Congress, declaring it Piracy, in 1822. Nor is Slavery more or less a crime in California than in Carolina—in New Orleans than in New England. Nor is it more heinous in the sight of God to return a fugitive slave, than by a union with slaveholders to aid to hold millions in bondage, in all the passing generations. Nor do we believe a "*jury trial*" can prove any man a slave or free, who bears the image of his Creator and God.

In a word, our warfare is with the doctrine, that that man ever can, under any possible conceivable circumstances, hold property in his fellow man.

Our motto is not, "*Slavery sectional, Freedom national.*" It is, rather, FREEDOM UNIVERSAL, AND SLAVERY NOWHERE in the Universe of God.

In promulgating these doctrines, we shall ask the aid and co-operation of every one who loves man or reverences his Creator. We shall assail nothing that does not lie in the way of the freedom of the slave. But we can make no compromise with any institution or association that leagues itself with the tyrant.

We shall hold a Convention for proclaiming the Gospel of Liberty, and Love to Man, in the City Hall at Manchester, commencing on Saturday evening next, the 15th inst. at 7 o'clock. To that gathering we invite the people without distinction, not only to hear, but to speak, as the spirits of truth and goodness shall give them utterance. Let full liberty of speech be enjoyed, and we can pray with faith as well as fervor, 'God speed the Right!'

Yours in the Cause of Truth and Humanity,
Concord, Jan. 11. PARKER PILLSBURY.

In accordance with the above notice, PARKER PILLSBURY and STEPHEN S. FOSTER will commence a Course of Lectures at the TEMPLE on WEDNESDAY evening, Feb 23d.
Portsmouth, Feb. 21. JAMES NOWELL.

THIS EVENING.

Temperance Meeting.

AN ADJOURNED MEETING of the friends of temperance will be held
AT THE TEMPLE,
ON MONDAY EVENING, Feb. 21st,
at 7 o'clock,
for the purpose of considering and discussing the following Resolutions:

Resolved, That in the Maine Law, if faithfully executed, we have these things:—We shut up grog shops; we abolish all liquor debts; we stop private gain from a public vice; we guard the young and weak from temptation; we put the sale of spirits into responsible hands for lawful purposes, and devote its profits to the relief of public burdens; and for all these reasons it has our hearty support, and shall have our honest vote.

Resolved, That we deny that the movement by which this law has been carried and sustained is a fanatical movement, or belongs to a party. Our party is the people of the state; and our law is the embodiment of the state's common sense, forced upon us by the experience of twenty years.

Resolved, That in the name of God and humanity, the banns be forbidden between rum and religion of whatever sect, and rum and politics of whatever party; that an union holy and indissoluble, of affection as well as of interest, be proclaimed between temperance, religion and politics of every party and every sect.

Resolved, That while it is the constitutional duty of our legislators to enact such laws as will promote the moral interests of the people; it is also the bounden duty of every citizen not to vote for any person to fill the high office of a law-maker, who is not, in word and action, a thorough-going, whole-hearted friend of temperance.

☞ A general attendance is requested, by the Executive Committee of the P. W. T. A. Society. A. R. BRADBURY,
Portsmouth, Feb. 21, 1853. President.

PORTSMOUTH LYCEUM.

THE THIRTEENTH LECTURE will be delivered on TUESDAY EVENING Feb. 22d, at the CAMENEUM, by
HON. JOSIAH QUINCY, JR., of Boston.
On the "Mormons and their Prophet."
Doors open at 6½ Lecture to commence at 7½.
This lecture will be the last of the course; the tickets must be given up at the door.
JOS. HILLER FOSTER, Sec'y.

Victory Bowling Saloon.

THE subscriber would inform the public that he has taken the Bowling Saloon
ON HANOVER STREET,
which he has refitted and lighted with gas, and is now prepared to entertain his patrons in a satisfactory manner.

As it is the intention of the proprietor to render this respectable and every way worthy of patronage, he would invite the attention of all persons who desire to pass an occasional leisure hour, in combining wholesome exercise with rational amusement. A. B. McCRILLIS.
Portsmouth, Feb. 19, 1853.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

Thirty-Second Congress—Second Session.

SATURDAY, Feb. 19.

SENATE.—Mr. Hale's resolution calling for information as to whether any complaints have been received from Mexico of a violation of the eleventh article of the treaty of peace, on account of Indian outrages, was adopted.

Mr. Toucey resumed his remarks on the Pacific Railroad bill; he objected to those portions of the bill which create a corporation and provide for the construction of the road within the States. If these were removed he would vote for the bill.

HOUSE.—The House, in Committee, took up the civil and diplomatic appropriation bill.

Mr. Bayley moved to make Peru a full mission, in accordance with a suggestion from Mr. Everett, which was agreed to.

SUPREME COURT OF THE UNITED STATES.—*Feb.* 14.—M. Hale Smith, Esq., of Massachusetts, was admitted Attorney and Counsellor of this Court.

Feb. 15.—Webster Kelly, Esq., of Massachusetts, was admitted Attorney and Counsellor of this Court.

The Salmon Falls Manufacturing Company *vs.* W. W. Goddard. In error to the Circuit Court of the United States for Massachusetts. Mr. Justice Nelson delivered the opinion of this Court, reversing the judgment of the said Circuit Court with costs, and remanding this cause for a *venire facias de novo.*

Washington, Feb. 18.—Gen. Peaslee has received a letter from the President elect, requesting that there be no public demonstrations on his arrival. The Mayor has directed accordingly.

President Fillmore has a large and brilliant attendance at his levee to-night. It is said to be his last.

SWINDLING SPIRITUALISTS.—*New York, Feb.* 19.—A man named Richard Dougherty has been swindled out of $13.000 by some spiritual rapping operations in this city. He was yesterday sent to the lunatic asylum. The police are about to investigate the affair.

Albany, Feb. 17.—JERRY RESCUE CASE.—The jury in the case of Brigham was discharged last night, not being able to agree. They stood eleven for conviction and one for acquittal.

THE ERICSSON.—By the telegraph, we learn that the caloric ship Ericsson passed through the Narrows on Tuesday, at 4 o'clock 15 minutes, instead of 4 40, as stated in the morning papers of Thursday, thus making nearly eight miles an hour, instead of six, against a strong wind. She must have gone to sea therefore against a heavy southeast sea rolling in, as nothing could be seen of her when the weather cleared up in the evening. This fact alone shows the confidence entertained by those on board in the power of her machinery.

RAILROAD TRAINS ON THE SABBATH.—The South Carolina Legislature has had the subject of Sabbath trains under consideration, the discussion growing out of a proposition of the South Carolina Railroad to run freight trains on that day.

Among the debaters we see the names of Gen. Adams, Cols. Hayne and Gadsden, &c., each of whom testified that the continuance of labor throughout the week was prejudicial to the physical condition of the laborer, and to the interests of all concerned. The result of the whole discussion was that the following resolution was adopted almost unanimously:

Resolved, That it is the sense of this meeting that all Sunday work should be stopped on the South Carolina Railroad and its branches, except in cases of emergency, and that the Directors be requested to effect this desirable end as soon as practicable.

While N. P. Willis was in New Orleans, he saw two tables in the bar room of his hotel, on one of which was spread out a lunch, with terrapin soup, olives, sandwiches, etc.; the other, directly opposite, was set out with half a dozen *pretty and nicely dressed negresses*, from eighteen to twenty-five years of age, seated in chairs upon the top of the table, and waiting to be sold presently at auction!

A FLOURISHING SOCIETY.—The Church of the Pilgrims, New York, has contributed in the last six years, outside entirely of its own current expenses, over $48,000, or an average of $8000 a year. In addition to this, the members of the congregation have paid a debt upon their own church property of $19,000, and have added to it a bell, costing more than another thousand. In the course of the same time 334 members have been added to the church, 73 have been dismissed from it, and 21 have died in it.

THE BIGGEST WHIG IN MAINE.—Mr. Adam Mott, who resides in the north part of Wilton, styles himself the biggest whig in Maine. The statement, no doubt, is strictly true, as his weight is *three hundred and fifty pounds*: his height is six feet and one inch, and his age is seventy-six years, yet he moves about with astonishing dexterity, harnesses his own horse, rides about, builds his own fires, and waits upon his wife, whose weight is not equal to his by one hundred pounds.—*Lewiston Journal.*

YANKEE ENTERPRISE.—A among the sufferers by the fire at Cardenas, Cuba, was the firm of Safford & Co., the members of which are Americans of the true Yankee stamp. Although they were heavy losers, two days after the fire they astonished the natives by having the foundations laid for a large stone store. The people, unused to such celerity of movement, thought they were digging for money or valuables that had been lost. When they saw they were building a *new store*, they rolled up the whites of their eyes, and with uplifted hands walked away, exclaimed "Ave Marie! these Yankees are the devil!"—*Boston Journal.*

The commissioner of public schools for the State of Rhode Island has decided that prayer cannot be made a part of the regular exercises, except by general consent of the parents of the children.

The State of New Hampshire.

To the Inhabitants of Ward No. One, in the City of Portsmouth, qualified to vote for Senators in said State

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at CHAPMAN'S TIN WARE FACTORY.

In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.

Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

Thermometers.

IT is known to most scientific men in this country, that the Thomas Scale Pail discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Mantle Thermometers

LYON'S KATHAIRON,

For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. Courtright, 76 Bond-st. N. Y." This admirable preparation, can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

Sold to the trade at a liberal discount, but *commissioned in no instance.*

D. S. BARNES, *Proprietor,*
161 Broadway, New York.

Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. R. Preston, No. 2 Congress Block, Congress st.

Weeks & Potter, 154 Washington st, Boston, Wholesale Agents for New England. 1e6m f11

FEMALE M. D.'s.—The Chicago Daily Journal notices the late creation of female M. D.'s by the Philadelphia Female Medical College. The editor thinks it singular that out of the ten only three are not married; he is also surprised that the married graduates should lecture upon such subjects as "Phthisis Pulmonalis," &c. He quietly asks "would it not be quite as well for these 'Angels of Mercy' to lecture, if they must express in this way their scientific ideas, upon some such subjects as these:—'Rocking Cradleology,' 'Unmentionables Mendibus,' 'Shirtorum Bonus,' 'Kitchen Incomprehensidis,' &c. The editor (who by the w y is an old bachelor) goes on to remark, "when women physicians shall have settled through the land, sickness will be but a tempting pleasure, and the last hour of life reveal but the near approach of those angels which dreamy visionaries are wont to picture in Paradise."

This is all very well in its way—but every sensible man, and woman, cannot help knowing many cases, in which a good female physician would be very desirable; especially in the sickness of women and children. This is no disparagement of the good physicians who are gentlemen. Many of them think it desirable to have educated female physicians.

North American Soap Co.

MANUFACTURERS, City and Country Dealers and the public are requested to give their Soap a trial. It is cheaper than other good Family Soap; can be used in cold, SALT or HARD water as effectually as the purest of soft water. *Grease, Tar, Paint, &c.*, and contains no ingredients injurious to the skin or most delicate fabric; is superior for Woolen Goods, and clothes washed with it require NO BOILING and but little rubbing. Numerous testimonials might be appended, but the proprietors rest upon its merits. Sold by the principal Grocers throughout the country. All orders promptly attended to. M. B. BIGELOW,
152 Washington st, up stairs, Boston,
M3md15 Agent for Massachusetts.

BOSTON MACHINE WORKS.
Henry Goulding, Proprietor,
No. 2 Andover street, Between Fitchburg and Lowell Depots.

AT THE BOSTON MACHINE WORKS may be found MACHINERY of all kinds and descriptions, including STEAM ENGINES and BOILERS, of from one to fifty horse-power, either horizontal, vertical or oscillating style—attached or separate from the boilers.

New and Improved Steam Regulators and Valves can be attached to engines now running, and perfect regulation secured.

Also, Gang Saw Mill Work of the most approved construction, either attached to engines or run with belting. Also, Saw Arbors or Shafts, Shafting, Pulleys, Belting, &c., either new or second hand; if not on hand, can be furnished at the shortest notice.

N B.—All Machinery sold at this Establishment is warranted to give entire satisfaction to the purchaser.
Boston, Dec. 15, 1852. M1aw3m

THE ART OF BEING BEAUTIFUL.

IT has long been a *desideratum* that some scientific man should apply himself to the study of the human scalp. Dr. JACOBY, the great Pathologist, from Berlin, has done this, and in this new field has attained the most brilliant results.—Satisfied by an analysis of the deleterious alkalies and other washes, of their deleterious effects, he compounded his celebrated Berliner Haar Wasche, to the efficacy of which thousands of witnesses might be summoned, of the accompanying character:—
BOSTON, Jan 1, 1848.

This is to certify that I have had an article called the Berliner Haar Wasche applied during the past five or six weeks to my head, for the purpose of renewing and strengthening the hair. It has been very effective in producing such a result; and I can cheerfully recommend the same to those afflicted with baldness or diseases connected therewith. JONAS CHICKERING.

It frequently happens that ladies suffer from *hair eaters*, and apply some of the nostrums prepared by apothecaries, who think, because they can make poor soda water, they can prepare good hair wash. The effect of these is often highly injurious. Ladies, use none of them,—consult Dr. Jacoby, who will eradicate the nuisance and guarantee a beatiful head of hair. His motto is, *no cure, no pay.*

To those at a distance, the Champoo Washer Nos. 1 and 2, and Haar Wasche, are recommended.—There is, however, no universal specific, and all persons troubled, should if possible see Dr. Jacoby.

In the course of his scientific research, Dr. Jacoby has discovered a Hair Dye that does not stain the skin, will give any shade of color, and will stand exposure in all weather. The accompanying certificate, from a highly scientific source, must satisfy the most incredulous.
BOSTON, Nov. 18, 1851.

I have seen Mr. Moses Jacoby's Hair Dye, used in coloring hair of a deep brownish black, of a beautiful natural color, and can certify that it is perfectly efficient and permanent.
CHARLES T. JACKSON, M.D.,
Assayer to the State of Mass.

Dr. Jacoby's rooms are at No. 9 Franklin street, Boston, where he may be consulted at all hours.—There are always in attendance in both ladies' and gentlemen's rooms the most skilful hair dresse. s.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

NORTHERN POLAR VOYAGES.

Dr. Kane's Second Lecture on the Northern Voyages in general, and the Grinnell Expedition in particular, was delivered in the lecture room of the Music Hall, Boston, on Thursday evening, and reported in the Boston Journal.

The lecturer then resumed the narrative of the Grinnell expedition at the point where he left it on the previous evening. The temperature of the summer was that of the winter here. In September the thermometer was seven degrees below zero, and yet they needed no fire. The human body had a strange power of adaptation to external circumstances which surround it. The first thing that called their attention to the coming severity of an arctic winter, was the freezing of their water casks; the hard stalactites which fastened around the bungholes. They could get no drink except they manufactured it. At length the ice closed around the ships; the spirit thermometer sunk down gradually to forty degrees below zero.

They were obliged to cut their sugar with a saw; to dig up their butter with a chisel; to score their beef with an axe. On opening a door, a dense white cloud would be instantaneously formed; the chimneys presented to the eye a thick column of purple vapor; mustache and whisker were covered with ice, and if you ran out your tongue it froze instantaneously to your beard. By walking briskly, however, you would be conscious of a warm glow; but if the particles of air changed places too rapidly about your person, it would produce the sensation of the pricking of fine needles.

The barrel of a fowling piece, or even a jack knife in your pocket, would produce a blister like hot iron. The trigger of a rifle and the brass ring of a telescope had to be covered with some non-conducting material, as a woman covers the handle of a flat-iron. Of course in the encounter with such a formidable enemy, they could not always expect to escape unscathed; but they left no life or limb behind them.

To wile away the tedium of their long confinement, resort was had to various amusements, among which was a theatre, with performances by amateur actors. The temperature of the stage was never above zero, and sometimes 20 degrees below. On one occasion a *waiting maid* of the Thespian corps, who was a tall Irishman dressed up for the occasion, was in the act of ironing her master's linen; when inadvertently taking the flat-iron in the naked hand, it actually produced a blister, thus demonstrating the exclamation of Hudibras:

"Ah, me! What perils do environ
The man who meddles with cold iron?"

As the night approached the point of solstitial duration it was splendid beyond all power of description. The polar star stood near the zenith, around which the northern constellations wheeled in their majestic revolutions, approaching at some point of their circuit nearer the horizon, but never passing below it. Even the Zodiacal constellation, and Orion, which is near them, merely dipped below the verge of the horizon and then rose again. The moon was sometimes seen surrounded by concentric rings, supported by four broad bands and studded with four lozenge shaped illuminations.

At length the long night began to wear away, and the lengthening twilight heralded the approach of the sun. On the 29th of January it made its first appearance above the horizon. The crew asssembled on deck to meet his coming. Pale, emaciated, weak with their long confinement, they had paced weary and dispirited around their prison, like beasts in a cage. The scurvy had attacked them, and thirty-three out of thirty-seven were ill with it. Their faces presented a wan and corpse-like appearance, which is indescribable; and as they stood upon the deck waiting for the sun to lift his disc above the horizon, they were a sad group to look upon. As the sun at length slid above the dividing line of the visible horizon, his coming was greeted with three cheers. The days then continued to increase in length until they had the satisfaction of seeing the sun rise and set as in our own land. On the 10th of April the moon disappeared, the stars went out, the sun ceased to set, and they entered upon the long Arctic day.

The lecturer gave a description of the appearance of the mock suns, the powers of aerial refraction, which produces the most wonderful optical illusions. Mountains were suspended in the sky with their summits inverted; capes, promontories and coasts, although 80 miles distant, appeared above the horizon. At times the observer would seem to stand in a vast amphitheatre with an impassable wall on every side; and move which way he would, where he stood was always the central point of the mural rampart.

After reaching the coast of Greenland in their retrograde movement, they sailed up along that coast until the month of August, at which time they were again frozen in—an unusual circumstance at that season of the year—and had the cheerless prospect before them of passing another winter in the Arctic sea.

But Providence ordered it otherwise, and, by a fortunate opening in the ice they were enabled to work their way through a tortuous and perilous channel, so narrow that they could touch the ice with a boat-hook on either hand, and after an absence of fifteen months, with their battered and weather-beaten little vessel, and all on board alive, they returned in safety to the harbor of New York.

Marble Mantles, Monuments, &c.

THE subscriber being about to change the location of his Marble Establishment, it is desirable to dispose of as much of the finished work now on hand as possible, previous to the removal, and therefore invites purchasers to an examination of a variety of MARBLE MANTLES, MONUMENTAL WORK, &c., of various qualities and patterns, which will be sold at prices lower than usual, and as low as the imitation. The mantles consist of Italian Statuary, and veined, Broccatello, Sienna, Egyptian, Mosaic, and other fancy Marble.

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.

PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

DAILY
Morning Chronicle.

PORTSMOUTH:
TUESDAY, FEBRUARY 22, 1853.

WASHINGTON'S BIRTH DAY.

George Washington was born on the twenty-second day of February, 1732, in the then Province or Colony of Virginia, a loyal infant subject of Britain's king: he was schooled in the possession and exercise of British Liberty, and was taught to use the arts and arms of Britain: and in his riper years, though he rose in spirit and stood in arms against her oppressions and aggressions, yet he always cherished a profound respect for the admirable morals and manners of the English gentlemen who planted the towns and reared the churches of Old Virginia. He was himself one of the finest specimens of the English gentleman, improved by transplantation and culture in American soil, and under the clear sunshine of a Western sky.

In Washington's whole course of life, the steady, balanced mind and manner of statesman, christian and gentleman, were all most truly English: our liberty being English freedom, improved—our civilization being English society, improved. See, in 1790, and again in 1850, some notable examples of French, or European continental liberty,—and then ask, what have we in common with it?

Washington, as an early friend of American Independence; as the commander in chief of the Revolutionary Army; as the first President of the United States; and as the father of his country, and the model for her sons, deserves to have his name held in lasting remembrance—and so far as we have, or can have, a national church, let his memory be canonized. But his English origin, and education, and religion ought never to be forgotten,—for they helped to make him what he was, and helped him to accomplish what he did.

THE SECRET BALLOT.

The whig majority of the legislature of Massachusetts, not daring to propose a repeal of the secret ballot law, are trying to destroy its usefulness, by amending it so as to *allow* votes to be either covered or open. The amendment, if passed, will destroy the law. This law, *beyond a question*, works admirably. By it there is no way, in putting ballots into the box, whereby there can be double voting or cheating at the polls. For this reason it deserves to be sustained.

The Boston Post, in connexion with this subject, revives a recollection of one of our early New Hampshire patriots, which will be read with interest. Among the sterling men who fought for our liberties was John Sullivan, of New Hampshire. At the time he was commanding the forces of this state on Winter Hill, in Charlestown, December, 1775, the people of his state were about to institute a government, and he wrote to them a fine letter on a constitution. He recommended a way of voting. It was nothing more nor less than the Pennsylvania method—a secret ballot. In Gen. Sullivan's excellent letter, is the following:—

"The infamous practice of bribing people in Great Britain to sell their votes, and consequently their liberties, must show the danger of permitting so pernicious a practice in our constitution; to prevent which, and to guard against the undue influence of persons in power over voters, I would recommend the Pennsylvania method, viz: that every vote should be rolled up, sealed, and on the back thereof be noted, that it is a vote for governor, if so, which should be deposited in a box prepared for the purpose, and a vote for councillors and representatives sealed up, noted on the back, brought in as aforesaid, and depositted in separate boxes, provided for that purpose."

And the old patriot thought that, though it might "appear somewhat troublesome," it would be "the most effectual method to secure the freedom of voting, and prevent every species of fraud and connivance."

TURKEY AND MONTENEGRO.

Those readers who may have become interested in the unequal contest between these two powers, will perceive the importance of the following particulars, received by the America. The movement round Montenegro is daily augmenting in importance, and bids fair to assume the proportions of a bloody struggle for ascendacy in European Turkey, where the long standing question must be decided, whether the cross (i. e., the Greek cross, with the Czar for a Pope,) or the crescent shall in future reign over the provinces extending from the Black Sea to the Adriatic, which have been hitherto nominally subject to the Porte. What part Austria will play in the drama it is not difficult to guess—certainly not that of a neutral and indifferent spectator. The uncle of the reigning prince of Montenegro is now in Vienna, for the purpose, it is said, of obtaining a promise of assistance from the Austrian government.

A letter from Vienna, announcing the departure of Count de Linange from that capital on a special mission to Constantinople, relative to the affairs of Montenegro, says that the Count's instructions are as follows:—

1. Austria offers her kind offices and her intervention to re-establish the *statu quo ante*.

2. Austria, in her quality of protecting power of the border Christians, demands a cessation of the persecutions and arbitrary acts of which the poor rayahs have been hitherto victims in the Turkish provinces.

3. In case, however, the Turkish government should decline to comply with this request, Count Linange is instructed to inform the Ottoman Ports of the firm resolution of Austria to intervene solely for the protection of the Christians against all persecution and oppression, but in no manner to influence the relations between Turkey and Montenegro.

A correspondent of the Paris Presse writes from the Bocca di Cattaro, on the 17th:—The Turks are beaten everywhere. They are in great force. Omer Pacha concentrated at Podgarizza (one of the three border fortresses of Montenegro) 10,000 Nizams and 14,000 Rayahs. The Pacha of Scutari left Antivari with 10,000 men, including 4000 Nizams; while the Pacha of the Herzogowina attacked the northern frontier with 8000 men. They were everywhere driven back by small numbers of the Montenegrins. Fire and slaughter, it is added, mark the passage of the Turks.

Austrian vessels of war, and land forces, are on the spot to prevent the passage either way of the Turkish troops across the two strips of land belonging to the Herzogowina, on the Adriatic coast.

On the night of the 15th, says the Triester Zeitung, Osman Pacha took up a strong position at the foot of a hill on a plain behind Scutari. The Montenegrins availing themselves of the stormy night, attacked the Turkish camp, where alarm and disorder were beginning to prevail. The Turks dispersed on all sides, and the following trophies of victory were carried off by the Montenegrins:—Seventeen standards, (among them that of the Prophet, which is said to consist of Mahomet's inexpressibles,) eighty horse-loads of powder, sixty horses, a number of arms and silver mounted yatagans, and last, though not least, three hundred and seventeen Turks' heads.

Thirty-Second Congress—Second Session.

WASHINGTON, Feb. 19.

In the Senate, the army appropriation bill was reported back, by general consent, with amendments, and a pension bill granted to Betsey Norton, a widow of 90.

The Pacific Railroad bill was then taken up, and some slight amendments made. Mr. Soule wanted the bill printed and deferred to Monday, and used some strong terms against being forced to act now. He favored the Whitney plan, as did Mr. Bradbury of Maine. Messrs. Toucey, Cass, Bright, and Shields, objected to the granting of a corporation within states, as undemocratic and unconstitutional. Messrs. Badger, Douglas, and Underwood also favored the bill. Messrs. Phelps of Vermont, Pettit of Indiana, Hunter and Butler, opposed it. A resolution of Mr. Geyer of Missouri, confining the incorporation to territories, was agreed to; also one by Mr. Weller, striking out the section incorporating the proprietors, 30 to 14. Mr. Shields offered an amendment providing that no part of an appropriation shall be expended in any state, and that so much of the road as was within the limits of any state should be under the authority of that state. Mr. Houston of Texas said he believed that he knew what Democracy was, and, with Mr. Rusk, also of Texas, insisted that the bill was neither anti-Democratic nor unconstitutional. The amendment, however, passed, 22 to 20. Messrs. Rusk and Gwin admitted that the amendment had killed the bill. Mr. Weller said he would move a reconsideration on Monday, and shortly before six the Senate adjourned.

In the House, the diplomatic appropriation bill was up—provisions were made for outfits for foreign ministers; Peru was made a full mission; for a charge to Switzerland, and giving the consul at Alexandria $5000 a year.—One for a charge to Greece was rejected, and the bill passed.

MASSACHUSETTS LEGISLATURE.—All parties at the State House in Boston appeared to disadvantage last week. The whigs were endeavoring to repeal the Secret Ballot Law, which is worthy of adoption every where, and against which no single good reason has been or can be given: and the democrats and free-soilers, in resisting their attempts, resorted to a great number of petty tricks and traps in legislation, consuming much time to no purpose, wasting the whole day on Saturday, and turning the House into a scene like "the Village School in an uproar."

HANNAH CORCORAN, THE MISSING GIRL.—This female, about whom so much excitement exists in Charlestown, has, according to the Boston Daily Advertiser, stopped with Mr. John Welch, No. 103 Purchase street, at the mother's request, until last Friday, when the mother and daughter left this city via Fall River, leaving their destination unknown.—Mr. Welch appeared before Judge Russell and made the affidavit that the girl, Hannah Corcoran, was perfectly free and unrestrained, from the time she came to his house, until she left the same on Friday last, and that she frequently went out and returned unaccompanied by any one, also, that she frequently expressed the wish to accompany her mother and leave the city.

PENNY POSTAGE IN ENGLAND.—We see it stated that the returns of the General Post Office for the past year give additional proof of the efficacy of the *penny postage system* in every respect. In 1839 the number of letters was 76 millions; in 1840 first year of the new system, 169 millions; in 1845 the number reached 271 1-2 millions; in 1850 it was 347 millions; and in 1852 it had increased to 379 1-2 millions.

The word "London" is of Sclavonic origin, and signifies a town upon water. *Lon* is Sclavonic for water, and *Don* a city.

LOCAL.

PORTSMOUTH JAIL.—Capt. Towle, keeper of the County Jail in this city, is happy to announce that the cells of the jail have no occupants at the present time—and expresses his hope that he may have no more boarders of that class.

THE DRY DOCKS.—In our notice of Mr. Dakin's death, recently, we were in error respecting the different Docks. The Dock at this Navy Yard is the "Balance Dock;" also the one at Pensacola. That building at California, and the one at Philadelphia, are the "Sectional Docks." The former is Mr. Gilbert's patent—the latter Mr. Dakin's.

PORTSMOUTH LYCEUM.—The closing lecture this evening, will be by Josiah Quincy, jr. of Boston. Ticket holders will perceive by the notice, that the tickets are to be given up.

☞ The Temperance Meeting held on Monday evening at the Temple, was not very fully attended, but the discussion of the Maine Law was quite spirited—and the meeting was adjourned to meet at the same place next Monday evening.

THE EVENING SCHOOL.—We stepped into this school for a few moments, on Monday evening, and were very much pleased with the good order and cheerfulness which prevailed among the scholars. The average attendance during the winter has been about one hundred. The present term is nearly completed.

☞ The store on the corner of State and Pleasant streets, will be opened this afternoon by E. O. Laughton, for the sale of fine Linens and Housekeeping Goods, to be retailed in lots to suit purchasers. Will be open for a few days.

DRUNKEN ROW IN BOSTON.

From the Boston Post we learn, that, on Sunday evening about ten o'clock, watchman Joseph Young met an Irishman named Michael Scannell and his sister, Mrs. Joanna Howard, in High street, and at the request of Joanna assisted in getting her brother home, who was very much intoxicated. His residence was in Oliver street. On arriving at the house a male resident was lying on the floor in a fit. Mr. Y succeeded in reviving him, during which Michael Scannell quarrelled with his mother, quite an elderly woman, and struck her a severe blow. Watchman Young interceded, and Michael promised to go to bed, but soon dealt his mother another severe blow. Mr. Young then attempted to arrest Scannell, whereupon the latter struck the former—and the sister and mother of the offender endeavored to wrest the watchman's hook and rattle from him. Finding himself in close quarters, Mr. Young, by the assistance of a young man, escaped from the house and sprung his rattle, which called to his assistance Watchmen Charles H. Wright, Albert Richardson, Alvah Cloutman, Alonzo Orne, and the entire fire department. Another attempt was then made to arrest Scannell, who had retreated to the garret. As Mr. Young ascended the stairs, Scannell said he would kill the first man who came near him, and at the same time threw a billet of wood, which brought Mr. Young to his knees, and before he could recover himself a second piece struck him in the forehead, which stunned him. He was taken up and conveyed to the watch house. Watchman Wright next attempted to ascend the stairs, and was attacked in the same manner, and was conveyed away insensible. Watchman Richardson then made an attempt to reach Scannel, but was also repelled by billets of wood, and severely bruised. By this time a passage was being made through the partition in the rear of Scannell, upon discovering which he rushed down stairs and was seized by watchmen Cloutman and Orne, and taken to the watch house. On the way the prisoner's father, John Scannell, and his mother and two sisters, attempted a rescue, and were all arrested and locked up. The wounded men were taken to the centre watch house, and were attended by the city physician. Mr. Wright was considered in a very dangerous condition, having received a most severe blow upon the top of the head, causing a concussion of the brain. It was greatly feared that the skull was also fractured. Both eyes were entirely closed up, and the face was otherwise shockingly bruised. Mr. Young was not so severely injured, although badly bruised, one eye being entirely closed up and the face much swollen. Mr. Richardson was less injured than the others.

Should watchman Young recover, he will probably know better next time than to help a drunken Irishman home, but put him directly into the lock-up: where the other Irishman, who sold or gave him the liquor, ought to bear him company.

Nearly two hours after young Scannell was taken to the watch house, he swore that if ever he gained his liberty, he would be the death of the watchman who took him.

A LITERALIST OR A JOKER.—The Bishop of Oxford, having sent round to the church wardens in his diocese a circular of inquiries, among which was—

"Does your officiating clergyman preach the Gospel, and is his conversation and carriage consistent therewith?"

The church warden near Wallingford replied:

"He preaches the Gospel, but does not keep a carriage."

The halibut fishery on George's Bank has been resumed by the Gloucester fishermen with vigor. Already there are some seventy-five sail of vessels in the fleet.

On the "Mormons and their Prophet."
Doors open at 6½ Lecture to commence at 7½. This lecture will be the last of the course; the tickets must be given up at the door.
JOS. HILLER FOSTER, Sec'y.

From the N. H. Independent Democrat.

Anti-Slavery in the Granite State.

MR. EDITOR,—With your permission, I wish to announce that my friend Stephen S. Foster and myself propose spending a few weeks in the State of New Hampshire, to call the attention of the humane portion of the people to the subject of Slavery. This we shall do independent of all parties in politics, and sects in religion. And it is to the people themselves, in *their primitive capacity*, that we wish to speak—and not to them as political partisans, or religious sectarians.

The anti-slavery enterprise, as represented by us, is strictly *moral and religious* in its character. We believe in a Law higher than all Human Enactments or Constitutions. And we regard Slavery as it exists in this country, a violation of every one of its principles and provisions. And it is as such that we assail it, at all times, in all places.—With us, the Slave Trade was as much Piracy before 1808, as it was after the law of Congress, declaring it Piracy, in 1822. Nor is Slavery more or less a crime in California than in Carolina—in New Orleans than in New England. Nor is it more heinous in the sight of God to return a fugitive slave, than by a union with slaveholders to aid to hold millions in bondage, in all the passing generations. Nor do we believe a "*jury trial*" can prove any man a slave or free, who bears the image of his Creator and God.

In a word, our warfare is with the doctrine, that that man ever can, under any possible or conceivable circumstances, hold property in his fellow man.

Our motto is not, "*Slavery sectional, Freedom national.*" It is, rather, FREEDOM UNIVERSAL, AND SLAVERY NOWHERE in the Universe of God!

In promulgating these doctrines, we shall ask the aid and co-operation of every one who loves man or reverees his Creator. We shall assail nothing that does not lie in the way of the freedom of the slave. But we can make no compromise with any institution or association that leagues itself with the tyrant.

We shall hold a Convention for proclaiming the Gospel of Liberty, and Love to Man, in the City Hall at Manchester, commencing on Saturday evening next, the 5th inst. at 7 o'clock. To that gathering we invite the people without distinction, not only to hear, but to speak, as the spirits of truth and goodness shall give them utterance. Let full liberty of speech be enjoyed, and we can pray with faith as well as fervor, 'God speed the Right!'

Yours in the Cause of Truth and Humanity,
Concord, Jan. 11. PARKER PILLSBURY.

In accordance with the above notice, PARKER PILLSBURY and STEPHEN S. FOSTER will commence a Course of Lectures at the TEMPLE on WEDNESDAY evening, Feb 23d.
Portsmouth, Feb. 21. JAMES NOWELL.

Victory Bowling Saloon.
THE subscriber would inform the public that he has taken the Bowling Saloon
ON HANOVER STREET,
which he has refitted and lighted with gas, and is now prepared to entertain his patrons in a satisfactory manner.
As it is the intention of the proprietor to render this respectable and every way worthy of patronage, he would invite the attention of all persons who desire to pass an occasional leisure hour, in combining wholesome exercise with rational amusement. A. B. McCRILLIS.
Portsmouth, Feb. 19, 1853.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

FOUR DAYS LATER FROM EUROPE.—The steamer Pacific arrived at New York on Monday, Feb. 21, from Liverpool, Feb. 9.

The London papers advertise the prospectus of the Atlantic and Pacific ship canal via the Isthmus of Darien.

Cotton is duller since the Arabia's advices. Breadstuffs have slightly advanced, 1d per bush. on wheat, and 6d per brl on flour.

The Gazette of Vienna, of the 4th states that Austria had not taken any aggressive attitude towards Turkey.

No balls are to be given in Paris during Lent, which causes the storekeepers to grumble. Taken altogether, the trade of Paris may be said to be in a flourishing condition. Corn is unchanged; Flour remains dull.

SANDWICH ISLANDS.—*The New Constitution of Hawaii.*—Last Monday, at noon, the new constitution was proclaimed, according to previous notice. After the ceremony of proclamation was over at the Stone Church, His Majesty being present in his private capacity, arose and made an extempore address to the assembled people. It was short, but impressive and to the point, and spoke volumes for the advancement of knowledge and the liberal sentiments of the king. He pointed out to them, that whereas formerly the chiefs alone had made the laws of the land, the present constitution was the work of the people themselves, through their representatives in the Legislature; and as he had surrendered to them the law making power, he exhorted them to use it with wisdom, prudence, and moderation, for upon themselves depended henceforth the prosperity and improvement of the country.—*Honolulu Argus, Dec. 9.*

The subject of a banking establishment of some sort or other, was receiving the attention of some of the best informed merchants of Honolulu.

Admitting yourself out of Court—is a legal phrase, signifying a liberality of concession to your opponent by which you destroy your own cause. The excess of candor was well illustrated by the Irishman, who boasted that he had often skated sixty miles a day. "Sixty miles!" exclaimed an auditor—"that is a great distance; it must have been accomplished when the days were the longest."—"To be sure it was; I admit that," cried the ingenious Hibernian.

The $5,000 package of money, which was lost at Meriden, Ct., on Wednesday, was found in the baggage car, after the train reached New York, by the baggage master, Mr. Harrington, who immediately forwarded it to Mr. Booth, the gentleman who lost it. The money belonged to Curtiss L. North of Meriden, and upon its recovery he presented Mr. Harrington with $500—a generous gift, and most worthily bestowed.—*Springfield Republican.*

The Humphrey, who killed her child in Stoughton, and who was committed to Dedham jail for trial, has since been sent to the Insane Asylum at Worcester.

George Washington Dixon, once well known in this region, and whom they style "the buckram hero," has married an old creole lady "down south," who brings him a large fortune. The old 'oman was captivated by the heroism and literary talents of the great commander of the Yucatan expedition.

A letter in the N. Y. Times from Cardenas, says:

"The mercantile community and other influential persons have petitioned government to grant the importation of lumber and cooperage stock into Cardenas *free of duty for six months.* The Intendant of the Island will probably accede to the petition."

HOW TO MAKE OLD OAK.—The appearance of old Oak may be obtained by exposing any article of new oak to the vapors of ammonia. Every variety of tint may be procured, according to the duration and temperature of the volatile compounds. A new oak carved arm chair, exposed to the vapors of ammonia, will in about twelve hours have all the appearance of having been made 200 years before.

A veteran driver on the Cambridge line of omnibuses named William P. Gear has been appointed coachman for Gen. Pierce, in place of Mr. Mitchell, of Portland, declined. Gear is a single man, and Mitchell being a married one, thought he should prefer staying with his family at home, to going to Washington. Besides he is a whig, Gear is a democrat.—*Lowell Courier.*

THE ESTERHAZYS.—An Englishman observing to Prince Esterhazy that he had 1200 sheep, the latter quietly replied, "that is just about the number of my shepherds. This nobleman has thirty six castles, all garrisoned with his own vassals. He owns a thirtieth part of the whole kingdom of Hungary. The immense family treasures of the Esterhazy family are kept in a vault in the solid rock. None are allowed to take from it, except for the ransom of an Esterhazy, though each successive prince adds to it. So it goes on constantly increasing. Here are their trophies, and their precious stones, almost world renowned. The Esterhazys were always a gallant race, and have poured out their blood for their country in return for the immense wealth it has conferred upon them.

RIVER OPEN.—On Tuesday, 8th inst., the ice in the Cocheco river broke up, and drifted out to sea, leaving the river open and free to navigation. One of the packets came up on Tuesday afternoon from Portsmouth, and returned Wednesday morning. The river froze up the 27th day of December, and has consequently been closed but forty-three days.—*Dover Gazette.*

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE.
f3

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.
Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.
This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.
The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or counting room use.
Also, a few Papier Mache Mantle Thermometers

LYON'S KATHAIRON FOR THE HAIR.

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*
D. S. BARNES, *Proprietor,*
161 Broadway, New York.
Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. E. Preston, No. 2 Congress Block, Congress st.
Weeks & Potter, 154 Washington st, Boston, Wholesale Agents for New England. 1s6mf11

THE MORMONS.—That curious sect of fanatics, the Mormons, are beginning to make themselves felt in the western shore. Not content with establishing "the kingdom of the Saints" in the Salt Lake Valley, they have made a lodgement in the Southern part of our State, and have already built up quite a flourishing town at San Bernardino. Their numbers are beginning to tell in the elections in the Southern counties, and as they always vote in a body at the bidding of their High Priests, the politicians seem disposed to court them. They are great propagandists, withall—their Saints are traversing all quarters of the globe, as Apostles to the Gentiles, and converts to their faith and accessions to their numbers take place from many foreign nations. We see by the news from the South, that the church of San Bernardino has sent forth some 30 or 40 apostles, whose mission is to convert the benighted Siamese, Hindoos and Chinese to the faith of the beatified Joe Smith.—*Oregon papa.*

North American Soap Co.

MANUFACTURERS, City and Country Dealers and the public are requested to give their Soap a trial. It is cheaper than other family Soap; can be used in cold, SALT or HARD water as effectually as the softest; will remove *Grease, Tar, Paint, &c.* and contains no ingredients injurious to the skin or most delicate fabric; is superior for Woolen Goods, and clothes washed with it require NO BOILING and but little rubbing. Numerous testimonials might be appended, but the proprietors rest upon its merits. Sold by the principal Grocers throughout the country. All orders promptly attended to. M. B. BIGELOW,
M3md15 152 Washington st, up stairs, Boston, Agent for Massachusetts.

PATENTS.

American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 22 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured several weeks earlier,* he continues to forward them, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK, Commissioner of Patents."

Boston, Dec. 7, 1852. eodly

Portsmouth,	"	7, 10½	5½	"
Newburyport,	"	7½, 10, 11½	A. M.	4½, 6, "

Freight train each way daily. Office 17 Merchants' Row, Boston.

JOHN KINSMAN, Superintendent.

JACKSON & Co.'s BOSTON EXPRESS

J. JACKSON and JOSEPH C. D. AKERMAN, having entered into copartnership for the purpose, give notice that they will continue, under the firm name of JACKSON & CO., the business formerly carried on by WALKER & JACKSON, and respectfully request the patronage of the public.

Leave Portsmouth daily at 7 and 10½ o'clock, A. M., and Boston at 5 o'clock, P. M.

We shall continue to run our Express Car for the transportation of small freight, which shall be delivered as cheap as can be done by any other conveyance.

Personal and prompt attention will be given to collecting Notes, Drafts and Bills, or paying the same.

California Drafts collected if desired.

Bills of Exchange on Ireland or England, from one pound up, procured at short notice.

Passages engaged from Liverpool to Boston or New York.

The purchase or sale of Railroad, Bank or other stocks attended to promptly.

Gold Dust forwarded to the Mint, and prompt returns made. C. C. JACKSON,
a2 JOSEPH D. AKERMAN.

CHENEY & CO.'S.
Concord & Portsmo. Express.

THE Subscribers having an exclusive contract with the Directors of the Portsmouth & Concord Railroad, to run Cars with the Passenger train daily, on said Road, for the transmission of MONEY, MERCHANDIZE, &c., respectfully give notice that they will forward all articles in their line of business, daily each way, (Sundays excepted,)

Packages forwarded daily from Epping, Raymond, Candia and Suncook, to Exeter, Haverhill, Lawrence and Boston, and intervening towns; Also from Greenland to any of the above named places.

Notes, Drafts and Bills collected and paid in any of the towns above named, and all business attended to personally and promptly.

Packages forwarded to all parts of New Hampshire, Vermont and the Canadas.

The Express Train will leave Portsmouth every Tuesday for Montreal and Stanstead, and return on Saturday of each week.

N. B.—The subscribers are alone responsible for the injury or loss of any article or property of any description entrusted to their care, nor is any risk assumed by the Railroad Company mentioned.

Office in Portsmouth, at Jackson & Co's Express Office, corner of Fleet and Congress streets.

☞ Merchandize and packages designed to go by this express, should be marked "*Cheney & Co's Express.*" NATHANIEL WHITE, Concord, N. H.
B. P. CHENEY,
n16 Railroad Exchange, Court sqr, Boston.

Portsmouth and Boston Express.

LEAVES Portsmouth for Boston and intermediate towns, over the Portsmouth and Concord and Boston and Maine Railroads, daily, Sundays excepted, at 15 minutes before 9 A. M.

Leaves offices in Boston for Portsmouth, Epping and Raymond at 2½ P. M.

Business entrusted to this Express shall be attended to with fidelity and despatch, and as cheap as any other express.

Goods entrusted to us should be plainly marked, "S. B. Marden's Express." Goods will be called for in any part of the cities of Portsmouth or Boston.

DEEDS, &c., for Exeter, left at the residence of Mr. Marden, at the Franklin House, or at George W. Towle's store, will be promptly forwarded and returned.

Any business at Rochester, Great Falls, Dover, Epping, Raymond, Manchester, Concord, or at any way stations, attended to.

BOSTON—No. 8 Court street, and at Libby's new office, 10 Court Square, corner of Court Avenue.

NEWMARKET—Furber's Hotel. RAYMOND—Blake's Store. EPPING—at Depot. PORTSMOUTH—at Towle's 3 Congress Block, and at S. B. Marden's, Middle street. S. B. MARDEN.

Portsmouth & Boston Daily Express.

THE subscriber respectfully informs the citizens of Portsmouth and vicinity, that he has commenced running an EXPRESS from PORTSMOUTH to BOSTON, and will forward any package committed to his care. He is confident that his long experience in this business will enable him to satisfy his friends and the public generally. This express connects with all the principal Expresses, north, south and west of Boston; also with all the European and California Expresses. Light freight taken at the usual rate.

OFFICES:—Portsmouth—F. W. Ham's Jewelry Store, cor. High and Congress streets;

Boston—10 Court Square.

The Express leaves Portsmouth daily at 10½ o'clock, A. M. and Boston at 4½ P. M.

j25 GIDEON WALKER.

Kittery Point Stage.

THE COACH leaves Kittery Point via Kittery Foreside and Navy Yard, for Portsmouth daily, as follows:

In the Forenoon—Leaves Kittery Point at 8 o'clock to meet the 9½ o'clock Railroad Train from Kittery and Portsmouth for Boston.

Leaves Portsmouth for Kittery Point at 11 o'clock, or on the arrival of the train from Portland. a2 ANDREW AMEE, Proprietor.

DAILY MORNING CHRONICLE

BY MILLERS & GRAY. $4 PER YEAR---$3 IN ADV.

VOLUME 2. PORTSMOUTH, N. H., WEDNESDAY, FEBRUARY 23, 1853. NUMBER 20.

Office, No. 4 Exchange Bldgs., Pleasant St.

DAILY CHRONICLE—$4 per annum, payable half-yearly; or $3 strictly in advance. If payment is made for a year, within six months of the time of subscribing, fifty cents will be deducted.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

BOOK, JOB AND CARD PRINTING

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

SIR JOHN FRANKLIN'S COURSE.

Dr. Kane, in his second lecture on the northern voyages, gives his own views and hopes of Sir John Franklin, in the following terms.

There is abundant reason to believe that he did proceed north-westward. He wintered at Beechy Island, as has been before stated.—Among the proofs of his long stay at that place there were over 600 cans which had contained hermetically sealed provisions for the supplies of a long voyage. A beacon cairn of stones was discovered, which however indicated nothing as to his future course. Neither the Grinnell nor the British expedition could discover anything, although each searched the cairn carefully, and dug up the place of its erection.

But the circumstances of the case sufficiently indicate that he went forward. The ice opens to the northward before it does towards the west or south, and a man with the bold and enterprising spirit of Sir John Franklin would be likely to avail himself of any opportunity presented to push on in furtherance of the general object of the expedition. But why, if he went on and is still safe, has he not again come back?

It may be that he is frozen in, as the Advance and Rescue were, in those inhospitable seas, and has as yet been unable to extricate himself. It may be that he was borne on towards the north, as they were borne, by the flow of the ice fields, until he reaced that dark sea which presented itself to the eye of those who went to his assistance; and there finding himself disencumbered of the impediment which had previously blocked up his way, he pushed on in his adventurous career.

It may be his vessels have been lost amid the pressure of the floating masses of ice; but in that event it is probable that the crews escaped. Very few men perish by such a calamity; an opportunity generally occurs to escape upon the ice. Thus, in 1832, of 1000 men wrecked in the northern seas, only six of the whole number were lost. With the India rubber and gutta percha boats with which they were supplied in abundance, with the knowledge of constructing Esquimaux huts of snow, which are comparatively comfortable abodes, with the abundance of animals with which those regions abound, with the ample supplies furnished them at the outset by the Admiralty, which were reckoned sufficient for a five years' voyage, it is quite possible that they are still alive.

There are a great variety of animals in those regions which would furnish food; the norwall, the white whale, and other similar species are abundant. The reindeer migrates further to the north than even the Grinnell expedition reached, and fur animals of rare value inhabit those icy fields. With all these means of sustaining life, and with the experience of a previous expedition into the arctic regions, there is abundant reason to hope that the expedition still survives.

WILLIS—A KENTUCKY SCHOOL.

We take the following from one of Willis's Western letters, lately published in the Home Journal:

"I wanted Darley at my elbow to sketch the interior of this school. Unconsciousness makes beautiful pictures—the rudeness and grotesqueness of real life groupings rather adding than otherwise to their effect. While three or four of the girls just entering upon awkwardhood, had their heels on the benches and sat with their chins on their knees, feeling of their toes, there were three or four of the younger ones, with grace and beauty enough to equip angels—the heaven they were leaving behind them still radiant in their delicious little faces. One I could have taken to my bosom with a hug, and stolen (to adopt and to add to the 'Orion's belt of three,' who form my constellation at home;) a little fairy lying flat on her stomach on the top of a sloping desk, and with her heels in the air, and her cheek in her hand, too busy with her spelling-book to notice our coming in. Her heaps of curls were masses of brown, tanned lighter at the curves, and the russet red of her cheek was beaming with tranquil health—eyes large and steady, hand plump and dirty, shoulders and back bare, and frock ragged. There she lay, learning to spell; and meantime more beautiful than she will be when the spelling is learned, and better worth admiring and loving than when her heels are kept down and her rags changed to the petticoat of womanhood. How out of time and place come the things we most want in this world! I am inclined to think Eden is still around us. Its loveliness and happiness are only misled, mislabelled and unrecognized.

Of the troops on board the bench provided for the jacket and trouser department of the school, one-half, at least, were picking the clay from between the logs, and so getting a look at the open air outside; and they had so far succeeded that the four walls let in the light like a honeycomb. There was one window—a hole sawed through one of the logs, that is to say—but the main supply of light came through the door. Near this stood the tall, erect, majestic form of the schoolmaster—certainly the largest supply of dignity for the money (twenty-five dollars a month) which I had yet seen in my travels. How so handsome a man could see himself in the glass, once a day, and keep that school for the pay, I presume Providence knew and provided; but he seemed to me to have nature's ticket on his brow for the government of older minds."

Marble Mantles, Monuments, &c.

THE subscriber being about to change the location of his Marble Establishment, it is desirable to dispose of as much of the finished work now on hand as possible, previous to the removal, and therefore invites purchasers to an examination of a variety of MARBLE MANTLES, MONUMENTAL WORK, &c., of various qualities and patterns, which will be sold at prices lower than usual, and as low as the imitation. The mantles consist of Italian Statuary, and veined, Broccatello, Sienna, Egyptian, Mosaic, and other fancy Marble.

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.

PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

No. 73 Market Street, up stairs, and orders received by

DAILY
Morning Chronicle.

PORTSMOUTH:
WEDNESDAY, FEBRUARY 23, 1853.

PROCEEDINGS OF CONGRESS.

The journal of Congress for Monday shows the Houses to be in earnest on the appropriation bills; but on every other subject, the opinions of members are not only divided but scattered. There is little prospect now, of any important business being done, besides the appropriation bills, in the few days which remain of the present session. The debate in the House on the Pacific Railroad bill, exhibits the divisions of the democratic Representatives, and their conflicts with each other, deeper and stronger, if possible, than before the Presidential election. The same things will be seen on almost every practical question, and on every measure which is at all important. Some few bills will probably be passed by a union of a portion of the democrats with whigs—but the great mass of business will lie over.

CORRUPTION.

Many of our readers will be surprised at reading the following communication, which we copy from the State Capital Reporter, a Democratic paper, published in Concord. It is after all, only a confession of a most humiliating state of things, existing in the very centre of our State, which is at his moment almost the centre of influence for the Union.—But we are inclined to the opinion that the evil is not confined to Concord alone.

AN EVIL WHICH SHOULD BE ABATED.—*Col. Barton*:—From the days of "*Whig dinners at Hook's*," to the present time, a practice has been growing up in this town, in regard to managing the elections, which at length has become too grievous longer to be borne.—There are probably more than fifty men who make it a practice to *sell their votes* indiscriminately to both parties, and as many times over as they can find a purchaser. They commence this about a fortnight before election, and do a smart business until the election is over.—Then there is a hundred and fifty or two hundred more, who calculate on being brought out to town meeting and being feasted on turkey and fixins at free quarters, for the week during which the election lasts. "What are you up here eating gingerbread for?" said one loafer gnawing a turkey's leg, to another;—"why dont you vote democrat and go down to Gass's and live on turkey, as I do?" "What are you here for, drinking poor gin, when you can get the *real stuff* at the whig head-quarters," said another. So it goes for a week.—The horses and carriages—the turkeys and the good gin, all have to be paid for, by somebody; and the tax is becoming too grievous to be borne. The first thing a candidate has to do after his nomination, is to put his hand into his pocket and hand over fifty dollars—one hundred if he is able—and then stand his assessment with the rest afterwards. Pretty soon a man cannot be a candidate unless he is rich. This evil has been growing and growing, and will continue to grow, until the voters become demoralized, and the elective franchise made a matter of barter and sale, as much as it is in England, unless a stop be put to it. And how is this to be done? Let the leading men of all parties frown it down. Let no horses and carriages be sent after voters—and let such as do not choose to come to town meeting on their own account, stay at home; pay for no votes, no dinners, and no gin.—There is one other mode of curing the evil, partially—and that is to ADOPT THE CITY CHARTER—vote in wards, and finish the business in a day, instead of a week.

AN EX-CANDIDATE.

RECIPROCITY.—The reciprocity bill does not appear to meet with much favor at the hands of Congress, and a strong opposition to it has sprung up outside of Congress. The interests to be reconciled are so many and conflicting, that it will be extremely difficult to frame a bill to meet the views of all parties.—*Boston Chronicle.*

That is true. Almost every man in this country, who has a trade, or does any business, wishes his trade or business to be *protected*. He may be a free trader in theory: but in practice he wishes to favor himself.

Mr. Schoolcraft, a U. S. Indian agent, calls the attention of Congress to the subject of Indian Colonization. He asks, what is to become of the Indian refugees now on the public domain, and in regard to whom the faith of Congress and of this Government stands solemnly pledged? The question is a timely one.—*Portland Advertiser.*

The policy advocated and adopted by Mr. Jefferson, was to civilize and fraternize the Indians in the United States; and this policy, with more or less steadfastness, was continued till General Jackson's Presidency. Then the policy of removal was recommended and commenced, and has ever since been continued. Mr. Schoolcraft's question is *timely*—but we have very little hope of a favorable answer. Wm. H. Crawford, Thos. H. Grimke, and Wm. Wirt, are dead—and the "poor Indian," among political men, has no friends whose voices can prevail on our government to be generous or even just to the red man.

FIRE IN SANFORD, ME.—On Saturday morning, the 20th inst., a dwelling house, store, and several adjoining buildings, belonging to Mrs. Harriet Allen, widow of Gen. Allen, were destroyed by fire. Loss nearly $3,000; no insurance.

Thirty-Second Congress—Second Session.

WASHINGTON, Feb. 21.

SENATE.—The chair laid before the Senate a message from the President, in reply to the resolution calling for copies of application by British fishermen, for leave to fish off the coasts of Florida. Referred and printed.

Mr. Hunter moved to take up the army appropriation bill.

Mr. Walker moved to take up the homestead bill.

Mr. Hunter earnestly urged that the morning hour should be devoted to the appropriation bill.

Messrs. Walker, Gwin, Dodge and Rusk, urged the consideration of the homestead bill.

Mr. Bell was sorry to see the Senator from Texas willing to give precedence to any measure over the Pacific Railroad bill.

Mr. Rusk said that there is no Railroad bill. There was one, but it is dead.

Mr. Bell would like to know something of the manner of its death.

Mr. Rusk replied that it was killed, disjointed and destroyed, on Saturday, amid much "noise and confusion," by the adoption of the amendment of the Senator from Illinois (Mr. Shields.)

Mr. Shields and others continued the debate.

A rambling discussion took place between the friends of the Railroad and the friends of the Homestead bill, as to which should first be taken up. The question was finally put on taking up the homestead bill and negatived—yeas 23 and nays 33.

The Pacific Railroad bill was then taken up, and the vote adopting Mr. Shields's amendment reconsidered. The question then recurred on adopting it.

After the question had been debated by nearly the same speakers as above, the question was taken, and the amendment of Mr. Shields was rejected—yeas 24, nays 28.

Mr. Weller moved to amend the bill, by adding after the appropriation of $20,000,000, a clause to the effect that the said sum shall be expended exclusively in the construction of the road, which runs within the territories.—Agreed to, 27 to 25.

Mr. Brooks laid on the table a substitute for the whole bill, which was ordered to be printed.

HOUSE.—The House took up the civil appropriation bill, and concurred in upwards of 70 of the amendments reported from the committee of the whole.

Among the appropriations passed were those providing $115,000 for the Custom House at St. Louis; $88,000 for the Custom House at Louisville; same amount for the Custom House at Cincinnati; $324,000 for the Custom House at New Orleans; $18,000 for the salary and outfit of the Minister to Central America, and $25,000 for new furniture for the President's house.

The House then went into committee on the Indian appropriation bill, but after reading the title, the committee rose, and the House adjourned.

☞ Gen. Pierce the president elect, arrived in Washington on Monday afternoon. Mrs. Pierce, who is now in Boston, is to leave on Friday for the Capital.

EAST INDIA SOLDIERS.—There is a report that the East India Company intends to increase the number of Europeans in its army. The total of the Indian army is at present no less than 222,000 men. It has been a terrific engine of oppression and cruelty to the natives, a grave to thousands of Europeans, and a source of wealth to the British Company and Nation.

FIRE AT WEST CONCORD.—On Saturday morning last, about three o'clock, the buildings at West Concord village, occupied as a lead pipe manufactory, blacksmith shop, and machine shop, were totally consumed. The property consumed is estimated at about twenty-five hundred dollars.

THE SCANLAN RIOT.—In the Boston Police court, on Monday, Michael Scanlan was brought up, charged with an assault on watchmen Wright, Young and Richardson, with intent to kill and murder. The physician testified that Mr. Wright was not yet out of danger, whereupon he was committed, without bail, for examination on Tuesday, March 1. John Scanlan, Joanna, (his wife,) Joanna Howard, (his daughter,) and Mary Mining, were examined on the charge of assaulting wachman Young, and were severally held in $1000 for further examination on the 1st of March.

The Albany Evening Journal says—"Candidates for office are making all sorts of presents to Gen. Pierce. From one he gets a splendid carriage, from another a pair of blood horses, from a third a complete wardrobe, &c. These fellows probably think they understand the trick of getting a good deal of water out of a pump by pouring a little in."

The Montenegran war is waged ostensibly for the enjoyment of religious freedom and for the maintainance of Christianity. If England interferes in favor of the Turkish government, she will be stigmatised as the supporter of Mahomedanism!

SINGULAR MAN.—Reese E. Price, a resident of Cincinnati, who is possessed of considerable of this world's goods, has made a proposition to the Legislature of Ohio, for a dissolution of his partnership with the State. He considers the notions of the commonwealth antagonistic to those entertained by himself, and does not desire fellowship with it. He proposes to pay his portion of the State debt, which he estimates at $500, and be absolved from all allegiance.

GIBRALTAR.—It is stated that the expense of maintaining that fortress is $850,000 per annum, and the revenue derived from it is but $150,000—leaving a balance of $700,000 to be made up by Great Britain.

LOCAL.

OUR LYCEUM—FAULT FINDERS.

It is easy enough to find fault,—to be ever complaining; it is not so easy to show cause for all such murmuring. With last evening's lecture closed the course before the Portsmouth Lyceum. On the whole, we desire to express our thanks to the management of the present season, for the very acceptable treat they have given us. Their office is rather a thankless one—for it is no easy thing to furnish lectures universally acceptable to a mixed audience, with all sorts of opinions—some with none; wanting every kind of a lecture—and many not knowing what they *do* want.—We think there has not been a lecture in the course just closed, from which every person present could not gain much information—and taking all into account, the beautiful room furnished for the occasion, the cheerful company present, and the fine course of lectures, we think the officers deserve the cordial thanks of all ticket holders.

There are some persons determined never to be suited—not very unlike the old lady mentioned in the Manchester papers of last week. Dr. Holmes—the gentleman who lectured before the Portsmouth Lyceum on the first evening of this course—delivered a Lyceum lecture the other evening, which kept the audience on a broad grin of laughter for half an hour. An old lady who had been accustomed to hear clergymen lecture only, on leaving the hall remarked—"Well, if this is the Lyceum I should like to know it; but if it is going to be turned into a theatre in this way, I shall have nothing more to do with it."

We commend her case for consideration.

PORTSMOUTH LYCEUM.—The closing lecture of the course, on Tuesday evening, was delivered by Hon. Josiah Quincy, jr., of Boston, on the Mormons and their Prophet. Mr. Quincy, besides the acquaintance which every well informed man has or may have with the rise and progress of the Mormon Church and State, had the honor of making Joe Smith's acquaintance at Nauvoo, when the prophet was in all his glory; and enjoyed the privilege of learning his doctrines, his polity and his pretensions, all from his own lips. With these advantages, and a rare knowledge of the world, the late Mayor of Boston stood before us, a dignified and yet familiar lecturer, offering to us now humorous remarks and now profound—interesting every hearer, grave or gay, and giving us a closing lecture which was well worth the ticket and the time for the whole course, and leaving a good impression of this season, which will aid materially in procuring good subscription and a full house for the next year.

MR. LAMSON'S LECTURE.

The fourth of Rev. Mr. Lamson's course of Lectures to Young Men, at his church on Sunday evening, was very fully attended.—His discourse was from the text, "the Sabbath was made for man;" and was listened to with close attention by the large audience. We can hardly take so dark a view of the prevailing state of morals in New England, as did the lecturer; but his remarks cannot fail of good results.

It is to be hoped more attention may be manifested toward the class to whom these lectures are especially directed, than has been the case for a few years, in our city. We have heard the wish often expressed, that some of our divines would deliver a course to young ladies—which has been frequently done in other places. At all events, we wish there were more Sunday evening lectures in our churches.

A visitor at the Middle st. Church is sure of receiving, what he is *not* certain of getting at all our churches—a cordial reception. The members of that congregation seem to be aware that it is their duty to do something more than allow a sexton to point the stranger to a spare seat. We have often had occasion to observe this ourselves, and have heard it remarked with gratitude by others. We wish some of our other congregations would take pattern.

THE ICE BUSINESS.—We understand the well known firm of D. Draper & Son, of Boston, are engaged in quite extensive ice operations at South Berwick this season. They have had built by a firm in this city, three large ice houses, 100 feet by 40, and for a number of days past, they have been storing large quantities in the store-houses on Rindge's wharf, in this city, which was brought down on the P. S. & P. Railroad. The ice is clear, from twelve to eighteen inches thick, and will compare favorably with any other ice. We think some enterprising men of this city could make a fine business in Portsmouth of this article, as we have good railroad communications, and (alas!) any quantity of empty warehouses.

☞ The usual national salute was fired yesterday at the Navy Yard in commemoration of the birth day of George Washington.

Remarkably mild weather seems to have been experienced in England as well as in this country. An English paper says:

"On the right of the road leading from Weymouth to Smallmouth Sands, in a large field occupied by a cow keeper, there was witnessed on Saturday last, the extraordinary scene of men *mowing grass in the middle of January.*"

MARKETS.

NEW YORK, Feb. 22.—Cotton unchanged: prices still favor buyers. Flour—State is easier, demand less animated; Western is quiet; the steady advance in freights checks business; sales 2200 bbls Western canal at $4 94 a $5 for State, $5 25 a 5 50 for Michigan and Indiana, $5 31 a 5 44 for Ohio, Southern is less active; low grades are easier; 700 bbls sold at 5 37 a 5 50. Corn is in good demand, with a better supply of yellow, of which prices are lower; sales 80,000 bushels, at 64 a 64½c for New Orleans, 65 a 67 for Southern white, and 65 a 68c for do yellow. Pork is unchanged. Beef is steady and unchanged. Lard is less active and buoyant at 10½ a 10¾c.

MARRIAGES.

In Concord, A. K. P. Joy, Esq., of Boston, to Miss Clara A. Browne.

DEATHS.

In this city, Feb. 21, John Stearns Pickering, aged 5 years, the only surviving child of Lieut. Charles W. Pickering. "I want to see some flowers," was his expression about 12 hours before his decease; "Show me my flowers," he said a few minutes before his last. Do not these beautiful sentiments, expressed by one so patient in spirit afford us who are survivors a tangible assurance that he was then entering upon a state of undecaying beauty and unclouded felicity?—COM.

The funeral of this child and his little sister who died on the 19th inst., will be on Thursday next at 10 o'clock, A.M., from the Episcopal church.

In New Bedford, Mary, wife of John Swain, a native of the Sandwich Islands, aged 52.

THIS EVENING.

From the N. H. Independent Democrat.

Anti-Slavery in the Granite State.

MR. EDITOR,—With your permission, I wish to announce that my friend Stephen S. Foster and myself propose spending a few weeks in the State of New Hampshire, to call the attention of the humane portion of the people to the subject of Slavery. This we shall do independent of all parties in politics, and sects in religion. And it is to the people themselves, in *their primitive capacity*, that we wish to speak—and not to them as political partizans, or religious sectarians.

The anti-slavery enterprise, as represented by us, is strictly *moral and religious* in its character. We believe in a Law higher than all Human Enactments or Constitutions. And we regard Slavery as it exists in this country, a violation of every one of its principles and provisions. And it is as such that we assail it, at all times, in all places.—With us, the Slave Trade was as much Piracy before 1808, as it was after the law of Congress, declaring it Piracy, in 1822. Nor is Slavery more or less a crime in California than in Carolina—in New Orleans than in New England. Nor is it more heinous in the sight of God to return a fugitive slave, than by a union with slaveholders to aid to hold millions in bondage, in all the passing generations. Nor do we believe a "*jury trial*" can prove any man a slave or free, who bears the image of his Creator and God.

In a word, our warfare is with the doctrine, that that man or race can, under any possible or conceivable circumstances, hold property in his fellow man.

Our motto is not, "*Slavery sectional, Freedom national*?" It is, rather, FREEDOM UNIVERSAL, AND SLAVERY NOWHERE in the Universe of God!

In promulgating these doctrines, we shall ask the aid and co-operation of every one who loves man or reveres his Creator. We shall assail nothing that does not lie in the way of the freedom of the slave. But we can make no compromise with any institution or association that leagues itself with the tyrant.

We shall hold a Convention for proclaiming the Gospel of Liberty, and Love to Man, in the City Hall at Manchester, commencing on Saturday evening next, the 15th inst. at 7 o'clock. To that gathering we invite the people without distinction, not only to hear, but to speak, as the spirits of truth and goodness shall give them utterance. Let full liberty of speech be enjoyed, and we can pray with faith as well as fervor, 'God speed the Right!'

Yours in the Cause of Truth and Humanity,
Concord, Jan. 11. PARKER PILLSBURY.

In accordance with the above notice, PARKER PILLSBURY and STEPHEN S. FOSTER will commence a Course of Lectures at the TEMPLE on WEDNESDAY evening, Feb 23d.
Portsmouth, Feb. 21. JAMES NOWELL.

f15 S. J. DODGE & CO.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

EIGHTEEN DAYS LATER FROM SAN FRANCISCO.

New Orleans, Feb. 20.—The Delta has received California dates to the 2d of February, only eighteen days from San Francisco; brought from Acapulco to Vera Cruz in five and a half days, and thence to New Orleans by the steamer Albatross, thus making the quickest time on record between this city and San Francisco.

The mail steamship Tennessee sailed from San Francisco for Panama on the 1st inst., with $2,430,000 in gold, mostly consigned to parties at the North.

The markets at San Francisco had been affected unfavorably in consequence of the unusually large number of arrivals. Chili Flour had declined to $22 a 24. Pork continued firm—Mess $40, Prime $24. Beef, Mess $23. Hams 24 cents. Rice 9 cents. Adamantine Candles 31 cents. Mackerel, No. 1, $26.

Madame Biscaccianti came down to Panama, and goes to South America in the next British steamer.

Miss Hayes is still singing at San Francisco, and meeting with great success. The proceeds of her concert for the benefit of the orphans netted over $1200.

ARRIVAL OF THE ERICSSON.—*Washington, Feb.* 22.—The Ericsson arrived at Alexandria last evening, from the mouth of the Potomac, where she had been at anchor for 27 hours, during the late snow storm and thick weather. Captain Lowber weighed anchor at Sandy Hook, at half past 9 Wednesday evening, in the face of a strong gale and heavy sea. During the gale the ship stood the test nobly, her engines making six and a half revolutions a minute, with the utmost regularity. The engines had then been in operation 73 hours, without being stopped for a moment or requiring the slightest adjustment. Only one fireman was on duty at a time during the whole trip. The consumption of coal was under five tons in 24 hours.

New Orleans Feb. 17.—*Burning of a steamboat.* The steamboat John Swasey, with 1200 bales of cotton on board, caught fire this morning during a gale, and will probably be a total loss. The St. Charles, alongside, also took fire, and was somewhat damaged.

OUTRAGE ON AN AMERICAN VESSEL.—*New York, Feb.* 22.—The Sun states that while the barque Apollo of this port, was recently lying in the port of Palermo, she was boarded by the police under the direction of the authorities, and a large number of bibles and testaments belonging to the ship and crew were seized and carried ashore and burnt.

Washington, Feb. 22.—Mr. Walter, the architect of the Capitol, will lay his defence before the investigating committee to-day.

Mr. Weller's amendment to the Pacific Railroad bill is considered as identical with that of Mr. Shields, and has probably killed it. It is thought that Mr. Brodhead's substitute will be adopted. This contemplates merely a survey of the route at government expense.

Rachel Parker, the rescued colored girl, was brought to Westchester, Pennsylvania, on the 31st ult., by Mr. Joseph Anderson, to appear before the Grand Jury, to take action against Thomas McCreary, of Elkton, charging him with kidnapping. Mrs. Miller, widow of the late Joseph C. Miller, was also before the Grand Jury.

SCARCITY OF VESSELS.—At Portsmouth, Va., they stand greatly in need of "coasters" to load with corn and other produce for the northern markets, and most of the merchants are pinched to know what to do temporarily with their produce.

A NOBLE-HEARTED BOY.—The *Cleaveland Herald* says, an Irish boy of that city, only seventeen years of age, has just welcomed his parents to a republican home. He has been working for several years, part of the time at four dollars a month, and from his wages has saved enough to bring his father and mother to live with him.

At the sale of the effects of the late Commodore Morgan, at the Washington Navy Yard, the carriage and horses brought $1,300. The stock of brandies sold readily at six dollars and fifty cents per gallon; Sherry and Madeira wines $17 per dozen, and the "Johannisburg" (wine) changed owners at sixty-six dollars per dozen!

AN ITALIAN ORATOR.—The Boston Transcript says,

The celebrated Father Gavazzi may soon be expected among us. His lectures on Italy and Romanism, have been received in England, Scotland and Ireland, with great applause. He is a brilliant speaker, and perfectly acquainted with the subjects of which he speaks.

THE ESSEX FRIGATE, the identical ship captured from the United States, in Valparaiso, by the Phebe and Cherub, was advertised by the Admiralty, June 17, 1837, as to be sold on the 6th of July following, and was thus described—Essex 42 guns, 867 tons burthen.

FREE SCHOLARSHIPS.—The visiting Committee of Harvard College, in their report to the Overseers of that institution, make important suggestions in relation to giving children a collegiate education at the State's expense. The suggestion is as to the expediency of the State appropriating or increasing the School Fund, so as to provide scholarships at Harvard for meritorious youth from the public schools, whose application and advancement in study shall make them worthy of having their education completed under the paternal care of the State. It would be a great prize to hold up to the view of the children of the common schools.—*Charlestown Advertiser.*

VALUABLE PROPERTY FOR SALE
IN FRAMINGHAM, MASS.
THE house heretofore known as the FRAMINGHAM HOTEL, situated in Framingham Centre, Mass., having been put in complete and thorough repair throughout, is now offered for sale. The main house is 100 feet on the street, 60 feet of which has a piazza, and contains 30 rooms, including a large hall; has a large and dry cellar, Ice House, and the best of water. The whole premises have been occupied the past year as a private residence, during which time many improvements have been made in and about the house and grounds, the front yard having been enclosed, set with large trees, and grassed. The house is well calculated for a genteel Boarding House or Hotel, for which it is much wanted; and the Board of Education have decided to remove the State Normal School, now located at West Newton, to Framingham, the site for which is only a few minutes' walk from the premises, makes this property particularly desirable for this purpose, as it will secure, in connection with boarders from the city, a profitable business the year round.

It is also desirable as a private residence, having every convenience as such, and being situated in close proximity to the Common, several Churches, High School, (free,) and only a few minutes' walk from the depot. The size of the House, to any one having a large family, would not be objectionable, since and comfort of a residence in the country; or a part of it could be so used, and the remainder let, without inconvenience. To persons, therefore, in pursuit of property for either of the above purposes, or for investment, an opportunity offers rarely to be met with. Terms of sale will be liberal, and possession given at any time.

For further information, apply by letter or otherwise, to L. WIGHT, Framingham, or in Boston to J. K. PORTER & CO., 27 Water st.
Dec. 27. WSistf

Coal Burners
OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE.
f3

Thermometers.
IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.
Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.
This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.
The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.
Also, a few Papier Mache Mantle Thermometers

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair,
CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—Its incontestible virtues. It imparts the fragrance of the most delight full and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIER, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents. Sold to the trade at a liberal discount, but consignment is no instance.
D. S. BARNES, *Proprietor,*
161 Broadway, New York.
Sold in Portsmouth by Joseph H Thacher, cor. State and Pleasant sts, and Wm. R. Preston, No. 2 Congress Block, Congress st.
Weeks & Potter, 154 Washington st, Boston, Wholesale Agents for New England. 1s6mf11

From the Philadelphia Evening Bulletin.

MR. EDITOR;—Your paper of Saturday, 22d ult., contained a notice of a Mohamedan negro in slavery in this place, and your Washington correspondent in his letter of the 24th, alludes to that notice. I know the old man well, and beg leave to correct a few errors which have crept into the papers concerning him.

"Uncle Morean,(not More) or "the Prince," as he is called about the town, from a vague rumor that he is the son of an African King, is the servant of General James Owen, who purchased him out of benevolent feelings, from a harsh negro-trader, many years ago. He is now 86 years of age. He is not a Mohamedan now, but a very sincere and devout Christian, a member of the Presbyterian church. He has no copy of the Koran at present, but a few friends procured for him, after he became a Christian, a copy of the Bible in Arabic, in which he daily reads many chapters, and which he translates with great aptness and force for his visitors. He writes the language yet with much clearness and beauty. He is very reserved upon the subject of his early history, and is singularly averse to the thought of returning to Africa. His manners are quite courtly and graceful, and no one is more respected here than the 'old Mohamedan slave.'

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1836.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured sooner than earlier*, he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1852. eodly

Office, No. 4 Exchange Bldgs., Pleasant St.

DAILY CHRONICLE—$4 per annum, payable half-yearly; or $3 strictly in advance. If payment is made for a year, within six months of the time of subscribing, fifty cents will be deducted.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

BOOK, JOB AND CARD PRINTING

OF EVERY DESCRIPTION;

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

IT'S NOTHING.

Who has not known young men and young women, who upon every slight variation from rectitude, would carelessly say, "Oh that's nothing!" Aye! and who has not known some noble friend—some once delicate young lady, whom shame has made reckless, and who has at last been ruined by a perseverance in that very injurious habit?

"Why did you speak so harshly to your mother?"

"Oh that's nothing."

It's nothing, only the child lives to break the mother's heart; to lay her hairs, whitened by his disobedience, in her grave. And he learns, too, that they who honor not father and mother, end their own lives in anguish and dishonor.

It is not well, young lady, for you to spend your evenings in moonlight walks with the wild and irreverend. Home is your sanctuary, especially in the silence and danger of the evening. You are doing your good name injury.

"Oh! that's nothing."

Say you so now, poor creature? Lay your shaking hands on mine, as it rests on the scant cover-lid, and tell me your history.—"Early I learned to dislike home—its restraints—its simple pleasures. Sought for companions, the merry, the thoughtless, without consideration of principle. Was lured from innocence; deserted; and all because I used to think it was nothing: Oh how often have I said, 'It is nothing!' when my best friends warned me of the consequences. Those little words, how many have they ruined."

Beware, then, and when temptation comes say not "It is nothing." Throw the wine cup from you—touch not the miserable card—forbear to spend your Sabbath in selfish amusement—remember what that dear old mother said as you left, "My son if sinners entice thee, consent thou not." Beware how you put your hand to the till of your employer, to take therefrom one cent—even if you intend to replace it.

THE LION WITH A TENDER CONSCIENCE. A gouty old gormandizer of a lion lay in his cave on a litter of dead men's bones, glutting himself with the blood of women and children, which his servants brought to him from all quarters of the earth. An attendant announced that His Majesty's eldest son, who had left the paternal cave many years before to seek his fortune, had returned and wished to pay his respects to the governor.

"So that ungrateful 'ound has come back, has he? cried the king of beasts, mumbling a baby's skull between his old failing molars. "What does he look like?"

"Big and dang'rous, your majesty," the attendant said. "He growls like distant thunder, and cracks his tail like a cart-whip. He is thought to resemble your majesty."

"Hum!" grunted the old lion. "Show him in. But stop. Wot kind of a character does he bear? It seems to me that we have heard some complaints against him; which is werry odd, for I took partic'lar pains to teach him the catechism myself, when he was a cub, and gave him lessons in humility every Saturday night."

"Oh, Sire," the attendant said, he generally behaves himself pretty well, considering; but he has somehow got a liking for human flesh, and now and then eats a man up."

"Wot a 'orrible and hextrod'nary circumstance!" roared this old lion. "Go tell the 'orrid young cannibal that I can't set my eyes on him without 'orror. Its tchoo 'orrid for belief! And after all his lessons in humility and the catechism, too! I can't be'old him. Bid him begone; but say to him that me prayers are daily offered in his be'alf."—*Knickerbocker.*

PUNNING.—A correspondent complains of the annoyance he receives from hearing puns, and desires us to publish his complaint. But if he has reached the age he affirms, and has no greater trouble to endure than to listen to bad puns, he is a fortunate mortal. Such a recreation as punning is at least dabbling in the elements of wit, whereas a starch and formal gravity is an evidence of nothing but dullness. It is much easier to condemn a good pun than to make one, and Dr. Johnson evinced his envy rather than his contempt when he associated punsters and pickpockets. —*Boston Transcript.*

TRIAL OF THE SPIRITUALISTS AT CHICAGO.—The County Court was occupied yesterday in the trial of two of the parties—Messrs. Pilgrim and Arnold—connected with the Bank of Seth Paine, on an indictment for inciting to a riot. The following is a portion of the testimony, of Mrs. Herrick one of the mediums:—"Had been in Chicago some months; had been employed in the bank to take money and pay it out; gave advice to Mr. Paine to open the bank on Tuesday, and let one person in at a time; this advice was given by the spirit of George Washington; did not know of any other communications; might have received one from Henry Clay; does not know who got a communication about the smoking; Henry Clay's spirit told them to receive all the bills and redeem them; receive communications three or four times a week; a rule of the bank was not to redeem money for any person who came in smoking; did not know of any revelation not to redeem money for dishonest persons." The jury in the case were out all night, and came into court this morning. Could not agree, and were discharged.—*Chicago Journal, Feb.* 16,

A trial of this kind on such subjects, is a mere farce. It ought to have been a hearing before the commission of Isanity, on the question. Are these men in their right mind—and the commissioners would certainly have said No. These poor fanatics should have been in the Asylum—not in the court nor the jail.

Marble Mantles, Monuments, &c.

THE subscriber being about to change the location of his Marble Establishment, it is desirable to dispose of as much of the finished work now on hand as possible, previous to the removal, and therefore invites purchasers to an examination of a variety of

MARBLE MANTLES, MONUMENTAL WORK, &c., of various qualities and patterns, which will be sold at prices lower than usual, and as low as the imitation. The mantles consist of Italian Statuary, and veined, Broccatello, Sienna, Egyptian, Mosaic, and other fancy Marble.

DAILY
Morning Chronicle.

PORTSMOUTH:
THURSDAY, FEBRUARY 24, 1853.

CHANGE BILLS.

The want of silver change is seriously felt among all classes of business men in this city, in common with all other business places around us; and a similar complaint is made in every part of the country.

Congress is attempting to pass a silver change bill, which is intended to supply the deficiency,—and if it becomes a law, it will do something towards it. But it will be only a partial relief. Every body, the mechanic and the farmer and the laborer, as well as the shopkeeper, needs an abundant supply of convenient and comfortable change, for daily and almost hourly purchases.

A hard money friend of ours complained yesterday, as he gave us a dollar bill for a hundred copper cents, that he had to carry a pound of copper in his pocket constantly, to get along with making change. A trader says he has several times, within a few days, lost the sale of goods, by inability to make change on either side. And a good old fashioned man suggests that we should get up a petition to our legislature, to authorise our Banks to issue bills of 25 and 50 cents each. He says he can see no possible objection to the plan, while it would possess many advantages.

We approve of his suggestion, and indeed have offered something like it, already. We used to have in New Hampshire, forty years ago, bank bills of 50 and 75 cents, which answered a good purpose, and never did any injury, so far as we know.

We would therefore recommend such a movement, and believe that such a petition would be signed by many, but opposed by none.

It would not be an object sufficient for all the banks to procure change plates of half and quarter size, (which these bills ought to be;) but two or three banks, say one in Portsmouth or Dover, one in Exeter or Concord, one in Haverhill or Keene, being specially authorised, would issue enough to supply this State and a few of our neighbors with change bills.

If there is any objection to the plan, we should like to see it stated; if not, shall we have the small change?

FISHERIES—AND COASTING TRADE.

The following debate on these subjects, took place in the House of Representatives at Washington, on Tuesday.

Mr. Fuller of Maine continued his speech from a former day. He alluded to the arguments of the friends of the bill, that it would promote the interests of manufacturers and railroads. He did not deny this, but contended on the other hand, that it would operate injuriously on the interests which he more immediately represents. It was for Congress to determine whether the gain would warrant the sacrifice, and who is to be the victim.—The difficulties on the fishing coast he had learned were set on foot for the purpose of annoying the United States, and compelling us to enter into reciprocity. He was desirous of settling these questions. As the provinces are not on the basis proposed, he designed to submit an amendment, which will give them a fair equivalent. The bill, he contended, was called one for reciprocity, but the advantage was all on the side of the Provinces.

Mr. Sabine of Massachusetts offered a substitute for the bill under consideration—regulating the taking, curing and selling fish and oil obtained therefrom, between the inhabitants of the United States and the inhabitants of the British Provinces. He said there would be no measure of reciprocity matured during the few days remaining of the present session, and that he was desirous, at least, of patching up the fishery difficulty till the new administration could have time to act upon the whole subject.

Mr. Tuck of New Hampshire asked that the bill be not voted against until attentively examined. The first authority in relation to reciprocity came from James K. Polk, late President of the United States. The second authority is James Buchanan, who recommended the matter with respect to the Canadas. It had been fortified by the authority of previous Congresses, and now comes here doubly fortified. We have an opportunity of accepting the terms generously offered by Great Britain and her Colonies upon the subject, and of settling the difficulty arising out of the fishery question. Unless this be adjusted, he feared there would be danger of bloodshed on the fishing coasts next summer. He would meet the question on broad, national, and not on sectional grounds, as was sought by the gentleman who preceded him in debate. That gentleman's proposition was for the purpose of defeating, not insuring, the passage of the bill under consideration.

Lottery broker up.—The Boston police made a descent on Tuesday morning, upon the Vermont Central House, and arrested Asa and Hiram D. Pattee, keepers thereof, for getting up an illegal lottery, which was then drawing in the house. About 1000 spectators were dispersed, and the police seized all the prizes they could lay their hands on.

At Green Bay, on the 20th January, Mr. Abraham Place was married to Miss Petanan-quat-tau-quay. We should say the lady had made a happy change of name.

QUEEN MARY OF ENGLAND.

We have, in McGee's Reformation in Ireland, the sunny side of Queen Mary's character. His brief narrative says,

The death of Edward, in July, 1553, and the accession of Mary, daughter of Katharine of Arragon, gave the harassed Irish church a reprieve. Her marriage with Philip of Spain, the following year, still farther augmented this hope, which, for a season, was fulfilled, so far as the church was concerned. The banished bishops were restored to their sees, and the desecrated churches to their ancient uses. The restoration of the church lands was postponed, until, by the queen's death, it was rendered impossible.

The priory of Kilmainham, restored to the knights of St. John, was the only act of restitution of this kind of property in Mary's short reign. Doubtless, if she had lived, the other religious estates would also have been restored to the right owners.

The Spanish marriage had a great effect in preparing the irritated and insurrectionary spirit of the Irish people for peace. In Philip, and in Philip's influence, they had every confidence; nor was the queen without her personal claims to their regard. Apart from the heroic constancy with which she had persevered in the profession and practice of her faith, she had other good qualities, in Irish eyes.

She pardoned O'Connor, of Offally, who was imprisoned by Henry VIII.

Not alone in this, but in other cases, did Queen Mary do justice towards the Irish race. Gerald and Edward, sons of the Earl of Kildare, who had been sixteen years in exile in France and Rome, were restored to their estates and titles. The heir of Fitzpatrick, Earl of Ossory, was also permitted to return, and resume his rank and property. "The greatest part of the south of Ireland were much rejoiced" at this unhoped-for restoration of ancient Catholic families. The towns and cities were in special good humor. The only retaliatory measures they took against the reformers was the infliction of some nicknames. No Protestant suffered in life, or limb, or property. Nay, adds one of themselves, "Such was the general toleration, that many English families, friends to the reformation, took refuge in Ireland, and there enjoyed their opinions and worship without molestation."

It may be thought strange, by some, that "bloody Mary," as she has been called, who was so bitter a persecutor in England, should have been so tolerant in Ireland. Our author, Mr. McGee, tells us, that

The following Protestant anecdote of this reign is inserted for what it is worth:—"Mary despatched Dr. Cole to Ireland with a commission for punishing the Protestants; Cole stopped at Chester, and being waited on by the mayor, a Romanist, Dr. Cole's zeal outran his discretion, and he exclaimed to the mayor, while holding up a leathern box, '*Here is a commission that shall lash the heretics of Ireland.*' The landlady, Elizabeth Edmonds, who was a Protestant, and had a brother of the same creed in Dublin, became alarmed, watched her opportunity, and placed a pack of cards, wrapped up in a sheet of paper, and abstracted the commission. Dr. Cole arrived in Dublin, 7th October, 1558. The lord-lieutenant convened a full council to receive Dr. Cole and hear the queen's commission read, but when with great solemnity the box was opened, nothing but a pack of cards was found. The astonished doctor declared he had received a commission, and proceeded to England to obtain another, or a copy; but while on his journey, the brief but iniquitous career of Mary was stopped, and the lives of many Protestants were saved.—Mrs. Edmond's received a pension of forty pounds a year from Queen Elizabeth."

This quotation is *worth* exactly its *truth*—for there is no great reason for calling it in question. In proof of this, we quote Mr. McGee, who says,

The pope, (Paul IV.,) in June, 1555, confirmed the title to the kingdom, which Mary inherited from her father. A national synod, held the same year, restored the canons law, and effected much for the purity of religion throughout the island. In 1556, an Irish Parliament sat at Dublin; thence was prorogued to Limerick, and afterwards to Drogheda.

By its acts the queen's legitimacy was admitted; she was invested with royal authority, and her posterity declared entitled to inherit the crown of England and Ireland; heresy was made liable to punishment, and ordered to be suppressed!!!

Here we have it. Heresy was to be suppressed in Ireland—but Mary had had her hands full of trials and blood in England till near the close of her five years' reign—and then, just as she was sending over an executioner to suppress heresy in Ireland—death laid his hands on her, and persecution failed.

We need not encumber our columns with quotations from English History—but will just name Lady Jane Grey and Lord Dudley her husband, who were beheaded by Queen Mary,—and then allude to the long list of martyrs, whom she suffered Gardiner and Bonner to send to the stake, to be burnt for their want of conformity to the church.

Among those thus burnt, were Cranmer and Lattimer, Ridley and Taylor, Saunders and Hooper, and last but not least, Rogers, whose name and family are cherished by all New England.

In her short reign, instigated by crafty priests and by her own superstition and bigotry, she *burnt to death in religious fires*, two hundred and seventy seven persons, of whom fifty five were women, and four were children; and her name stands scorched and blackened by cruelty and sectarian hate.

Tall Candles.—A firm in Cincinnati, advertise in the Catholic Telegraph, Easter candles. They are seven feet high, and "in quality are comformable to the rubric, and will be furnished, securely packed, at $4 each."

LOCAL.

Reported for the Chronicle.

Court of Common Pleas—Feb. Term.

AT EXETER—TUESDAY.

State *vs.* Samuel E. Caswell—Breaking house of Joseph Banks—plead guily on three indictments. Sentenced to five years State Prison, on one indictment.

The case State *vs.* Elderoy Bunker—receiving goods, stolen from J. B. Tilton, is now on trial.

Hatch and Small for State, Wells and Stickney for Respondent.

Charles H. Merrit, indicted for offences connected with the above, turned state's evidence.

Mrs. Wentworth.—This lady, a native of Portsmouth, is spoken of in the following flattering terms by the Boston Transcript.—Speaking of her performances at the Handel & Haydn Society's concert last Sunday evening, the writer says, "Mrs. Wentworth, the universal favorite, gained fresh laurels by her sweet, true and artistic rendition of the principal gems of the Messiah. The more we hear this charming vocalist, the more thoroughly are we convinced that Boston has great reason to be proud of so delightful an interpreter of the vocal beauties of the great masters. Such worth, and such painstaking on the part of a singer, will not be lost upon an appreciating public." It is rumored that the same performance will be repeated next Sabbath evening.

The Mayoralty.—At the caucus of the Free Democracy of this city, holden at their head quarters, Brackett Hutchings was unanimously nominated as their candidate for Mayor.

☞ Stephen S. Foster the well known anti slavery lecturer, held forth last evening at the Temple, on his usual topic, and with his usual ability and force. He had an attentive and well-behaved audience of an hundred people; and is decidedly improved in his personal appearance.

☞ By advices from Havana, it appears that Mr. King, Vice President elect, of the United States, is not at all improved in health. He himself despairs of recovery. He has gone to Matanzas, not having seen the captain-general at Havana, on account of some point in etiquette, on which Mr. King seemed to stand very nicely, considering that he is a dying man.

The Protestant Bible.—The Boston Pilot of the 19th February, incidentally remarks, that "The Italian Protestants value the Protestant Bible only as a political essay. Truly it is little else."

We have had access to the Douay (Catholic) translation of the Bible for years, and have always regarded the difference between it and our common or King James's Bible, as very slight indeed. We should not hesitate to read or use the Douay any where. Some literary man of leisure, either Catholic or Protestant, would confer quite a favor on the community, by collating the two, marking every important difference, and publishing the result of his labors in a little tract. We would suggest this to Catholics especially.—No possible harm, but on the contrary much good, may come out of a mutual knowledge of each other's tenets, preaching, and books.—Truth is never afraid of investigation. Only falsehood skulks.

The Boston Transcript.—The Newburyport Herald says, "Our well-known Boston corespondent, Daniel N. Haskell, Esq., (Merrimack) who, for five years past has averaged about one letter a fortnight for our columns, has assumed the editorial charge of the Boston Transcript. We are sorry to lose the favors of our friend, but are glad that he has taken an honorable and responsible position as a writer, and have no doubt he will fully answer the expectations of his publishers, and devote his time and talents faithfully to their interest."

☞ A Washington dispatch of Feb. 22, says, Ephraim Gilman, assistant draughtsman in the Land Office, formerly of New Hampshire, suddenly fell dead in the street this morning—supposed to be from disease of the heart.

The Portsmouth (Va.) Transcript states that the wages of the mechanics and laborers of the Navy Yard at that station have been raised, by an order from the Navy Department.

Attack upon a Temperance Meeting with Fire-Arms.—On Saturday evening, near the close of a meeting of an auxiliary Society of the Seventh Ward Temperance Association, while the President, Ira Buckman, Esb., was speaking, he was shot in the leg, the charge passing through his pants and boots, thus tearing the flesh in frightful manner. Immediately after the report of the firearms was heard, a person was seen taking refuge in a building opposite. The excited crowd soon surrounded the establishment and demanded the assailant's surrender. He was taken to the station-house, where he confessed the act, and said it was done with a torpedo given him by a man.—*New York Express.*

Mr. Van Buren.—We learn from the New York Herald that the Hon. Martin Van Buren, ex-president of the United States, is about to make a tour through Europe, with his son Martin Van Buren, Jr., for the benefit of whose health, it is said the journey is undertaken. This is the first time that any person who had held the distinguished position of President of the American Union, has visited Europe, and the spectable will consequently excite not a little attention there.

Mr. Van Buren may be regarded as an ex-King, and therefore, having a claim on royal hospitality, as in his day of exaltation he was commonly hailed as Martin the First. During his presidency, his son—the then Dauphin of America—was *feted* at the Court of Saint James, where he had the honor of having Queen Victoria's hand at one of the royal balls, and in commemoration of this event, as well as by hereditary right, the young Van Buren was dubbed "Prince John," a title which has since clung to him.

As Mr. Van Buren is, therefore, in some degree the legitimate represetative of the *ancien regime* of America, he will receive great attention in the Courts of Europe. The royal matron of St. James will doubtless not have forgotten the impression made on her by Prince John, and will take pleasure in honoring his father. Wherever he goes, we expect he will be *feted* as a distinguished guest.

Important from Mexico.—*Recall of Santa Anna.* President Cevallos has resigned. General Santa Anna has been recalled, and Colonel Robbes had arrived in the city of Mexico. President Cevallos, not being able to agree with Congress, has resigned. Gen. Uraga and the garrison of Mexico immediately pronounced in favor of Santa Anna, and his recall was ordered.

General Lombardine is made President ad interim. Some of the papers, however, express an opinion that General Uraga and the garrison are insincere in recalling General Santa Anna. Anastasius Bustamente, three times President of Mexico, died recently at his residence near Querretaro. The Minister of foreign Affairs has announced that all our contracts are complete.

ANTI SLAVERY.

☞ The second of the course of Anti Slavery Lectures by Parker Pillsbury and Stephen S. Foster, at the Temple, this (Thursday,) evening, will be on the influence of the North for the prospects of Slavery.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

Thirty-Second Congress—Second Session.

WASHINGTON, Feb. 22.

SENATE.—Mr. Gwin said that when the Army Appropriation bill was taken up, he would move to add to it the substitute moved by Mr. Brodhead to the Pacific Railroad bill, providing for a survey and exploration of the country.

Mr. Davis reported a joint resolution extending till the 1st of June the time for complying with the act for regulating steamboats in certain cases He said the steamboat owners wished to have it postponed until next May, that they may renew their efforts for its repeal.

The resolution finally passed.

Mr. Underwood, from the committee on foreign relations, made a report on the memorial praying for the substitution of arbitration for war on national differences, accompanied with a resolution recommending, in future, that in all treaties with foreign powers a clause be inserted to submit all difficulties of this nature to arbitration.

Mr. Mason, from a minority of the committee, said he dissented from the resolution, and from the reasons given therefor.

The Pacific Railroad bill was then resumed, and the amendment of Mr. Weller, which was pending at last night's adjournment, was agreed to.

Mr. Seward moved to amend by providing that so much of the road as may be constructed within the limits of any state beyond the Mississippi shall be within the control of said state; and that the Postmaster-General shall contract with the said state for the transportation of the mail over such part of the road, at a rate not exceeding $600 per mile per annum, for 50 years. He urgently pressed the passage of the bill, for which he said he was prepared to vote in any shape in which its friends might place it. A general debate ensued.

The debate was continued until four o'clock, when Mr. Badger said that there could be no doubt of the death of the bill, and he thought the least the Senate could do in honor of its memory would be to adopt the same proceedings that were always adopted on the death of a member of Congress, and he moved an adjournment. Agreed to, and the Senate adjourned.

HOUSE.—The consideration of the bill establishing free trade with the British Provinces, was resumed.

The Senate amendments to the West Point Academy bill were acted upon. Some members objected to include the appropriation of $12,000 for a riding school.

The Committe then rose. The Senate action on the West Point Academy bill was concurred in, and the House adjourned.

THE LOST DAUPHIN.

Rev. S. K. Lathrop of Boston, delivered a remarkably interesting lecture, last evening, before the Mercantile Library Association, upon the Claims of Rev. Eleazar Williams, to be the true heir and successor of Louis XVI., who was guillotined Jan 21, 1793.

At the breaking out of the first revolution the royal family of France, were either beheaded or dispersed. The young son and successor to the throne, under the title of Louis XVII., was placed under the custody of rude and rough jailors, who treated him with barbarous cruelty. The unfortunate boy is reported to have died in prison in 1795. In a late number of Putnam's Monthly Magazine, the claims and evidence to substantiate those claims, of Rev. Eleazar Williams, a half breed Indian preacher, as the son of Louis XVI. are put forth in strong and emphatic language. The object of the lecture was to examine those claims and show their utter invalidity.

The lecturer has been acquainted with Mr. Williams upwards of 12 years. The acquaintance commenced at that time, when he, Williams, came to this city in search of documents relative to the Indians, which it was supposed the lecturer might furnish from the fact that his grandfather was, for many years an Indian Missionary. Williams had a title to several lots of land which were mortgaged for $1500, and could not be renewed. The money was raised for him to redeem the lands, by the late Amos Lawrence, Esq.

Mr. Lathrop saw Williams again in 1845, at which time he referred to Prince de Joinville's visit to him. He said that the visit was on account of his wife, who was supposed to be related to the royal family of France, but no reference was made to his own relationship.

And then interviews took place between Mr. Williams and the lecturer in 1847, in this city. He was very much excited, and the lecturer asked the cause of the excitement. He at that time learned the story of Mr. Williams' pretensions to be the heir of the Bourbons. The story from Williams' mouth to Mr. Lathrop, differs materially from that given in Putnam's Magazine. There are many fatal discrepancies between the two.

Mr. Lathrop could not reconcile the two stories with a strong mind and a clear memory. Still less, could he reconcile it with imposition. If Mr. Williams was an impostor in setting up this claim, he would make his published statement stronger, if possible, than his private story. But the story as told in Putnam's Magazine, is weak as compared to the story told by Mr. Williams to the lecturer.

The idea of monomania had occurred to him more than once. Mr. Williams was either suffering under that disease, or he was an impostor. The pretensions that he sets up are improbable. All the claims that he sets up, rest after all, upon his own story. He is undoubtedly a half breed Indian. There was always something about him that made Mr. Lathrop doubt his simplicity.

The origin of the singular pretension of Mr. Williams is, undoubtedly, traceable to the fact of an undeniable phisiognomical resemblance to the Bourbon family. This has been frequently been remarked to Mr. Williams; he has brooded upon it, read everything concerning the history of the family, and giving his waking and sleeping hours to the fancy that the Bourbon blood courses in his veins, until his disordered imagination has forced the conviction that he is in truth the son of Louis XVI. and the beautiful but unfortunate Marie Antoinette.—*Boston Herald.*

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at
CHAPMAN'S TIN WARE FACTORY.

In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.

Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Mantle Thermometers

LYON'S KATHAIRON FOR THE HAIR.

LYON'S KATHAIRON,

For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character; the KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and all unnatural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTNOUN, 76 Bond-st. N. Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

Sold to the trade at a liberal discount, but *commissioned in no instance.*

D. S. BARNES, *Proprietor.*
161 Broadway, New York.

Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. R. Preston, No. 2 Congress Block, Congress st.

LA GAVIOTA CIGARS—Sold by
J. H. THACHER, Apothecary,
j23 Cor. State and Pleasant sts.

GO FEEL WHAT I HAVE FELT.

The circumstances which induced the writing of the following most touching and thrilling lines are as follows:—A young lady of New York was in the habit of writing on the subject of Temperance. Her writing was so full of pathos, and evinced such deep emotion of soul, that a friend of hers accused her of being a maniac on the subject of Temperance, whereupon she wrote the following lines:

Go feel what I have felt,
Go bear what I have borne—
Sink 'neath a blow a father dealt,
And the cold world's proud scorn:
Then suffer on from year to year—
The sole relief the scorching tear.

Go kneel as I have knelt,
Implore, beseech and pray—
Strive the besotted heart to melt,
The downward course to stay;
Be dashed with bitter curse aside,
Your prayers burlesqued, your tears defied.

Go weep as I have wept
O'er a loved father's fall—
See every promised blessing swept—
Youth's sweetness turned to gall;
Life's fading flowers strewed all the way,
That brought me up to woman's day.

Go see what I have seen,
To see the strong man bowed—
With gnashing teeth, lips bathed in blood,
And cold and livid brow;
Go catch his departing spirit flame, and see
There mirrored his soul's misery.

Go to thy mother's side,
And her crushed bosom cheer;
Thine ought deep anguish hide:
Wipe from her cheek the bitter tear,
Mark her worn frame and wither'd brow,
The gray that streaks her dark hair now,
With fading frame and trembling limb;
And trace the ruin back to him
Whose plighted faith in early youth
Promis'd eternal love and truth,
But who, forsworn, hath yielded up
The promise to the cursed cup;
And led her down through love and light,
That lowly thing, a drunkard's wife;
And stamp'd on childhood's brow so mild
That withering blight, the drunkard's child.

Go hear and feel, and see and know,
All that my soul hath felt and known;
Then look upon the wine-cup's glow,
See if its beauty can atone—
Think if its flavor you will try,
When all proclaim 'tis drink and die!

Tell me I have the bowl!
Hate is a feeble word;
I loathe—abhor—my very soul
With strong disgust is stirr'd—
Where'er I see, or hear, or tell
Of the dark beverage of hell!

PATENTS.

American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 22 State Street, Boston.

IN 1849 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured several weeks earlier*, he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1852. eodly

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.
PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

Livery Stable.
DENNETT & PERKINS

WOULD respectfully announce to the riding public and the citizens of Portsmouth generally, that their Stable is now supplied with as good a stock of HORSES AND CARRIAGES, for pleasure or business, as can be found in the City.

Passengers by the different Railroads will find our Carriages at the Depots in readiness to convey them to any part of the City, on the arrival of each train; and passengers taken at their residences for the Depots or to any part of the City.

Parties to the neighboring Towns and Beaches supplied with good carriages and attentive drivers on moderate terms and at short notice.

Carriages furnished for funerals.

Office No. 9 Vaughan Street, Portsmouth.
a2 DENNETT & PERKINS.

To the Riding Public.
C. H. SIDES & Co.,

KEEP the best of Horses and Carriages to let on the most reasonable terms, at the Livery Stable in

State Street,

nearly opposite the Rockingham House.

Pleasure riders will here find as good, stylish and safe teams as at any other establishment, at moderate rates—and are invited to favor us with a call.

COACHES furnished for conveying parties to any of the neighboring Beaches or Towns; also for attending FUNERALS, and conveying passengers to or from the depots, and in any and every direction, at the shortest notice, at all hours.

They are ever ready to attend to all orders in their line, and respectfully solicit a share of patronage. CHARLES H. SIDES,
WM. O. SIDES.

Portsmouth, Aug. 2, 1852. 1y

ROCKINGHAM HOUSE,
Epping, N. H.

THE Subscriber having fitted up this house and refitted it throughout, is prepared to accommodate all who may favor him with their patronage. Boarders can be accommodated on reasonable terms.

Connected with the house is a large and spacious HALL where parties of pleasure can be accommodated, with good fare and reasonable charges.

This House is situated on the line of the Portsmouth & Concord Railroad, one hundred and twenty rods from the Depot, where carriages are in readiness on the arrival of every train of cars to convey passengers to the House, free of charge.

There is also connected with the House a LIVERY STABLE, where horses and carriages can be had at all times at short notice and on reasonable terms.

A share of public patronage is respectfully solicited. H. G. O. RUNDLETT.

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

THE RUNAWAY'S RETURN.

Well! here am I, after a night's walk, once more in the village where I was born. The sun is up now and shining brightly. Things appear the same, and yet different. How is it? There was a big tree used to stand at that corner; and where is Carver's cottage?

Three days ago I landed at Portsmouth. It was on my birth day. For ten long years have I been sailing about on the sea, and wandering about on the land. How things come over me! I am a man now; but for all that, I could sit down and cry like a child.

It seems but as yesterday since I ran away from home. It was the worst day's work that I ever did. I got up in the morning at sunrise, while my father and mother were asleep. Many and many a time had I been unkind to my dear mother, and undutiful to my father, and the day before he had told me how wrong I was. He spoke kindly and in sorrow, but my pride would not bear it. I thought I would leave home. What is it that makes me tremble so now?

My father coughed as I crept along by his door, and I thought that I heard my mother speak to him; so I stood a moment with my little bundle in my hand, holding my breath. He coughed again. I have seemed to hear that cough in every part of the world.

When I had unlocked the door, my heart failed me; for my sister had kissed me over night, and told me she had something to tell me in the morning. I knew what it was; she had been knitting me a pair of garters to give me on my birth day. I turned back, opened the door of her little room, and looked at her; but my tears fell on the bed clothes, and I was afraid it would wake her. Half blinded I groped down stairs.

Just as I had gently closed the door, the casement rattled above my head. I looked up, and there was my mother. She spoke to me, and when I did not answer, she cried out loud to me. That cry has rung in my ears ever since; ay, in my very dreams.

As I hurried away I felt, I suppose, as Cain felt when he had murdered his brother. My father, my mother, and my sister had been kind to me; I had been unkind to them, and in leaving them thus, I felt as if I was murdering them all.

Had I been a robber, I could not have felt more guilty. But what do I say that for?—I was a robber! I was robbing them of their peace. I was stealing that from them that the whole world could not make up to them; yet on I went. Oh, that I could bring back that hour.

The hills look as purple as they did when I used to climb up them. The rooks are cawing among the high elms at the church. I wonder whether they are the same rooks!—There's a shivering comes over me as I get nearer home. Home! I feel that there's no home for me.

Here is the corner of the hedge, and the old seat; but my father is not sitting there.—There is the patch of ground that my sister called her garden; but she is not walking in it. And yonder is the bed-room window; my mother's not looking out of it now. That cry! that cry!

I see how it is. There are none of them here, or things would not look as they do. Father would not let the weeds grow in this fashion, nor the thatch fall in; and my mother and my sister never stuffed that straw through the broken panes.

I'll rap at the door, any how. How hollow it sounds! Nobody stirs. All is silent as the grave. I'll peep in at the window. It's an empty house, that's clear. Ten long years. How could I expect it to be otherwise? I can bear hard work, and hunger and thirst, but I can't bear this?

The elderberry is in blossom as it was when I ran away; and the woodbine is as fresh as ever, running up to the window that my mother opened to call after me. I could call after her now, loud enough to be heard a mile, if I thought she could her me.

It's of no use stopping here. I'll cross the church-yard, and see if the clerk lives where he did; but he wouldn't know me. My cheek was like the rose when I went away; but the sun has made it another color. This is a new gate. How narrow the path is between the graves! The old sundial, I see it standing there yet.

The last moment I was in that church my father was with me; and the text was, "My son, hear the instruction of thy father, and forsake not the law of thy mother." (Prov. i. 8.) Oh, what a curse do we bring upon us when we despise God's holy word!

My uncle lies under the yew tree, there, and he had a gravestone. Here it is. It's written all over now, quite to the bottom: "IN MEMORY OF HUMPHRY HAYCROFT." But what is the name under? "WALTER HAYCROFT!" My Father! my father!—"And MARY, HIS WIFE." Oh! my mother! and are you both gone? God's hand is heavy upon me! I felt it in my soul.

And there's another name yet, and it's freshly cut, "ESTHER HAYCROFT, THEIR DAUGHTER, AGED 24." My father! my mother! and my sister!—Why did not the sea swallow me up when I was wrecked! I deserved it. What is the world to me now? I feel, bitterly feel, the sin of disobedience; the words come home to me now. "The eye that mocketh at his father, and despiseth to obey his mother, the ravens of the valley shall pick it out, and the young eagles shall eat it." (Prov. xxx. 17.)

But yet I recollect how my dear father and mother used to point to the Lamb of God which taketh away the sins of the world.—"There is no refuge beside," said my mother; "Christ is able and willing to save." I paid but little attention to these words once: Oh! may I never forget them now!

DAILY
Morning Chronicle.

PORTSMOUTH:
FRIDAY, FEBRUARY 25, 1853.

POLITICAL REFORM IN ENGLAND.—Sir Charles Wood at a public dinner at Halifax, Eng., gave a hint, the first that has been given, of the intentions of the government with respect to the extension of the franchise. He said he did not hold that there exists any peculiar test of virtue in the rental of a £10 house, but some such criterion was necessary for the purpose of registration. Nevertheless, the government is prepared to extend the franchise so as to embrace the most intelligent of the classes now excluded by reason of not paying rent to that amount. This is an important hint, coming as it does from one of the most cautious members of the government, and would indicate that some definite plan is decided on by the cabinet.

By such gradual movements, the elective franchise in England is and has been enlarged, without revolution and almost without disturbance. Some "fast" radicals deem it a snail's progress;—and some ultra conservatives tremble at such a dangerous innovation—but on the whole, the thinking, reasonable people are satisfied.

CONGRESS AT WORK.

Now that its dissolution draws near, this august body is straining every nerve to do up its work, huddling what ought to have been the deliberate work of a session into its closing week.

In the Senate, on Wednesday the 23d, the Army Appropriation bill being under consideration, an amendment was adopted, which leaves the national armories under the superintendence of army officers, as they now are, instead of placing them under civil superintendents, as the bill proposed.

Mr. Shields said he considered this the only opportunity to pass anything for the National defences, which were in a most deplorable condition; he therefore moved to amend the bill, by appropriating for the fortifications of the harbor of San Francisco, $500,000: for forts Jefferson and Taylor, on Tortugas Bay and Key West in Florida, $175,000; for fort Pulaski in Georgia, $20,000; for fort Moultrie, Charleston harbor, $110,000; for the harbor of Baltimore, $50,000; for fort Delaware, $150,000; for forts Warren and Winthrop, in Boston harbor; $74,000; for fort Knox, Penobscot River, $55,000; making in all $1,130,000. Agreed to—yeas 30, nays 14.

Mr. Gwin moved an amendment appropriating $200,000 for the exploration and survey of the most practicable route for a railroad to California. Debated and then ruled out of order.

Mr. Mallory submitted an amendment authorizing the President to accept the troops lately raised in Florida, under such restrictions and upon such terms as he may devise, to effect the removal of the Seminole Indians from that state.

The bill was not disposed of before adjournment.

PRESIDENTIAL ELECTION.—Mr. Hunter, from the Committee appointed to wait on the President elect, made a report that the President had accepted the office to which he had been elected. [A similar report was made to the House.]

Mr. Butler, by unanimous consent, introduced into the Senate, a bill authorizing Mr. Wm. L. Sharkey, United States consul at Havana, to administer the oaths of office to Hon. Wm. R. King, Vice President elect of the United States, at Havana, on the 4th of March, or any day thereafter; also authorizing and empowering any Judge of United States Court to administer to Hon. Wm. R. King the oath of office, at any place in the United States, on the said 4th of March, or any day thereafter; unanimously adopted.

In the House of Representatives, was resumed the consideration of the bill for reciprocal trade with the British Provinces.

Mr. Tuck concluded his remarks in favor of the bill, and said if the bill should fail now, and it should be his fortune to be here next year, he would go for a more comprehensive system of reciprocity.

Messrs. Clingman and Townsend spoke to the merits of the bill, when the morning hour having expired, the House went into Committee upon the Indian appropriation bill. The amendment pending was to pay the Creek Indians $1,769,000 for lands taken from them.

Mr. Howard of Texas opposed the amendment, and Mr. Johnson of Arkansas advocated it; before disposing of the amendment the House adjourned.

PERJURY.—One Doty, who was a witness against Mr. Forrest in his divorce case, and testified about Forrest's connection with Miss Clifton—is on trial in New York for perjury. The principal testimony against Doty, is from Mr. Forrest's own statement, and from a negro waiting-maid of Miss Clifton. The cross examination of the latter witness renders her testimony utterly worthless to the reader—and Mr. F's is not much better. Doty was steward of a steamboat, and does not seem to be in much danger, without better evidence against him.

☞ Washington's Birth Day was extensively celebrated on Tuesday—very generally by military parades, salutes of cannon, &c., and in several places by public addresses; among the latter were Brooklyn and Newburyport.

THE SHIP ITALY.

The Boston papers of Wednesday evening contained the following strange paragraph:

"The ship Italy lately broke loose from the Florida Keys, and is now floating about with a cargo of cotton worth $100,000. Capt. Lovett, of Charleston, saw her at sea on the 13th inst., in lat. 30 45, lon. 79 50."

Mr. William Lester of this city, was mate of the Italy. From a letter received from him, by his father, we learn the following facts respecting the disaster and the fate of the crew. Mr. Lester writes,—under date of Nassau, New Providence, Bahama Islands, January 31, 1853:—

"We sailed from New Orleans with every prospect of a pleasant passage. We had fair wind and weather until we were in lat. 23, (long. not given) when it commenced blowing from the eastward, and we shortened sail until we had the ship under close-reefed fore and main topsails; and it blowing a perfect hurricane. We carried as much sail as the ship could bear—when about 3 o'clock on the morning of December 24th, we struck. As soon as she struck, we let go both anchors, which brought the ship head-up to the wind; but she continued to strike heavily, and we were obliged to cut away the masts, which eased her a little. About 6 o'clock we lost her rudder, which left us completely the sport of the breakers. We deserted the ship on the 28th of December, and arrived here on the 3d of January. We are in the American Consul's hands, and it will be fourteen days before we shall get away from here."

LATER FROM EUROPE.

The Arabia, which arrived at New York on Wednesday, Feb. 23, eleven days from Liverpool, brings some important intelligence, showing that the spirit of liberty, (which has been repressed in every possible way by the crowned heads, legitimate and illegitimate,) is not quite extinct.

The most important news is the account of an insurrection in Milan, on the 6th and 8th of February. The Austrians say that the revolt was quelled with five persons being killed. The patriots say three hundred were killed.

The patriots attacked the barracks, and it is said massacred the garrison. The people rose in three parts of the city at the same time.

A telegraphic despatch from Bellinzona, evening of the 8th, states that the gates of Milan were shut, and it was feared that fighting had again commenced. Proclamations from Kossuth and Mazzini were posted about.

Mazzini had gone to Switzerland to watch events. Kossuth's proclamation, which appears in the London Times, is addressed to the Hungarian soldiers in Italy, in the name of the Hungarian nation. It closes thus:—

"From Rome to the land of the Sicilians, from Sava to the country beyond the Rhine, all the people unite in one cry, shouting, mid the clang of millions, 'To arms,' 'Let God be the judge!' 'Down with the Tyrants!' 'Long live the Liberty of the People!' 'Long live our Country!' Brave ones, in this cry your voice will be like Joshua's, before which the Jericho of tyrants shall fall. So I order in the name of the nation. Let every one obey. I will shortly be amongst you. *Au revoir.* God be with you. KOSSUTH.

Joseph Mazzini's proclamation is addressed to the Italian nation. It was posted in Milan and other parts of Italy. It commences thus:

"Italians—Brothers—The mission of the National Italian Committee is ended. Your mission begins to-day. The last word which we, your brothers, utter to you, is insurrection. To-morrow, mingling with the ranks of the people, we will aid you to maintain it."

The accounts of the insurrection in Milan are vague and unsatisfactory; one account says the conflict was sharp and brief. The insurgents are mostly without arms. Wholesale arrests were made; 200 families had taken refuge at Tessino. Additional particulars are looked for with intense interest.

Another letter from Milan states that the insurgents were without efficient arms, and had no capable leaders.

All persons taken in an open act of rebellion were instantly shot. The principal citizens of Milan are arrested.

The Austrian government had sent to Napoleon a list of the Italians in Paris who are suspected of having favored the movement.

Many arrests preceded the revolt. Risings are looked for elsewhere. Austria and France are sending troops to Lombardy and Rome.

Telegraphic despatches from London, mention a despatch from Milan, announcing the restoration of tranquility. More arrests had been made. Three persons were shot. The citizens took no part in the insurrections.

The Montenegro affair will probably be settled by negotiation. Omar Pacha had offered good terms to the insurgents if they will surrender.

The Sardinian ministry had been called hastily together to consider the state of Lombardy.

Advices from Calcutta to the 5th of January, and Bombay to the 13th, had been received.

Pegu had been formally annexed to the British possessions. If the Burmese will not give it up peaceably, the British threaten to take Ava and dethrone the Monarch.

One hundred and twenty rebels had been hanged in China.

About fifty American sailors had some trouble with the consul at Nassau, when the police were called, who undertook to arrest several of the sailors. The latter were rescued by their shipmates, who bid defiance to the policemen, who were all blacks. The troops were called out with their muskets loaded ball cartridges, when the magistrates succeeded in arresting six or eight of the sailors and lodged them in jail.

Lieutenant George W. Chapman, a popular and gallant officer of the United States Navy, died on Sunday morning at his residence in Philadelphia. Lieut. Chapman was a native of Pennsylvania, and entered the service in 1832.

LOCAL.

City Council—Feb. 24.

In Board of Aldermen, Kittredge Sheldon, Esq., in behalf of the Democratic party, applied for use of Jefferson Hall, on the evening of March 7th. Granted.

The Collector made a statement of taxes.

A petition of Committee of Democrats was presented, asking for appropriation to fire a salute and ring the bells on the fourth of March.

Sundry bills were approved for dayment.

THE MISSING GIRL.—The Charlestown Advertiser represents excitement in Charlestown, as still existing, on account of the concealment of Hannah Corcoran. Welch's affidavit is not satisfactory, inasmuch as it neither shows the girl to her guardian and friends, nor tells where she is to be found.

The Advertiser says,—"We had at first supposed that the abettors of this mysterious transaction were parties in Boston; and this has confirmed our belief; and we think that no one in Charlestown has used any unfair means to aid in her estrangement. The Rev. Mr. Lyndon, of Charlestown, had an interview with Mayor Frothingham on Tuesday, in which he pledged himself to exert all his influence to obtain knowledge of the whereabouts of the girl, that she may be brought back to her guardian, where she may renounce either her Protestant or Catholic friends, and make her choice of her own free will. We learn that others of that clergy in Boston, will exert their influence in the same behalf; that being the only course politic; and the restoration of the girl the only means of allaying the excitement pervading the public."

CHURCH MISSIONS.—The Portland Advertiser says the American Protestant Episcopal church now has in China 1 bishop, 3 clergymen, 4 female missionaries, 1 native deacon, 1 American and 2 native teachers. In Africa, the Cape Palmas mission has 1 bishop, 6 clergymen, 10 American and 6 native teachers. This mission is publishing a newspaper in the Grebo tongue, called the Cavalla Messenger, the printing being done by a native youth, who shows great aptness at the business.

☞ We learn that Dr. Coggswell, formerly of this place, but now a Representative in the Massachusetts Legislature from the town of Bedford, while addressing the Legislative agricultural meeting at the State House on Tuesday evening, was suddenly seized with a hemorrhage from the lungs, and is now confined to his room, in Boston.

☞ It is stated in the Boston Journal, that the elegant Harnesses furnished for General Pierce's Carriage were charged by the makers, at $1837, though the committee say they ordered them to be made within the limits of $400. A lawsuit may grow out of the dispute,—as the committee protest against the procedure, and mean to procure other harnesses.

GAS LIGHT.—The annual meeting of the Great Falls Gas Light Company was held on Monday evening last. A dividend of 5 per cent. for the year was declared, which, however, has been nearly all earned during the first six months.—*Gt. Falls Journal.*

A FLOOD.—The rain of Wednesday created quite a flood in Manchester, N. H., filling the cellars of the buildings on Elm street. At the Manchester House it put out the fires in the kitchen, so that it was very difficult to get dinner.

DISCHARGED.—Elias T. Caswell, who was taken from Boston to Manchester, N. H., last week on a charge of larceny, was brought before Justice Potter on Monday, and after a lengthy examination, discharged.

ODD SCRAPS ABOUT THE POST OFFICE.—The Portland Advertiser contains some interesting memoranda of Post Offices, in former days.

The subject of posts and post offices early received the attention of the emigrants to America. In 1680 Massachusetts appointed John Haywood postmaster of the whole colony, as previous to that time letters had been thrown on the Exchange in Boston, so that anybody might take them, and many had thus been lost.

In 1689 Wilkins was appointed by the General Court "to receive all letters and deliver out the same, and to receive on each *one penny.*" By this it will be observed that Rowland Hill's penny postage system was but a revival of that old colonial law.

In 1693, a post office was established at Portsmouth, New Hampshire.

It was deemed of importance by the Provincial Congress of Massachusetts, immediately on their withdrawing from royal authority, to open lines of communication through the colony. With this intent, in May, 1775, they established a general post office at Cambridge, appointed post-men to ride upon the principal routes in the Province, and as far east as Georgetown, in Maine. Joseph Barnard was the first rider between Portsmouth and Falmouth, under this arrangement, and arrived here for the first time June 10, 1775, and continued to transport the mail until Oct. 6, of that year—the number of letters not exceeding four or five a week, and the number mailed was about the same.

The dwelling house of Lookhart Wellman, in Hinsdale, N. H., was burnt on the night of the 4th instant. Insured for $1000.

Pilotage on the Piscataqua.

RULES AND REGULATIONS RESPECTING PILOTS AND PILOTAGE FOR THE RIVER AND HARBOR OF THE PISCATAQUA.

SECTION 1. Any Pilot appointed by the Commissioners of Pilotage, for the river and harbor of the Piscataqua, and who has given bonds for the faithful discharge of his duties, may take charge of any vessel drawing seven feet of water or over, except coasting and fishing vessels of the United States, of one hundred and twenty-five tons and under, draft of water not limited; and shall pilot any such vessel into or out of the river and harbor of the Piscataqua—first showing to the master thereof his appointment, if requested.

SEC. 2. Any master or owner may pilot his own vessel; but if any pilot shall speak and offer service to any vessel except coasting and fishing vessels of the United States, of one hundred and twenty-five tons and under, draft of water not limited, bound into the river and harbor of the Piscataqua, south of a line drawn east and west from Whale's Back Light House; or shall offer service to any vessel bound out of the harbor of the Piscataqua, except coasting and fishing vessels of the United States, of an hundred and twenty-five tons and under, draft not limited: he shall be entitled to one-half of the fees specified in his warrant, in case the master or owner declines to employ him—and on refusal of payment, may sue for and recover the same.

SEC. 3. The cruising ground of the pilots for the river and harbor of the Piscataqua, shall be as follows: beginning at Ragged Rock in Rye, to the southward of the harbor aforesaid; then easterly to the middle ground between the Isles of Shoals and the harbor's mouth; and as far as the most eastern of the Sisters. And they shall at all times, keep and be attached to such decked boats of not less than ten tons each, as the Commissioners of Pilotage may from time to time approve.

SEC. 4. The Commissioners of Pilotage will hear and determine all cases of disagreement respecting pilotage, that may occur between the master and owner of any vessel and any pilot, as such cases may arise.

JOHN SALTER,
J. W. THOMPSON,
LYMAN D. SPALDING, } *Com. of Pilotage for the River and Harbor of the Piscataqua.*

Gerry's Two-Crayon DRAWING.
Taught at No. 13 Vaughan, cor. Hanover st.

NOW is the time to commence a course of Lessons. Scholars received at all times.

☞ Particular instruction will be given in enlarging pictures, which, with other instruction, will give the scholar a fine idea of Landscape sketching.

Specimens of Drawing, by scholars, can be seen at the several Book-stores.

f24 W. SIMES & CO.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

ADDITIONAL HAVANA NEWS.—*New York, Feb.* 24.—It was rumored in Havana that several prisoners in the Moro, including Count Pozas Dulces and Mr. Gonzales, are very soon to be executed.

The slaver brig Carlotta was finally condemned, in consequence, it is said, of the protest sent into the Court by Capt. Hamilton, who so alarmed the Captain General that he gave orders to the arbitrator to enter a decree of condemnation. Had not this been done, Capt. H. would have nailed his colors to the mast, and towed his prize to Jamaica in the teeth of the Spanish opposition.

The deaths at Havana during the month of January were 769, or about double the number usual at that season of the year. The city, however, was getting healthy again, and the small pox was fast disappearing. The weather was very fine and business was becoming quite brisk.

The British steamer arrived at Havana on the 16th, having on board the Mexican Commission going to St. Thomas to invite Santa Anna to return to Mexico and assume the government.

The U. S. frigate Cyane sailed on the 10th for Key West—all well.

Hon. Wm. R. King had gone to reside for a short time on the plantation of Mr. Tenck, near Matanzas.

Three English ships, loaded with Coolies, had arrived at Havana from China. The sufferings and deaths of the passengers on the voyage had been terrible.

On board the Panama 90 died out of 351. The Blenheim lost 38 out of 412, and the Gertrude 146 out of 300. Other arrivals of vessels similarly freighted were daily looked for.

WASHINGTON, Feb. 24.

SENATE.—The army appropriation bill was taken up, and Mr. Chase of Ohio, offered an amendment appropriating $150,000 for the explorations of railroad routes to the Pacific. Mr. Hunter opposed it.

HOUSE.—The discussion on the reciprocity bill was resumed.

Mr. Orr moved to lay it on the table.—Negatived—yeas 68, nays 111.

FINAL DECISION IN THE GREAT INDIA RUBBER CASE.—*Washington, Feb.* 23.—Perhaps no decision of equal importance to the public and those immediately connected, was ever made in the Patent Office, as that announced to daybythe Commissioner of Patents. The application to extend Goodyear's India rubber patent for seven years was dismissed; the public must henceforth have free use of the invention.

From this decision there is no appeal, as the law of 1848 gives full power to the Commissioner. The interest involved will exceed $5,000,000. This is a great triumph for Horace H. Day, who was proven by thirteen witnesses to be the prior inventor.

THE LITTLE RASCALS!—A newly married couple, the other day, charmed by the joyous hilarity of a score of juveniles engaged in sliding down hill in Howard street, stood for some time gazing at them. The young man, who was poetically inclined, had just exclaimed:—

"Happy, happy innocents!" when a compact snow ball hit him upon his right ear.—It was thrown by one of the "happy innocents," who saw no other way to start the couple from their "sliding" track, which they obstructed. It had the desired effect, and the happy pair retired, determined thus "their" boys should be taught better manners than to throw snow-balls at strangers.—*Alb. Eve Jour.*

PRESIDENT FILLMORE.—President Fillmore intends to proceed on a visit through the Southern States, and thence by the Mississippi and the Lakes to Buffalo, but it is not certain that he will be able to do so.

Complaisance is no longer confined to the polite circles. A captain of a vessel was lately called out of a coffee-house at Wapping, by a waterman, with the following address: "An't please your honor, the tide is waiting for you."

DIVORCE CASE.—The Legislature of Maine have been acting upon a divorce case which had been thrown out by the Supreme Court of that State. Aaron M. York married his wife Mary Ann when she was about fifteen years old. The mother of the girl was a Mormon, and, after they had been married about three weeks, the mother moved away to join the Mormons, and this wife went with her.—Four of the five years have elapsed, and some of the legislators thought he should wait the other year; but the majority thought otherwise; indeed, it was intimated that "almost every member had a divorce case in his pocket."

Vast beds of lead ore have been discovered in Sinking Valley, Blair County, Pa., which, it is said, are of the most valuable kind. A New York company has leased 13,000 acres for a term of years, for which they pay the owners $87,50 per ton for all the ore taken out in a crude state. The company has commenced operations on a large scale. Some of the ore already tested, yielded 16 ounces of silver to the 100 pounds. Miners are at work in developing this new discovery.

THE $50,000 FUND.—Rev. S. Aiken writes from Rutland to the Vermont Chronicle, that he has received from thirty one churches in Vermont, $857 10, in aid of the $50,000 for the American Board of Missions.

Walter French Esq., has been chosen President of the Amoskeag Bank, Manchester, in place of Hon. Richard H. Ayer, deceased.

Sixty members of the Jackson association at Washington, are office holders under the present administration.

FRESH SHAD.—White Shad, the first of the season, made their appearance at Norfolk Va. on Saturday morning last. They were sold at 37 1-2 to 50 cents apiece. From Norfolk they soon reach New York, by the coast steamers.

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at
CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

LYON'S KATHAIRON FOR THE HAIR

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair.

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*
D. S. BARNES, *Proprietor,*
161 Broadway, New York.

Also, BOOK-BINDING done in the neatest manner, by PHILIP WENZELL,
3mf9 38 Market street.

For the Chronicle.

"SHOW ME MY FLOWERS."

Suggested by an obituary in the Chronicle of Feb. 23.

A child lay at the point of death—
While loved ones marked the laboring breath
Which tells of life's fast closing hour—
And faintly cried "*show me my flowers.*"

Oh! show me, ere I pass away,
Those flowers 'mid which I used to play;
I loved them in their summer bloom,
And love them now when near the tomb.

Perhaps fair scenes beyond the sky
Unfolded to his gazing eye,
And spite of life's decreasing powers,
With joy he cried "*show me my flowers.*"

Perhaps a glorious glimpse of heaven
To the expiring child was given,
To cheer the friends who sorrow here,
And make them hope to meet him *there.*

Before the sun set in the west,
The youthful florist was at rest,
And now amid unfading flowers,
He revels in Celestial bowers. I. S. H.

Fort Constitution, N. H.,
Feb. 24, 1853.

SIGNIFICATION OF 'ERIE.'—The question is often asked, Why so many storms and disasters upon Lake Erie? Why the difference between that and the other lakes composing the great chain between the United States and British America? It is said to be caused by the extreme shallowness of its waters, which are more easily disturbed than the deep waters of its neighbors. Hence the name 'Erie,' an Indian name signifying 'mad,' 'the mad lake.' This name, like all other Indian proper names, is very significant of the boisterous character of lake Erie.

The new American Bible House in New York is fast approaching completion, and by the first of May, it is expected, will be occupied by all the departments of the American Bible Society. It is built on a scale sufficiently large, not only to accommodate the Society whose name it bears, but several other institutions, with offices and stores.

The Catholics in Galena, Ill., have elected a Catholic Mayor and turned the Bible out of the public schools.

Books, Stationery, etc.

A LARGE assortment of Miscellaneous, Standard, Presentation and other Books, viz:
Quarto and Pocket Bibles, Clark's Commentaries, Shakspeare, Byron, Josephus, Marryatt, Mrs. Opie, Miss Landon, Dean Swift, Mrs. Hemans, Goldsmith, Hume's and Macaulay's England, Gibbon's Rome, Pic. Hist. United States, Pic. Washington, Chambers' English Literature, Trumbull's Indian Wars, Wandering Jew, Guide to Knowledge, Bulwer, Real Jones, White's World, Marion, Life of Gen. F. Pierce, Pacific and Dead Sea Expedition, Life and Speeches of Louis Kossuth, Great Cities of the World, Youatt on the Horse, Colman's Agriculture, Thiers' French Revolution, Lord Bacon, Wirt's Patrick Henry.
A complete assortment of Political Works, Webster's Unabridged Dictionary,
do. Ab. edition, Cooley's 6000 Receipts, Odd Fellows' Text Books and Offering, Masonic Offering, Annuals, Gems of Beauty, Souvenir Gallery, Songs, Juveniles, Toys, &c.

TOWLE & ADAMS,
d4 City Sales Room, 3 Congress Block.

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor, hall, and door use.

Also, a few Papier Mache Mantle Thermometers
JOSEPH H. FOSTER,
f2 No. 5 Market street.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 24 State Street, Boston.

IN 1849 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured several weeks earlier,* he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——,
"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."
Boston, Dec. 7, 1852. eodly

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.

PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

No. 73 Market Street, up stairs,
and orders received by
d2 J. P. BARTLETT, Agent.

Livery Stable.

DENNETT & PERKINS

WOULD respectfully announce to the riding public and the citizens of Portsmouth generally, that their Stable is now supplied with as good a stock of HORSES AND CARRIAGES, for pleasure or business, as can be found in the City.

Passengers by the different Railroads will find our Carriages at the Depots in readiness to convey them to any part of the City, on the arrival of each train; and passengers taken at their residences for the Depots or to any part of the City.

Parties to the neighboring Towns and Beaches supplied with good carriages and attentive drivers on moderate terms and at short notice.

Carriages furnished for funerals.

Office No. 9 Vaughan Street, Portsmouth.
a2 DENNETT & PERKINS.

To the Riding Public.

C. H. SIDES & Co.,

KEEP the best of Horses and Carriages to let on the most reasonable terms, at the Livery Stable in
State Street,
nearly opposite the Rockingham House.

Pleasure riders will here find as good, stylish and safe teams as at any other establishment, at moderate rates—and are invited to favor us with a call.

COACHES furnished for conveying parties to any of the neighboring Beaches or Towns; also for attending FUNERALS, and conveying passengers to or from the depots, and in any and every direction, at the shortest notice, at all hours.

They are ever ready to attend to all orders in their line, and respectfully solicit a share of patronage. CHARLES H. SIDES,
WM. O. SIDES.
Portsmouth, Aug. 2, 1852. 1y

DAILY MORNING CHRONICLE

BY MILLERS & GRAY. $4 PER YEAR---$3 IN ADV.

VOLUME 2. PORTSMOUTH, N. H., SATURDAY, FEBRUARY 26, 1853. NUMBER 23.

Office, No. 4 Exchange Bldgs., Pleasant St.

DAILY CHRONICLE—$4 per annum, payable half-yearly; or $3 strictly in advance. If payment is made for a year, within six months of the time of subscribing, fifty cents will be deducted.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

BOOK, JOB AND CARD PRINTING
OF EVERY DESCRIPTION,
executed in the best manner, at fair rates.
FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

SUNSHINE SINGING.—In our church we have a grand performance on the Sabbath, if the sun shines clear, and the walking is good, as then we have thirty or forty singers with a fine organ, all of them in full force. But if the sky is overcast, a little rain, cold wind, or unpleasant walking, it is far different, this exhibition is for the most part suspended.

A short time since, a neighboring clergyman happening to preach, he read the hymn, and waited for some time, then proceeded without singing. *Reason*, there was a *little rain*, and no leader. At our Sabbath evening meetings, frequently there is no singing, or we have to depend on those who are not qualified to take part in the *sunshine* performance on the Sabbath.

Of the 30 or 40 singers in our choir, there is not *one* to raise the tune, if our leader or organist are not present: one of them lives out of town, the other is frequently absent from our evening meetings, and thus you can see how we are situated. Now what I want to ask is, whether these *sunshine exhibitions* are what is wanted in our churches, and are those who have no interest in our meetings, (except as above) the only members of society who should be permitted to take part in this exercise of religious worship. AN OLD MAN.

The above communication was written and published in a neighboring State—but it may possibly have an application elsewhere.

A GOOD ONE.—A little girl of this city had been taught by her Sabbath School teacher that God made man out of the dust of the earth. The inculcation of this Bible doctrine seems to have given her mind rather a practical turn, and big with the idea, she addressed her mother on her return from the Sabbath School:

"Ma, has God any more dust left?"

"Why, my daughter—why do you ask such a question?"

"Because, if he has, I want him to make me a *little brother!*"

Poor thing! Other little girls had brothers to play with; but she had none—and she was therefore unhappy.

This is no fiction—having occurred in this city a few days since.—*New Albany Tribune.*

The Bangor Mercury of Monday stated that Mr. Spencer Wells, of Portland, a graduate of Bowdoin College, while on his way from Boston to Portland on Saturday last, leaped form the platform of the cars while they were under rapid headway near Berwick station. Nothing singular was observed in his conduct till a few minutes before the act, when he observed to a gentleman who sat at his side that some one in the car wanted to kill him.

The Mercury proceeded to state that there was no doubt that Mr. Wells had committed suicide by jumping into the river at Berwick, but the Portland Argus says that he was restored to his friends after having wandered about during the night of Saturday in a fit of insanity. Mr. W. is now comfortable and his sudden attack of insanity is entirely dispelled.

SAD EVENT.—A daughter of Mr. Barnard Hastings, about six years of age, was burnt to death at Mill Valley, in Amherst, on Friday afternoon last. Some boys who were skating had built a fire on the ice, and this little girl was playing around the fire, when her clothes were caught by the flames. A girl named Joy, attempted to extinguish the flames, but in so doing set her own clothes on fire. She then ran to the house of Mr. Hastings for assistance. Mrs. Hastings first extinguished the flames, on the clothes of the Joy girl, and then proceeded to her own daughter, whom she found burnt in a shocking manner. The little sufferer lingered until Saturday morning, when death came to her relief.—*Northampton Gaz.*

The last anecdote of Lorenzo Dow, is, that being one evening at a hotel kept by one Bush, in Delhi, New York, the residence of the late Gen. Root, he was importuned by the latter gentleman, in the presence of the landlord, to describe Heaven.

"You say a good deal about Heaven sir," said the General; "pray tell us how it looks."

Lorenzo turned his grave face and long waving beard towards the General and Mr. Bush, and replied with imperturbable gravity, "Heaven, my friends, is a vast extent of smooth, rich territory. There is not a *root* or *bush* in it, and there never will be."

DISAPPOINTMENT.—It having been announced that Rev. Eleazer Williams, sometimes otherwise called Louis XVII., would be ordained as a Priest at Calvary Church in New York on Sunday, a large crowd assembled to witness the ceremony. He was however not in the city. Rev. Mr. Vermilyea was ordained on the occasion.

THE CRYSTAL PALACE.—The capital stock of the Crystal Palace Association, in New York, has been increased, by a new issue of shares, to $3,000,000, the limit designated by the charter. It is said that the exhibition will be opened between the 1st and 10th of May.

Example is more forcible than precept.—My people, said Mr. Cecil, look at me six days in the week to see what I mean on the Sabbath.

THE DOCTORS' BEST FRIEND.—The piano—for a young lady no sooner goes near one in society than she is immediately seized with a cold.

SODA SALÆRATUS.—25 casks this day received by MATHES & VARRELL.

REPAIRING PIECES & COAL LININGS
FOR the Bay-State, May Flower, Stewart and American Air-Tight and many other Stoves constantly on hand. Stoves repaired and cleaned

DAILY
Morning Chronicle.

PORTSMOUTH:
SATURDAY, FEBRUARY 26, 1853.

LAW IN MASSACHUSETTS.

We learn from the Boston Courier, that at the Court of Common Pleas for Middlesex county, in session at East Cambridge, the case of Hugh Donahoe, an appellant from the Lowell Police Court, where he was convicted of selling liquor, was argued by A. W. Farr for the government, and J. G. Abbott and B. F. Butler for the defence. "The objections taken were that, the fine imposed in the case goes to the city of Lowell, of which the Justice of the Police Court was an inhabitant, and that therefore he was an interested party. The Court sustained the objections, and the proceedings were quashed." The Chronicle says: "There were eighteen other cases—all that were appealed from Lowell, which, standing precisely similarly, were also quashed."

Now if this is correctly reported, as we presume it is, it seems to be a new kind of law. We have in Rockingham County, a Court of Common Pleas, and the two assistant Justices of this court are well known citizens of this county. These men are a majority of the bench; and if we happen to have a Rockingham Chief Justice also, we should have a Court which could impose no fines whatever, which are payable to the County. And if the principle of the law be sound, then our whole State Judiciary can collect no fine or penalty payable to the State, because the Judges are *interested* persons.

Will some legal friend tell us whether this decision is law in New Hampshire?

SILVER PITCHER.—A company of Irish gentlemen in Boston, met on Thursday evening; and after choosing Patrick Donahoe, Esq., as president, presented a silver pitcher to Col. Isaac O. Barnes, with this inscription:

"Presented to Col. ISAAC O. BARNES, late Clerk of the United States Circuit Court, Massachusetts district, by friends of the foreign population, as a token of respect for his constant and untiring efforts, while in office, in affording every facility in his power to all persons entitled to the benefits of naturalization laws, to become citizens of the United States. February, 1853."

The spirit and tone of the meeting may be inferred from the toasts, of which the two following are specimens.

"The genius of American Democracy—If, by some possible contingency, she should be ejected from her rightful home in the White House, she can find a shelter in *our Barnes*."

"May the genuine spirit of independence be felt and fostered throughout this country, no man presuming to dictate to his poorer neighbor as to whom he shall vote for, or what he shall drink; so that we can dispense with sealed envelopes at the ballot-box, and put what we please in our pitchers."

THE TWO BIBLES.

PORTSMOUTH, Feb. 25, 1853.

Messrs. Editors:—In your paper of yesterday, you quote the Boston Pilot as saying that "the Italian Protestants value the Protestant Bible only as a political essay," and then saying for itself, I dare say, "Truly, it is little else." You go on to "suggest to Catholics especially," that they or some of them, would collate the Catholic and Protestant Bibles, "mark every important difference, and publish the result," &c. I think you will find that the Italian Protestants—if such be their opinion—have formed it from the variety of religious and political interpretations given to the Bible by Protestants, rather than from the text of the Protestant Bible itself. (1) I will venture to assert that such is the opinion of the Pilot. However, that you may see that there is a difference between the two books, even in the letter, and that a Catholic has anticipated your suggestion, I refer you to a treatise published in London, by Thomas Ward, so early as 1688. It is republished in this country, in Philadelphia, and elsewhere, and can be procured from any Catholic bookstore. It is called Ward's Errata. (2) It may also relieve the minds of some of your readers, to know that a layman like Ward, had, without censure, such familiar intercourse with both Bibles. (3) I would add, that Catholics now, in every country, are as familiar with the Protestant Bible as Protestants are with the Catholic Bible. (4)

Very respectfully,
A CATHOLIC.

We give the above communication a place, very cheerfully, and are glad to learn that the exact amount of difference between the two translations may be so easily known by every careful student who will peruse Ward's Errata. We add a few brief notes, which are referred to by the figures which we have placed in the communication.

(1.) We do not know what Italian Protestants think, and have made no assertion about their views: we copied exactly from the Pilot. Nor have we any concern whatever with any body's interpretation of the Bible. The Pilot's assertion was of the *book* itself, and not of comments on it. But if this supposition of a Catholic is correct, then the *book* is not to blame for their interpretations.

(2.) We knew that there are differences between the books, quite numerous, but we never observed any which we deemed political, none that we have thought very important.—We don't know exactly what our correspondent means by a difference *"even in the letter."* If the books *read* alike they would be alike, and we should not deem any book either more or less holy, because this, or that church sanctioned it.

(3.) If it would relieve any minds to know that *one* layman, like Ward, read what bibles he pleased, without censure—then it would relieve them much more to know that *all* laymen had the same liberty.

(4.) This, if true, is not saying a great deal—for only a few scholars and reading men among protestants in this country, ever take pains to examine the Douay Bible. We have always been led to regard it as a very respectable English translation of the scriptures, not differing more from our common version, than the latter does from the Bishop's Bible or that of Wickliffe. We are by no means afraid of it—but only wish that every Catholic among us had the book and knew how to read it.

REGULAR NOMINATIONS.

"Nothing like leather," says the shoemaker. "Stick to regular nominations," says the partisan; and so say we. But we incline to the opinion, that some persons in some parties this year, may stick two regular nominations together, and pick out enough names to make one whole ticket.

As the election draws near, and as the parties in this State, especially in this district, have been well shaken, we prepare three doses in the shape of tickets, either of which may be taken without any special damage to the body politic. We cannot find it in our hearts to denounce any of the tickets as dangerous, or of the candidates as infamous. We don't believe such assertions, nor do we suppose they are commonly believed by those who make the most of them. We have our preferences, and in due time mean to exercise our choice between the tickets and the candidates, and advise all others to do the same. We submit the three tickets at one view:

Election, Tuesday March 8.

NEW HAMPTON INSTITUTE.—The Baptist denomination have sustained a literary, classical and theological school of high repute, at New Hampton in this state, for a number of years. Within a year or two, after full deliberation, the friends and patrons of this school have seen fit to remove its location to Vermont, so as to accommodate the Baptists of both states.

We now learn from the Meredith Democrat, that $8,000 have been subscribed by citizens of New Hampton, for the purpose of instituting a new Academy in place of the one which has been removed; that the committee and others have taken hold of the work in earnest, and are determined to make it a profitable and safe place for parents to educate their children; and that the academy hereafter is not to be devoted to the interests of any religious sect.

It is certain that the town of New Hampton and its vicinity, are able to support a good academy or high school of the kind now described, and it appears they mean to do it.

OBJECT OF LIFE INSURANCE.—The grand object in effecting life insurance, is to make a contract whereby the family will come in possession of a stipulated sum of money at your death, *past all doubt*, though you should die the next day or the next hour; or, by the blessing of God, live 50, 80 or 100 years afterwards. It is a bounden duty that every citizen owes to the world and especially to those dearest to him, to provide during life against the possibility of destitution befalling his family at death; and there has been no way devised by which you can so easily and certainly create an estate, and thus fulfil this moral obligation, as by effecting a policy of life insurance in a company whose usages are right. There is no monied institution in the world so safe as such a life office. If all would adopt it, no man could die poor—why will they not?

W.

A WHOLE FAMILY SWEPT AWAY.—About a year since, a family by the name of Twombly started from South Malden for the West. The family consisted of the father, mother, five or six children, and an old man who had long resided with them. Shortly after arriving at their new home, the father and two children died. The mother, with the remainder of the family, started to return home under the protection of the old man, and are all supposed to have been lost on the lakes by one of the disasters which occurred early in the winter, as nothing has since been heard of them.—*Boston Journal.*

It is stated that the annual loss to the population at Singapore from tigers is three hundred and sixty; the victims are principally Chinese. Great efforts are made to take the tigers in traps, and otherwise destroy them.

LOCAL.

Court of Common Pleas—Feb. Term.

AT EXETER.

State *vs.* Elderoy Bunker.—In the case of Elderoy Bunker, indicted at Exeter this week, as an accomplice of Samuel E. Caswell in breaking and stealing from the house of Joseph Banks of Lee, the Jury returned a verdict of *guilty*, on Thursday,—the case having occupied the Court for four days.

Hatch (County Solicitor) and Small for State, Wells and Stickney for defendant.

The Gazette states that about thirty witnesses were examined in this case, and both client and State must be satisfied that the interests of each suffered no detriment at the hands of the respective counsel employed. The effort of Mr. Wells was powerful; and the summing up of the evidence for the State by Mr. Hatch, was clear, apt, forcible and convincing.

It is not a little singular that both principals and accessories in this series of burglaries, have been brought either to confession or judgment. Twelve distinct bills were found by the Grand Jury against individuals for burglary and stealing, and for receiving stolen goods.

Charles H. Morril, connected with the above burglaries, turned State's evidence.

Charles H. Doe was arraigned on charge of breaking store of P. W. Tenny in Newmarket. Plea not guilty. He is to be tried at the September term.

APPROPRIATIONS—INFORMALITY.

The Board of Aldermen, on Thursday evening, on the petition of certain democrats for an appropriation for ringing of the bells and firing a salute on the 4th of March, voted to appropriate $50 for that purpose, to be expended under the direction of the City Marshal.

Of course we do not object to showing proper honor to the distinguished gentleman from this state, who is to be inaugurated to the Presidency on the 4th of March, but there is a principle involved in this expenditure of the public money, which we deem unsound.

The last clause of the 20th section of the City Charter expressly declares that "no money shall be paid out of the City Treasury unless previously granted and appropriated by the *City* Council."

Again, in the 16th section of the joint rules of the City Council, it says, "* * * no city debt shall be created except by the affirmative vote of *two-thirds* of the whole number of *each* branch of the City Council, voting by yea and nay."

Now, in this case, the Board of Aldermen without consulting the Council, as by the charter they are required to do, appropriate money, by a *viva voce* vote.

The Common Council is intended to be a check upon the Aldermen, in the expenditure of money, and if the latter body can make appropriations without the consent of the Council in this case, what guarantee have we that they will not do the same thing on other occasions, and to an unlimited amount.

ANTI-SLAVERY.

The Course of Lectures by Parker Pillsbury and Stephen S. Foster, will be continued at the Temple this (Saturday) evening, and through the day and evening to-morrow, at the usual hours. On Sunday, the subject will be, "The True and False in Religion." In the afternoon, Mr. Pillsbury will preach from Mathew 10: 34:—"Think not that I am come to send peace on earth," etc.

BUCK AND GAG.

Among the recent publications in London, is "The Autobiography of an English Soldier in the American Army," in two volumes.—The author went through the Mexican campaign with General Scott, and his volumes contain much descriptive matter concerning battles, sieges, and marches on Mexican territory, besides their sketches of the normal condition of a United States soldier in time of peace. He describes the following barbarous mode of punishment, which he says is practised in the American army:

"But the favorite punishment was that called the buck and gag, which is administered after the following manner: The culprit being seated on the ground, his feet are drawn up to his hams, and his wrists tied firmly in front of his legs; a long stick or broom handle is then inserted between his legs and arms, going over his arms and under his bent knees; a gag is then placed in his mouth and tied firmly behind his head. In this helpless condition, unable to move hand, foot or tongue, he is left for a series of hours, or even days according to the humor of his tormentor. This revolting and disgusting punishment, which is often inflicted at the mere whim of an officer, has long been, and I am sorry to say, still continues, a favorite mode of punishment in the American army."

FIRE IN SANFORD, ME.—A building which has been occupied by the "Spring Vale Print Works Co.," owned by Messrs. Fitch, Hodgdon & Co., was destroyed by fire on Tursday morning last—supposed to have been the work of an incendiary. Loss upwards of $1000; no insurance.

Pilotage on the Piscataqua.

RULES AND REGULATIONS RESPECTING PILOTS AND PILOTAGE FOR THE RIVER AND HARBOR OF THE PISCATAQUA.

SECTION 1. Any Pilot appointed by the Commissioners of Pilotage, for the river and harbor of the Piscataqua, and who has given bonds for the faithful discharge of his duties, may take charge of any vessel drawing seven feet of water or over, except coasting and fishing vessels of the United States, of one hundred and twenty-five tons and under, draft of water not limited; and shall pilot any such vessel into or out of the river and harbor of the Piscataqua—first showing to the master thereof his appointment, if requested.

SEC. 2. Any master or owner may pilot his own vessel; but if any pilot shall speak and offer service to any vessel except coasting and fishing vessels of the United States, of one hundred and twenty-five tons and under, draft of water not limited, bound into the river and harbor of the Piscataqua, south of a line drawn east and west from Whale's Back Light House; or shall offer service to any vessel bound out of the river and harbor of the Piscataqua, except coasting and fishing vessels of the United States, of an hundred and twenty-five tons and under, draft of water not limited: he shall be entitled to one-half of the fees specified in his warrant, in case the master or owner declines to employ him—and on refusal of payment, may sue for and recover the same.

SEC. 3. The cruising ground of the pilots for the river and harbor of the Piscataqua, shall be as follows: beginning at Ragged Rock in Rye, to the southwest of the harbor aforesaid; then easterly to the middle ground between the Isles of Shoals and the harbor's mouth; and as far as the most eastern of the Sisters. And they shall at all times, keep and be attached to such decked boats of not less than ten tons each, as the Commissioners of Pilotage may from time to time approve.

SEC. 4. The Commissioners of Pilotage will hear and determine all cases of disagreement respecting pilotage, that may occur between the master or owner of any vessel and any pilot, as such cases may arise.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

Thirty-Second Congress—Second Session.

WASHINGTON, Feb. 24.

SENATE.—The army appropriation bill was taken up, and Mr. Chase of Ohio, offered an amendment appropriating $150,000 for the exploration of railroad routes to the Pacific.

Mr. Hunter opposed it.

A discussion ensued, in which Messrs. Hunter, Butler and Bell opposed the amendment.

Mr. Butler said the amendment of Mr. Chase was the entering wedge of the great railroad scheme. He objected to proceeding in this way, of putting everything on the appropriation bills, under the impression that they will carry every thing. Such a principle once established would make this government a despotism in the hands of a majority of Congress. Sooner than give this whole government to the control of an irresponsible majority in Congress, by the exercise of the unconstitutional course of legislation, he would not hesitate to take the responsibility of bringing the government to a stop by voting against the appropriation bills.

Mr. Adams opposed it, as embracing the principles of the Homestead Bill, and read a speech against the Homestead measure.

Messrs. Dodge and Hale defended the bill.

Mr. Butler replied, and denounced the Homestead Bill. The bill was postponed.

HOUSE.—The discussion on the reciprocity bill was resumed.

Mr. Orr moved to lay it on the table. Negatived—yeas, 63; nays, 111.

The Indian appropriation bill being under discussion—

An amendment was adopted appropriating $50,000 to extinguish Indian titles in the proposed territory of Nebraska.

Mr. Gentry offered an amendment making it a misdemeanor punishable by fine and imprisonment, for any officers charged with the payment of money by this or a y other act, to pay to any clerk or employee of government less than the law allows, and at the same time requir from such clerk or employee a voucher for an amount greater than he had received. He said he knew a clerk in one of the departments who was appointed to office under circumstances like these. His father held a clerkship of $1000, but dying, left his family in indigent circumstances, and sympathy so strong was felt for them, that the head of the department was compelled to appoint the son of the deceased, a boy of 16 years, to the vacant clerkship. On this boy the support of the family devolved. He was put into the office with the understanding that he received $1,000 yearly, while $300 of that amount was transferred to some favorite in the department. He (Mr. Gentry) when he heard of this iniquitous proceeding, protested against and called the attention of the head of the department to it. He said it was according to precedent. He looked upon this as one of those political crimes for which imprisonment was the only remedy. The head of the department had written a long letter upon the subject.

Numerous voices—Who is he? name him?

Mr. Gentry replied, The Secretary of the Interior.

On this announcement there sprung up an excited debate, for all of which we have not room.

Mr. Bayly said that as to other heads of departments, he had nothing to say, as they did not come from Virginia; [laughter] but so far as the Secretary of the Inter or was concerned, and because he was a Virginian, he demanded an impeachment, if there be cause for one.

Mr. Gentry said that the messenger who received the $300 salary, was also a Virginian.

Mr. Stanley defended the Secretary, and a spicy debate ensued between him and Mr. Gentry, on the merits of Virginian gentlemen.

Mr. Fletcher mentioned a case that had been brought to his knowledge. It was that a clerk in the census bureau was obliged to pay $500 of his salary to a lady in Pennsylvania, the sister-in-law of the superintendent.

After much more of the same sort, Mr. Gentry's amendment was adopted, and the Indian appropriation bill laid aside to be reported to the House. The bill making appropriations for carrying the mails in ocean steamers, and otherwise, was read, when the committee rose.

The House concurred in the amendments, and passed the bills above mentioned.

The bill establishing post routes, was also passed, when the House adjourned.

The latest application of India rubber is in veneering furniture. The surface is covered with a veneering of rubber, of any desired color, possessing a hardness of surface and brilliancy of polish equal to marble, and presenting a much greater resistance to heat or cold than any kind of wood veneering.

SOMETHING NEW.—The New York Times for Feb. 18, contains the first half of a thrilling story, occupying over three and one-half columns of small type. It is copy-righted, and inserted by the publishers of the Sunday Dispatch as an advertisement. And those who read, and are interested in the perusal, must purchase the Sunday Dispatch, in order to read the concluding half. This is the latest advertising dodge that has come under our notice.

A horse trade was made not long since in Albany, the purchaser giving one dollar to save the horse from being "knocked on the head." He subsequently resold him for 12 shillings. The horse is now in Schenectady, and is worth one hundred and fifty dollars.

LIBERALITY OF BOSTON CHURCHES.—The Traveller states that Mt. Vernon church and society have recently paid into the treasury of the American Board of Foreign Missions, more than $5,000. The Essex street congregation have raised about $3,800; Old South may be considered as good for $3,000; Winter street, Park street, Bowdoin street, &c., are expected to make liberal contributions; so there can be but little doubt as to the success of the effort to raise $25,000 for the Board.

BOUNTY LAND under the acts of Congress, approved September 28, 1850, and March 22, 1852 Warrants located and the highest cash price paid for them a2

LYON'S KATHAIRON FOR THE HAIR.

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair.
CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to campare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURSIOUR, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*
D. S. BARNES, *Proprietor.*

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at
CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f8

VALUABLE PROPERTY FOR SALE
IN FRAMINGHAM, MASS.

THE house heretofore known as the FRAMINGHAM HOTEL, situated in Framingham Centre, Mass., having been put in complete and thorough repair throughout, is now offered for sale. The main house is 100 feet on the street, 60 feet of which has a piazza, and contains 30 rooms, including a large hall; has a large and dry cellar, Ice House, and the best of water. The whole premises have been occupied the past year as a private residence, during which time many improvements have been made in and about the house and grounds, the front yard having been enclosed, set with large trees, and grassed. The house is well calculated for a genteel Boarding House or Hotel, for which it is much wanted; and the Board of Education have decided to remove the State Normal School, now located at West Newton, to Framingham, the site for which is only a few minutes' walk from the premises, makes this property particularly desirable for this purpose, as it will secure, in connection with boarders from the city, a profitable business the year round.
It is also desirable as a private residence, having every convenience as such, and being situated in close proximity to the Common, several Churches, High School, (free,) and only a few minutes' walk from the depot. The size of the House, to any one having a large family, would not be objectionable, as the hall and other parts could be fitted up in a manner which would add much to the convenience and comfort of a residence in the country; or a part of it could be used, and the remainder let, without inconvenience. To persons, therefore, in pursuit of property for either of the above purposes, or for investment, an opportunity offers rarely to be met with. Terms of sale will be liberal, and possession given at the time.
For further information, apply by letter or otherwise, to L. WIGHT, Framingham, or in Boston to J. K. PORTER & CO., 27 Water st.
Dec. 27. WSistf

MATHES & VARRELL,
Sole Agents for Portsmouth, 48 Market street.

For the Chronicle.

DIADEM JONES.

Diadem Jones was the meanest man
That ever yet wore breeches,
And his only aim in life's short span,
Was the hoarding up of riches.

Day after day he had worshipped gold,
And racked his brain for its getting;
Year after year, till now he was old,
And still 'twas his sin besetting.

He fawned to the rich—he was hard to the poor,
To add to his golden coffers,
To every beggar he closed his door,
As if they were knaves and scoffers.

He dreamed of heaps of dollars by night,
And he counted them o'er in his dreaming,
He pinched each coin with a pinch so tight,
That the *eagles* woke him screaming.

His soul never soared above, alas!
'Twas bound with a golden tether;
But he always walked in the summer grass
To save a *sole* of leather.

Diadem Jones never looked to the sun,
His vision was not ethereal;
And he *hated* flowers, all but one,
And *that* was a "Crown Imperial."

He hated birds, poor Diadem Jones!
Yet they sang around his dwelling,
No joy to him were the blessed tones
From their tiny bosoms swelling.

A goldfinch built and sang its note
Of joy in a tree top olden,
Diadem caught it, and opened its throat,
He had heard its *notes* were *golden*.

The study of music he thought a crime,
Loved only by scamps and *minxies;*
To him 'twas a shocking waste of time—
It did'nt bring in the *guineas*.

But he's sleeping now—mean Diadem Jones!
He has "come to an end," like my ditty,
So over his old and miserly bones
I'll throw the mantle of pity.

TOPSY.

The State of New Hampshire.

To the Inhabitants of Ward No. One, in the City of Portsmouth, qualified to vote for Senators in said State

YOU are hereby notified to meet at the L.S. WARD ROOM, in Elm street, in said Ward, on TUESDAY, the eighth day of March next, at ten o'clock in the forenoon, for the following purposes:

To bring in your votes for Governor, one Member of Congress, Railroad Commissioner, Councillor, Senator, County Treasurer, Register of Deeds, and three Road Commissioners.

To choose by ballot two persons to represent said city in the General Court of said State the ensuing year.

To bring in your votes for Mayor.

To choose by ballot two Aldermen, six members of the Common Council, two Assessors of Taxes, and one Overseer of the Poor.

To choose by ballot a Moderator, three Selectmen, and a Clerk of said Ward for the ensuing year, and any other officers required to be chosen.

Given under our hands and seals this nineteenth day of February, A. D. 1853.

JOHN S. HARVEY,
FORREST TRAFTON,
MARK GREEN,
Selectmen of Ward No. 1, in the City of Portsmouth.

A true copy—attest JOHN S. HARVEY,
FORREST TRAFTON,
MARK GREEN,
Selectmen of Ward No. 1, in the City of Portsmouth.

CHECK LIST NOTICE—The subscribers, Selectmen of Ward No. 1, give notice that they will meet at the Ward Room, in Elm street, on Saturday, March 5th, at 3 o'clock, P. M., preceding the 8th of March, (the day of Election,) and on the morning of the Election, at 8 o'clock, for the purpose of receiving evidence of the qualification of voters, and of correcting the List of Voters by adding thereto those who may have been omitted, and by erasing therefrom those who have not a right to vote.

A copy of the List of Voters, as corrected, will be left with the Clerk of the Ward, and one at the City Clerk's Office; also one will be posted in the Eastern Railroad Depot for the inspection of the inhabitants, until the day of the election.

Portsmouth, Feb. 19, 1853. *Clerk of Ward 3*

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.

PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

MRS. WILLIAMS AND FAMILY.

No event in the annals of the Old Bay State, is more interesting and exciting, than the burning of Deerfield and the captivity of Mrs. Williams. The novelty of this old story is revived, at present, by the stirring of the question, "is Rev. Mr. Williams, a half breed Indian clergyman, the veritable Dauphin, Louis XVII.?" A correspondent of the Boston Transcript sends to that paper the following memoranda, taken from the "History of the Williams Family," compiled by Dr. S. W. Williams of Greenfield:

"*Eunice Williams*, who was carried captive to Canada in 1704, when she was eight years of age, was daughter of Rev. John Williams, first minister of Deerfield; was born September 17th, 1696, and died in captivity at the age or 60 years. At the time Mr. Williams was redeemed, she was left among the Indians, and no money could procure her redemption. She soon forgot the English language, and became an Indian in her habits, married an Indian, who, it is said, assumed the name of Williams, though the Rev. Eleazer Williams of Green Bay, says his grandmother married an Indian by the name of De Rogers, and had three children. He says it is not true, as has been heretofore stated, that the Indian who married Eunice assumed the name of Williams; but that he (Eleazer) received the name of Williams legitimately or in course. John, the only son of Eunice, was killed in the French and Indian wars in 1758. Some years after this she visited Deerfield in her Indian dress. She attended meeting in her father's church while here, and her friends dressed her in the English fashion. She indignantly threw off her clothes in the afternoon, and resumed the Indian blanket. Every effort was made to pursuade her to relinquish her Indian life, but in vain.

Sarah, daughter of the Eunice above who was captured at Deerfield, married an English physician by the name of Williams, in the year 1758. The story told me by Eleazer Williams of Green Bay, her grandson, in relation to this man, is subtantially as follows; In the French war of 1755 and '60, an English fleet was sent out against the French, which was separated in a tremendous storm near the coast of Nova Scotia. Dr. Williams was taken on board one of the vessels, which was taken by a French man-of-war. As Dr. Williams was a man of science, and a distinguished physician, he was treated with a good deal of attention by the French physicians in Canada.

He was a botanist, and was suffered to ramble in various parts of Canada, and was carried by the Indians in their canoes to several of their towns. At Caughnawaga, he became acquainted with Sarah, the daughter of Eunice, and married her, on condition that he would not move from Canada. This physician proved to be the son of the Bishop of Chester, in England. They had one son,

Thomas Williams, the father of the Rev. Eleazer Williams, whom I have seen at Deerfield, when a boy. He was Captain in the British service during the Revolutionary War. He married a French woman, so that Eleazer has part English, part French, and part Indian blood in his veins. He had several sons, among the rest,

Rev. Eleazer Williams, of Green Bay, who was born not far from 1790. He was educated in the United States, and studied his profession, if I recollect right, with the celebrated Dr. Moses Welch, of Marshfield, Conn., who married a daughter of the Rev. Jonathan Ashley, of Deerfield. He is now (1847) preacher to the remnant of the Stockbridge tribe of Indians, at Green Bay, in Wisconsin Territory. He is an Episcopalian, though educated a Congregationalist. He has received marked attention throughout the country, and is a highly distinguished man. He married Miss Mary Herbert Jourdan, a distant relative of the King of France, from whom he has been honored with several splendid gifts and honors—among the rest a golden cross and star. He has a son, John, born ——; now (1846) on a visit to the King of France, by his request."

Thus it will be seen the family is full of romance, and while the story of his being the Dauphin is not even hinted at by his relative, the relation to the King of France is placed on the side of his wife. Not having seen this account published since the story in Putnam's Magazine made its appearance, it may throw some light on the subject by giving it an insertion.

RELIGIOUS TOLERATION IN SARDINIA.—The Genoa correspondent of the Newark Advertiser says:

"Dr. Mazzinghi, who was condemned by the legal tribunals in this city a few days ago, under a musty old law, to three years imprisonment, on a charge of Protestant propagandism, has been most promptly pardoned by the King, at the instance of the Ministry.—This case, and some others of a simil r character, has produced much excitement throughout the kingdom, and M. Broffario, the leading member of the liberal party of Parlament, has effectually moved that body on the subject. The Ministry recognized the propriety of his motion to bring the laws on the subject of freedom of conscience into conformity with the free constitution, and readily promised to introduce a bill for that purpose at an early day. The priests have been very active lately in arresting individuals for distributing and teaching the Protrstant scriptures—which they publicly denounce as heretical, mischievous writings—under the old laws referred to, and which have been regarded for some years as obsolete, though not formally repealed, but they will now be effectually stopped by the action of the Government. Political and religious freedom will prevail in this kingdom."

Hungarian Bonds have risen on the strength of the foreign news just received. We saw a holder of some two or three hundred certificates of the scrip, this forenoon, who declined an offer of 95 per cent. *Au revoir?* Truth must prevail—*Boston Herald.*

DAILY
Morning Chronicle.
PORTSMOUTH:
MONDAY, FEBRUARY 28, 1853.

TEXAS—DEBTS—&c.

The Boston Journal says, "the creditors of Texas, not content with the five millions now subject to their order on relinquishing their claims against the United States government, are clamorous to have their debts paid in full. A bill with this object is before the United States Senate. The proposition is to compromise the whole difficulty between the general government and Texas, and her creditors, in regard to the last five millions of the indemnity voted in 1850, by the issue of $8,333,000 federal three per cents., in lieu of $5,000,000 Fives. We trust that these impudent claims will be summarily disposed of.—If the creditors of Texas are not satisfied with what has been allowed them by the government, and which we believe will pay principal and interest on all their just demands, they should look to the government of Texas for further redress."

They will do no such thing. The Texan managers and scrip-mongers, who are old hands at the business, will keep crying give, give! and we shall keep giving; the southern members will vote for the gratuity, almost in a body, and enough of the northern ones to turn the scale, will vote with them.

If the Old French Claims had been chiefly owned in Southern States, they would have been paid twenty or thirty years ago.

JUDICIAL OATHS.

A Chinaman's Oath.—On Thursday afternoon a woman named Rose Mulhaden, was brought before the Boston Police Court, charged with stealing a watch from a young Chinaman, named Arwing, who, of course, was the principal witness in the case.

The prisoner was attended by another native of China, who acted as interpreter. They attracted much attention. Some discussion took place about the oath. It was stated by the interpreter that in the Celestial Empire the witness was obliged to write the evidence and afterwards set fire to the paper.

The burning is considered the medium which conveys the evidence to heaven, where it is recorded against the witness if untrue. This mode was considered a little on the transcendental order, and the ceremony was omitted. The oath was afterwards administered in the usual form, the witness being understood to say that he considered it binding upon his conscience. The examination then proceeded, and resulted in the defendant being held for trial.

In this case, the oath administered, was in *common form*, i. e. by holding up the hand while the officer of the Court read the words, "So help you God." But the real oath which the man *took* was an appeal to *his own conscience*, his own, innate sense of right and truth, as opposed to falsehood and wickedness. The Court acted exactly as we would in a similar case, that is, admitted the witness to testify—but the decision made in this case, is directly opposed in spirit, to one made some time ago, in another Court, which let a rogue go clear, because an Atheist could not testify.

We see no way to have anything like uniformity in judicial oaths, and at the same time promote the ends of justice, except by a statute providing that any man may affirm the truth, "under the pains and penalties of perjury."

Uniformity in this respect is highly desirable, and by these means, easily attainable.

Apathy in New Hampshire.—Parker Pillsbury writes to the Liberator that the joint lectures of himself and S. C. Foster have been poorly attended, mostly for want of interest. "There is no political enthusiasm in any of the parties, near as is the election."—This comes very near being a true bill. The whig papers descant upon the beauties of the new senatorial districts, and adorn themselves with cuts of the same; while the democratic prints overflow with editorial missiles aimed at Hale and Tack, especially the latter. And the free democratic papers have their strain of remark also. But the great body of the people are not moved at all by any of these demonstrations—and the lecturers above mentioned are discoursing to audiences small in number, and rather miscellaneous in their composition, drawn together by various motives, with little common feeling, and but a moderate degree of interest in the lectures.

Boston Railroad.—A scheme started a few days ago in Boston, for a railroad from Roxbury, over the new lands on the west side of Boston, running to the common or some other spot more central, and called the Metropolitan Railroad. The project meets with much favor, and it may probably be extended so as to run the whole length of the City.

☞ Hiram Tobey has been appointed light house keeper at Boon Island, Me.

Our Foreign Ministers.—The London News remarks, on the complaints of our diplomatic agents, that their salaries will not sustain them:

"Whether their view of the dignity of their country would have been sanctioned by Franklin, or even by Washington, if their ghosts could now glide through the apartments of the legations on festive nights, there is no saying. We are disposed to think that the more republican plainness is seen in those abodes, the higher will be the respect commanded."

That is just what we think. But the office holders and seekers do not care about that. And we have no idea of any party's taking one step in the road returning to economy. On the contrary, our progress is and will be, from being extravagant to being more so. The most we hope for, on this subject, is, that our speed in the race of useless expenditure may not be accelerated quite so rapidly as some our fast politicians and financiers desire.

An old Bird caught and caged.—John B. Savory, of Georgetown, Mass., whose case has been before the Courts for some years, was sentenced last week, at the term of the Common Pleas in Salem, to six years imprisonment in the State Prison. He was one of a large gang of rascals, store-keepers, tavern-keepers, stablers of horses, and thieves, all banded together, in Georgetown and neighboring towns in Essex county, who carried on their wickedness for years. Savory was one of the head men of the firm.

Scarcity of Oil.—The New Bedford Standard states that 1800 barrels of Sperm Oil were sold in that city last week, 1100 bbls at $1.31 1-2 per gallon, the balance at a price not made known. The Standard adds—"There is no sperm or whale oil in this market at the present time, and probably there is none in the United States."

It will be seen from this intelligence, that much of the oil offered for sale in our markets must be spurious or mixed. This is good news for the gas companies, tallow chandlers and distillers of burning fluids.

Goodyear Patent Rubber.—The Boston Daily Advertiser of Saturday, states that the Goodyear patent, of which an extension has been refused, expired on Friday.

SPENCER WELLS.

This is the name of the young man who was supposed, a few days ago, to have drowned himself after jumping from the railroad cars near Berwick, but who was afterwards found. The Newburyport Herald gives the following account of him, from which we learn that the case is one of insanity, brought on by over action of the brain in study—a sort of mental suicide for which there was some excuse years ago—but for which there is none at all in these days of phrenological and physiological science.

Mr. Wells is a young man of highly respectable character and talents. He was brought up in the family of Eliphalet Emery, Esq., of West Newbury, from the age of 10 to 14 years, and afterwards by his own industry obtained a liberal education, and graduated at Bowdoin College, in 1849. He has since applied himself so closely to study that his health gave way.

About ten days since, by the advice of his physician, he left Portland for a trip to New York. Returning from New York, he reached Boston on Saturday last, and took the last train down on that day, on the Boston & Maine road. Soon after leaving Boston, he remarked to a passenger sitting near him, that he felt very unpleasantly and strangely, and requested the person to look after him, which he did till he left the cars.

At Dover, a sportsman came into the cars with a gun on his arm, and young Wells told the conductor that this man with the gun was seeking his life, and upon this left the car he was in, for another. Soon after leaving the Berwick junction, and while the train was under full headway, he suddenly rose from his seat, proceeded to the door, and jumped from the car, the conductor making an ineffectual attempt to stop him. The train was stopped as soon as possible, and backed to the spot where he jumped, but nothing was found except his hat, and as there was a hole in the ice of a pond close by, it was feared he had rushed down and was drowned.

Information was given to Mr. Hill, of Boston, who, with a gang of fifty men were cutting ice near by, and he instituted a search in the woods for the young man, who was traced about a mile distant, where some persons saw him running, without a hat. The train proceeded on after waiting an hour or two, the passengers to the number of 150 having joined in the search.

Mr. Wm. Akerman, the faithful conductor on this train, made arrangements to have any intelligence which might be obtained by those in search, communicated to the friends of the young man in Portland. On Sunday morning, a telegraphic despatch announced that the missing man had been found, somewhat frozen, having been exposed out doors all night. An engine was fired up, and the conductor and the friends of the young man, proceeded in a car to bring him home.

It appeared that Mr. Wells, after running two or three miles, seated himself beside a barn, where he remained during the whole of the cold night, totally unconscious of his situation. He was found in the morning by the owner of the barn, and consciousness had at that time returned, but his feet were so frosted that he was unable to move. He was taken into the house, and his frosted limbs properly treated. It was at first feared that amputation of his legs would be necessary. Mr. W. is highly respected by his friends and acquaintances, who manifest great sympathy for him.

LOCAL.

ANTI-SLAVERY MEETINGS—ALMOST A RIOT.

The course of Anti-Slavery Lectures at the Temple, by S. C. Foster and Parker Pillsbury, closed on Sunday evening. The audiences have gradually increased, from the commencement, and considerable interest appeared to be manifested in the cause advocated.

On Sunday evening, an admittance fee was taken at the door to defray expenses, and the house was nearly filled—six or eight hundred persons being present. Mr. Pillsbury spoke for about an hour, and was listened to attentively.

He was followed by Mr. Foster, who, soon after he commenced, was interrupted by two persons in the back part of the house. Foster endeavored to stop the disturbance, by appealing to their honor and the courtesy due the speakers and the audience. The persons being intoxicated, paid no attention to his wishes, and the evident desire of a majority of the hearers.

The disturbance still continuing at intervals, and attracting the attention of the boys in that quarter of the hall, rendered the confusion somewhat general. Foster, finding gentle remonstrance to have no effect, commenced a severe tirade against the audience generally, giving it as his opinion that the disturbance was made at the instigation of Church members. The speaker then brought up the name of Levi Woodbury, and endeavored to show that the disturbance was the result of his influence upon the people. This did not suit the temper of the audience, and the house resounded with cries of "put 'em out"—"let the dead rest" &c. The meeting then broke up in confusion.

Such proceedings are disgraceful to the participants, and would not have occurred had the intoxicated persons been prevented from entering the hall.

THAT FENCE.

The fence recently erected on the east side of the Court House lot by the City authorities, was, on Saturday, unceremoniously cut down under the direction of some person who felt aggrieved by its erection. This fence was put up a few months ago, on the City land, as a short way of settling a matter which has been in dispute for a long time. From present appearances, the controversy seems to be again opened, in an unlooked-for manner.—The belligerents will please read, St. Matthew's gospel, 5:25, 26.

Mayor of Portsmouth.—The Democratic committee nominated Nehemiah Moses, Esq. for Mayor: but he declined: and the committee have nominated Hon. Richard Jenness.

☞ The Court of Common Pleas adjourned on Friday, to the fourth Tuesday of March next, at Exeter.

Laws of New Hampshire.—We are indebted to Mr. John F. Brown, of Concord, for a neat pamphlet containing the public laws of New Hampshire, passed November session, 1852. For sale in Portsmouth by J. S. Harvey.

☞ The Free Evening School, which has been in operation in this city during the winter season, in the vestry of the Universalist Church, will close this evening.

☞ It is said Jenny Lind (we beg pardon, Mrs. Goldschmidt) is coming to this country to give concerts, and tarry some years. We doubt the correctness of the report.

☞ In the list of officers of the U. S. frigate Constitution, at Brooklyn on Thursday, we notice the name of Lewis Homes of this city, as Carpenter.

☞ The charter for the Saco River Railroad has passed the Maine Senate, and is now on his way through the House.

☞ Rev. J. L. Sinclair, Freewill Baptist minister of Biddeford, last Sunday preached his farewell discourse.

Donation to the Town of Danvers.—Last year a letter was received from George Peabody, Esq., of London, in which he made a donanation of twenty thousand dollars to the town of Danvers, to be applied for the moral and mental improvement of its citizens. This donation was made with certain restrictions. The trustees found that a suitable site and building could not be obtained for less than $10,000, and notified Mr. Peabody of the fact. Messrs. Blake, Ward & Co., of this city, Mr. Peabody's bankers, have since received a letter from him, notifying them for the sum of *ten thousand dollars*, which amount was a new donation to his native town.—*Boston Courier.*

Mr Andrew Franklin, of Leon, Cattaraugus county, N. Y., upon returning to his home, on the evening of the 18th inst., as he entered the house, stumbled over the bodies of two of his children, lying dead on the floor. A third was lying near, severely wounded, and nearly frozen, and passing into an entry he found his wife hanging dead. It is supposed that the children came to their death from blows inflicted by the hand of the mother, with some weapon unknown; the mother by her own hand.

Important Verdict—*Troy and Boston Railroad* vs. *George M. Tibbits.*—This was a suit brought in the Supreme Court of New York, and tried on Wednesday, before Judge Parker, to recover an unpaid balance of a subscription of $20,000 to the capital stock of the company, of which $1500 had been paid. Various technical objections were taken by defendant, as to the binding effect of his subscription, but the Court decided the points in favor of the company, and ordered a verdict for the plaintiff for $18,500 and interest, from the time the calls were made.

Wrecks and Loss of Lives.—The brig Champion of Portland, from Baltimore for Boston, with coal, went ashore in the gale on Saturday night, 19th Feb. on the Chincoteague shoals. Shortly afterwards she bilged and went to pieces. All the crew were drowned. The schooner Mary E. Balch, of and for Boston, from Washington, N. C., loaded with naval stores also got ashore and will prove a total loss. Two of her crew were drowned.

The India Rubber Case.—From the telegraphic despatch from Washington, received yesterday, a very erroneous impression is given in regard to the case just decided by the Commissioner of Patents. It was the sulphur patent granted to N. Hayward in 1836 in question, and not Goodyear's patent for vulcanized rubber.—*Boston Transcript.*

Longevity.—Mr. John Pettingill, whose death was noticed yesterday, was one of a family of eight, four brothers and four sisters, whose average ages exceed 71 years. There has been no death in the family before for nearly sixty years.—*Newburyport Herald.*

Teacher—How many points of the compass are there?

Boy—Two, east and west; there used to be four, but as Mr. Webster said he didn't know no north nor south, I suppose there isn't any.

Silver Coin.—The bill for the coinage of small silver coin, of a reduced rate, has been approved by the President. It goes into operation on the 1st of June next.

Cheap place, Florence, Italy, to reside in. A letter writer says, for five cents per day, parties can hire a chamber furnished with the essentials, breakfast on six cents, and dine on sixteen.

THIS EVENING.
MAINE LAW.—The friends of TEMPERANCE will hold an adjourned meeting at the TEMPLE, on MONDAY evening, Feb. 28th, at 7 o'clock for the continued discussion of the Resolutions published last week. Per order of the Portsmouth W. T. A. Society. A. R. BRADBURY, Pres.

Gas Light Company.
THE ADJOURNED Annual Meeting of the Stockholders of the Portsmouth Gas-Light Company will be held in a room over the Store of Benjamin Cheever, Market street, at 3 o'clock, P. M., on MONDAY, March 7th, 1853, for the usual purposes of an Annual Meeting.
Feb. 25. DAVID KIMBALL, Clerk.

Copartnership Notice.
THE Copartnership heretofore existing under the firm of UPHAM & YEATON was dissolved on the 15th inst. by mutual consent. The business will be continued by John Yeaton, who will settle the affairs of the late firm.
J. B. UPHAM,
Portsmouth, Feb. 26, 1853. JOHN YEATON.

New Music.
JOSEPH H. FOSTER has just received the following Pieces, among others:
SONGS—The Merry Milkmaid; Thanksgiving Day; Uncle Tom's Religion; Songs of the Flowers; St. Clare to Eva in Heaven; 'Tis sweet to hear the merry Lark; A social Song and Chorus, by Henry Ware, D.D.; Though Sorrow's cloud is o'er us now; The Rose, the Violet, the Snow Drop, the Poppy, the Forget-me-not, the Lily, the Daisy; The Family Gathering—a Thanksgiving Night Song; Spirit Rappings; Never again; O, happy was the gleamin'; Kitty Crow; Baron Fritz, or how he caught a Tartar; Sweet Lilla Brown; Love thee—ah, believe me; Garland of Songs from the German.

PLEASANT AND PROFITABLE EMPLOYMENT.—Young Men in every town and village in the United States may find a safe and profitable employment for their time and money, say $25 to $50. For particulars, address, post paid, FOWLER & WELLS, Publishers,
2inf18 Clinton Hall, 131 Nassau-st, New York.

French Zinc Paint.
Ground in Prepared Linseed Oil.
THE Subscribers having made arrangements to receive PURE FRENCH ZINC, fresh ground from the Factory, would respectfully call the attention of the trade, and consumers in general to this beautiful article, which when properly prepared and used makes the MOST BRILLIANT and DURABLE WHITE in use. It has been used in France for the past five years, and has entirely superceded White Lead as a paint.
The FRENCH ZINC, prepared as above, is offered in quantities to suit purchasers at the Manufacturer's Depot.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

WASHINGTON MATTERS.

Washington, Feb. 25.—Messrs. Cushing and Nicholson have arrived.

Mr. Fillmore's last levee this evening was densely crowded.

The Mechanics' Fair was attended by thousands of strangers.

Ex-Marshal Tukey was admitted to the bar of the Supreme Court to-day.

A distinguished member of the House intends shortly to introduce a resolution requesting the President during the recess of Congress to negotiate with Great Britain a treaty adjusting the fishery question, and opening a system of reciprocity trade with the Province on a liberal basis.

Thirty-Second Congress—Second Session.

FRIDAY, Feb. 25.

SENATE.—Several private bills were passed.

Mr. Bradbury introduced a bill to establish a Court to investigate claims against the United States. Referred.

The army bill was taken up and debated.

Mr. Walker's amendment for a survey and exploration of the most practicable route to the Pacific for a railroad was adopted—Yeas 31, nays 16.

Mr. Borland, from the Committee on Military Affairs, moved to amend the bill by adding thereto additional sections appropriating $100,000 as a recompense for the discovery of the Anæsthetic agent and providing for a bill in equity to be filed in the United States Court, to which Drs. Morton, Jackson, and the heirs of Dr. Wells should be defendants, to ascertain which of the parties is the true discoverer of the Agent and entitled to the reward.

Mr. Brodhead offered an amendment that neither party should receive the money until he had sworn that there had been no collusion between him and the other parties—Yeas 26, nays 23.

Mr. Douglass moved an amendment appropriating a sum for the construction of a wagon road from the Mississippi to California and Oregon. Agreed to—Yeas 25, nays 23.

Mr. Dawson moved an amendment appropriating $10,000 for the purchase of the Blue Lick Spring for the Western Military asylum. Agreed to.

The bill was then reported to the Senate.

The amendments were generally concurred in, except those concerning the superintendents of the armories and the Blue Lick Spring military asylum.

Messrs. Davis and Shields each proposed amendments to the armory provision, upon which a long debate ensued, pending which the Senate adjourned.

HOUSE.—The House went into committee of the whole on the Naval Appropriation bill.

SATURDAY, Feb. 26.

SENATE.—A communication was received from Mr. Kennedy, Superintendent of the Census, asking for an investigation of his conduct. Referred.

Mr. Hunter reported the civil and diplomatic appropriation bill, with amendments.

The army bill was taken up.

The question pending was on Messrs. Davis and Shields' amendments

HOUSE.—The letter of the Secretary of the Interior, in reply to Mr. Gentry's charges, was read. He explains the charges by saying that the lad who was appointed to the vacancy left by his father's death, was but fifteen years old at the time, and wholly incompetent to the duties of the office; notwithstanding which, at the solicitation of several individuals, who represented to him the destitute condition of the family, he appointed him to the vacancy, Mr. Kane undertaking to instruct the boy in the duties of the office, and to assume a fatherly supervision over him, doing himself such portions of the labor as the boy was unable to do, for a suitable compensation.

Mr. Stuart also notices several errors of fact in Mr. Gentry's statement, and in conclusion challenges the most rigid scrutiny into his conduct.

THE VICE PRESIDENT AT HAVANA.—Extract from a private letter received in Boston from Havana, dated February 13th. In describing a visit to Matanzas, the writer remarks:

"We were the most pleased with the sugar plantation of Mr. Jenks. It is situated about three miles from Matanzas, on quite high ground. In the front of the house there is a beautiful flower garden, and in the extended valley below several large sugar plantations can be seen. A fine view is also obtained of the high mountain 'Panamatanzas,' five miles distant. There is a large fruit garden in the rear of the house. A distant view of the sea is had from this fine spot. It is at sufficient distance from the water, however, to be removed from all dampness arising therefrom. This is the summer residence of Mr. Jenks, and he has kindly tendered the house, servants, &c., to Mr. King, the Vice President elect, during his stay on the Island, including his two nieces, nephew, secretary and servant.

I was requested to see Mr. King, and urge his acceptance of the offer. This morning I had the honor of an interview with him. I found him very low indeed. He was sitting in his chair, having passed a tolerably comfortable night. He has a troublesome cough, and expectorates considerably. He is somewhat refreshed since his arrival upon the Island, but his voice is low, and indicates great debility. During our conversation, he alluded to General Pierce with great respect.

Mr King has concluded to accept the hospitality of Mr. Jenks, and to go to Matanzas next Tuesday, although he said he did not do so with much encouragement or hope of his final recovery. I believe if there is a location upon this Island which will be beneficial to Mr. King's healthfulness place to which he is going is the one. But I have great fear he will never regain his strength. He has scarcely five pounds of flesh on his body.

ENTERPRISE.—The city of Portland on Thursday decided by a vote of 293 to 8, to loan its credit for the purpose of granting further aid in the construction of the Atlantic and St. Lawrence Railroad.

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at CHAPMAN'S TIN WARE FACTORY.

In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by far the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.

Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f8

LYON'S KATHAIRON,

For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

Sold to the trade at a liberal discount, but *commissioned in no instance.*

D. S. BARNES, *Proprietor.*

BOSTON MACHINE WORKS.

Henry Goulding, Proprietor,

No. 2 *Andover street, Between Fitchburg and Lowell Depots.*

AT THE BOSTON MACHINE WORKS may be found MACHINERY of all kinds and descriptions, including STEAM ENGINES and BOILERS, of from one to fifty horse-power, either horizontal, vertical or oscillating style—attached or separate from the boilers.

New and Improved Steam Regulators and Valves can be attached to engines now running, and perfect regulation secured.

Also, Gang Saw Mill Work of the most approved construction, either attached to engines or run with belting. Also, Saw Arbors or Shafts, Shafting, Pulleys, Belting, &c., &c., either new or second hand; if not on hand, can be furnished at the shortest notice.

N. B.—All Machinery sold at this Establishment is warranted to give entire satisfaction to the purchaser.

Boston, Dec. 15, 1852. M1aw3m

WASHINGTON'S BIRTHDAY.

AN ODE—BY MISS H. F. GOULD.

When revolution shook the land
And thundered on the sea,
Our father's formed this ancient band,*
With spirits young and free.
O'er them the clouds looked black and wild
At Freedom's kindling ray;
That since hath spread in glory mild,
To clear, effulgent day.

And here, before the holy throne
Of Heaven's Eternal King,
His goodness to this hour we own,
And grateful offerings bring.
The patriot fathers early vow
To him alone to kneel,
We thus, as sons and heirs, do now
Revive, assume and seal.

The service to the day is due,
And due to both, the deed;
It gilds the heritage whereto
Our filial rights succeed.
To sit, where on our vine-and trees
The skies of freedom shine,
And drink her spirit in the breeze,
Incites to aim divine.

Prepare for war, but pray for peace,
May still the motto be,
Till wrong on earth in right shall cease,
And strife, in unity.
But to our country's righteous call,
Would we in arms reply;
Then, if her lofty pillars fall,
Beneath them crushed to lie.

This day, was born our nation's Sire,
The Hero of the world,
Whose starry soul, and patriot fire,
Earth's fairest flag unfurled;
With calm and Heaven-illumined eyes
He viewed the gathering storm,
With godly wisdom, to devise,
And virtue, to perform.

Then, here let every worthy son
Of Liberty be seen,
For Him, for Peace, and Washington.
To bring an evergreen.
Our Chieftain's halo-circled name
Adorns her Temple fair;
His Birthday-wreath her children claim
To weave and twine it there!

*Newburyport Artillery—now Cushing Guard.
—*Newburyport Herald.*

THE ART OF BEING BEAUTIFUL.

It has long been a *desideratum* that some scientific man should apply himself to the study of the human scalp. Dr. JACOBY, the great Pathologist, from Berlin, has done this, and in this new field has attained the most brilliant results.—Satisfied by an analysis of the red colored alcoholic and other washes, of their deleterious effects, he compounded his celebrated Berliner Haar Wasche, to the efficacy of which thousands of witnesses might be summoned, of the accompanying character:—

BOSTON, Jan 1, 1848.

This is to certify that I have had an article called the Berliner Haar Wasche applied during the past five or six weeks to my head, for the purpose of renewing and strengthening the hair. It has been very effective in producing such a result; and I can cheerfully recommend the same to those afflicted with baldness or diseases connected therewith. JONAS CHICKERING.

It frequently happens that ladies suffer from *hair eaters*, and apply some of the nostrums prepared by apothecaries, who think, because they can make poor soda water, they can prepare good hair wash. The effect of these is often highly injurious. Ladies, use none of them,—consult Dr. Jacoby, who will eradicate the nuisance and guarantee a beautiful head of hair. His motto is, *no cure, no pay.*

To those at a distance, the Champoo Washer Nos. 1 and 2, and Haar Wasche, are recommended.—There is, however, no universal specific, and all persons troubled, should if possible see Dr. Jacoby.

In the course of his scientific research, Dr. Jacoby has discovered a Hair Dye that does not stain the skin, will give any shade of color, and will stand exposure in all weather. The accompanying certificate, from a highly scientific source, must satisfy the most incredulous.

BOSTON, NOV. 18, 1851.

I have seen Mr. Moses Jacoby's Hair Dye, used in coloring hair of a deep brownish black, of a beautiful natural color, and can certify that it is perfectly efficient and permanent.

CHARLES T. JACKSON, M.D.,
Assayer to the State of Mass.

Dr. Jacoby's rooms are at No. 9 Franklin street, Boston, where he may be consulted at all hours.—There are also rooms in attendance in both ladies' and gentlemen's rooms the most skilful hair dressers.

Boston, Dec. 16, 1852. M1aw3m

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whenever a Patent can be procured several weeks earlier,* he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries. Besides being relieved from a journey to Washington, the issue will delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your services for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

YOURS, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1852. eodly

North American Soap Co.

MANUFACTURERS, City and Country Dealers and the public are requested to give their Soap a trial. It is cheaper than other good Family Soap; can be used in cold, SALT or HARD water as effectually as the softest; will remove *Grease, Tar, Paint,* &c., and contains no ingredients injurious to the skin or most delicate fabric; is superior for Woolen Goods, and clothes washed with it require NO BOILING and but little rubbing. Numerous testimonials might be appended, but the proprietors rest upon its merits. Sold by the principal Grocers throughout the country. All orders promptly attended to. M. B. BIGELOW,

122 Washington st., up stairs, Boston,
M3md15 Agent for Massachusetts.

BLACK STRAW BONNETS.—Just received, an assortment of Black Straw Bonnets, by
H. A. BIGELOW.
s6

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurate to a compound with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Mantle Thermometers

JOSEPH H. FOSTER,
f2 No. 5 Market street.

d4 TOWLE & ADAMS.

HOUSE AND LIFE PROTECTORS

AGAINST FIRE AND LIGHTNING.

PATENT METALLIC

LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

No. 73 Market Street, up stairs,

JOHN KINSMAN, Superintendent.

JACKSON & Co.'s BOSTON EXPRESS.

C. C. JACKSON and JOSEPH D. AKERMAN, having entered into copartnership for the purpose, give notice that they will continue, under the firm name of JACKSON & CO., the business formerly carried on by WALKER & JACKSON, and respectfully request the patronage of the public.

Leave Portsmouth daily at 7 and 10½ o'clock, A. M., and Boston at 5 o'clock, P. M.

We shall continue to run our Express Car for the transportation of small freight, which shall be delivered as cheap as can be done by any other conveyance.

Personal and prompt attention will be given to collecting Notes, Drafts and Bills, or paying the same.

California Drafts collected if desired.

Bills of Exchange on Ireland or England, from one pound up, procured at short notice.

Passages engaged from Liverpool to Boston or New York.

The purchase or sale of Railroad, Bank or other stocks attended to promptly.

Gold Dust forwarded to the Mint, and prompt returns made. C. C. JACKSON,
a2 JOSEPH D. AKERMAN.

CHENEY & CO.'S.

Concord & Portsmo. Express.

THE Subscribers having an exclusive contract with the Directors of the Portsmouth & Concord Railroad, to run Cars with the Passenger trains daily, on said Road, for the transmission of MONEY, MERCHANDIZE, &c., respectfully give notice that they will forward all articles in their line of business, daily each way, (Sundays excepted.)

Packages forwarded daily from Epping, Raymond, Candia and Suncook, to Exeter, Haverhill, Lawrence and Boston, and intervening towns. Also from Greenland to any of the above named places.

Notes, Drafts and Bills collected and paid in any of the towns above named, and all business attended to personally and promptly.

Packages forwarded to all parts of New Hampshire, Vermont and the Canadas.

The Express Train will leave Portsmouth every Tuesday for Montreal and Stanstead, and return on Saturday of each week.

N. B.—The subscribers are alone responsible for the injury or loss of any article or property of any description entrusted to their care, nor is any risk assumed by the Railroad Company mentioned.

Office in Portsmouth, at Jackson & Co's Express Office, corner of Fleet and Congress streets.

☞ Merchandize and packages designed to go by this express, should be marked "*Cheney & Co's Express.*" NATHANIEL WHITE, Concord, N. H.

S. P. CHENEY,
n16 Railroad Exchange, Court sqr, Boston.

DAILY MORNING CHRONICLE

BY MILLERS & GRAY. $4 PER YEAR---$3 IN ADV.

VOLUME 2. PORTSMOUTH, N. H., TUESDAY, MARCH 1, 1853. NUMBER 25.

Office, No. 4 Exchange Bldgs., Pleasant St.

DAILY CHRONICLE—$4 per annum, payable half-yearly; or $3 strictly in advance. If payment is made for a year, within six months of the time of subscribing, fifty cents will be deducted.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

BOOK, JOB AND CARD PRINTING

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

THE QUADROON GIRLS OF NEW ORLEANS.

Mr. Fuller, writing from New Orleans, says:

The Quadroon ladies of New Orleans excite both a feeling of admiration and pity—admiration for their accomplishments and beauty—commiseration for the unnatural and unjust condition entailed upon them by the laws of Louisiana. A man cannot legally marry a Quadroon woman, unless he is able to swear that he has *black blood in his veins.* As many of these women are not only very white, but very beautiful and highly accomplished, resistance to their charms is no easy matter, and as love is not apt to be controlled by statute limitations, the consequence of this absurd state of things is readily anticipated.

They marry, or *place,* as they call it, without the sanctions of the State, or the benedictions of the Church. The mother of the Quadroon girl consents to a temporary arrangement, provided her daughter is furnished with comfortable quarters, and a couple of slaves, with a promise on the part of the mock husband to give his little quadroons a good education. It is not a very uncommon thing for northern bachelors, to say nothing of northern benedicts, to be under the necessity of supporting and educating the offspring of this peculiar institution. I have heard of one case, in which a man was so madly, or perhaps I should say, *truly* in love with a beautiful quadroon, that, in order to marry her, he injected a little *black blood* into his veins procured from one of his negroes; and then took the requisite nuptial oath, thereby fulfilling the *letter* of the law.

It may spoil the romance of the story to add, that the lady had a dowry of three hundred thousand dollars. But in this age of gold the mercenary spirit is an element not to be overlooked; and here in the South, a bachelor in a ball room, is asked to be introduced to a young lady with so many hogsheads of sugar—or so many bales of cotton—or so many well conditioned negroes.

A young lady with more charms of purse than person, overheard an ungallant fellow remarking the other evening upon the number of freckles on her face, when she turned upon him with the sharp retort that *her father had a negro for every freckle!*

POLICE DUTY IN PARIS.—The number of quatrains and other small pieces of verse in circulation in Paris, on the Emperor's marriage, is so great that the police are beginning to be uneasy at the effect which these pasquinades may produce on the public mind. In general, these pieces of verse are not remarkable for merit; still, as many of them are scurrilous, and as all contain some point, they produce a laugh, and tend to lessen the respect which the police think ought to be shown to the Emperor and the Empress. Not only are these productions passed from one person to another, but they are occasionally printed and posted up; and being so made public, are neither the most delicate nor the most edifying. A descent of the police was made one day this week on the printing office of the *Siecle,* where it was thought they might have been printed; but after a minute search, nothing was discovered to implicate that journal. In the theatres, also, the police are ready to pounce on any one who may chance to speak too freely of the marriage. This actually occurred on Wednesday evening at the Odeon, with respect to two persons who were conversing on passing events. A few days back, a workman, who was looking into a print shop in the Rue du Coq St. Honore, happening to exclaim, after examining a portrait of the Emperor, "*Il est bien laid,*" was immediately seized by two police agents and carried off, the spectators taking part with the workman, and crying out after the police, "*Oui, il est laid, bien laid!*" This affair became in the end so ridiculous, that the man was set at liberty.—*Correspondence from Paris.*

HOSPITALITY OF THE MANSE.—A certain worthy clergyman in the north, whose disposition was to be as much given to hospitality as his more frugal and painstaking helpmate would at times permit, was called upon one afternoon by a reverend gentleman. As they had been fellow students together, and had passed their examinations before the same presbytery, they had, of course, a large collection of past events to discuss. One tumbler therefore, followed another, and each tumbler brought along with it a new series of interesting reminiscences, till the time arrived when it was fit the stranger should mount and proceed on his way.

This, however, was a proposal which the kind landlord, whose heart was now awakened to all the pleasurable feelings of sociality, would not listen to; and in spite of all the nods, winks, dark looks, and other silent but significant intimations which the married have the peculiar gift of secretly communicating to each other, he insisted, much to the chagrin of his helpmate, that his friend should remain with them for the night. This arrangement being effected, supper made its appearance, and was, as usual, followed by another tumbler, by way of a sleeping draught. As a prelude to their parting for the night, the good dame was now asked by her husband to bring in the family Bible. On her retiring to perform this duty, their guest took the opportunity of slipping out, in order to leave his shoes in the passage. While stooping for this purpose, the lady of the manse returned, and mistaking the stranger for her husband, gave a hearty rap with the sacred volume over the bald head of his reverence: "There," said she, in a matrimonial whisper, "that's for garin' him stay a' nicht."

"Mother, send me for the doctor."

"Why, my son?"

"'Cause that man in the parlor is going to die—he said he would, if sister Jane would not marry him—and Jane said she wouldn't."

The Anglo Saxon race numbers from about forty to fifty millions of people at the present time, and they have more commerce than the rest of the world—they possess the one-eighth part of the globe, and the American and British Governments control the one-sixth part of its inhabitants.

DAILY
Morning Chronicle.

PORTSMOUTH:
TUESDAY, MARCH 1, 1853.

TO ADVERTISERS.

☞The Chronicle offers excellent advantages as a means of communicating with the public in this vicinity. We have regular and proportionately-large lists, supplied daily by carriers in our employ, in Newcastle, Kittery, Greenland and Epping; which, with our Daily circulation in the city, and on the Eastern, P. S. & P., and Portsmouth & Concord Railroads, and our Weekly circulation in all the neighboring towns—advertisements being inserted in both papers—affords a very thorough medium of communicating with "the people," at a low rate. ml

WHAT THE DEMOCRACY ARE DOING.—The Boston Post says, "The democratic press in every quarter of New Hampshire is doing its duty effectively. The last N. H. Patriot contains an instructive history of the rise, progress, and fall of the abolition, free soil, federal party in that state, and powerful appeals to the democracy to be ready for action and not to slumber in their security. The Concord Reporter calls loudly for vigorous effort. The Newport Argus sounds its warning voice. The Manchester Union says the eyes of the whole country are upon us."

There must be a terrible noise up in the country—but it seems very quiet down this way. Since the "fall of the abolition, free soil, federal party," the democrats in our part of the State are too magnanimous to tread on a fallen foe, or murder him in cold blood.—Accordingly, those excellent and talented newspapers, the Gazette at Dover, and the Gazette in this city, are not singled out by the Post as uttering loud calls or warning voices. They are zealous advocates of democracy, and express the strongest hope of electing the entire democratic ticket in this State, as well as dividing and enjoying all the offices held within the gift of the general government.—They can well afford to be magnanimous, and gentlemanly and quiet.

The Post does not utterly neglect them, for it says, "Indeed, every journal in the state, on the democratic side, is doing its duty manfully; glorious success must crown such patriotic vigilance." Very well put in "on the democratic side"—for what few whig papers we see, do not appear to be doing much in the line of politics, considering the nearness of election day. They talk of gerrymandered districts, and publish Mr. Tuck's last letter—but do not say they are certain to elect him, or to carry their ticket generally. But they insist upon it they are not dead.

CUBA AND MAINE.

The February number of Hunt's Merchants' Magazine, contains a valuable article on the Island of Cuba; from it we learn these facts: its superficial extent is 31,468 square miles, or, with the small Islands attached to it, 32,807, an area little exceeding that of the State of Maine. It has at present only 40 inhabitants to the square mile, including slaves. Yet the products of the Island, in 1849, exceeded $59,000,000. The imports for the same year exceeded $26,000,000; and the exports, $22,536,000; the revenue for the same year being $12,269,420. The largest city, Havana, has about 300,000 inhabitants, and the whole population of the Island, in 1850, was 1,247,230—205,570 being free colored, and 436,100 slaves.

The Portland Advertiser says that Maine, in 1850, contained a little over 583,000 inhabitants—exactly the number of the white population of Cuba in 1849—being 19.44 inhabitants to the square mile. The total value of the exports of the State, for the year ending June 30, 1851, was $1,551,430 only; and the imports were to the amount of $1,176,590—being but a tithe of those of Cuba.

The earnings of all the great multitude of slaves in Cuba are added to the exports of that island. And most of their subsistence also, is included in the import. Maine is not a rich state, in gold, silver, sugar or slaves—but somewhat rich in timber, ice, and freemen.

PACIFIC RAILROAD.—In the Senate of the United States on Friday last, an attempt was made by Mr. Walker to engraft on the Military Appropriation bill, one of the forms of providing for the Pacific Railroad, by authorizing a location of the road, and of every alternate section of land, embraced in twelve townships on each side of it, to be given to actual settlers, and the remaining sections to be retained by the United States for the purpose of being applied to the construction of the road, making a width of seventy two miles on each side of the railroad. This amendment was rejected. A motion by Mr. Chase to appropriate $150,000 for the surveys and estimates of an entire route, was then agreed to by a vote of 31 to 16—an appropriation perhaps profitably expended, if it but serve to save Congress from further waste of time in discussing this project, until the survey is completed.

A man writing an anonymous note, is like a puppy inside an inclosure, barking at you with his nose under the gate.

☞Congress, at last, has gone to work, "hammer and tongs," at the eleventh hour; like a mechanic who idles always ten hours of daylight, and then flies to his forge and anvil after sundown. Three days of grace only remain to the two Houses, in which to do up, or to stave off, a heap of business.

STRIKES IN BALTIMORE.—A telegraphic item from that city on Sunday says, the Printers of Baltimore have struck for 35c per 1000 ems on all newspapers, and refuse to allow any apprentices on newspapers. The price was promptly given by the employers.

The Machinists' strike still continues.

NAVAL.—The U. S. steam frigate Saranac, Capt. J. C. Long, now at Pensacola, has been ordered to join the Mediterranean squadron—probably to take the place of the propeller steam frigate San Jacinto, which late accounts represent as disabled in her machinery.

☞The usual Inauguration Ball at Washington, it is said will be omitted this year, from regard to President Pierce's feelings, and in compliance with his request.

☞Gen. Pierce is said to have made his Presidential entry into Washington, in a baggage car, so disguised with a bad hat and old overcoat, that the office-seekers did not know him. Thus he got safely to his hotel.

FREE NEGROES IN VIRGINIA.—The Virginia House of Delegates have adopted as a substitute for the bill for the removal of the free negroes from the State, a resolution appropriating $30,000 annually for colonization purposes.

This is something, and may accomplish some good purpose. The rejected measure was absurd and impracticable.

A Cuban correspondent of the Raleigh Standard says that Dr. Finley, an English practitioner of long experience in Cuba, and a graduate of Paris, has discovered in the course of his practice in cases of small pox, that vaccine virus, after having once passed through a negro's system, becomes useless as a prophylactic to the white race.

Not very important in this region, if true.—But it has an odor of falsehood among its unpleasant associations.

The American Colonization Society will send a vessel from Norfolk, in May next, for Liberia. Already one hundred and seventy-eight applications for passage have been made.

THE BOURBON QUESTION.—The February number of Putnam's Monthly contained a long and elaborate article from the pen of Rev. Mr. Hanson, in which it is attempted to prove Rev. Eleazer Williams, an Indian Missionary, to be a descendant direct of the house of Bourbon.

The New York Evening Post states that Mr. Putnam "has received a long letter from the Prince de Joinville, of the nature of which we are not informed; but it is reported that he denies substantially the truth of Mr. Williams's statement." The Post adds:

But it is said there are several remarkable discrepancies in the Prince's reply, which only confirm the friends of Mr. Williams in their opinion as to the legitimacy of his claims.

In any case, it raises an interesting issue as to the veracity of Mr. Williams, who is an old man, a clergyman, and heretofore, as we understand, a man of unspotted reputation. If the Prince contradicts him, somebody must——walk round the truth. We await further developments, therefore, on the part of Mr. Hanson, with considerable interest.

MORE "PROGRESS."—The Philadelphia correspondent of the Gloucester News says that a new apparatus for ascertaining the speed of vessels, has been invented in that city, which is likely to supersede the "log and line." A brass blade about six inches long is fixed to the keel of the vessel, which, when not in use, folds, presenting no resistance to the water. Connecting with this blade is a rod, passing through a tube and attached to a dial plate in the cabin. When this blade is turned out to meet the resistance of the water, the exact speed of the vessel is known by a hand traversing the plate of the dial. The apparatus has been successfully tried, and is expected to prove of great value as a guide in calculations.—*Boston Times.*

This new invention may appear plausible at first sight, but suppose a piece of Gulf weed, as large as "a piece of chalk," or any other substance, should get attached to the "blade," how will it work then? The ship would hardly keep up with the calculation!—*Boston Journal.*

The Bristol Mercury asserts that there is a hen in a neighboring village which has laid nine hundred and twenty-seven eggs in six years. The editor thinks that "such a hen ought to be immortal."

Riding on a rail is a Scotch invention, that being the punishment formerly inflicted upon husbands who ill-treated their wives!

In the Senate of the United States on Saturday, a pension was granted to Betsey Norton, a widow of ninety odd years, "to continue for life *unless she marry again.*"

A lady residing in Malvern, England, had occasion to leave home for some time. After some three months' absence she returned, and noticing that her piano-forte was rather out of condition, sent for a tuner, who discovered that a rat had gnawed a hole through the bottom and taken up his quarters in the interior, having constructed a commodious nest with the coverings of the hammers, bits of silk, &c.

LOCAL.

Reported for the Chronicle.

City Council—Feb. 26.

BOARD OF ALDERMEN.—At a special session held on Saturday forenoon, it was

Voted, That the vote passed at the last meeting of this Board, appropriating a sum not exceeding $50, for the firing of a salute on the 4th of March, be sent to the Common Council for concurrence.

It was also

Voted, That Charles Robinson, Esq. be notified that unless he puts up the fence in the Court-House Yard, on or before the 3d of March next, which he has cut down or caused to be cut down, or pay for the cost of the same and close up the gate which leads into said Court-House Yard, that an immediate prosecution be commenced against him; for cutting down said fence (yesterday), and that the City Clerk furnish Mr. Robinson with a copy of this vote.

In the evening, at a second special meeting called for the purpose, a communication from Mr. Robinson was received and laid on the table. It was to the effect that if the city authorities would quash the suit, he would nail up his gate that opens on the city premises, and guarantee to keep it closed.

FOURTH OF MARCH CELEBRATION.

We understand that the vote of the Board of Aldermen, appropriating money to celebrate the President's Inauguration, is not valid without the concurrence of the Common Council, and it has been so amended by a subsequent vote, as to be sent down for concurrence.

It will no doubt be concurred in by the Common Council on Thursday evening next; and the bells on Friday morning will ring as usual. The democratic members of the Council will of course vote to salute their successful candidate, and the whigs will vote to salute the first New Hampshire President. And this is right. The instance will go on record, and form a precedent; so that ever hereafter, the Inauguration Day, once every four years, will be saluted by salvos of artillery, whoever happens to be elected President.

THE MAYORALTY.—We are to have a new Mayor next year, as Mayor Toppan respectfully but firmly declines being a candidate for re-election. His administration has been one of energy, decision, and personal attention. No responsible executive officer of this class can be universally popular—but the fair judgment of reasonable men must give him due praise as a faithful and diligent servant of the public in this difficult station. We hope his successor, whoever he may be, will preside as ably and administer our city affairs as well.—We have no objection to his doing better if he can—and would like to see him do it.

This city must be considered fortunate in the choice of her mayors thus far. We hope to see no man of slender talent or doubtful character among their successors.

ANNEXATION.—We understand that the Selectmen of the Town of Newcastle have inserted an article in the warrant for their town meeting, to take the sense of the legal voters, on the question of petitioning to be annexed to the City of Portsmouth.

Alfred Reyno, a Frenchman, used as a spy and pimp by the temperance people, to procure testimony for prosecution, has taken French leave of this city and his landlady, forgetting to pay sundry bills. He had made professions of piety, and had joined the church.—*Boston Post.*

What church?

HAVANA BEAUTIES.—Mr. Fuller, of the N. Y. Mirror, in one of his letters home, acquits the "ladies of gentility," in that city, of indulging in the habit of smoking. But he regrets at the same time, that the "best bred" of them are guilty of worse improprieties. Thus he writes: "I have more than once sat gazing at some fair and faultless Senorita, whose long, languid eye-lashes veiled the latent fire of the largest and blackest pair of eyes, when suddenly she has dispelled the enchantment, and, as Mrs. Partington says, made my 'gorge rise,' by *spitting on the floor!* They are also in the habit of eating rice and green peas *with knives.*"

FORECASTLE.—The origin of this term with us, and that of the similar names applied by other nations to the same part of the ship, viz: "Castella di proa," with the Italians; "castillo de proa," of the Spaniards; "castillo du proa," of the Portuguese; "*voor-kastreel*" by the Dutch; "gailliard d'avant," or "chateau de proa," with the French; and "skents," Swedish; can very readily be traced to the custom the ancients had of building a kind of turret or small castle upon the short prow or forward deck of their galleys. This *forecastle* was plainly visible in the great war galleys of the Venetians as late as 1571.—*Portland Advertiser.*

"THE GREY MARE THE BETTER HORSE."—The Bangor Whig relates that in the little town of Eddington there is a family consisting of six children, the mother of them robust, healthy, and active, but the father of quite a different character. It had been arranged that the wife should go to California and make her "pile," whilst the husband should stay at home and take care of the children. This arrangement was mutually satisfactory, and the woman obtained her outfit for the land of gold. On arriving at New York she found an opportunity to cook during the passage out, and she immediately sent back to her family fifty dollars of her funds, and has gone on her way rejoicing, and with the determination to get her share of the gold of California.

MARRIAGES.

In this city, Feb. 27, by Wm. H. Hackett, Esq., Mr. Charles Edward Carle, to Miss Sarah A. Shaw, both of Portland, Me.

DEATHS.

In this city, Feb. 28, Mr. Russell Smith, aged 21, of Putney, Vermont. Mr. Smith has been connected with the Eastern Railroad, and was a member of Piscataqua Lodge, I. O. of O F. His remains are to be taken to Putney for interment.

In this city, Feb. 26, Mary, aged 69, wife of Mr. Mr. William Russell.

In this city, Feb. 27, James Coffin, aged 7 years, son of James Coffin, editor of the Marblehead Advocate.

Farewell, sweetest darling! the light of our hearth-stone!
With heart-breaking sorrow we saw thee depart!
And we gazed on the casket that cased thy blest spirit,
Till stern anguish wrings every core of the heart.

Farewell, best beloved one! we would not recall thee,
We will trust in the promise that Jesus hath given;
Though the sky of our happiness sorrow hath shrouded,
Yet of such as thou art, is the kingdom of heaven.

FABER'S genuine Ivory top Crayon PENCILS Osborne's superior WATER COLORS. For sale by J. H. HEAD.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

FROM CALIFORNIA.

New York, Feb. 28.—The steamship United States, from Aspinwall, arrived this morning at four o'clock, bringing California papers of the 1st inst., having left Aspinwall 18th inst., and connecting with the steamer Cottes, which arrived at Panama Feb. 15th, from San Francisco Feb. 1st.

The steamship Tennessee arrived at Panama on the evening of the 15th.

The health of the Isthmus remains good, and the roads across it are very much improved.

The steamship Sierra Nevada arrived at Panama on Feb. 9th, all well, making the passage from New York to that port in 58 days.

The British bark Larue, from Liverpool via Callao, arrived at Panama Feb. 14th, with 17 passengers from Australia. Most of the passengers who came up in the Larue are Americans, who emigrated from California about a year ago, and now return well satisfied with their gains.

The emigration into Melbourne from Great Britain is said to average about 1000 daily.

The United States brings 300 passengers, and $112,000 in specie.

FROM HAVANA—MR. KING'S HEALTH IMPROVED.—*Charleston, Feb.* 25.—The steamship Isabel arrived this morning from Havana, with dates of the 22d.

The steamship Empire City was boarded on her departure for New Orleans, and her letter bags broken open by a detachment of Cuban officials, headed by the Chief of Police. An energetic protest against the proceeding was made to the authorities. At the time of the departure of the Isabel no response, it is believed, had been received from the Spanish officials. The Isabel however, was permitted to leave the port without undergoing a search.

LATER FROM AUSTRALIA.—Dates from Australia to the 10th December, had been received at Callao by the English ship Irene, in thirty days from Sydney, the shortest passage made between the two ports. The yield of gold in Australia amounts to £1,000,000 sterling per month.

ACCIDENT.—Sa urday afternoon, about 3 o'clock, a little boy, son of Mrs. Elizabeth T. Bowles, who resides with her family at the United States Hotel, Boston, descending the stair case, while leaning over the railing to ease himself down, lost his balance, and fell to the marble floor below, killing him instantly. He was lame, and was in the constant habit of letting himself down stairs as easily as he could, as it gave him pain to descend the stairs without some kind of assistance.

The event spread a cloud of melancholy through the hotel, and the meal which but a moment before was so tempting, lost its attractions, and hundreds retired from the table with sorrowful countenances,

It is a mentionable coincidence that the lad was rendered a cripple in early life, by a similar accident. The remains were yesterday conveyed to Roxbury. The deceased was a remarkably bright and intelligent lad, and also very amiable.

In Belknap County, the 23d inst., the Grand Jury found a bill of indictment against the Boston, Concord and Montreal Railroad for carelessness, &c., thereby causing the death of John H. Smith, of Dover.

THE CAPITOL EXTENSION.—The alleged frauds, of which so much has been said in some of the newspapers, seem to be dwindling down to a very small size. The Hon. Mr. Stanton, Democratic Chairman of the Committee on Public Buildings, publishes in the Washington Union, a statement to the effect that the $400,000 appropriated by the deficiency bill was really a deficiency caused by the niggardly appropriation made at the last session, which was altogether insufficient, and only half of what was estimated for.

Judge Marshal of Baltimore, decided that railroad companies are not liable for personal injuries to passengers which occurred while they were standing on the platform of the cars against the warnings of the con uctors.

At the Steuben county (New York) Court of Sessions, George Palmer and Samuel Allen were severally convicted of obstructing the New York and Erie railroad at Andover, and sentenced each to four years and eighteen months imprisonment in Auburn State Prison.

FROM TEXAS AND MEXICO.—Dates from Galveston to 17th, and Corpus Christi 12th inst., are received. Indianola had been made a city. News from Chilhuahua states that the plan of Guadalajara had not been adopted there. Influential citizens were all in favor of a peacable annexation to the United States. Some kind of movement is anticipated. The Indians continue very troublesome, and were appearing in large parties.

Sheffingwell, an actor, formerly of the New York Bowery Theatre, in an affray on Thursday night, in Providence, knocked a man down named William Browman, who, in his fall, fractured his skull in such a manner as to render his death extremely probable. Sheffingwell has fled from the city.

DOGS.—In Quebec, dogs draw the carts of the milkmen around the city. In New York, they have heretofore, as well as in Constantinople, been treated as gentlemen of leisure, otherwise called drones, having no particular employment. Latterly, however, in New York, some rag and bone pickers, have taken the dog into partnership and the firm draws the cart containing their unsavory merchandize around the town. But his business connections are not limited to the poorer classes, nor to men. He has entered recently into arrangements with the ladies, and in wet weather, when the streets are muddy, is seen walking by their side, and holding up the trains of their long dresses in his mouth. The dog thus makes an admirable page. This we have seen ourselves.—*Newark Adv.*

New Music.

JOSEPH H. FOSTER has just received the following Pieces, among others:
SONGS—The Merry Milkmaid; Thanksgiving Day; Uncle Tom's Religion; Songs of the Flowers; St. Clare to Eva in Heaven;
'Tis sweet to hear the merry Lark;

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at
CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f8

LYON'S KATHAIRON FOR THE HAIR.

LYON'S KATHAIRON,

For Preserving, Restoring & Beautifying the Hair,
CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and all impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*
D. S. BARNES, *Proprietor,*
161 Broadway, New York.
Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. R. Preston, No. 2 Congress Block, Congress st.
Weeks & Potter, 154 Washington st, Boston, Wholesale Agents for New England. is6mf11

Also, Gang Saw Mill Work of the most approved construction, either attached to engines or run with belting. Also, Saw Arbors or Shafts, Shafting, Pulleys, Belting, &c., &c., either new or second hand; if not on hand, can be furnished at the shortest notice.
N.B.—All Machinery sold at this Establishment is warranted to give entire satisfaction to the purchaser.
Boston, Dec. 15, 1852. M1sw2m

THE POET'S LOT.

BY O. W. HOLMES.

What is a poet's love?—
To write a girl a sonnet,
To get a ring or some such thing,
And lustanize upon it.

What is a poet's fame?
Sad hints about his reason,
And sadder praise from garreteers,
To be returned in season.

Where go the poet's lines?
Answer ye evening tapers;
Ye auburn locks, ye golden curls,
Speak from your folded papers.

Child of the ploughshare, smile;
Boy of the counter, grieve not,
Though muses round thy trundle-bed
Their bordered tissue weave not.

The poet's future holds
No civic wreath above him;
No slated roof or varnished chaise,
Nor wife nor child to love him.

Maid of the village inn,
Who workest woe on satin,
(The grass in black, the graves in green,
The epitaph in Lain.)

Trust not to them who say
In stanzas they adore thee:
O, rather sleep in church-yard clay,
With arms and cherubs o'er thee!

CAUSE OF GRAY HAIRS.—Douglas Jerrold is a well known wit, and often cracks a good joke with his literary and other friends in the social circle. At a private party in the city of London, a lady—who, though in the autumn of life, had not lost all dreams of its spring—said to Jerrold—"I cannot imagine what makes my hair turn gray; I sometimes fancy it must be the 'essence of rosemary,' with which my maid is in the habit of brushing it. What do you think?"

"I should rather be afraid madam," replied the distinguished dramatist, dryly, "that it is the essence of *Time* (Thyme.)—*Peabody's Am. Chron.*

THE ART OF BEING BEAUTIFUL.

IT has long been a *desideratum* that some scientific man should apply himself to the study of the human scalp. Dr. JACOBY, the great Pathologist, from Berlin, has done this, and in this new field has attained the most brilliant results.—Satisfied by an analysis of the red colored alcohols and other washes of their deleterious effects, he compounded his celebrated Berliner Haar Wasche, to the efficacy of which thousands of witnesses might be summoned, of the accompanying character:—

BOSTON, Jan 1, 1848.

This is to certify that I have had an article called the Berliner Haar Wasche applied during the past five or six weeks to my head, for the purpose of renewing and strengthening the hair. It has been very effective in producing such a result; and I can cheerfully recommend the same to those afflicted with baldness or diseases connected therewith. JONAS CHICKERING.

It frequently happens that ladies suffer from *hair eaters*, and apply some of the nostrums prepared by apothecaries, who think, because they can make poor soda water, they can prepare good hair wash. The effect of these is often highly injurious. Ladies, use none of them,—consult Dr. Jacoby, who will eradicate the nuisance and guarantee a beatiful head of hair. His motto is, *no cure, no pay.*

To those at a distance, the Champoo Washer Nos. 1 and 2, and Haar Wasche, are recommended.—There is, however, no universal specific, and all persons troubled, should if possible see Dr. Jacoby.

In the course of his scientific research, Dr. Jacoby has discovered a Hair Dye that does not stain the skin, will give any shade of color, and will stand exposure in all weathers. The accompanying certificate, from a highly scientific source, must satisfy the most incredulous.

BOSTON, Nov. 18, 1851.

I have seen Mr. Moses Jacoby's Hair Dye, used in coloring hair of a deep brownish black, of a beautiful natural color, and can certify that it is perfectly efficient and permanent.

CHARLES T. JACKSON, M.D.,
Assayer to the State of Mass.

Dr. Jacoby's rooms are at No. 9 Franklin street, Boston, where he may be consulted at all hours.—There are always in attendance in both ladies' and gentlemen's rooms the most skilful hair dressers.

Boston, Dec. 16, 1852. Mlaw3m

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 224 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured several weeks earlier*, he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished for *twenty one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1852. eodly

North American Soap Co.

MANUFACTURERS, City and Country Dealers and the public are requested to give their Soap a trial. It is cheaper than other good Family Soap; can be used in cold, SALT or HARD water as effectually as the softest; will remove *Grease, Tar, Paint, &c.*, and contains no ingredients injurious to the skin or most delicate fabric; is superior for Woolen Goods, and clothes washed with it require NO BOILING and but little rubbing. Numerous testimonials might be appended, but the proprietors rest upon its merits. Sold by the principal Grocers throughout the country. All orders promptly attended to. M. B. BIGELOW,
152 Washington st., up stairs, Boston.
M3md15 Agent for Massachusetts.

BLACK STRAW BONNETS.—Just received, an assortment of Black Straw Bonnets, by
j5 H. A. BIGELOW.

Thermometers.

IT is known to most scientific men in this country, that the late Possas Kendall Freeman's process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to them in their process. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Mantle Thermometers
JOSEPH H. FOSTER,
f2 No. 5 Market street.

d4 TOWLE & ADAMS.

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.

PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from eminent scientific men of the land. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

No. 73 Market Street, up stairs, and orders received by

Livery Stable.

DENNETT & PERKINS

WOULD respectfully announce to the riding public and the citizens of Portsmouth generally, that their Stable is now supplied with as good a stock of HORSES AND CARRIAGES, for pleasure or business, as can be found in the City.

Passengers by the different Railroads will find our Carriages at the Depots in readiness to convey them to any part of the City, on the arrival of each train; and passengers taken at their residences for the Depots or to any part of the City.

Parties to the neighboring Towns and Beaches supplied with good carriages and attentive drivers on moderate terms and at short notice.

Carriages furnished for funerals.

Office No. 9 Vaughan Street, Portsmouth.
a2 DENNETT & PERKINS.

To the Riding Public.

C. H. SIDES & Co.,

KEEP the best of Horses and Carriages to let on the most reasonable terms, at the Livery Stable in
State Street,
nearly opposite the Rockingham House.

Pleasure riders will here find as good, stylish and safe teams as at any other establishment, at moderate rates—and are invited to favor us with a call.

COACHES furnished for conveying parties to any of the neighboring Beaches or Towns; also for attending FUNERALS, and conveying passengers to or from the depots, and in any and every direction, at the shortest notice, at all hours.

They are ever ready to attend to all orders in their line, and respectfully solicit a share of patronage. CHARLES H. SIDES,
WM. O. SIDES.
Portsmouth, Aug. 2, 1852. 1y

ROCKINGHAM HOUSE,

DAILY MORNING CHRONICLE

BY MILLERS & GRAY.

$4 PER YEAR---$3 IN ADV.

VOLUME 2. PORTSMOUTH, N. H., WEDNESDAY, MARCH 2, 1853. NUMBER 26.

Office, No. 4 Exchange Bldgs., Pleasant St.

DAILY CHRONICLE—$4 per annum, payable half-yearly; or $3 strictly in advance. If payment is made for a year, within six months of the time of subscribing, fifty cents will be deducted.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

BOOK, JOB AND CARD PRINTING

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

THE SLOO GRANT.

The New Orleans papers of the 21st ult. contain full accounts of the Sloo grant. The road will begin where the navigation of the Goatzacles river ceases. A plank road will be built from that point to the Pacific, to be begun within one year of the date of the contract, and to be finished within three years.—The railroad is to be commenced at the end of the third year and finished within four years. The company is to have the use of ports on both sides of the Isthmus, and necessary works are to be placed to their account.

Land is donated by the government, but, if necessary, the lands of owners of particular estates will also be appropriated according to law. Timber and other materials are to be taken from the public domain or from private estates when necessary. In the latter case the value of the articles appropriated to the use of the Company will be paid to the owners. Profits for the transportation across the Isthmus will accrue to the Company during the period of their charter, but the prices fixed by the Company shall previously be ratified by the Mexican government, the latter agreeing not to levy any impost upon merchandise sent across the Isthmus or passengers taking the Tehuantepec route. Implements, and materials, necessary to the building and repairs of the road, as also provisions and clothing, &c., will pay no duty.

The Company will carry across the Isthmus, free of charge, the mails and property of the Mexican government, troops, munitions, &c. They will not build forts, nor organize corps in any point of the Isthmus. They will not give passage to any armed force, national or foreign, without authorization of the government. They will admit on the Isthmus none but those persons necessary to working the road and its construction. The passage through the Isthmus will be free to all nations; but those who are not bound with Mexico by treaties of neutrality will pay for their produce 20 per cent. above the usual charge. The Company will have, during the period of their charter, exclusive right to the navigation of Goatzacles River, under Mexican colors between Vera Cruz and Goatzacoalco.

THE COUNTRY DOCTOR.—The following scene in the life of the country doctor is taken from the Knickerbocker:

The poor doctor is called from his bed on a stormy night with the stirring summons:

"Doctor, want you to come right straight away off to Bank's. His child's dead."

"Then why do you come?"

"He's p'isoned. They gin him laud'num for paregoricky."

"How much have they given him?"

"Doc'no. A great deal. Think he won't get over it."

The doctor pushes off through the storm, meets with divers mishaps by the way, and at length arrives at the house of his poisoned patient. He finds all closed—not a light to be seen.

"I knocked at the door, but no answer. I knocked furiously, and at last a nightcap appeared from the chamber window, and a woman's voice squeaked out—

"Who's there?"

"The doctor, to be sure; you sent for him. What the dogs is the matter?"

"Oh it's no matter, doctor. Ephraim is better. We got a little *skeered* kinder. Gin him laud'num, and he slep kind o' sound, but he's woke up now."

"How much laudanum did he swallow?"

"Only two drops. 'Taint hurt him none. Wonderful bad storm to-night."

The doctor turns away, buttoning up his overcoat under his throat, to seek his home again, and tries to whistle away mortification and anger, when the voice calls—

"Doctor, Doctor!"

"What do you want?"

"You won't charge nothin' for this visit, will yer?"

PUNCH very slanderously makes use of the following: "The sun is called masculine, from his supporting and sustaining the moon, and in finding her the withal to shine away as she does of a night, and from his being obliged to keep such a family of stars besides. The moon is feminine, because she is constantly changing, just as a chip is blown about by every wind. The church is feminine, because she is married to the state. And time is masculine, because he is trifled with by the ladies."

Florence, with its nine theatres, is building another large enough to hold them all. It is the peculation of a private individual who has made a large fortune in selling a patent medicine. There are six rows of boxes, an immense parterre, with a roof of glass, so as to permit day spectacles. It is fire-proof, the sides, floor, roof and partitions of the boxes being of brick or stone. They look more like dens for animals—they are shut in—than for jewelled ladies and scented beaus.

NO DANGER!—Punch illustrates the above declaration by a caricature, which he very *disrespectfully* dedicates to the *peace society*. A long eared donkey is standing before the muzzle of a loaded cannon, and proclaiming with all the strength of his vocal power—"There is no danger!" Behind the gun, and protruding from a cloud of smoke, is a human arm, the hand of which holds a lighted match, prepared to blow his donkeyship into the air; while the outline of a battery and the heads of a corps of artillery-men are seen faintly traced upon the cloud.

The estate of Senator James, of Rhode Island, was sold at auction on Saturday, 26th, for $9850. Encumbrances $20,000.

SODA SALÆRATUS.—25 casks this day received by MATHES & VARRELL.

DAILY
Morning Chronicle.

PORTSMOUTH:
WEDNESDAY, MARCH 2, 1853.

TO ADVERTISERS.

☞The Chronicle offers excellent advantages as a means of communicating with the public in this vicinity. We have regular and proportionately-large lists, supplied daily by carriers in our employ, in Newcastle, Kittery, Greenland and Epping; which, with our Daily circulation in the city, and on the Eastern, P. S. & P., and Portsmouth & Concord Railroads, and our Weekly circulation in all the neighboring towns—advertisements being inserted in both papers—afford a very thorough medium of communicating with "the people," at a low rate. ml

THE FIRING INTO THE BLACK WARRIOR.

The New York Courier and Enquirer of Saturday, publishes a letter from Capt. Schufeldt, giving a detailed account of the firing upon the Black Warrior by the Spanish brig, and also a letter corroborative of the same, from Senator Benjamin, of Louisiana, who was a passenger on board. Senator B. says it was he who first directed attention to the brig, which then had a flag flying, but she was at so great a distance that he could not make it out. Capt. S. however said it was Spanish, and instantly ordered his colors to be set; before this could be done the two guns were fired. Capt. S. then changed his course towards the brig, saying that if the Spaniard fired another shot he would run him down and sink him.

Capt. Schufeldt says, the occurrence was only one "which occurs often when merchantmen fall in with men-of-war, who are cruising on any particular ground for a specific object; in this instance I presume the brig to have been one of the fleet at present employed around the Island of Cuba, in checking the importation of slaves. It was her right and duty to see the flag of every vessel that passed within range of her guns, and had I known her to have been a man-of-war, I should certainly have anticipated her wishes, and shown our colors as a matter of respect and courtesy; but I was not aware of her character (there being two other vessels in company, and she having no pennant flying) until my attention was attracted to the smoke of her lee gun, when I instantly gave the order to hoist our flag. The commander of the brig, anxious to exercise his authority—or perhaps fearful (as we were going very fast) that we should soon be beyond his range—fired a shotted gun, before the man possibly had time to execute the order."

There will be some demand for an apology, one will be given: and nothing terrible will come out of it.

INTERESTING CASE.

There are interesting cases, both in law and surgery. How much more, when law and surgery combine, as recently occurred in a case in Strafford County, in this State. The Court of Common Pleas in that county, which adjourned last Saturday, were occupied for the last eight days of the term with the case of *Leighton* vs. *Sargent*, for *mal-practice*, which excited considerable interest, especially among gentlemen of the medical profession, and which is thus reported in the Dover Enquirer.

The plaintiff, who lives in Strafford, brought an action against the defendant, a physician and surgeon, at Barnstead, laying damages at $2000, for mal-practice in treating plff's right ancle, the bones of which were badly dislocated and fractured by his being thrown from his wagon on the first day of Sept., 1850.—The injured foot is now elevated at the heel about four inches, and quite stiff, and plff. alleged that by skilful treatment his foot should have been left in a position much nearer at right angles to the leg—and that the surgeon did not take proper care to elevate the ball of the foot while the healing process was going on. The deft. contended that the foot was kept as near its natural position as the severe nature of the injury and the inflammation and general sickness of the patient would allow. Many surgeons were introduced as witnesses from this vicinity, besides Drs. Parkman and Bigelow of Boston, Perry of Exeter, and others of eminence from abroad. The case was given to the Jury on Saturday noon, who in a very short time returned a verdict for the plaintiff, assessing the damages at $1500.

☞We have received with the compliments of the printer, George C. Rand, a copy of Rev. Dr. Adams' sermon, preached at the Essex St. Church, Boston, after the interment of Daniel Webster. It is a handsome specimen of typography. The first edition was printed for private distribution among the members of the Rev. Dr. A.'s congregation, and that edition having been exhausted, this is printed to supply those who have expressed a desire to obtain a copy.

CONGRESS.—The Senate, on Monday, Feb. 28, discussed the Civil and Diplomatic appropriation Bill.

The House considered the Deficiency and Army Bills. Neither of them was finished.

MEXICO.

Revolution, turmoil and disorder, (all of them on a small scale,) exist in Mexico: and prevent the Republic from rising in dignity or force.

Mexico lacks the puritan element which is infused and diffused through our community by *common schools*. The key of knowledge in Mexico is held by a church and priesthood which doles out to the people only what it pleases, and withholds the remainder—while our system unlocks the store-house of universal knowledge, and bids the people help themselves. This is one grand difference between our republic and theirs.

The Picayune has Tampico dates to the 9th ult, from which it learns that ex-President Arista had arrived there in disguise, and after a stay of two days left for Matamoras.

Col. Cruz had succeeded to the command of the troops at Matamoras, and A alos took refuge with the American officers at Fort Brown, but afterwards returned to Matamoras and thence to Saltillo. Carvajal was at Reynosa with troops. Enmity is said to exist between him and Cruz, and he intended attacking the latter as he came down to Matamoras.

Carvajal and men, also the National Guards generally, are incensed at the massacre of Rodriguez, at Tampico, and one of Carvajal's men, by the orders of Col. Cruz. The latter had issued a proclamation giving twenty days from the 22d ult. for Carvajal and his followers to lay down their arms, and unite in the plan of Guadalajara.

TEMPERANCE CONVENTION.

The Boston Chronicle says,

"The announcement has gone forth to every haunt of fanaticism and folly in the land, that a grand state temperance convention will be held in this city on the 10th instant, day and evening, to adjourn in darkness, as a fitting finale of the malice and madness which will undoubtedly characterise the proceedings of the occasion. *The* temperance party par excellence does not patronize the Chronicle,—though, thank heaven, the real parties for temperance crowd to our support.

"We are promised, as we have not madmen and fanatics enough of our own, an importation of the article from abroad—of Henry Ward Beecher, E. H. Chapin, T. W. Higginson, Charles Jewett, and others of equal and less notoriety in the world."

From all this we must infer—1st, that the teetotalers who *pretend* to be temperance men, are to meet in Boston on the 10th of March; 2d, that the only *real* friends of temperance are such as support the Boston Chronicle; and 3d, that Beecher, Chapin and Higginson are madmen. We give the items as we find them—and the reader may believe them, if he can.

The Chronicle asks,

"What would this band of fanatics and so called reformers say, should those opposed to the liquor law hold mass conventions in the capitals of the different states, during the months the legislatures were in session?—What a holy horror would be expressed of such an unrighteous movement! How would ring charges of bribery and corruption—wealth beating down poverty—the aristocracy of trade riveting, with the iron grasp of despotism, the chains of the poor drunkard, the widow and the orphan! And yet, where is the difference between such supposed conventions, and those held by the advocates of the Maine law? There is none; and yet these canting reformers claim the holiest and best of motives in assembling these conventions."

This strikes us as a very remarkable paragraph, worthy of the most serious consideration. We have no doubt whatever, that the "canting reformers" here spoken of, have good motives in assembling—nor will we doubt for a moment the honesty of the dealers and friends of the liquor trade in their belief that the traffic is either a blessing or a necessary evil. We can see no reason why they should not get up a convention to advance their own views, and promote their own interests. Though the Chronicle can see "no difference" between the two kinds of conventions, we think we can see and point out a very plain difference.

The men, (the fanatics if you please) who will assemble in Boston on the 10th, are engaged in sustaining and enforcing a law which they expect to do more good for the *community* than we think it can do; and so far as we know them, they are disinterested. The other convention would be composed mainly of men who sought to defend their own business, and to promote their own gratification.

Of the efficiency of the law itself, in promoting and securing temperance, we have always had misgivings:—of the honesty of its earnest friends, never. And it will require something more than an editorial *ipse dixit* from any newspaper, to change our estimate of men and christians whom we have known for many years.

STEAMERS FOR PORTLAND.—The N. Y. Tribune says that Wm. Collyer is building two steamboats and a bark at his yard in N. Y. One of the steamboats is to run between New York and Portland, and 100 feet keel, 27 feet beam, 8 1-2 feet hold, and 200 tons register. She will be launched in April.

There is a good story told of old Meolraj, the native East India general. His followers stole from the English a lot of hermetically sealed provisions in tin cases, and not having seen anything of the kind before, he mistook them for cannister shot, and fired nothing from his guns for three days but fresh lobsters, pickled salmon, and other delicacies, supplying the British camp with a shower of the freshest English provisions!

LOCAL.

FOURTH OF MARCH.

☞There is to be a grand Ball in Congress Hall on Friday evening. Almost everybody is on the managers' list—and nobody knows how to manage the floor better than the gentlemen who have this ball in charge. A chance for a good time. See adv.

☞The "Young Americas" will give a Social Assembly at Franklin Hall in Hampton, on Friday evening March 4th, in honor of the Inauguration of Pierce & King.

We are requested to say that "a particular invitation is extended to all, especially to 'old fogies.'"

Music by Lamprey & Haines' Quadrille Band, of this city. Tickets 75 cts.

TEMPERANCE LECTURES.—We learn that Gen. Riley, of Rochester, N. Y., will address the citizens of Portsmouth, on the subject of Temperance, at the Temple, on Monday next, March 7, at 2, P. M. and 7 P. M.

Gen. Riley's reputation as a Temperance lecturer entitles him to a full house.

Thirty-Second Congress—Second Session.

MONDAY, Feb. 28.

SENATE.—Mr. Hunter, by the direction of the Committee on Finance, submitted an amendment appropriating $240,000 for the purpose of the sites and the erection of dwelling houses for the Vice President and the several members of the Cabinet; rejected, 24 to 23. Subsequently the vote was reconsidered.

Mr. Bradbury moved to amend by striking it all out, and inserting a provision making the salary of the Vice President and the Cabinet officers $8,000 per annum. This was agreed to, yeas 36, nays 17; and as amended the amendment was adopted—yeas 40, nays 15.

An amendment appropriating $150,000 to be expended under the direction of the President, in obtaining a supply of pure water for Washington City, to be taken from such point and introduced in such manner as he may direct, was offered by Mr. Hunter. It was adopted.

Mr. Mason offered an amendment, that there shall hereafter be allowed and paid to the Ministers to Great-Britain, France, Russia, and Spain, the sum of $6,000 each for a house and office rent, salary of private secretary, &c.; and $4,000 to the Minister resident in Turkey. This is to be in addition to their outfit and salary. Also providing for an Assistant Secretary of State at $3000 per annum. *Adopted.*

Mr. Mason moved to amend the bill by adding thereto a section repealing all duties on railroad iron. He said he offered it in obedience to instructions from his legislature.

Mr. Douglass moved to amend by providing for a suspension of those duties for three years. He said if that was voted down, he would vote on their repeal.

Mr. Clark gave notice that he would move to amend by including the duties on iron in blooms, bars, &c.

Mr. Cooper followed in earnest opposition to the amendment.

Mr. Seward opposed the amendment; he regarded that as a spurious free trade which abolished revenues and made no provision for their supply. He could not vote to take away three mills from the revenue of the country, or to sacrifice the capital invested in a single interest. He held it to be the best policy of the country to take care of its iron. The iron of the United States was of far more importance to the government than the gold of California. He considered it unjust to reduce the revenue at the expense of those engaged in the iron manufacture.

Mr. Hale said if there was to be two hundred and fifty thousand tons of railroad iron in the next year, and there were only eight furnaces in Pennsylvania at work, those furnaces could not supply one-tenth of the amount demanded, the other nine-tenths would still have to be imported, even if this amendment be not adopted.

Mr. Hunter appealed to his colleague to withdraw his amendment.

Mr. Mason declined.

A bill granting the right of way to the Selectmen of Chelsea, Mass., over certain government Hospital grounds in that place, was then passed. The Senate then adjourned.

WITCHCRAFT IN PENNSYLVANIA.—The Chambersburg (Pa.) Whig, of Feb. 17, relates the following singular instance of superstition, which proves that the belief in witchcraft is not yet done away with:

"A correspondent, writing from Fulton Co. informs us of a singular case of supposed witchcraft that occurred near Sideling Hill.—There is a certain religious sect in that neighborhood, calling themselves the Christian Church. A lady, one of the members, was taken sick and lay for some time, until she finally imagined herself bewitched, and a sister in the Church was settled upon as the witch. A meeting of the session was called in due season, at which the minister presided, and the charge of witchcraft was formally preferred against the lady. Being a new case, and we presume, not provided for in the discipline, the session was puzzled as to the proper manner to proceed in the case. At length it was proposed that she should be asked to step over a broomstick, as it had been said that a witch could not do so; but the accused got over it without apparent difficulty. After a consultation it was then agreed that she should be tried in a pair of weigh-scales with a bible to balance her, and if she was a witch the bible would be too heavy for her. Accordingly she was taken to a mill, and the experiment tried, but she proved too heavy for the bible. It was then intimated that probably her clothing prevented a fair test, and half a bushel of corn was put on the scales with the Bible, to balance the clothing, but still the lady was too heavy, and the charge was formally dismissed."

A married man named Brunel, was imprisoned in Boston, on Tuesday, charged with abducting a young girl of 15 years.

A VETERAN GONE.—A venerable gentleman of 86, familiarly known as "Father Webb," and who was a teacher for many years in the public schools, died in Charlestown, Mass., on Saturday. For a year or two past he had been nearly blind, though a happy nature and a christian faith rendered his life joyous and contented to the last. Humanity sighs when such worthies die.

METHODISTS.—The Zion's Herald takes the following view of Methodism in this country. It says:

American Methodism is not yet a century old. In the short space of eighty-seven years it has built four thousand two hundred and twenty churches, (which is a little less than one for every week of her existence,) at a cost of fourteen millions, seven hundred and thirty thousand, five hundred and seventy-one dollars. It has also erected and endowed its colleges and numerous academies with large sums. It has built innumerable parsonages, and supplied itself with church and Sabbath school literature.

Now, most of these churches having been newly erected, rebuilt or remodelled, and most of these vast outlays having been made within the last quarter of a century, we think it no exaggeration to estimate the expenditures of Methodism in the United States, for home purposes, at an average very little short of one million dollars per annum, for the last twenty-five years, in addition to what it has paid for the support of its ministry.

BILL-STICKER WANTED.—By the Commonwealth. One who can make a *bill* of indictment stick under the present liquor law.—*Lowell News.*

For the Chronicle.

PORTSMOUTH, March 2, 1853.

Messrs. Editors:—The communication put in circulation through your paper, of yesterday, as coming from the city authorities, is utterly false, both in language and meaning. The communication left with them, reads as follows:

"*To the Honorable Mayor and Board of Aldermen:*

GENTS:—I will agree to close up my gate, leading to the Court House lot, providing you will remove the fence outside of my fence, and both to remain so forever, unless changed by mutual consent."

This took place after having a private interview with the Mayor on the subject above referred to, and in order for reconciliation on both sides. I then stated to the Mayor I held a charge against the City for damage done to my property, both front and rear; in front for cutting down posts and trees by the Street Commissioner—and rear staving down fence, breaking lock, staples and hinges, and taking away boards by City Marshal; this was done last fall. I stated to Mayor Toppan if one suit was commenced, three *would be*, and would be attended with expense and anxiety, which I did not wish. On this ground alone did I make the above named proposal, and not from any *fears* of the *result* of *any suit* brought against me by the city authorities.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

FOUR DAYS LATER.

ARRIVAL OF THE HUMBOLDT FROM EUROPE.

New York, March 1.—The steamship Humboldt arrived this morning at 9 o'clock from Havre via Southampton, with London dates of Feb. 16.

She brings 65 passengers and nearly $100,000 in gold. Among her passengers are J. R. Croskey, U. S. Consul at Southampton; Francis Pulsky, the friend of Kossuth, and Joseph Magillian, Secretary to the Spanish legation at Washington.

The Humboldt was off Sandy Hook yesterday afternoon, but was befogged.

The Europa arrived at Liverpool on the 13th Feb.

In Parliament, Mr. Cobden called the attention of the Secretary of Foreign Affairs to a letter in the London Times, written by the Earl of Mount Edgecomb, who says he has private information of undoubted character that the naval armaments of France are to be eventually employed in a descent upon the English shores.

Lord John Russell doubted the correctness of the information, and stated that the relations between the two countries are very friendly, and that the Government had not thought it necessary to remonstrate with France on the subject of naval preparations.

The weather in England has been remarkably cold, with much snow and severe frost.

The Queen Victoria steamer, from Liverpool to Dublin, struck on rocks of Howth, in a snow storm, on the night of Feb. 14, and sunk; about 50 persons perished.

Italy.—Accounts from Milan represent the recent outbreak there to have been a small affair. The Austrian Government had placed a military cordon on the frontier of Switzerland. Martial law of the most rigorous nature had been enforced at Milan.

The Emperor of France in a speech to the Legislature, stated his intention to reduce the army to keep up a good understanding with the powers of Europe.

CALIFORNIA NEWS.

By the steamer United States at New York from Aspinwall, we have the following items of news, showing a sad state of things between American and Mexican miners.

Provisions at the mines were cheaper. The miners generally were doing well.

Great excitement existed in Calaveras county, on account of a great number of robberies and murders committed by an organized gang of Mexicans. The Americans were retaliating.

The entire Mexican population had been driven from San Andreas and the Forks of the Calaveras.

A mass meeting had been held to take measures to expel the Mexican population from the country. All who refused to leave were to be shot down. An old Indian chief at Frenchtown had been hung by a lynching party.

Numerous accounts of the extraordinary yield of the mines were coming in. A heavy flood had occurred in Tulare county.

The U. S. corvette Portsmouth was at Acapulco.

Washington, Feb. 28.—The Secretary of the Navy has recommended to the Naval Committee of the House to report a resolution directing the department to contract with Capt. Ericsson, for a caloric frigate of 2000 tons.

The City Council of Washington have passed resolutions highly complimentary to President Fillmore, and asking him to appoint a day for a public leave taking.

In the Supreme Court, this morning, Judge Wayne decided the celebrated Koscuisko property case in favor of the heirs.

A REMINISCENCE connected with the United States Hotel at Chicago, which was burnt only a few days since, shows the astonishing rapidity with which Chicago has grown into a large and flourishing city. Only sixteen years ago, on the spot where the hotel referred to stood, there were seated the U. S. Commissioners, with three thousand Pottawatamas Indians arranged on the ground in a semi-circle before them—the men in front, three deep, and the squaws and pappooses in the rear. The Indians had met to receive their last payment, and the government had decided to make the payment to the heads of families, rather than to the chiefs.

The chiefs objected to it, but the commissioners answered that there could be no change. Then with gloom upon his brow, an aged chief named Mattawa, arose and broke forth in a lamentation saying that the Pottawatamas must go far away, no more to roam their own loved prairies, or shoot the canoe across their noble lake. "The white man has come," he said, "and he will build a great town, and many houses will cover the fields of the Pottawatamas." In sadness these Indians were led off to Council Bluffs, and afterwards to a district set apart for them on the Arkansas. And sixteen years have passed, and a large bustling city of the white man has usurped the place of the Pottawatamas.

DEATHS IN CALIFORNIA.—The following deaths of New England men, are reported by the latest arrivals.

Charles B. Smith of Gloucester, Henry R. Prindle of Ware, Mass., Wm. Leach, New Hampshire, Horatio A. Gates Brown of Lexington, Mass., R. G. Jacobs of Roxbury, H. F. Wiggins, Waldo, Me., Daniel Waterman, Belfast, Joseph Hedge, Westfield, Mass., Silman Greene, Wareham, Olney Thayer, Mass., Thomas F. Woodside, Concord, N. H., Isaac Melvin, Cambridgeport.

A young man named Ira A. Ware, a native of New England, committed suicide at San Francisco.

The superior court of New Hampshire, in a case before it for the recovery of the amount of a note given for a stock of goods bought, including a quantity of liquor, ruled that the liquor being sold without a license, was an illegal transaction, and consequently invalidated the whole bill! Verdict for the defendants.—*Mail.*

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at
CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

BURNING FLUID, CAMPHENE AND PATENT OIL.
Also, sole Manufacturer of JENNING'S PATENT SAFETY PHOSGENE GAS and LAMPS, for New England States. j10is8m

VALUABLE PROPERTY FOR SALE

IN FRAMINGHAM, MASS.

THE house heretofore known as the FRAMINGHAM HOTEL, situated in Framingham Centre, Mass., having been put in complete and thorough repair throughout, is now offered for sale. The main house is 100 feet on the street, 60 feet of which has a piazza, and contains 30 rooms, including a large hall; has a large and dry cellar, Ice House, and the best of water. The whole premises have been occupied the past year as a private residence, during which time many improvements have been made in and about the house and grounds, the front yard having been enclosed, set with large trees, and grassed. The house is well calculated for a genteel Boarding House or Hotel, for which it was formerly used, and the Board of Education have decided to remove the State Normal School, now located at West Newton, to Framingham, the site for which is only a few minutes' walk from the premises, makes this property particularly desirable for this purpose, as it will secure, in connection with boarders from the city, a profitable business the year round.
It is also desirable as a private residence, having every convenience as such, and being situated in close proximity to the Common, several Churches, High School, (free,) and only a few minutes' walk from the depot. The size of the House, to any one having a large family, would not be objectionable, as the hall and other parts could be fitted up in a manner which would add much to the convenience and comfort of a residence in the country; or a part of it could be so used, and the remainder let, without inconvenience. To persons, therefore, in pursuit of property for either of the above purposes, or for investment, an opportunity offers rarely to be met with. Terms of sale will be liberal, and possession given at any time.
For further information, apply by letter or otherwise, to L. WIGHT, Framingham, or in Boston to J. K. PORTER & CO., 27 Water st.
Dec. 27. WSistf

LYON'S KATHAIRON FOR THE HAIR.

LYON'S KATHAIRON,

For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontestable—its incontestible virtues! It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st, N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

Sold to the trade at a liberal discount, but *commissioned in no instance.*

D. S. BARNES, *Proprietor,*
76 Broadway, New York.

Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. R. Preston, No. 2 Congress Block, Congress st.

Weeks & Potter, 154 Washington st, Boston, Wholesale Agents for New England. is6mf11

LADIES' DRESS CAPS.—A fresh assortment just received by H. A. BIGELOW.

HYMN BOOKS.—Universalist, Methodist, Baptist, Christian and Orthodox Hymn Books, for sale at J. H. HEAD'S.

SOOTHING AND STRENGTHENING ADVICE TO A FRIEND—DOWN IN THE MOUTH.

Has fortune frowned, my honest friend?
Don't hang your head so low;
This is no time to falter now,
Up! strike another blow!
Don't sit and groan and grunt and tell
What you have *tried* to do,
But place your shoulder to the wheel,
Strain nerve! *and put her through!*

Don't call fate *hard*—it may be so—
You've said so now too oft;
Depend upon it, you can find
Some place a *little soft*;
And when you find it, buckle up,
Stand firm upon your legs,
Hit from the shoulder! hard! my boy!
And knock fate off its pegs.

Fortune sometimes wears cap and bells
And plays some funny tricks,
She's made you throw a double ace—
Now throw a double six!
All that you want is *nerve*, my friend,
Misfortune is no sin—
And if she knocks you on your back
Hop up and buck again!

There's truth in this old saying, man—
Plain truth I pledge my word,
Better than any sermon I
From pulpit ever heard;
When all looks dark—keep up your heart—
In sunshine make your hay—
In either case you'll find that *"things Can't always run one way!"*

A correspondent of the Literary World sends the following objection to the annexation of Cuba;

About the annexation of Cuba,
I don't care for prospective wars;
But then, when the Island's once Yankee,
We can get no more *Spanish* cigars.

COUGH REMEDY!

FOR THE COMPLETE CURE OF
Coughs, Colds, Influenza, Asthma, Bronchitis, Spitting of Blood,
AND ALL OTHER LUNG COMPLAINTS
TENDING TO
CONSUMPTION!

THE above Expectorant, prepared by an experienced Physician and Chemist, has now become a standard Preparation, and is offered for the COMPLETE CURE of those diseases of the **Throat** and **Lungs**, which, if neglected, usually terminate fatally in **Consumption**. It contains no *Opium, Calomel*, or any mineral whatever, but is composed entirely of those *Roots, Herbs*, and *Vegetable substances* which have a specific influence upon the Lungs and their connected organs. Its immediate effect is to allay all irritation, and gently remove the phlegm and other morbid secretions from the Throat and Air-passages, thus relieving the Cough, by subduing the inflammation and other causes which give rise to it. It is approved of and recommended by Physicians of the highest standing, and may be given with perfect safety to the youngest child, or the most delicate female.
PROPRIETOR'S DEPOT—**A. L. Scovill & Co.**, Gothic Hall, No. 216 Broadway, New York.

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.
Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.
This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.
The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.
Also, a few Papier Mache Mantle Thermometers
JOSEPH H. FOSTER,
f2 No. 5 Market street.

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.

PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.
The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.
☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.
Specimens of the article may be seen at the office of the subscriber.
No. 73 Market Street, up stairs,
and orders received by
d2 J. P. BARTLETT, Agent.

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

THE TELEGRAPH.

A correspondent of the Portland Advertiser gives the following interesting account of the Telegraph, as it has risen and progressed in this country.

During the summer of 1832, Professor S F. B. Morse, an American, conceived the idea of an electric or electro-magnetic telegraph, and after numerous experiments, announced his invention to the public in April, 1837.

On the 10th of March, 1837, Hon. Levi Woodbury, then Secretary of the Treasury, issued a circular requesting information in regard to the propriety of establishing a system of telegraphs for the United States, to which Prof. Morse replied, giving an account of his invention,, its proposed advantages and probable expense, At that time "he presumed five words could be transmitted in a minute."

In 1838, the American Institute reported that Morse could telegraph the words "steamboat Caroline burnt," in six minutes. Now, a thousand such words are telegraphed in two minutes.

In 1844, Congress built an experimental line from Baltimore to Washington, to test its practical operation. That line was soon continued on to Philadelphia and New York, and reached Boston the following year. Two branches diverge from this line, one from Philadelphia to St. Louis, 1000 miles—the other from New York via Buffalo to Milwaukie, 1300 miles long. One also 1400 miles in length, goes from Buffalo to Lockport, and from thence through Canada to Halifax, N. S., whence there is a continuous line through Portland to Boston. The great Southern line, from Washington to New Orleans, is 1700 miles long. Another 1200 miles, running to New Orleans from Cleveland, Ohio, via Cincinnati. The best paying line, it is said, is that between Washington and New York, which during six months of last year transmitted 154,514 messages, valued at $68,499—and the receipts for the year ending July, 1852, were $103,860. The average performance of the Morse instruments is from 8000 to 9000 letters per hour. The cost of construction, including wire, posts, labor &c., is about $150 per mile. The Bain Telegraph extends in the United States 2,012 miles, and House's 2,400 miles—making a total with Morse's, of 89 lines, embracing 16,729 miles. At how many way stations the magnetic current is arrested and messages conveyed, we are not informed. Thus, in less than nine years from a feeble beginning under the fostering aid of government, have its wires and news communications spread all over the country.

The astonishing results of the telegraph, victorious even in a run against time, are remarkable in the United States. The western cities, having a difference of longitude in their favor, actually receive news from New York sooner than it is sent. When the Atlantic made her first return voyage from Liverpool, a brief account of the news was telegraphed to New Orleans at a few minutes *after* noon (New York time) and reached its distination at a few minutes *before* noon (New Orleans time) and was published in the evening papers of both cities at the same hour. This is now a daily occurrence.

Through its instrumentality (we mean no pun) Webster's death was simultaneously made known throughout the length and breadth of our land, and the next morning the pulpits from Maine to New Orleans, were echoing in eulogies to his greatness, and mourning his departure.

The great extent of the telegraph business, and its importance to the community, is shown by a statement of the amount paid for despatches by the associated press of New York, composed of the seven principal morning papers—the Courier and Enquirer, Tribune, Herald, Journal of Commerce, Sun, Times and Express. During the year ending November 1, 1852, these papers paid nearly $50,000 for despatches, and about $14,000 for special and exclusive messages, not included in the expenses of the association.

The difference between Morse's and House's telegraph is, principally, that the first traces at the distant end what is marked at the other; while House's does not trace at either end, but makes a signal of a letter at the distant end which has been made at the other, and thus, by new machinery, and a new power of air and axial magnetism is enabled to print the signal letter at the last end, and this at the astonishing rate of sixty or seventy strokes or brakes, in a second, and at once records the information, by its own machinery, in printed letters. Morse's is less complicated, and more easily understood, while House's is very difficult to be comprehended in its operations in detail, and works with the addition of two more powers—one air, and the other called *axial magnetism*. One is a tracing or writing telegraph; the other a signal and printing telegraph.

MARRIAGE IN HIGH LIFE.—The late marriage in high life at Washington, on Sunday evening, made no little sensation. The ceremonies took place at St. John's Church. The parties were the wealthy and charming Mrs. Gen. Ashley, of St. Louis, to Attorney General Crittenden. The President, the members of his cabinet, and the President elect, were among the distinguished party present, as was also Hon. Mrs. Cabell of Florida, daughter of the bride. The happy couple are spending the honey moon at the National Hotel, amid the congratulations of friends.

The wife of Mr. Badgly and a servant woman were poisoned at Louisville, on the 19th February, by carelessly mixing in with some bread a portion of flour in which arsenic had been mingled for rats. The wife died on Saturday.

DAILY
Morning Chronicle.

PORTSMOUTH:
THURSDAY, MARCH 3, 1853.

TO ADVERTISERS.

☞The Chronicle offers excellent advantages as a means of communicating with the public in this vicinity. We have regular and proportionately-large lists, supplied daily by carriers in our employ, in Newcastle, Kittery, Greenland and Epping; which, with our *Daily* circulation in the city, and on the Eastern, P. S. & P., and Portsmouth & Concord Railroads, and our Weekly circulation in all the neighboring towns—advertisements being inserted in both papers—affords a very thorough medium of communicating with "the people," at a low rate. ml

CANDIDATES FOR GOVERNOR.

That lively and pleasant paper, the State Capital Reporter of Concord, speaks in the following respectful terms, of two of the candidates for Governor, particularly of one, to whose election the Reporter is opposed.

"We cheerfully concede that James Bell is a gentleman of talents, of courteous deportment, and a lawyer of first rate ability—in short, as good a man as the whigs have in their ranks, as well calculated to make a good run for the office, and in case of his election (if that were a supposable case) a popular Governor. But what of all this? James Bell's *principles* are the exact antipodes of those held by the democratic party—the great majority of the people of this State. He holds no sentiment in common with the democracy, and the qualifications his friends claim for him, only render him a more dangerous opponent. If he possesses great powers of mind, this would enable him to do the democracy a greater amount of harm, and should therefore call forth a more spirited opposition. As an individual and a man, we have nothing to say against Mr. Bell, but a great deal in his favor—but as a *politician*, he is the last man that any democrat, or friend of democratic principles, would ever think of voting for. We might just as well ask the whigs to vote for Doct. Martin, who is eminent as a physician as Mr. Bell as a lawyer—a gentleman of the old school—a democrat of the OLD GUARD—always true to Jeffersonian principles and prompt to sustain the country and the Union."

Now we must say that we like this kind of electioneering. A personal acquaintance with Mr. Bell also gives us the right to say that the praise here awarded is just. What is said of Dr. Martin is also true. Of Mr. White, who is the candidate of the free democracy, we know nothing except by reputation, which speaks well of him. So, be it understood, the canvass for governor here, is not conducted on the plan of mutual abuse,—but three good men are set up as representatives of three ideas, principles or parties.

We see three parties; and the free democrats have proclaimed what their distinctive "one idea" is. And the Reporter, as above, intimates that Mr. "Bell's [whig] principles are the exact antipodes of those held by the democratic parties." We have read some of the best papers of both these parties carefully, since the canvass began, and if called upon to say what the distinctive policy of either is, in this state at this moment, we could not do it. We could not trace party lines in the votes of the last legislature, except in choosing officers, or making districts to choose others. And we do not know, no paper has told us, what either party means to do, if successful. We saw in the democratic papers, and in the resolutions of their conventions, complaints against abuses in legislation, and against treacherous and pretended democrats. But no names were called, and no abuses specified—and as the election now draws near, we do not expect to see any new light on these subjects.

In short, we know of no point at issue whatever, in our state election, except which of two or three parties shall hold the power, fill the offices, and draw the salaries!

In respect to members of Congress, there are some questions of great importance,—as the fisheries; reciprocal trade; protection to manufacturers, or discrimination against them; internal improvements, rivers, harbors, fortifications; intervention or non-intervention; annexation or filibusterism, &c., &c.—which make it politic to send one Representative rather than another, according as our own views agree with the real or supposed views of any of the candidates for the high office of Representative.

We have never seen the surface of our political sea look smoother, a few days before election, than it looks to-day.

TEMPERANCE IN DELAWARE.—A very stringent liquor law has passed the Deleware House of Delegates. It authorizes manufacturers to sell liquor in quantities of not less than fifteen gallons at any one time, provided they own the produce from which the liquor is manufactured. It also provides that the retailers shall not sell liquor to minors, and that tavern keepers shall not sell to minors or colored persons, and that persons once convicted under the law shall be incapable of being licensed a second time. The price of a license is fixed at $100 per annum, to be paid for the use of the school fund.

☞Mr. E. M. Webber, of Rumney, N. H., has been appointed route agent on the Boston and Maine Railroad, in place of Mr. S. Varney, resigned.

THE MISSING GIRL.

We have been greatly interested in the fortunes of the missing girl, from the first, and many of our readers have expressed a similar interest.

On Tuesday, placards were posted about the City of Charlestown, Mass. calling a public meeting to be held on Wednesday evening in Richmond street, Charlestown, to take measures for the restoration of "Honora Corcoran,"—who, it has been asserted, was induced by undue influences to leave a family with which she had been residing in that city as a domestic.

The authorities of Charlestown, anticipating that the placards contemplated a riot, and wisely deeming prevention better than cure, as well as easier, augmented their constabulary force, and ordered the military to be in readiness.

The Mayor of Charlestown also gave the following notice in the Boston papers of Wednesday morning:

NOTICE.—*Commonwealth of Massachusetts.*—On the first day of March, in the year of our Lord eighteen hundred and fifty-three, before me, at my office in Boston, personally appeared Ellen Corcoran, and being first duly sworn upon the Holy Evangelists of Almighty God, did depose and say as follows, to wit: "I took my child Mary Joseph Corcoran, sometimes called "Hannah," and sometimes called "Honora," under my own custody, of my own free will, and without the interference of any one. I placed her in a boarding-house kept by John Welsh, in Purchase street, Boston, and she remained there, unrestrained of her liberty, until I procured a place for her out of the city, where I took her at my expense, and where she now remains of her own free will and subject to no control. Signed—Ellen Corcoran. Witness—Richard Frothingham, jr.

And after the statement had been made she subscribed the same, and the same having been read over to her, she made oath that it was true. Geo. P. Sanger, Justice of the Peace within and for the County of Suffolk.

The undersigned have received positive assurances from the above named Ellen Corcoran, that her child, the above named Mary Joseph Corcoran shall return to Boston, and come before us as soon as Mrs. Corcoran, or a messenger whom she shall designate, can have time to go to the place of her residence and bring her back; and that the girl Mary Joseph, shall be in Boston, on or before Monday, the 7th instant. Richard Frothingham, Jr., Mayor of Charlestown. Geo. P. Sanger, one of the Aldermen of the City of Charlestown. March 1, 1853.

From the developments of this affair, so far, there can be no doubt that the mother, a zealous catholic, supposed that her daughter's becoming a baptist would ruin her soul and make her endlessly and hopelessly miserable. With this notion, which her religious teachers had impressed upon her, we think it not strange that a good mother should make an effort to save the soul of her child from such a fearful peril. Her conduct, on this hypothesis, is all natural and proper. But the community in Charlestown, do not and will not feel satisfied with the concealment and mystery about the matter,—and so the daughter is to appear next Monday and speak for herself, before the Mayor and Aldermen of Charlestown.

The real instigators of the whole plot, have very craftily kept themselves out of sight, making a cat's-paw of the poor mother, and in one case at least, of some of the Boston editors, by getting up a story about her being found, and the excitement in Charlestown ended. Subsequent events contradicted that story; the present prospect is, that the girl will be brought to light and set at liberty, if she is now restrained.

ONE MAN SAVED.—It was reported a few days since, that the brig Champion, of Portland, and all her crew, were lost. But we are now happy to learn that one of the crew, Robert Graves, of Westbrook, was saved, and was in Portland, on Tuesday, on his way home. When the vessel sank, he swam for the boat, (the lashings of which had previously been cut) when, on reaching it, he found it full of water, but by its aid was enabled to reach the shore. Thence he walked to a light house, a distance of three quarters of a mile, with his feet some frozen. Mr. Graves saved his chest, with his clothing, and money sufficient to pay his expenses home. He states that the bodies of the captain and mate washed ashore, and that the cook lashed himself to the rigging and went down with the vessel.

CONGRESS.—Both Houses were engaged on Tuesday, in discussing Appropriation and Deficiency bills. The Senate sat till nearly two o'clock at night, or rather Wednesday morning, and did not make much headway. The House sat till ten at night, and rejected the Senate's amendment, which appropriated $100,000 for the ether discovery.

THAT HARNESS.—The Boston Harness Makers, who prepared the dazzling harness for Gen. Pierce's new gift Coach, contradict the story that the committee of the donors limited the cost at $400. They say, on the contrary, that the committee told them to make the very best they could, and did not limit them at all.

The law suit is already begun—and a very pretty quarrel it may be.

BREAD AND GOLD.

Our working men have sometimes perhaps compared the moderate reward they get for labor, with the sudden and great rush of gold which sometimes floods a Californian laborer's pocket. But it is not always flood tide there—nor does the stream flow into every man's pocket. Far from it. An editorial now before us, from the San Francisco Placer Times, is headed, "High Prices—Hard Times for Laborers," and says:—

"Probably at no period since the discovery of the gold mines, have the people of California found it so difficult to procure the necessaries of life for their labor as during the past few months. In 1849, prices were for a time even higher than at present, but then gold could be found in greater abundance, and in closer proximity to navigable streams where food could be readily procured. Then the laborer could almost any where in the mineral region or in our cities, procure the necessaries of life by a few hours exertion each day. But for the past few months thousands of our population have actually suffered from hunger. They have been forced to live upon coarse and unwholsome food, and have in many instances not had enough even of this.

We hazard but little in saying, that the laboring portion of our population has made nothing for the past four or five months.—The extraordinary price of food has taken all. Nor have merchants, with the exception of importers of such articles as were essential to the very existence of the people, made their expenses.

With an abundance of the necessaries of life in our markets, food has advanced.—While a fleet of vessels have been employed in bringing to our shores every commodity which the heart of man can desire, thousands of our citizens have actually suffere from hunger. They have not been able to obtain for their services what would supply their daily wants."

TRICKS OF THE TELEGRAPH.—A merchant in St. Louis recently received a telegraphic despatch from a gentleman in North Carolina, inquiring the price of dried pears in St. Louis. A reply was returned that they were held at a high figure—8 to 10 cents per pound. A second message was sent by the Carolinian, stating that he had shipped 250 bushels of the article to the merchant for sale. A slight mistake in a commercial correspondent may effect a great mischief, as was found to be the case in this instance; for, on further correspondence, it appeared that the Carolinian had shipped 250 bushels of dried *peas*, expecting a remuneration of 8 to 10 cents per pound, while the St. Louis merchant had given him the price of dried *pears*.

RESISTANCE TO RIDICULE.—Learn from the earliest days to inure your principles against the peril of ridicule; you can no more exercise your reason if you live in the constant dread of laughter, than you can enjoy your life if you are in the constant terror of death. If you think it right to differ from the times, and to make a point of morals, do it, however rustic, however antiquated, however pedantic it may appear; do it not for insolence, but seriously, and grandly—as a man who wore a soul of his own in his bosom, and did not wait till it was breathed into him by the breath of fashion.—*Sydney Smith.*

DEATH OF JOHN VIRGIN.—This eccentric individual, who for a year or two past has lived alone in a little cabin on the Pine Plain, was found dead on Friday last, and partially frozen, by some gentlemen who called at his door. From appearances he had died in a fit, or from cold, being unable from exhaustion to kindle a fire. He was lying upon the floor, with one hand in the stove, as if placed there to warm it. He was a soldier of the old fourth regiment in the war of 1812, and received a pension from the government. His age was about 68.—*Concord Reporter.*

THE ERICSSON.—The Washington correspondent of the N. Y. Express gives the following as the general opinion at Washington in regard to the new caloric ship: "The impression of intelligent men, who have visited the caloric steamer here, is rather adverse to her speed; and, of course, to her usefulness, when speed is required. It is alleged, that if this steamer was loaded down with coal and an armament, she would scarcely move at all, but it is replied that her machinery, engine, and *heater* are not adequate for such a sized steamer. The experiment of *motion* is of course successful; but how much, and if therefore *available*, is not deemed settled.

Haller, the celebrated engraver, died, as he had for the principal part of his life lived, in the greatest poverty. Within a few days of his dissolution, bailiffs were sent to seize the bed on which he lay for a small debt which he was unable to discharge. "Spare me," said the expiring artist, "my bed for a little while—only till I can find another in the grave."

MURDER.—In the Greenville district, South Carolina, a few days since, Col. T. E. Ware had a dispute with his father-in-law, Capt. Jones, about some trivial affair, when Capt. Jones, becoming exasperated, struck Col. W., who thereupon drew a revolver and shot him three times, causing instant death. The Colonel gave himself up immediately.

George Kelsey, of Alford, a farmer of some considerable property, was sent to the jail at Lenox, on Wednesday of last week, charged with being a common drunkard, and was found dead in his cell, on the morning after his committal, from the bursting of a blood vessel.

Mrs. Howard, the late mistress of Napoleon III., has been ennobled by the Emperor, who has purchased and made her proprietor of the village of Beauregard near Versailles. She will bear the title of Countess of Beauregard.

A poor widow was asked how she became so much attached to a certain neighbor, and replied that she was bound to him by several cords of wood, which he had sent to her during a hard winter.

STATE OF NEW HAMPSHIRE.

A PROCLAMATION,
For a day of Fasting, Humiliation and Prayer.
BY THE GOVERNOR.

Days of fasting have been appointed and observed by most nations, from the remotest antiquity. Annual fasts on particular occasions, to appease the anger of God, were established as early as the second century, and have been perpetuated as a pious observance by churches, christian and civil communities down to the present time.

Our Puritan forefathers, from the deep religious sentiments with which they were imbued, and with all the sincereity and devotion characteristic of their piety, early in their labors of establishing a free government, set apart and consecrated days for fasting and prayer. Venerating their memories, respecting their customs, loving the institutions they so piously planted and nurtured, and believing the salutariness of this solemn observance—I do with the advice of the Council, appoint THURSDAY, the SEVENTH day of APRIL next, to be observed as a day of Fasting, Humiliation and Prayer throughout this State.

The people are solicited to observe the day in a manner which will comport with the design of its appointment, Let us conscientiously, devoutly and humbly join in asking of our Heavenly Father the forgiveness of all our sins; in imploring His fatherly guidance in all our future thoughts, words and actions; entreating the continuance of His watchful care over the State and the people, and beseeching Him to continue unto us, and all generations after us, this goodly land, with all its ennobling institutions, its Federal Government, and the inestimable Union.

Given at the Council Chamber, at Concord, the twenty-fourth day of February, in the year of our Lord one thousand eight hundred and fifty three, and of the independence of the United States the seventy seventh. NOAH MARTIN.

By his Excellency the Governor, with advice of Council,
JOHN L. HADLEY.
Secretary of State.

☞The "Young Americas" will give a Social Assembly at Franklin Hall in Hampton, on Friday evening March 4th, in honor of the Inauguration of Pierce & King.

We are requested to say that "a particular invitation is extended to all, especially to 'old fogies.'"

Music by Lamprey & Haines' Quadrille Band, of this city. Tickets 75 cts.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

WASHINGTON ITEMS.—*Washington, March 2.*—The dinner yesterday at the White House was a very agreeable affair. Besides the distinguished guest, there were present General Scott, Secretary Everett, Attorney General Crittenden, General Cass, Caleb Cushing, Messrs. Soule, Fillmore, Jr., Sidney Webster, &c.

A dinner was given last evening to Mr. Meagher, at which Captain Key presided. It was attended by several members of Congress and other prominent individuals.

General Pierce says that the report that he had expressed himself favorable to the success of the Whigs in the Massachusetts Constitutional Convention is a fabrication. He has expressed *no opinion on the subject.*

General Pierce has given the Consulship at Liverpool to General Benham of South Carolina.

THE RHODE ISLAND LIQUOR LAW.—The new liquor law, which has just been enacted by the legislature of Rhode Island, is to be submitted to the people on the 6th day of April, on the question of repeal—yea or nay. The law, however, goes into effect in ten days from the adjournment of the legislature, and will not be affected unless a majority of the people vote for its repeal. Should a majority of the people vote for repeal, then the law will cease its operations in ten days after the close of the May session of the legislature.—*Bos. Chron.*

CALIFORNIA STEAMERS.—Steamer Georgia, from Aspinwall, with the California mails, arrived at New York at noon on Monday, with 317 passengers and $2,424,000 in gold, including $300 in the hands of passengers.

DEATHS IN CALIFORNIA, in addition to those published yesterday. Seth A. Morse, of Paris, Me.; Wm. E. Ellis; Andrew H. Chase, of Hartford, Conn.; Jonathan Roberts, aged 42; Guy Bunneford, of Manchester, N. H.

The longest straight line of railroad is the Illinois Central Railroad, which is 700 miles in length, and has 636 miles in a straight line.

Thirty-Second Congress—Second Session.

TUESDAY, MARCH 1.

SENATE.—Mr. Rusk reported the post route bill, which, after several amendments, providing for the punishment of counterfeiting stamped envelopes, making the salary of the Assistant Postmaster-Generals $3000 each per annum, they hereafter be appointed by the President, with the advice and consent of the Senate, and when either of them shall act as Postmaster-General to receive $500 a year in addition to their salary, and to make all railroads post roads—were adopted, was passed.

The Civil and Diplomatic bill was then taken up.

The amendment appropriating $29,000 for heating, lighting, and refurnishing the President's house, was adopted.

Several small amendments were agreed to.

The question then recurred on Mr. Mason's amendment, temporarily laying over all duties on railroad iron, which Mr. Douglass had moved to amend by suspending for three years instead of repealing the duties on railroad iron, and the amendment of Mr. Mason was rejected—yeas 19, nays 36.

Mr. Bradbury of Maine, offered an amendment increasing and fixing the salary of the Judges of the United States District Courts, which was debated for an hour, when it was withdrawn.

[The deficiency bill was returned from the House, with several amendments disagreed to. The Senate insisted on its amendments, and a committee was ordered.]

Mr. Douglass moved to strike out an appropriation for the mission to Central America. Withdrawn.

Mr. Fisk moved to amend the bill by adding thereto five additional sections providing for the establishment in the city of New York of an office for the receipt and for the melting, refining, parting and assaying of gold and silver bullion and foreign coin, and for casting the same into ingots or discs.

The Chair said that the amendment contained an appropriation, and was out of order.

Mr. Fish renewed the amendment, striking out the appropriation. The amendment was then agreed to—yeas 38, nays 11.

Mr. Hunter moved an amendment appropriating $18,000 to pay the expenses of the select committee of the Senate.

Mr. Davis moved to amend the bill by adding thereto the proposition granting reciprocal fishing rights to the British and American fishermen in the waters of both governments. He urged the necessity of some arrangement of this subject, for if nothing is done now, a collision this summer will certainly take place.

Mr. Mallory moved to ament by adding thereto a proviso that nothing in this act shall be construed as allowing the citizen of any power to fish in the waters of any state of this Union.

Mr. Houston, by consent, submitted a resolution calling for copies of the accounts of the Census Superintendent, which was agreed to.

Mr. Davis's amendment was rejected.

Mr. Mallory's amendment was adopted.

HOUSE.—The consideration of the Army Bill was resumed in Committee of the Whole. The Senate amendments were taken up and mostly non-concurred in.

Mr. Dean offered an amendment in view of the recent proceedings by the Spanish government at Havana, placing $5,000,000 at the disposal of the President in case of any exigency arising prior to the first Monday in December next. Ruled out of order.

The amendments that whenever a Lieutenant of the corps of Topographical Engineers or Ordinance shall have served 14 consecutive years as lieutenant, he shall be promoted to the rank of captain, was agreed to.

The amendment appropriating $150,000 to make explorations and surveys for a railroad from the Mississippi to the Pacific was agreed to—ayes 80, nays 50.

French Zinc Paint.

Ground in Prepared Linseed Oil.

THE Subscribers having made arrangements to receive PURE FRENCH ZINC, fresh ground from the Factory, would respectfully call the attention of the trade, and consumers in general to this beautiful article, which when properly prepared and used makes the MOST BRILLIANT and DURABLE WHITE in use. It has been used in France for the past five years, and has entirely superceded White Lead as a paint.

The FRENCH ZINC, prepared as above, is offered in quantities to suit purchasers at the Manufacturer's Depot.

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at CHAPMAN'S TIN WARE FACTORY.

In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its order model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.

Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

VALUABLE PROPERTY FOR SALE

IN FRAMINGHAM, MASS.

THE house heretofore known as the FRAMINGHAM HOTEL, situated in Framinghan Centre, Mass., having been put in complete and thorough repair throughout, is now offered for sale. The main house is 100 feet on the street, 60 feet of which has a piazza, and contains 30 rooms, including a large hall; has a large and dry cellar, Ice House, and the best of water. The whole premises have been occupied the past year as a private residence, during which time many improvements have been made in and about the house and grounds, the front yard having been enclosed, set with large trees, and grassed. The house is well calculated for a genteel Boarding House or Hotel, for which it is much wanted; and the Board of Education have decided to remove the State Normal School, now located at West Newton, to Framingham, the site for which is only a few minutes' walk from the premises, makes this property particularly desirable for this purpose, as it will secure, in connection with boarders from the city, a profitable business the year round.

It is also desirable as a private residence, having every convenience as such, and being situated in close proximity to the Common, several Churches, High School, (free,) and only a few minutes' walk from the depot. The size of the House, to any one having a large family, would not be objectionable, as the hall and other parts could be fitted up in a manner which would add much to the convenience and comfort of a residence in the country; or a part of it could be so used, and the remainder let, without inconvenience. To persons, therefore, in pursuit of property for either of the above purposes, or for investment, an opportunity offers rarely to be met with. Terms of sale will be liberal, and possession given at any time.

For further information, apply by letter or otherwise, to L. WIGHT, Framingham, or in Boston to J. R. PORTER & CO., 27 Water st.
Dec. 27. WSlstf

LYON'S KATHAIRON FOR THE HAIR.

LYON'S KATHAIRON,

For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. Cornelius, 76 Bond-st. N. Y." This admirable preparation can be had of all respectable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents, and to the trade at a liberal discount, but *consigned in no instance.*

D. S. BARNES, *Proprietor.*
161 Broadway, New York.

Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. R. Preston, No. 2 Congress Block, Congress st.

Weeks & Potter, 154 Washington st, Boston, Wholesale Agents for New England. 1e6mf11

RURAL BURIAL.

Where shall we make her grave?
Oh! where the wild flowers wave,
In the free air!
Where the shower and singing bird
'Midst the young leaves are heard—
There—lay her there!

Harsh was the world to her!
Now may sleep minister
Balm for each ill.
Look on sweet nature's breast,
Let the meek heart find rest,
Deep, deep and still!

Murmur glad waters by!
Faint gales with happy sigh
Come wandering o'er
That green and mossy bed,
Where, on a gentle head,
Storms beat no more!

What though for her in vain
Falls now the bright spring rain,
Plays the soft wind!
Yet still from where she lies
Should blessed breathings rise,
Gracious and kind.

Therefore let song and dew
Thence in the heart renew
Life's vernal glow!
And o'er that holy earth
Scents of the violet's birth
Still come and go.

Oh! then, where wild flowers wave,
Make ye mossy grave,
In the free air!
Where shower and singing bird
'Mid the young leaves are heard—
There—lay her there!

PATENTS.

American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 22 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured in one week sooner*, he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———
"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."
Boston, Dec. 7, 1852. eodly

Thermometers.

IT is known to most scientific men in this country, that he late Thomas Blanchard discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Mantle Thermometers
JOSEPH H. FOSTER,
f2 No. 5 Market street.

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.

PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that every person should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

No. 78 Market Street, up stairs,
and orders received by
d2 J. P. BARTLETT, Agent.

Freight Train each way daily. Office 17 Merchants' Row, Boston.
JOHN KINSMAN, Superintendent.

JACKSON & Co.'s BOSTON EXPRESS.

C. C. JACKSON and JOSEPH C. D. AKERMAN, having entered into copartnership for the purpose, give notice that they will continue, under the firm name of JACKSON & CO., the business formerly carried on by WALKER & JACKSON, and respectfully request the patronage of the public.

Leave Portsmouth daily at 7 and 10½ o'clock, A.M., and Boston at 5 o'clock, P.M.

We shall continue to run our Express Car for the transportation of small freight, which shall be delivered as cheap as can be done by any other conveyance.

Personal and prompt attention will be given to collecting Notes, Drafts and Bills, or paying the same.

California Drafts collected if desired.

Bills of Exchange on Ireland or England, from one pound up, procured at short notice.

Passages engaged from Liverpool to Boston or New York.

The purchase or sale of Railroad, Bank or other stocks attended to promptly.

Gold Dust forwarded to the Mint, and prompt returns made. C. C. JACKSON,
a2 JOSEPH D. AKERMAN.

CHENEY & CO.'S.

Concord & Portsmo. Express.

THE Subscribers having an exclusive contract with the Directors of the Portsmouth & Concord Railroad, to run Cars with the Passenger trains daily, on said Road, for the transmission of MONEY, MERCHANDIZE, &c., respectfully give notice that they will forward all articles in their line of business, daily each way, (Sundays excepted.)

Packages forwarded daily from Epping, Raymond, Candia and Suncook, to Exeter, Haverhill, Lawrence and Boston, and intervening towns. Also from Greenland to any of the above named places.

Notes, Drafts and Bills collected and paid in any of the towns above named, and all business attended to personally and promptly.

Packages forwarded to all parts of New Hampshire, Vermont and the Canadas.

The Express Train will leave Portsmouth every Tuesday for Montreal and Stanstead, and return on Saturday of each week.

N. B.—The subscribers are alone responsible for the injury or loss of any article or property of any description entrusted to their care, nor is any risk assumed by the Railroad Company mentioned.

Office in Portsmouth, at Jackson & Co's Express Office, corner of Fleet and Congress streets.

☞ Merchandize and packages designed to go by this express, should be marked "*Cheney & Co's Express.*" NATHANIEL WHITE, Concord, N. H.
B. P. CHENEY,
n16 Railroad Exchange, Court sqr, Boston.

Portsmouth and Boston Express.

LAYES Portsmouth for Boston and intermediate towns, over the Portsmouth and Concord and Boston and Maine Railroads, daily, Sundays excepted, at 15 minutes before 9 A. M.

Leaves office in Boston for Portsmouth, Epping and Raymond at 2½ P. M.

Business entrusted to this Express shall be attended to with faithfulness and despatch, and as cheap as any other express.

Goods entrusted to us should be plainly marked, "S. B. Marden's Express." Goods will be called for in any part of the cities of Portsmouth or Boston.

DEEDS, &c., for Exeter, left at the residence of Mr. Marden, at the Franklin House, or at George W. Towle's store, will be promptly forwarded and returned.

Any business at Rochester, Great Falls, Dover, Epping, Raymond, Manchester, Concord, or at any way stations, attended to.

BOSTON—No. 8 Court street, and at Libby's new office, 10 Court Square, corner of Court Avenue.

NEWMARKET—Furber's Hotel. RAYMOND—Blake's Store. EPPING—at Depot. PORTSMOUTH—at Towle's 3 Congress Block, and at S. B. Marden's, Middle street. S. B. MARDEN.

Portsmouth & Boston Daily Express.

THE subscriber respectfully informs the citizens of Portsmouth and vicinity, that he has commenced running an EXPRESS from PORTSMOUTH to BOSTON, and will forward any package committed to his care. He is confident that his long experience in this business will enable him to satisfy his friends and the public generally. This express connects with all the principal Expresses, north, south and west of Boston; also with all the European and Californian Expresses. Light freight taken at the usual rate.

OFFICES:—Portsmouth—F. W. Ham's Jewelry Store, cor. High and Congress streets;
Boston—10 Court Square.

This Express leaves Portsmouth daily at 10½ o'clock, A.M. and Boston at 4½ P.M.
j25 GIDEON WALKER.

Kittery Point Stage.

THE COACH leaves Kittery Point via Kittery Foreside and Navy Yard, for Portsmouth daily, as follows:

In the Forenoon—Leaves Kittery Point at 8 o'clock to meet the 9½ o'clock Railroad Train from Kittery and Portsmouth for Boston.

Leaves Portsmouth for Kittery Point at 11 o'clock, or on the arrival of the train from Portland. a2 ANDREW AMES, Proprietor.

DAILY MORNING CHRONICLE

BY MILLERS & GRAY. $4 PER YEAR---$3 IN ADV.

VOLUME 2. PORTSMOUTH, N. H., FRIDAY, MARCH 4, 1853. NUMBER 28.

Office, No. 4 Exchange Bldgs., Pleasant St.

DAILY CHRONICLE—$4 per annum, payable half-yearly; or $3 strictly in advance. If payment is made for a year, within six months of the time of subscribing, fifty cents will be deducted.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

BOOK, JOB AND CARD PRINTING

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

THE LITTLE OUTCAST.

„Mayn't I stay, ma'am? I'll do anything you give me—cut wood, go after water, and do all your errands."

The troubled eyes of the speaker were filled with tears. It was a lad that stood at the outer door, pleading with a kindly looking woman, who still seemed to doubt the reality of his good intentions.

The cottage sat by itself on a black moor, or what in Scotland would have been called such. The time, was near the latter end of September, and a fierce wind rattled the trees around the house, and fled with a shivering sound into the narrow door way, as if seeking for warmth at the blazing fire within.

Now and then a snow flake touched with its soft chill the cheek of the listener, or whitened the angry redness of the boy's benumbed hands.

The woman was evidently loth to grant the boy's request, and the peculiar look stamped upon his features would have suggested to any mind an idea of depravity far beyond his years.

But her woman's heart could not resist the sorrow in those large, but by no means handsome, gray eyes.

"Come in, at any rate, till the good man comes home; there sit down by the fire; you look perishing with cold;" and she drew a chair up to the warmest corner, then, suspiciously glancing at the child from the corners of her eyes, she continued setting the table for supper.

Presently came the tramp of heavy shoes—the door was swung open with a quick jerk, and the "good man" presented himself weary with labor.

A look of intelligence passed between himself and his wife—he, too, scanned the boy's face with an expression not evincing satisfaction, but nevertheless, made him came to the table, and then enjoyed the zest with which he despatched his supper.

Day after day, passed, and yet the boy begged to be kept "only till to-morrow;" so the good couple, after consideration, that so long as he was docile and worked so heartily, they would retain him.

One day, in the middle of the winter, a pedlar, long accustomed to trade at the cottage, made his appearance and disposed of his goods readily, as he had been waited for.

"You have a boy out there splitting wood," he said, pointing to the yard.

"Yes, do you know him?"

"I have seen him," replied the pedlar, evasively.

"And where? who is he? what is he?"

"A jail bird," and the pedlar swung his pack over his shoulder; "that boy, young as he looks, I saw in court myself, heard his sentence—'ten months;' he's a hard one—you'd do well to look keerfully after him."

Oh, there was something so horrible in the word jail—the poor woman trembled as she laid away her purchases, nor could she be easy till she called the boy in, and assured him that she knew that dark part of his history.

Ashamed, distressed, the child hung down his head; his cheeks seemed bursting with his hot blood; his lips quivered, and anguish was painted as vividly upon his fosehead as if the words were branded into his flesh.

"Well," he muttered, his whole frame relaxing as if a burden of guilt or joy had rolled off—"I may as well go to ruin at once—there's no use in my trying to do better—every body hates and despises me—nobody cares about me. I may as well go to ruin at once."

"Tell me," said the woman, who stood off far enough for flight if that should be necessary, "how came you to go so young to that dreadful place? Where was your mother?"

"Oh," exclaimed the boy, with a burst of grief which it was terrible to behold, "Oh, I haint no mother—Oh! I haint had no mother ever since I was a baby. If I'd only had a mother," he continued, his anguish growing vehement, and the tears gushing out from his strange looking gray eyes, "I wouldn't a been bound out, and kicked and cuffed and laid onto with whips. I wouldn't a been saucy and got knocked down, and then run away and stole because I was hungry. Oh, I haint got no mother—I haint got no mother—I haven't had no mother since I was a baby."

The strength was all gone from the boy, and he sank on his knees sobbing, great choking sobs, and rubbing the hot tears away with his poor knuckles. And did that woman stand there unmoved? Did she coldly bid him pack up and be off—the jail bird?

No, no; she had been a mother, and though all her children slept under the cold sod in the churchyard, she was a mother still.

She went up to that poor boy, not to hasten him away, but to lay her fingers kindly and softly on his head, to tell him to look up and find in her henceforth a mother. Yea, she even put her arm about the neck of that forsaken, deserted child—she poured from her mother's heart sweet, womanly words of counsel and tenderness.

Oh, how sweet was her sleep that night—how soft was her pillow. She had linked a poor suffering heart to hers by the most silken bands of love; she had plucked some thorns from the path of a little sinning, striving mortal. None but the angels could witness her holy joy, and not envy.

Never—he is with her still; a vigorous, manly, promising youth. The low character of his countenance has given place to an open and pleasing expression, with depth enough to make it an interesting study.

His foster father is dead, his good foster mother is aged and sickly, but she knows no want. The once poor outcast is her only dependence, and nobly does he repay the trust.

"He that saveth a soul from death, hideth a multitude of sins."

SODA SALÆRATUS.—25 casks this day received by MATHES & VARRELL.

DAILY
Morning Chronicle.

PORTSMOUTH:
FRIDAY, MARCH 4, 1853.

INAUGURATION.

To-day is the time prescribed by our Federal Constitution for inaugurating the President and Vice-President of the United States. The latter officer, however, is far gone in consumption, and may be inhaling the steam of a Matanzas Sugar House at high noon, which is the appointed time for being sworn in.

The President, providence permitting, will take his oath of office, at the appointed hour, and enter upon his official station in solemn form, and with a fair prospect of a comfortable administration.

To inaugurate does not mean merely to put into office, but to place in office by the performance of suitable ceremonies or solemnities; and the *word inauguration* comes from a singular root, and had a singular origin.

The latin word *inauguro*, (inaugural) is borrowed from the ceremonies used by the Romans, when they were received into the college of Augurs.

An Augur, among the Romans, was an officer whose duty it was to foretell future events by the singing, chattering, flight, and feeding of birds, or by other signs or omens, derived from celestial phenomena, appearances of quadrupeds, or certain accidents, called *diræ*.—There was a college, or community of augurs, originally three in number; afterwards nine, viz. four patricians and five plebeians. They bore a staff or wand, and were treated with great respect.

To be thus introduced, or inaugurated, made a member of this famous body, was one of the highest honors the Roman could receive at the hands of his fellow citizens.

To be inaugurated into the presidency, is the completion of the highest honor which American citizens can confer on one of their fellow citizens. Thus the honor of the Augur and of the President have some points of resemblance; nor are their employments altogether dissimilar.

The old Roman Augur watched the chattering of the birds of the air—and the modern American President must endure the almost ceaseless chattering of Congress, often no more sensible than that of the birds, and not half so musical. He is expected to watch the feeding of those harpies or birds of prey which hover around the capitol, ready to pounce on all fat offices; and he is to keep the public crib so as to have something for every braying quadruped whose appearance is an auspicious omen for the country or the party.

As a secondary meaning of the word Inaugurate, Webster's Dictionary gives this:—"*To begin with good omens:*" but he adds, "Not used." We will add now, not an omen, but a wish, that the new administration may be more just and equitable, more honorable and profitable to the country, than any which have gone before it.

SAFETY ON RAILROADS.

The Boston Chronicle calls on the legislature of Massachusetts, to pass acts tending to diminish the dangers of Railroad travelling. It says:—

We have already more than once, pointed out wherein greater protection is demanded, as for example, railroad-crossings, bridges over railroads, and guards upon railroad bridges to prevent trains from being thrown into the streams over which the lines run. The remedies are simple to the existing defective arrangements—involving expense, it is true, but an expense, by no means commensurate with the greater security which would be obtained.

Since we last called attention to this subject, two or three, if not more, employees of different railroads have been killed by being knocked from the trains while passing under bridges. These deaths might have been avoided—should have been avoided, and a heavy responsibility attaches to those corporations which have constructed, and now continue their bridges, in such a condition as to endanger the life of every employee that passes under them upon the tops of the cars. And here we may mention a fact, perhaps not generally known to the community. The brakemen are required to ride upon the tops of the cars, because two or three, in this case will answer for a long train,—they being enabled to run from car to car, to brake up when a stop is demanded. In case they rode upon the platforms, more men would be required, as one could then only brake up two cars; in the other case, as we remarked, a man might brake up a half a dozen or more. Upon the Worcester railroad, we have been informed, several of the bridges are so low that the men, in passing under them, are actually obliged to lie upon their backs to escape being hit.

But the railroad companies are not *solely* to blame. There is upon the Fitchburg road, a bridge (crossing the track) near the Prospect street station, where the land upon one side is a marsh—upon the other a clay-pit, and yet the owners of this land have made attempts to have the bridge removed on the ground that it *injures* their property. If this were done, the railroad would cross the town road upon a level, and every now and then somebody would be killed. But it is a matter of very little consequence where the blame lies;—the remedy should be applied, and that speedily by the legislature. An ex-member of the legislature once remarked to us while in conversation upon this subject.—"Sir, too many members of the legislature are interested in railroad stock, to take any action that will decrease the dividends."

RIOTOUS DEMONSTRATIONS IN CHARLESTOWN.

A handbill, as follows, has been posted up in Charlestown, Boston, and the neighboring towns, for the three days, Monday, Tuesday and Wednesday:

"Must be found.—All people opposed to religious oppression and the imprisonment of human beings for opinions sake, are requested to meet in Richmond street, Charlestown, Mass., on Wednesday evening, March 2d, at 7 o'clock.

Charlestown, Feb. 28th, 1853."

"Soon after dark, on Wednesday evening, groups of persons began to assemble in the neighborhood of the place designated, until between 9 and 10 o'clock, the crowd amounted to some thousands, most of them probably attracted from curiosity, and to a large extent from adjoining cities and towns. At about 10 o'clock, matters began to look serious, and many of the crowd tore down a fence near by, and arming themselves with billets of wood, were proceeding to acts of violence, when the riot act was read by the mayor, and through the vigilance of the police a number of the ringleaders were arrested. The arrival of two military companies about the same moment undoubtedly saved the city from a scene of bloodshed, and the crowd began gradually to disperse. As soon, however, as the mob found that there would be no trifling with them, an attempt was made to get up an alarm of fire, and a rush was made for Rev. Mr. Ellis's [Unitarian] church, where some of the glass was broken, and other demonstrations of mischief was made. The design on this church, it is probable, was only to get at the bell, and create an alarm by ringing it. Fearing lest this diversion might lead to something still more serious, a request was sent to Boston for additional police force—in addition to the fifty already on duty—which was promptly granted. At 11 o'clock, the crowd had nearly left Richmond street, and everything indicated that the riot had been checked. Of thirteen persons under arrest, eleven are said to be from Boston,—one of them was armed with a loaded pistol.

It is said that during the afternoon, the Priest, whose residence is adjacent to the Catholic church, in Richmond street, removed all his furniture, &c.

LIGHTNING IN WINTER.

Our readers may remember (or may not) that we had a storm on the 13th February.—We had no lightning here that we remember; but at Portland they had; and at the eastward the thunder and lightning was more terrific. A correspondent of the Gardiner Fountain, writing from Bass Harbor, Mount Desert, describes the storm, as it appeared there, awful and sublime. A thunder cloud passed over the place, which for terrific appearance exceeded anything ever witnessed there. The same correspondent adds:

The lightning was of a purple color, and sometimes appeared like balls of fire, coming in through windows and doors and down the chimneys, while the houses trembled and shook to their very foundations.

Mrs. E. Holden was near a window, winding up a clock; a ball of fire came in through the window and struck her hand, which benumbed her hand and arm. She then, with all in the house, retreated into the entry.—Another flash succeeded, and in the room from which they had retired, resembled a volume of fire, whirling round and producing a crackling noise. A similar appearance of fire was seen, and crackling noises were heard in a large number of the houses. Some who heard the noise, say that it sounded like breaking glass.

Capt. Maurice Rich had his light extinguished, and his wife was injured. He got his wife on to a bed, and found a match; at that instant another flash came and ignited the match, and threw him several feet backwards. John L. Martin received so severe a shock that he could not speak for a long time.

A great many persons were slightly injured. Some were struck in the feet, some in the eye; while others were electrized, some powerfully and some lightly. But what was *very singular*, not a person was killed or seriously injured, or a building damaged; but a cluster of trees within a few rods of two dwelling houses, was not thus fortunate. The electric fluid came down among them, taking them out by the roots with stones and earth, and throwing all in every direction. Some were left hanging by their roots from the tops of the adjacent trees—roots up, tops down.

The lightning, after entering the earth to the depth of several feet, and for a space some 8 or 10 feet in diameter, diverged into four different directions. One course which it took led through the open land, making a chasm to the depth of several feet, and continued to march unobstructed by the solid frozen ground, or any other substance, to the distance of 370 feet; lifting, overturning, throwing out junks of frozen earth, some of which were 10 or 11 feet long by 4 feet wide; and hurling at a distance rocks, stones and roots. The power here displayed was truly awful, and had it fallen on a building, it would have thrown it with its inmates into ten thousand fragments. It really seems that God's mercy is manifested in sparing our lives amidst such dangers and destruction. And while we thus enjoy his mercies, O, that we might be duly affected with gratitude of heart.

I understand that in South West Harbor, and North East Harbor, (in this island) several vessels had their masts rent in pieces; one had some plank torn from her, and one man was knocked down, but not killed.

The Texans are very much excited because, as is asserted, silver and lead mines have been discovered upon the Rio Grande, near El Paso.

LOCAL.

City Council—March 3.

BOARD OF ALDERMEN.—An invitation was received from Mr. Nichols, teacher of the girl's high school, to attend the examination of said school, which was accepted.

A petition was presented for the acceptance of Franklin street—referred to committee on streets.

The Ordinance relating to Truants was amended and passed [in both boards.]

Several bills were passed for payment.

COMMON COUNCIL.—Mr. Moses presiding.—A resolution was received from the Board of Aldermen, appropriating $50 for firing, under direction of the City Marshal, a National Salute on the fourth of March, in honor of the Inauguration of the Hon. Franklin Pierce, a citizen of this State, as President of the United States. The resolution passed by a vote of 8 to 3.

An ordinance was received from the Board of Aldermen, and passed,—defining the duties of Street Commissioner.

PORTSMOUTH SHIPS.

We are pleased to notice the large amount of ship building in this vicinity. Six large ships are at present on the stocks, and probably double that number will be launched during the year. We understand they are taking on mechanics at the Navy Yard, and there is no doubt the new President will do something for his native State in this particular. Our ship carpenters hardly know what wages to settle down on, such is the call for their services. They are now getting about $2 per day. Possibly they may command still higher wages before the season is through. From the number of fine ships built on this river, and from what we know of their reputation abroad, it is evident there are no ships that rank higher than those launched on the Piscataqua.

HIGH SCHOOL.—The examination of the High School for Girls, taught by Mr. Nichols, is to take place to-day.

☞ The Ball in honor of the inauguration of the first New Hampshire President, comes off at Congress Hall, this evening. "All the world" will be present, and the "rest of mankind" are invited; and all are sure of a good time. Music—Fettel & Backus' Quadrille Band.

☞ The "Young Americas," assisted by Messrs. Lamprey & Haines' Quadrille Band, also hold a Social Assembly at Franklin Hall, Hampton, this evening. Tickets 75 cents.

☞ The body of a dead infant was found by laborers employed in clearing the vault in the rear of Hanover Street Chapel, on Wednesday—having probably lain there a long while.

COURTS IN MARCH.

U. S. District,	- - -	Portsmouth,	March 15.
Probate,	- - - - - - -	"	" "
"	- - - - - - -	Exeter,	" 16.

BLACK INK.—Ignotus, in the Newburyport Herald, complains that "the article of good, honest, black *Ink* has vanished from our market. We find it, it is true, in our advertisements, but where else do we find it? I have received letters, the virgin whiteness of whose paper was scarcely sullied, and whose meaning in various parts, evaded all investigation. In these ways, and many others, my eyes have been much tortured, and my temper, which was once tolerable, at least wretchedly soured."

This may be true in Newburyport,—but we write with *"good honest black ink,"* made in Portsmouth by Sylvester Gilbert. This may, perhaps, be one reason, why our eyes hold out well, and our temper remains as sweet as ever.

There is only one editor, Mr. Robinson of Lowell, in the Massachusetts House of Representatives. The Providence Post says that the paucity of editors explains, perhaps, some of the mismanagement of the new legislature.

Very probable—but in this city, two editors hold the honorable station of common council men, and one ex-editor is a representative. We hear one editor named for our prospective post-master, and another for mayor. Editors here cannot complain of being neglected. And the public will suffer no detriment from ignorant councils, so long as such intelligent men abound among the members.

TO FREE DEMOCRATS!

To the Free Democratic Voters of Rockingham County, and first Councillor and Senatorial Districts.

At a regular meeting of the Freedom Club of the city of Portsmouth, on Thursday evening, March 3, the following preamble and resolutions were unanimously adopted:

Whereas, there is in circulation that which purports to be a Free Democratic Ticket, with the names of John Dow as Councillor, Wm. H. Hill as Register, and Samuel Hoit as Senator, stricken off; and Samuel Storer, J. Hamilton Shapley and John W. Dodge inserted in their stead—Therefore be it

Resolved, That the said ticket is a gross fraud, and we warn the Free Democratic voters of these districts against the same, as a spurious ticket and wholly unauthorized by the Free Democratic party.

Also Resolved, That the above preamble and resolution be signed by the Chairman and Secretary and be insert'd in the papers.

B. HUTCHINGS, *President.*
C. C. WHITTEMORE, *Secretary.*

GREAT FALLS & CONWAY RAILROAD.—A meeting of gentlemen interested in the extension of this road, (says the Great Falls Journal) was holden at the Conway House, in Conway, on the 23d ult. The greatest unanimity and enthusiasm prevailed. The preliminary arrangements were made for opening a general subscription to the stock for building the road through to Conway, and a large and highly respectable committee appointed to aid the Directors in carrying the plans into effect. There is evidently a determination on the part of the people of Conway and adjoining towns to press on with the enterprise, and to overcome every obstacle that may be found in the way of its consummation. The fact alone that this road will become the great favorite to "our own White Mountains," is sufficient to warrant its completion at an early day. Already in anticipation of this event, a splendid hotel has been erected at Conway by Messrs Thom & Abbott, and opened by Mr. Fayban, a gentleman too well and favorably known to the public to need any puff of ours.

CAMBRIDGE CATTLE MARKET.

Wednesday, March 2.

At Market 744 Cattle—700 Beeves, and 74 Stores, consisting of Working Oxen, Cows and Calves, yearlings, two and three years old.

Prices—Market Beef—Extra $7¼ a 7½ per cwt; 1st quality, $7; 2nd do. $6 a 6½; 3d do. $5½ a 6½;—ordinary $5.

Hides—$4¼ a $5 per cwt. Tallow $7 a $7 50. Pelts $1 a $1 50.

Veal Calves—$3, 4 a 7. Calf skins 10c per lb.

Barrelling Cattle—$5 25 a 5 50.

Stores—Working Oxen—$79, 81, 94 a $132.

Cows and Calves—$24, 28, 38 a 45.

Yearlings none. Two years old—$24, 27, 31 a 38. Three years old—$27, 34, 38 a 52.

Sheep and Lambs—1732 at Market.

Prices—Extra, $5¾, 6½, a 8. By lot, 3¾, 4½ a $ 5½.

Swine—none.

Remarks—The supply is equal to the demand, and the market is well attended, but the high rates are a hindrance to quick sales.

84 cars came over the Fitchburg Railroad, and 62 over the Boston & Lowell Railroad, loaded with Cattle, Sheep, Horses, Swine and Fowls.

BOSTON MARKET.

March 2.—Flour—Western quite dull at $5 for common, $5 12½ a 5 25 for fancy, and 5 50 a 6 25 for the range of extras. Southern flour is also rather dull at previous rates.

Grain—The arrivals of Corn have been very large, and the market is rather dull at 66 a 68c for yellow, and 62 a 62c for white. Oats are selling at 44 a 45c for Northern.

Molasses—Sweet Cuba has been sold to some extent at 21 a 21½c; Trinidad at 24c, and Cienfugos, Muscovado at 27c per gal. 6 mos.

Sugar—Very little doing in box. Some further arrivals of new crop, but they are not offered at present prices. Sales of fair and good yellows at 6¼ a 7c per lb. 6 mos.

NEW YORK, 3d.—Flour—Western Canal easier, but the demand is of a retail character; sales of 200 bbls at $5 a 5 06 for State, and $5 12 a 5 31 for Michigan and Indiana, and 5 18 a 5 37 for Ohio. Southern is easier; 1000 bbls sold at $5 37 a 5 56. Corn—Yellow higher: sales 11,000 bush at 62 a 64 for white Southern; 55 for yellow do, and 62 for good New Orleans. Pork—Little doing. Beef firm.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

New York, March 3.—A letter from Havana dated February 23 states that on the day previous, the commander of the British corvette Vestal called on Judge Sharkey, the American Consul to make an explanation concerning the recent firing on the bark Martha Ann. The explanation is said to have been satisfactory.

Thirty-Second Congress—Second Session.

WEDNESDAY, March 2, 1853.

HOUSE.—The House had stricken out the Senate amendment in effect to supercede the Branch Mint law by an Assay Office in San Francisco.

The Senate had insisted, and now the Committee proposed that the House recede. Proposition not concurred in and another Committee of Conference appointed.

The report of the Committee of Conference on the Army appropriation bill was agreed to.

The Senate receding from its amendment giving $100,000 to the discoverer of the Anæsthetic agents, and the amendment to protect overland emigrants to the Pacific by contract.

The House again went into Committee on the Senate amendments to the civil and diplomatic appropriation bill.

The amendment appropriating $20,000 to compensate Clark Mills for his statue of Jackson was agreed to.

The Senate amendment appropriating $100,000 for an Assay office in New York; and another authorizing the Secre'ary of the Treasury to purchase outstanding stocks of the United States, were both concurred in.

REVOLUTIONS IN FRANCE'—It is said that when Louis Napoleon had announced his intended marriage, and preparations were ordered to begin for the grand procession to Notre Dame, the inquiry arose where the state carriages were to come from. The period of time was not sufficient to have new ones built, as the bridegroom desired, so that finally it was concluded to use those of the last dynasty, which were laid away in Versailles. Accordingly the coaches were brought out, and despatched to the painter, with orders to have the arms of Louis Philippe erased and those of the Empire substituted. But when the artist had removed the escutcheon of Orleans, he found that of the elder Buorbons beneath it, and proceeding to remove this, he discovered under it all the shields of the first Napoleon. Thus the new Empress rode to Notre Dame in the same coach that was used for Josephine; in the same that appeared in the procession of Louis Eighteenth; in the same that the King of the French employed. What a commentary on the history of France in the last fifty years!

A NEW SLAVE STATE.—A western paper says the "negro bill" was passed by both branches of the Illinois legislature before the adjournment, and has become a law. The act prohibits the entrance of colored freemen into the state, under the penalty of being sold into slavery, and authorizes the admission of slaves, if brought in or sent by their masters.

If these statements are correct, then Illinois is a slave state to all intents and purposes.

SHIP FOREST QUEEN.—This ship, ashore on Scituate beach, has bilged, and gone to pieces. The Forest Queen was owned by R. K. Paige, of Hallowell, and Atkins & Co., of New York, and is insured in Boston and New York. Her cargo, which was was a very valuable one, is mostly insured in Boston.

GENEVA COLLEGE.—The trustees of Geneva College have unanimously accepted the liberal offer of Trinity Church to grant the college an annuity of $3,000 in perpetuity, on condition of making the institution a free college, with no charge for tuition or room rent, and changing its name, with the sanction of Legislature, to that of "Hobart Free College at Geneva," thus riveting upon Trinity Church the honor of establishing the first Free Christian Protestant College in these United States.

There is a compositor in New York of eight years old, who sets up his 1600 ems a day, as a regular stent, and is generally finished by three o'clock, after which he "pulls out" on overwork to about as much more. He supports himself and his widowed mother, from his earnings, and bids fair to be an editor or a president, and we don't know which berth is the least desirable.

MEAGHER CLUB.—In Boston, at a meeting at Dooley's Hotel, on Monday evening, a "Meagher Club," in honor of the distinguished Irish orator, was formed. After a president and other officers were chosen, they voted to celebrate the 17th inst., (St. Patrick's day,) by a public dinner. B. S. Treanor was elected president.

The Washington correspondent of the New York Express says that "Mrs. Ashley is the third wife of Mr. Crittenden, and Mr. Crittenden is the third husband of Mrs. Ashley.—The happy pair, after the usual receptions, will repair to Kentucky."

SLEDGE-HAMMER MUSIC.—It is said that a singular musical novelty has been introduced into a musical performance at Rome. In Verdi's new opera of the "Troubadour," an *anvil* chorus, with an accompaniment of *sledge hammers*, is introduced.

Captain Ericsson proposes to take his vessel on Saturday to New York, when he contemplates going on a voyage to Australia six weeks hence, and thence to England.

A RIDDLE.

"What God never saw:
What a king seldom sees:
What a man always sees."
What is it?—*Exchange paper.*

Answer—An equal.

Music.

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at
CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f8

LYON'S KATHAIRON FOR THE HAIR.

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIER, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*
D. S. BARNES, *Proprietor.*
161 Broadway, New York.
Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. R. Preston, No. 2 Congress Block, Congress st.
Weeks & Potter, 154 Washington st, Boston, Wholesale Agents for New England. 1eom11

WE MET BY CHANCE.

SONG—SUNG BY MISS JULIA A. WARELOCK.

When evening brings the twilight hour,
I pass a lonely spot,
Where oft she comes to cull the flower
We call "Forget-me-not."
She never whispers go, nor stay—
We met by chance—the usual way.

Once, *how*, I cannot well divine,
Unless by *chance*, we kissed;
I found her lips were close to mine,
So I could not resist.
As neither whispered yes, nor nay,
They met by chance—the usual way.

The roses, when the zephyrs woo,
Impart what they receive;
They sigh, and sip the balmy dew,
But never whisper *give*.
Our love is mutual, this we know,
Though neither tells the other so.

☞ Epitaph in Dundee Church Yard:

"Here lies the body of John Watson,
Read not this with your hats on,
For why? He was the Provost of Dundee.
Hallalujah! hallalujee!"

A SUPPER SCENE.—*Father*—There, Sammy, there's a nice bone for you to pick for your supper.

Sammy—(a precocious youth.) Old man, "is thy servant a dog, that he should do this thing?"

Father—(enraged.) Old woman, Sammy is done—put the *cur* to bed!

COUGH REMEDY!

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, Spitting of Blood,

AND ALL OTHER LUNG COMPLAINTS

TENDING TO

CONSUMPTION!

THE above Expectorant, prepared by an experienced Physician and Chemist, has now become a standard Preparation, and is offered for the COMPLETE CURE of those diseases of the **Throat and Lungs**, which, if neglected, usually terminate fatally in **Consumption.** It contains no *Opium, Calomel*, or any mineral whatever, but is composed entirely of those *Roots, Herbs*, and *Vegetable substances* which have a specific influence upon the Lungs and their connected organs. Its immediate effect is to allay all irritation, and gently remove the phlegm and other morbid secretions from the Throat and Air-passages, thus relieving the Cough, by subduing the inflammation and other causes which give rise to it. It is approved of and recommended by Physicians of the highest standing, and may be given with perfect safety to the youngest child or the most delicate female.

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Mantle Thermometers
JOSEPH H. FOSTER,
f2 No. 5 Market street.

HOUSE AND LIFE PROTECTORS

AGAINST FIRE AND LIGHTNING.

PATENT METALLIC

LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

No. 73 Market Street, up stairs,
and orders received by
d2 J. P. BARTLETT, Agent.

THE DIVINING ROD.

In these days of Spiritual Rappings and Table Tippings,—when a portion of the public seems ready to believe *all things*, even the most preposterous—another calls every thing, which it cannot explain, a humbug,—and a third will not investigate any thing, for fear some old theory should be disturbed, or old fallacy exposed,—it is well to get at all the facts we can, from reliable sources.

One of the strongest arguments, to some minds against the spiritual communications, is the fact that they set aside, or contradict, our previous ideas of the laws of mind. An argument nearly as strong may be made out against finding water by the divining rod, because this sets aside or destroys some notions which we have always cherished.

The Boston Journal several days ago contained a good article on "Rhabdomancy," or the art—if it is an art—of finding water beneath the surface of the ground by means of a "divining rod," as it is popularly termed.—This brought out another article on the same subject, from Dr. S. C. Maine, a respectable professional gentleman, of Boston, who gives the following account of his own experience in the line of water finding.

From my early boyhood I have often amused myself in travelling through the fields with my divining rod in hand, taken fresh from a peach tree, to satisfy myself whether there were veins of water beneath my feet, whose flow was as quick and silent as the blood within my own veins; and I have often found, to my delight, upon grounds where there was not the least visible appearance of water, with its surface parched with drought and grown over with moss—veins of water beneath it, some to the depth of more than one hundred feet, and others rising to within a few feet of the surface.

For the last half a century the art of finding water by the use of the divining rod has been understood in the town of North Stonington, in Connecticut. There a gentleman resides who is consulted by those about to build, in order to know if living water can be found at or near the site selected, and to know also the depth necessary to be dug in order to find the water. And strange as it may appear, those who have dug for water where he has declared it to be, have never failed to find it in a single instance.

A few years since, I was walking through a field in Stonington with a friend, when he informed me that he was about to build a house there, and fearing that he should be troubled in finding water, that he had a few days before called upon Mr. Crumb (the gentleman referred to) to locate a well for him. That he had passed his *magic wand* over the field, and had selected the most favorable spot for him, where he was assured that water could be found at the depth of ten feet. But, said my friend, so many have tried about here and failed, that I am wanting in faith.

I told him that the crorectness of his search for water could be readily tested; that so long as the mysterious power of the magnet remains, one skilled in the art of surveying could follow in the exact line of another, although a hundred years should intervene, and old bounds and monuments be destroyed.—So in rhabdomancy—so long as the mysterious agency of electricity shall remain, one shall be able to follow another with the divining rod.

I prepared myself with a small branch taken from a peach tree near by, and commenced my search for water. I soon found a vein which produced great attraction, and continued upon its course across the field—now turning to the right, now turning to the left; sometimes rising towards the surface, sometimes sinking to a considerable depth below; but the place where the water appeared nearest to the surface I pointed out to him, and he in return, forced to believe, told me that I had pointed out the exact spot that Mr. Crumb had selected, and that he had also traced the vein of water across the field in the same line that I had done.

A few weeks after this I had the satisfaction of seeing a well dug upon the spot designated. There was no appearance of water until the well was sunk to the depth of nine feet. After passing through a thin soil, for seven or eight feet, the earth was composed of a dry coarse gravel, with a slight mixture of sand; then came a stratum of cemented clay and gravel, and upon digging into this about one foot the vein was severed, and so rapid was the flow of water into the well that the man within barely escaped therefrom without a ducking. A wooden curb was prepared and sunk in the well, and from that time to the present there has always been water in abundance in the well, for a great portion of the year so much as to flow out upon the surface. I give this as but one instance in many of the wonderful if not magical powers of the divining rod.

I have never found any attraction from deep water, neither does a living vein contain the power or properties of attraction for a considerable distance from where it is brought into contact with the atmospheric air. For instance, where a vein terminates at the foot of a hill in a boiling spring, or where it has been severed by the sinking of a well, the attraction ceases for a considerable distance; the distance, however, depends much upon the dry or wet state of the earth, and the depth of the vein from the surface.

I agree fully with Mr. Burnson, that the mysterious agency here employed is electricity; and I will add one other proof to Mr. Burnson's theory. Most at the present time who have investigated the subject of Mesmerism, Psychology, or Spiritualism, have come to the conclusion that electricity is the invisible agent employed. Now I have never seen a person who was a mesmeriser or spiritual medium, (so called,) in whose hands the divining rod would not work—thus again tending to prove that the agency employed is electricity.

In selecting a divining rod, whether of witch-hazel, willow or peach, great care should be taken; for another of the mysteries connected with it is, that the man who can successfully find water with the peach, may not be able to feel any attraction from the witch-hazel or the willow, while another may succeed best with the willow or witch-hazel.

As this interesting subject is now before the people, I hope to see it investigated until our government, if convinced of its truth, will cause hydroscopic surveys to be made upon the great routes to Santa Fe, Oregon and California, that the way side may be supplied with wells full of water, and so relieve those long journeys of one of their most discouraging and dreaded features.

A communication on the same subject was also published some time since in the Haverhill (Mass.) Republican, by Dr. J. R. Nichols, a gentleman well known for his scientific attainments. Dr. Nichols has examined the subject, and satisfied himself that there is no charlatanry in the alleged gift of discovering streams of water by the divining rod, but that the power is actually possessed by some individuals. He gives the result of some experiments, of a highly satisfactory character, made in his presence by a clergyman of high standing, from a distant part of the State.

Some experiments are mentioned by Dr. Nichols which tend to show that the attraction is due to *electrical influences*.

DAILY
Morning Chronicle.

PORTSMOUTH:
SATURDAY, MARCH 5, 1853.

THE PRESIDENT'S ADDRESS,

Which fills our columns to-day, is a well written document, overflowing with patriotic expressions, and cherishing hopes so high as to border on extravagance.

The first sentiment of importance avowed, is a purpose of extending our territory, and acquiring certain possessions not within our jurisdiction, (whether Cuba, or Mexico, or the Sandwich Islands, we know not.) And this is to be pursued in no grasping spirit!

The second is the honor of our flag, and the protection by it, of naturalized citizens;—and in this connexion the Monroe doctrine, so called, is laid down, viz: that no transatlantic interference or colonization beyond present limits, is admissable.

The third point is *economy*—connected with the distribution of *offices*, under which head he deems it unreasonable to expect him to retain men of "political hostility and partisan prejudice."

The fourth and last, but not least, subject, is an avowal of great respect for the rights of the South, of homage to the laws of 1850 commonly called compromise measures, and of great value for the Union,—closing with an acknowledgment of dependence on God and his overruling providence, as the only sufficient guarantee for the nation's security.

THE GOOD TIME.

Don't say any longer "It's coming, boys," that is an obsolete idea now. It has surely come. It has been said the Whig party is dead, or scattered, or exterminated, or something of the kind. And the Democratic party must die also, if such things are to happen often at Washington, as happened last Tuesday. If some root of bitterness cannot be dug up to prevent the repetition of such scenes, Mr. Monroe's era of good feeling will return, and Mr. Jefferson's old hope be realized, that every man in the nation might become both Federal and Republican. But look at the item itself; here it is.

"The dinner party at the White House, to Gen. Pierce, was given on Tuesday. President Fillmore was at the head of the table, with Gen. Pierce at his right and Gen. Scott on his left. Secretary Everett was seated opposite to Gov. Marcy, and Attorney General Crittenden opposite to Gen. Cushing, with the rest of the old and new Cabinet intermixed, together with Gen. Cass, Gen. Jo. Lane, Pierre Soule, and other members of both Houses. Young Fillmore and Sidney Webster sat side by side, and such a harmonious spectacle of diverse political elements was never known in the White House before. Gen. Scott and Gov. Marcy were especially fraternizing and agreeable, The hasty plate of soup was forgotten in the sparkling champagne. It was nice."

WASHINGTON NEWS.

MARCH 4, 9 o'clock, A. M.—Snowing quite fast. Both Houses in session.

The city is swarming with strangers and ladies. Hundreds slept in the rotunda and warm passages of the Capitol, laying down on their cloaks, whilst thousands walked the streets all night. Two thousand arrived here this morning in the Baltimore train. Pedestrians and equestrians from the surrounding country are pouring in in immense numbers.

Col. Benton is quite dissatisfied with the selection of Mr. Cushing to the Cabinet. It is said that he called on Gen. Pierce yesterday, and denounced the appointment in no measured terms.

The Cabinet is to be composed of Messrs. William L. Marcy, James Guthrie, Robert McClelland, Caleb Cushing, James C. Dobbin and James C. Campbell.

11 1-2 *A. M.*—Both Houses of Congress are still in session.

It is clearing off and there are prospects of a fine day.

President Fillmore will vacate the Executive mansion while the Inauguration is progressing, and General Pierce will be escorted back to the mansion.

12 M.—Both Houses have just adjourned. The inauguration ceremonies opened with prayer for the first time it is believed since the inauguration of the elder Adams.

The Rev. Dr. Butler officiated.

FRENCH AFFAIRS.

The Emperor and Empress continually appear in public.

Sir Henry Bulwer was on board a steamer that exploded on the Rhine lately. He escaped by swimming.

Napoleon's first will is given up by England by France.

Thirty ships are chartered by Paris merchants to bring ice from Sweden to French ports.

Paris letters say that foreign orders are beginning to arrive, and that some purchases have been made, which argue well for the spring trade.

The United States are as usual among the early contributors to the commercial life of Paris. Orders have already been received from the United States and Brazil. At Lyons, American orders are arriving faster than they can be filled.

RIOTERS AT CHARLESTOWN.—Five young men, of the rioters, were fined $5 each and costs, and gave bonds to keep the peace.—Four others gave bonds, on Thursday. The Bee says, trouble of a serious nature is not apprehended by the authorities of Charlestown, *provided the girl Hannah Corcoran is produced and seen on Monday next*,—but if not serious consequences may be feared.

INAUGURATION ADDRESS.

The following is President Pierce's address after the ceremonies of Inauguration had taken place at Washington:

MY COUNTRYMEN:

It is a relief to feel that no heart but my own can know the personal regret and bitter sorrow, over which I have been borne to a position so suitable for others, rather than desirable for myself.

The circumstances under which I have been called, for a limited period, to preside over the destinies of the Republic, fill me with a profound sense of responsibility, but with nothing like shrinking apprehension. I repair to the post assigned me, not as to one sought, but in obedience to the unsolicited expression of your will, answerable only for a fearless, faithful, and diligent exercise of my best powers.

I ought to be, and am, truly grateful for the rare manifestation of the nation's confidence; but this, so far from lightening my obligations, only adds to their weight. You have summoned me in my weakness; you must sustain me by your strength. When looking for the fulfillment of reasonable requirements, you will not be unmindful of the great changes which have occurred, even within the last quarter of a century, and the consequent augmentation and complexity of duties imposed, in the administration both of your home and foreign affairs.

Whether the elements of inherent force in the Republic have kept pace with its unparalleled progression in territory, population and wealth, has been the subject of earnest thought and discussion, on both sides of the ocean.—Less than sixty-three years ago, the Father of his Country, made "the" then "recent accession of the important State of North Carolina to the Constitution of the United States," one of the subjects of his special congratulation.

At that moment, however, when the agitation consequent upon the revolutionary struggle had hardly subsided, when we were just emerging from the weakness and embarrassments of the Confederation, there was an evident consciousness of vigor, equal to the great mission so wisely and bravely fulfilled by our fathers. It was not a presumptuous assurance, but a calm faith, springing from a clear view of the sources of power, in a government constituted like ours.

It is no paradox to say that, although comparatively weak, the new born nation was intrinsically strong. Inconsiderable in population and apparent resources, it was upheld by a broad and intelligent comprehensions of rights, and an allpervading purpose to maintain them, stronger than armaments. It came from the furnace of the revolution, tempered to the necessities of the times. The thoughts of the men of the men of that day were as practical as their sentiments were patriotic.

They wasted no portion of their energies upon idle and delusive speculations, but with a firm and fearless step advanced beyond the governmental landmarks, which had hitherto circumscribed the limits of human freedom, and planted their standard where it has stood, against dangers, which have threatened from abroad, and internal agitation, which has at times fearfully menaced at home.

They approved themselves equal to the solution of the great problem, to understand which their minds had been illuminated by the dawning lights of the revolution. The object sought was not a thing dreamed of; it was a thing realized. They had exhibited not only the power to achieve, but what all history affirms to be so much more unusual, the capacity to maintain. The oppressed throughout the world, from that day to the present, have turned their eyes hitherward, not to find those lights extinguished, or to fear lest they should wane, but to be constantly cheered by their steady and increasing radiance.

In this, our country has in my judgment thus far fulfilled its highest duty to suffering humanity. It has spoken, and will continue to speak, not only by its words, but by its acts, the language of sympathy, encouragement and hope, to those, who earnestly listen to tones, which pronounce for the largest rational liberty. But, after all, the most animating encouragement and potent appeal for freedom will be its own history, its trials and its triumphs.

Pre-eminently, the power of our advocacy reposes in our example; but no example, be it remembered, can be powerful for lasting good, whatever apparent advantages may be gained, which is not based upon eternal principles of right and justice. Our fathers decided for themselves, both upon the hour to declare and the hour to strike. They were their own judges of the circumstances, under which it became them to pledge to each other "their lives, their fortunes, and their sacred honor," for the acquisition of the priceless inheritance transmitted to us.

The energy with which that great conflict was opened, and, under the guidance of a manifest and beneficent Providence, the uncomplaining endurance with which it was prosecuted to its consummation, were only surpassed by the wisdom and patriotic spirit of concession, which characterised all the counsels of the early fathers.

One of the most impressive evidences of that wisdom is to be found in the fact, that the actual working of our system has dispelled a degree of solicitude, which, at the outset, disturbed bold hearts and far-reaching intellects. The apprehension of dangers from extended territory, multiplied States, accumulated wealth, and augmented population, has proved to be unfounded.

The stars upon your banner have become nearly threefold their original number, your densely populated possessions skirt the shores of the two great oceans, and yet this vast increase of people and territory has not only shown itself compatible with the harmonious action of the States and the Federal government in their respective constitutional spheres, but has afforded an additional guarantee of the strength and integrity of both.

With an experience thus suggestive and cheering, the policy of my administration will not be controlled by any timid forebodings of evil from expansion. Indeed, it is not to be disguised that our attitude as a nation, and our position on the globe, render the acquisition of certain possessions not within our jurisdiction, eminently important for our protection, if not, in the future, essential for the preservation of the rights of commerce and the peace of the world.

Should they be obtained, it will be through no grasping spirit, but with a view to obvious national interest and security, and in a manner entirely consistent with the strictest observance of national faith. We have nothing in our history or position to invite aggression, we have everything to beckon us to the cultivation of relations of peace and amity with all nations. Purposes, therefore, at once just and pacific, will be significantly marked in the conduct of our foreign affairs.

I intend that my administration shall leave no blot upon our fair record, and trust I may safely give the assurance that no act within the legitimate scope of my constitutional control will be tolerated, on the part of any portion of our citizens, which cannot challenge a ready justification before the tribunal of the civilized world. An administration would be unworthy of confidence at home, or respect abroad, should it cease to be influenced by the conviction, that no apparent advantage can be purchased at a price so dear as that of national wrong or dishonor.

It is not your privilege, as a nation, to speak of a distant past. The striking incidents of your history, replete with instruction, and furnishing abundant grounds for hopeful confidence, are comprised in a period comparatively brief. But if your past is limited, your future is boundless. Its obligations throng the unexplored pathway of advancement, and comprehensive policy should embrace not less the distant future than the urgent present.

The great objects of our pursuit, as a people, are best to be attained by peace, and are entirely consistent with the tranquility and interests of the rest of mankind. With the neighboring nations upon our continent, we should cultivate kindly and fraternal relations. We can desire nothing in regard to them so much, as to see them consolidate their strength, and pursue the paths of prosperity and happiness. If in the course of their growth, we should open new channels of trade, and create additional facilities for friendly intercourse, the benefits realized will be equal and mutual.

Of the complicated European systems of national policy we have heretofore been independent. From their wars, their tumults and anxieties, we have been happily, almost entirely exempt. While these are confined to the nations which gave them existence, and within their legitimate jurisdiction, they cannot affect us, except as they appeal to our sympathies in the cause of human freedom and universal advancement. But the vast interests of commerce are common to all mankind, and the advantages of trade and international intercourse must always present a noble field for the moral influence of a great people.

With these views firmly and honestly carried out, we have a right to expect, and shall under all circumstances require, prompt reciprocity. The rights which belong to us as a nation, are not alone to be regarded, but those which pertain to every citizen in his individual capacity, at home and abroad, must be sacredly maintained. So long as he can discern every star in its place upon that ensign, without wealth to purchase for him preferment, or title to secure for him place, it will be his privilege and must be his acknowledged right, to stand unabashed even in the presence of princes, with a proud consciousness that he is himself one of a nation of sovereigns, and that he cannot, in legitimate pursuit, wander so far from home, that the agent whom he shall leave behind in the place which I now occupy, will not see that no rude hand of power or tyrannical passion is laid upon him with impunity.

He must realize that upon every sea, and on every soil, where our enterprise may rightfully seek the protection of our flag, American citizenship is an inviolable panoply for the security of American rights. And, in this connexion, it can hardly be necessary to reaffirm a principle which should now be regarded as fundamental. The rights, security, and repose of this Confederacy reject the idea of interference or colonization, on this side of the ocean, by any foreign power, beyond present jurisdiction, as utterly inadmissable.

The opportunities of observation furnished by my brief experience as a soldier, confirmed in my own mind the opinion entertained and acted upon by others from the formation of the government, that the maintenance of large standing armies in our country, would be not only dangerous but unnecessary. They also illustrated the importance, I might well say the absolute necessity, of the military science and practical skill furnished in such an eminent degree by the institution which has made your army what it is, under the discipline and instruction of officers not more distinguished for their solid attainments, gallantry and devotion to the public service, than for unobtrusive bearing and high moral tone.

The army, as organized, must be the nucleus around which, in every time of need, the strength of your military power, the sure bulwark of your defence,—a national militia,—may be readily formed into a well disciplined and efficient organization. And the skill and self-devotion of the navy assure you that you may take the performance of the past as a pledge for the future, and may confidently expect that the flag which has waved its untarnished folds over every sea, will still float in undimished honor.

But these, like many other subjects, will be appropriately brought, at a future time, to the attention of the co-ordinate branches of the government, to which I shall always look with profound respect, and with trustful confidence that they will accord me the aid and support which I shall so much need, and which their experience and wisdom will readily suggest.

In the administration of domestic affairs, you expect a devoted integrity in the public service, and an observance of rigid economy in all departments, so marked as never justly to be questioned. If this reasonable expectation be not realized, I frankly confess that one of your leading hopes is doomed to disappointment, and that my efforts in a very important particular, must result in a humiliating failure.

Officers can be properly regarded only in the light of aids for the accomplishment of these objects; and as occupancy can confer no prerogative, nor importunate desire for preferment any claim, the public interest imperatively demands that they be considered with sole reference to the duties to be performed. Good citizens may well claim the protection of good laws and the benign influence of good government; but a claim for office is what the people of a republic should never recognize.

No reasonable man of any party will expect the administration to be so regardless of its responsibility, and of the obvious elements of success, as to retain persons known to be under the influence of political hostility and partisan prejudice, in positions which will require, not only severe labor, but cordial co-operation. Having no implied engagements to ratify, no rewards to bestow, no resentments to remember, and no personal wishes to consult, in selections for official station, I shall fulfil this difficult and delicate trust, admitting no motive as worthy either of my character or position, which does not contemplate an efficient discharge of duty and the best interests of my country.

I acknowledge my obligations to the masses of my countrymen, and to them alone. Higher objects than personal aggrandizement gave direction and energy to their exertions in the late canvas, and they shall not be disappointed. They require at my hands diligence, integrity and capacity, wherever there are duties to be performed. Without these qualities in their public servants, more stringent laws, for the prevention or punishment of fraud, negligence and peculation, will be vain. With them they will be unnecessary.

But these are not the only points, to which you look for vigilant watchfulness. The dangers of a concentration of all power in the general government of a confederacy so vast as ours, are too obvious to be disregarded. You have a right therefore, to expect your agents, in every department, to regard strictly the limits imposed upon them by the Constitution of the United States.

The great scheme of our constitutional liberty rests upon a proper distribution of power between the State and Federal authorities; and experience has shown, that the harmony and happiness of our people must depend upon a just discrimination between the separate rights and responsibilities of the States, and your common rights and obligations under the general government.

And here, in my opinion, are the considerations which should form the true basis of future concord in regard to the questions which have most seriously disturbed public tranquility. If the Federal government will confine itself to the exercise of powers clearly granted by the Constitution, it can hardly happen that its action upon any question should endanger the institutions of the States, or interfere with their right to manage matters strictly domestic according to the will of their own people.

In expressing briefly my views upon an important subject, which has recently agitated the nation to almost a fearful degree, I am moved by no other impulse than a most earnest desire for the perpetuation of that Union, which has made us what we are,—showering upon us blessings, and conferring a power and influence, which our fathers could hardly have anticipated, even with their most sanguine hopes directed to a far-off future.

The sentiments I announce were not unknown before the expression of the voice which called me here. My own position upon this subject was clear and unequivocal, upon the record of my words and acts, and it is only recurred to at this time because silence might, perhaps, be misconstrued. With the Union, my best and dearest earthly hopes are entwined. Without it, what are we, individually or collectively?

What becomes of the noblest field ever opened for the advancement of our race, in religion, in government, in the arts, and in all that dignifies and adorns mankind? From that radiant constellation, which both illumines our own way and points out to struggling nations their course, let but a single star be lost, and, if there be not utter darkness, the lustre of the whole is dimmed. Do my countrymen need any assurance that such a catastrophe is not to evertake them, while I possess the power to stay it?

We have been carried in safety through a perilous crisis. Wise councils, like that which gave us the Constitution, prevailed to uphold it. Let the period be remembered as an admonition, not as an encouragement, in any section, to make experiments where experiments are fraught with such fearful hazard. Let it be impressed upon all hearts, that beautiful as our fabric is, no earthly power or wisdom could ever re-unite its broken fragments. Standing as I do almost within view of the green slopes of Monticello, and, as it were, within reach of the tomb of Washington, with all the cherished memories of the past gathering around me, like so many eloquent voices of exhortation from Heaven, I can express no better hope for my country, than that the God Providence, which smiled upon our Fathers, may enable their children to preserve the blessings they have inherited.

The founders of the Republic dealt with things as they were presented to them, with a spirit of self-sacrificing patriotism, and as time has proved, with a comprehensive wisdom, which it will always be safe for us to consult. Every measure, tending to strengthen the fraternal feelings of all the members of our Union, has had my heartfelt approbation.

To every theory of society or government, whether the offspring of feverish ambition or of morbid enthusiasm, calculated to dissolve the bonds of law and affection which unite us, I shall interpose a ready and stern resistance. I believe that involuntary servitude, as it exists in different States of this confederacy, is recognized by the Constitution.

I believe that it stands like any other admitted right, and that the States where it exists, are entitled to efficient remedies to enforce the constitutional provisions. I hold that the laws of 1850, commonly called the "compromise measures," are strictly constitutional, and to be unhesitatingly carried into effect.

I believe that the constituted authorities of this Republic are bound to regard the rights of the South in this respect, as they would view any other legal and constitutional right, and that the laws to enforce them should be respected and obeyed, not with a reluctance encouraged by abstract opinions as to their propriety in a different state of society, but cheerfully, and according to the decisions of the tribunal to which their exposition belongs.

Such have been, and are, my convictions, and upon them I shall act. I fervently hope that the question is at rest, and that no sectional, or ambitious, or fanatical excitement may again threaten the durability of our institutions, or obscure the light of our prosperity.

But let not the foundation of our hope rest upon man's wisdom. It will not be sufficient that sectional prejudices find no place in the public deliberations. It will not be sufficient that the rash counsels of human passion are hushed. It must be felt, that there is no national security but in the nation's humble, acknowledged dependence upon God and his overruling providence.

MARKETS.

Sch Judge Tenney, Toothaker, ar at Savannah, Feb. 28, hence.

COFFEE, CRUSHED SUGAR, of all grades, 228 For sale by TILTON & BLAISDELL.

LOCAL.

HIGH SCHOOL EXAMINATION.—At the examination of the Girls' High School, on Friday, the room was thronged with visitors. The progress of the scholars in the various branches taught, and the orderly deportment of the school, reflect great credit on the teachers. Rev. Mr. Lamson, the chairman of the committee, made a few remarks, in the course of which he said he hoped to meet them in a better room at their next examination. We hope his desire will be gratified, and the scholars removed to a more elevated and better location. A short and appropriate address was then delivered by Rev. Dr. Burroughs, and the exercises were closed with prayer by Rev. A. P. Peabody.

PORK.—Formerly pork was raised by most families in this place; and large quantities, which were raised in the country back of us, were packed here. Both these things have greatly diminished, nearly ceased.

Pork has been very dear in this city, during the past winter; and our supply, to a considerable extent, has been in barrelled pork, and in round hogs, by railroad, from Boston. We noticed, however, on Friday, a large lot of pork, in round hogs, brought by railroad from Vermont, to Leonard Cotton, Esq., who, having no Jewish scruples, is largely engaged in the pork trade.

INAUGURATION SALUTE.—Yesterday at noon, the President's accession to his seat was duly noticed in this city, by a National salute from the Church Bells, which rang for half an hour.

DEATHS IN PORTSMOUTH IN THE MONTH OF JANUARY, 1853:—Males—4 y. 8mo.; 60; 81; 2 y. 3 mo.; 41; 63; 5; 10; 65; 31; 7; Total 11. Females—72; 55; 4; 47; 25; 31; 10 mo.; 16; 49; 69; Total 10.

HORTON D. WALKER, Esq. is nominated as the Whig candidate for Mayor of this city.

THIS EVENING.

Firemen's Caucus.

THE FIREMEN of Portsmouth, one and all, are earnestly requested to meet at the VESTRY OF THE TEMPLE, on SATURDAY EVENING next, March 5th, at 7½ o'clock, on business concerning the interest and welfare of the "Fire Department in Portsmouth." mh3

Gas Light Company.

THE ADJOURNED Annual Meeting of the Stockholders of the Portsmouth Gas-Light Company will be held in a room over the Store of Benjamin Cheever, Market street, at 2 o'clock, P. M., on MONDAY, March 7th, 1853, for the usual purposes of an Annual Meeting.
Feb. 25. DAVID KIMBALL, Clerk.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

LATEST FROM EUROPE.

Steamship Cambria brings dates from Liverpool, three days later than previous advices.

In Parliament Bishop Exeter moved for the correspondence between the Colonial office and Canada, respecting the clergy reserves.

Ordered, The discussion in the state of relations with France was brought up on Friday night by D'Israeli, and elictited strong assurances of peacable intentions. The navy estimates were stated, amounting to seven millions sterling. Sir Charles Wood, President of the Board of Control, reflected on the Emperor of the French in a speech at Halifax, and the government have thought it necessary, through Lords John Russell and Aberdeen, to apologise in parliament. The affair has made much talk.

Both Houses of the Church Convocation were in session, with full attendance of prelate and clergy. An address to the Queen was presented, and ecclesiastical affairs discussed, principally on Synodical jurisdiction.

The Dublin steam packet Queen Victoria, Capt. Church, from Liverpool on Monday with 120 passengers, went ashore in a snow storm at 3 o'clock on the morning of Tuesday, at the entrance to Dublin bay. The ship was backed off the rocks, intending to run into the harbor, but immediately sunk. One boat with seventeen passengers reached the shore, eight got on the rocks, and a few more were taken off the mast; but sixty-eight perished, including several women and children.

Capt. Mayne Reid denies the authority of the address published as Kossuth's to the Hungarians, and administers a sharp rebuke to the Times for its malignity towards Kossuth.

The weather in Britain the past week was frosty, with a heavy fall of snow in the North.

LATER.—A despatch just received at the Foreign Office, announces that an attempt has been made to assassinate the Emperor of Austria, who was slightly wounded. The assassin had been arrested.

General Radetsky has issued a proclamation confiscating the property of the insurgents.

The University of Pavia is shut until further orders.

Slight disturbances had taken place throughout the Roman States.

Liverpool markets continue unaltered. Sales o-day 5000 bales Cotton.

Thirty-Second Congress—Second Session.

THURSDAY, March, 8.

SENATE.—The Navy Appropriation bill was taken up, and Mr. Mallory's amendment, adding to the bill the one for the re-organization of the Navy, which was passed by the Senate six months ago, was adopted.

A message was received from the House, announcing their rejection of the report of the Conference Committee on the Deficiency bill, and another committee was apointed.

Mr. Badger renewed his motion in favor of a Basin and Railway in connection with the Dry Dock in California. Agreed to.

Mr. Miller offered an amendment, appropriating $100,000 for an expedition to explore the interior of Africa.

Mr. Miller supported his amendment, showing the advantage of commercial intercourse with Africa, and then referred to Liberia.—He said he had submitted a resolution some time since, directing an inquiry as to the expediency of recognizing the independence of Liberia, and had prepared some remarks upon the subject, which he would merely glance at now.

The civil and diplomatic appropriation bill was received from the House with the Senate's amendment—disagreed to.

The Senate insisted upon its amendment, and appointed another committee to confer.

The naval appropriation bill was again proceeded with.

Mr. Gwin offered an amendment for the construction of a propeller frigate on the Ericsson principle—also for the construction of five steam propellers—rejected.

Also appropriating $300,000 for the Navy Yard at New Orleans—agreed to.

Mr. Rusk offered an amendment incorporating the officers of the Texas navy into the United States navy—rejected.

Mr. Summer moved an amendment abolishing spirit rations in the navy—passed.

The lighthouse bill was passed, and the Indian appropriation bill was taken up.

An amendment appropriating $200,000 for the removal of the Seminole Indians—agreed to.

Mr. Houston offered an amendment directing all payments to be made to the Indians themselves under a penalty of fine and imprisonment—adopted.

The Senate receded from its amendment to the post office appropriation bill—passed.

The committee then rose when the Indian appropriation bill was finally passed.

The Ocean mail appropriation bill was then taken up.

Mr. Rusk offered an amendment providing additional pay to the Bremen and Havre line of steamers—rejected and bill passed.

Mr. Davis by leave of the Senate reported resolutions from the committee on conference, directing the secretary to enquire into the state and condition of the several marine hospitals, and report at the next session whether it be advisable to continue the tax on seamens wages known as hospital money, and what other system ought to be adopted. Also the amount of each fund expended in the erection of marine hospitals, how much upon each, &c. Also whether it is expedient to require vessels bound on foreign voyages to take apprentices, and to amend or repeal the authorising the issue, and whether it is expedient for marines, &c.—adopted.

HOUSE.—The House in committee now concurred in the Senate's amendment to the post office appropriation, authorising a contract for conveying the mails between Shanghai and California, after which the committee rose and the House concurred in the committee's action.

Among the reports from the committee on printing was one ordering the printing of 30,000 copies of the obituary addresses in the House and Senate on the death of the late Hon. Daniel Webster.

The report of the Committee of Conference on the Army appropriation bill was agreed to. The Senate receding from its amendment, giving $100,000 to the discovery of the Anæsthetic agents, and the amendments to protect overland immigrants to the Pacific contract.

The House again went into committee on the Senate amendments to the civil and diplomatic appropriation bill.

The amendment appropriating $20,000 to compensate Clark Mills for his statue of Jackson was agreed to.

The Senate amendments appropriating $100,000 for an Assay o&ce in New York; and another authorizing the Secretary of the Treasury to purchase outstanding stocks of the United States, were both concurred in.

SENATE.—At half past 3 A.M., the Indian Appropriation bill was returned from the House. The Senate's amendments disagreed to.

The Senate insisted upon them and asked for a Committee of Conference. The Naval Appropriation bill was also discussed. The Senate receded from some and insisted on others and a new Committe was appointed.

The same action was had on the bill for Indian affairs.

Mr. Douglass made an ineffectual attempt to take up the Nebraska Territory bill.

From four o'clock to six A. M., there was no quorum present at any time in the Chamber, and a majority of those present were worn out with fatigue, and many of them were sleeping.

HOUSE.—An ineffectual attempt was made by Mr. Breckenridge of Ky., to introduce a resolution directing the President to arrange by treaty the various questions connected with the fisheries, reciprocal free trade, &c.

Mr. Hall, from the Committee on Conference on the Civil and Diplomatic Bill, reported that they were unable to agree.

New conferences were appointed, and the appropriations bills were passed.

The Great Remedy for Spring.

PRESTON'S

Vegetable Catholicon.

THIS long tried and highly esteemed Medicine NEVER FAILS to afford permanent relief in all complaints incident to the Spring of the Year. Sold by measure at 50 cts. per quart; 87 1-2 cts. for 2 qts.; $1.75 per gallon; and in Bottles at 25 cts. and $1.

The Catholicon is not a quack nostrum, put up to evade the Maine Liquor Law, composed of little else than some palatable beverage flavored with an agreeable essence, and vaulted in the public prints as a purely medicinal compound; but is strictly what it purports to be, a

Scientific and Valuable Preparation

From the most celebrated Medicinal Vegetables, combining the Tonic with the Cathartic, thus forming, as has proved during a use of five years, the most thorough

Coal Burners

OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at

CHAPMAN'S TIN WARE FACTORY.

In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.

Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

BURNING FLUID, CAMPHENE AND PATENT OIL.

Also, sole Manufacturer of JENNING'S PATENT SAFETY PHOSGENE GAS and LAMPS, for New England States. j10is3m

VALUABLE PROPERTY FOR SALE
IN FRAMINGHAM, MASS.

THE house heretofore known as the FRAMINGHAM HOTEL, situated in Framingham Centre, Mass., having been put in complete and thorough repair throughout, is now offered for sale. The main house is 100 feet on the street, 60 feet of which has a piazza, and contains 30 rooms, including a large hall; has a large and dry cellar, Ice House, and the best of water. The whole premises have been occupied the past year as a private residence, during which time many improvements have been made in and about the house and grounds, the front yard having been enclosed, set with large trees, and grassed. The house is well calculated for a genteel Boarding House or Hotel, for which it is much wanted; and the Board of Education have decided to remove the State Normal School, now located at West Newton, to Framingham, the site for which is only a few minutes' walk from the premises, makes this property particularly desirable for this purpose, as it will secure, in connection with boarders from the city, a profitable business the year round.

It is also desirable as a private residence, having every convenience as such, and being situated in close proximity to the Common, several Churches, High School, (free,) and only a few minutes' walk from the depot. The size of the House, to any one having a large family, would not be objectionable, as the hall and other parts could be fitted up in a manner which would add much to the convenience and comfort of a residence in the country; or a part of it could be so used, and the remainder let, without inconvenience. To persons, therefore, in pursuit of property for either of the above purposes, or for investment, an opportunity offers rarely to be met with. Terms of sale will be liberal, and possession given at any time.

For further information, apply by letter or otherwise, to L. WIGHT, Framingham, or in Boston to J. K. PORTER & CO., 27 Water st.

Dec. 27. WSistf

LYON'S KATHAIRON FOR THE HAIR.

LYON'S KATHAIRON,

For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

Sold to the trade at a liberal discount, but *commissioned in no instance.*

D. S. BARNES, *Proprietor.*
161 Broadway, New York.

Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. R. Preston, No. 2 Congress Block, Congress st.

ORANGES AND LEMONS for sale by
mh2 JOHN YEATON.

The State of New Hampshire.

To the Inhabitants of Ward No. One, in the City of Portsmouth, qualified to vote for Senators in said State

YOU are hereby notified to meet at the Ward Room, in Elm street, in said Ward, on TUESDAY, the eighth day of March next, at ten o'clock in the forenoon, for the following purposes:

L.S.

To bring in your votes for Governor, one Member of Congress, Railroad Commissioner, Councillor, Senator, County Treasurer, Register of Deeds, and three Road Commissioners.

To choose by ballot two persons to represent said city in the General Court of said State the ensuing year.

To bring in your votes for Mayor.

To choose by ballot two Aldermen, six members of the Common Council, two Assessors of Taxes, and one Overseer of the Poor.

To choose by ballot a Moderator, three Selectmen, and a Clerk of said Ward for the ensuing year, and any other officers required to be chosen.

Given under our hands and seals this nineteenth day of February, A. D. 1853.

JOHN S. HARVEY,
FORREST TRAFTON,
MARK GREEN,
Selectmen of Ward No. 1, in the City of Portsmouth.

A true copy—attest JOHN S. HARVEY,
FORREST TRAFTON,
MARK GREEN,
Selectmen of Ward No. 1, in the City of Portsmouth

CHECK LIST NOTICE.—The subscribers, Selectmen of Ward No. 1, give notice that they will meet at the Ward Room, in Elm street, on Saturday, March 5th, at 8 o'clock, P. M., preceded the 8th of March, (the day of Election,) and on the morning of the Election, at 8 o'clock, for the purpose of receiving evidence of the qualification of voters, and of correcting the List of Voters by adding thereto those who may have been omitted, and by erasing therefrom those who have not a right to vote.

A copy of the List of Voters, as corrected, will be left with the Clerk of the Ward, and one at the City Clerk's Office; also one will be posted in the Eastern Railroad Depot for the inspection of the inhabitants, until the day of Election.

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p. 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Portable Thermometers

JOSEPH H. FOSTER,
f2 No. 5 Market street.

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.

PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which preserves a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber,

No. 73 Market Street, up stairs,
and orders received by

d2 J. P. BARTLETT, Agent.

Livery Stable.

DENNETT & PERKINS

WOULD respectfully announce to the riding public and the citizens of Portsmouth generally, that their Stable is now supplied with as good a stock of HORSES AND CARRIAGES, for pleasure or business, as can be found in the City.

Passengers by the different Railroads will find our Carriages at the Depots in readiness to convey them to any part of the City, on the arrival of each train; and passengers taken at their residences for the Depots or to any part of the City.

Parties to the neighboring Towns and Beaches supplied with good carriages and attentive drivers on moderate terms and at short notice.

Carriages furnished for funerals.

Office No. 9 Vaughan Street, Portsmouth.

a2 DENNETT & PERKINS.

To the Riding Public.

C. H. SIDES & Co.,

KEEP the best of Horses and Carriages to let on the most reasonable terms, at the Livery Stable in

State Street,

nearly opposite the Rockingham House.

Pleasure riders will here find as good, stylish and safe teams as at any other establishment, at moderate rates—and are invited to favor us with a call.

COACHES furnished for conveying parties to any of the neighboring Beaches or Towns; also for attending FUNERALS, and conveying passengers to or from the depots, and in any and every direction, at the shortest notice, at all hours.

They are ever ready to attend to all orders in their line, and respectfully solicit a share of patronage.

CHARLES H. SIDES,
WM. O. SIDES.

Portsmouth, Aug. 2, 1852. 1y

Epping, N. H.

THE Subscriber having fitted up this house and refurnished anew, is now prepared to accommodate all who may favor him with their patronage. Boarders can be accommodated on reasonable terms.

Connected with the house is a large and spacious HALL where parties of pleasure can be accommodated, with good fare and reasonable charges.

This House is situated on the line of the Portsmouth & Concord Railroad, one hundred and twenty rods from the Depot, where carriages are in readiness on the arrival of every train of cars to convey passengers to the House, free of charge.

There is also connected with the House a LIVERY STABLE, where horses and carriages can be had at all times at short notice and on reasonable terms.

A share of public patronage is respectfully solicited. H. G. O. RUNDLETT.

Epping, Aug. 3, 1852. 3tf

DAILY MORNING CHRONICLE

BY MILLERS & GRAY. $4 PER YEAR---$3 IN ADV.

VOLUME 2. PORTSMOUTH, N. H., MONDAY, MARCH 7, 1853. NUMBER 30.

Office, No. 4 Exchange Bldgs., Pleasant St.

DAILY CHRONICLE—$4 per annum, payable half-yearly; or $3 strictly in advance. If payment is made for a year, within six months of the time of subscribing, fifty cents will be deducted.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

BOOK, JOB AND CARD PRINTING

OF EVERY DESCRIPTION,

executed in the best manner, at fair rates.

FRANK W. MILLER, SAMUEL GRAY, THOS. W. MILLER.

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

A WOMAN'S REVENGE.

Quite a tragic affair of a shooting case came off at Gray's tavern, at Pea Cove, in Oldtown, Maine, last Tuesday evening. It appears from the Bangor Mercury, that the company had assembled for a dance, and had gone through several dances, when as one William Bowman of Upper Stillwater, was dancing down the side of the hall where a young lady of Upper Stillwater and her brother were sitting, she rose and discharged both barrels of a double-barrelled pistol at him, the ball of one of which took effect in the back of his shoulder, and the other entered the wall. The young lady who was dancing with him was somewhat burnt in the face by the powder. A great excitement ensued.—The young lady was perfectly calm, and stated she intended to kill him—that she came for that purpose. She said the reason she did not shoot him in the drawing room was because she could not get near enough to him.—The reason for the act she said was well known to all present. If she could only have killed him she said she should have been perfectly satisfied. The impelling cause of this desperate attempt to take life and wreak vengeance is well known in the vicinity where the parties reside, and is the one which almost always lies at the bottom of such acts. Bowman was arrested the day before for breach of promise, and obtained bail.

The young lady is said to be reputable and the sympathy of those who know her is decidedly in her favor. After the act she went away with her brother and no attempt was made to arrest her. How seriously the man is wounded we cannot learn. The ball was broken up in consequence.

SURE ENOUGH.—"Mother," asked a little girl, while listening to the reading of Uncle Tom's Cabin, "Why don't the book never mention Topsy's last name? I have tried to hear it whenever it spoke of her, but it has not once spoke it."

"Why, she had no other name, child."

"Yes, she had, mother, and I know it."

"What was it?"

"Why, Turvy—Topsey Turvy."

"You had better go to bed, my dear," said the mother. "You are as bad as your old grandmother, for she can't say pork without beans, for the life of her."—*Providence Mirror.*

A GOOD CUSTOMER.—A gentleman being repeatedly solicited by a wine merchant, to give him the benefit of his custom, wrote him to the following effect:

"My dear sir, I am not rich enough to pay for wine myself, but shall be very happy to serve you in any other way. If you will send me a list of your customers, I will see what I can do to cultivate their acquaintance."—*Punch.*

"Is that clock right over there?" asked a visitor of a boy the other day.

"Right over there," said the boy, "It ain't nowhere else."

A correspondent of the Pawtucket Gazette objects seriously to the expense lavished upon funerals, and expresses the opinion that soon, at the rate of increased expense, *the poor cannot afford to die.*

A COUNTRY TAVERN.—A place where everybody appears to go for the express purpose of squirting tobacco juice against a stove.

STATE OF ITALY.

The most interesting news from Europe by the last arrival, relates to Italy, which the following paragraphs show to be ill at ease.

Milan is now reported quiet; bu the theatre and public assemblages are prohibited. No outbreak occurred in the Tuscan or Roman States, except some rioting at Orvieto, where one man was stabbed and some windows broken.

At Sienna Rirnini cries of vive le France and vive le Napoleon were uttered, for which the town was fined heavily, and fifty persons were beaten with fifty blows each.

At Monsea, six leagues from Milan, the insurgents held out bravely for some hours, but were overpowered. The expectation is that the Hungarians in the Austrian army would be totally expelled. It is said the Austrian Police knew all about the conspiracy since 10th January last. Conspirators were all armed with lagges.

The Times correspondence learns from a sure source, that the rising in Italy was to be simultaneous with the assassination of Napoleon.

At a meeting of the conspirators at Luganee, 5th, news was received that the assassination plan had failed, and it quite discomfited the Italian revolt.

It is said ten thousand muskets are secreted at Suganee, meanwhile the frontiers are kept by a strong force of Piedmontese cavalry: all refugees have been removed from Sardinia to the north side of Lake Maggi or Etoarona.

General Castellone, at Lyons, announces that if the disturbances occurred in Savoy, he would cross the frontier with troops.

Milan itself is in a sad state. The debtor prisoners are liberated to make room for political arrests. The municipality is forced to pension the widows and wounded troops.—House owners were ordered to repair damages at their own expense.

The quarter port at Past Osa, also the Palazzi Resta, Dada, Sornani, Viscount Accen, are occupied by troops. Most of those arrested belong to the lowest orders of the people.

Agostini denies, in the London papers, that he assented to the insurrection.

Mazzini is somewhere in Switzerland or Italy; his friends fear his safety.

Austria appeared determined to take measures against Switzerland and Piedmont, which she regards as two hot beds of revolt.

DAILY
Morning Chronicle.

PORTSMOUTH:
MONDAY, MARCH 7, 1853.

GEN. PIERCE'S CABINET.

The new Cabinet is composed of the following gentlemen, viz:

Secretary of State, WILLIAM L. MARCY, of New York.

Secretary of the Treasury, JAMES GUTHRIE, of Kentucky.

Secretary of the Interior, ROBERT MCCLELLAND, of Michigan.

Secretary of War, JEFFERSON DAVIS, of Mississippi.

Secretary of the Navy, JAMES C. DOBBIN, of North Carolina.

Post Master General, JAMES CAMPBELL, of Pennsylvania.

Attorney General, CALEB CUSHING, of Massachusetts.

Of the seven officers, four are from free States, and three from slave: six were educated lawyers; and one, Jefferson Davis, a soldier at West Point; he is, very properly, made Secretary of War.

All the members have been much in public life, and it must, on the whole, be regarded as a strong Cabinet, though we have no means of knowing how the democratic party like it, or how the great disappointed who have failed to get places, will deport themselves under the privation.

THINGS LEFT UNDONE.

The sins of omission, chargeable upon the last Congress, are very numerous. Catalogues of them will doubtless appear in good time. At present we content ourselves with an item from the Washington correspondent of the New York Express, who says, the Calender of Business laid upon the Speaker's table records twenty-two folio pages of bills not acted upon. Some of them were originated in December, 1852. Two or three of the subjects left unacted upon relate to Louis Kossuth. The address of thanks of Kossuth to Congress is one of these papers, and the question of printing Kossuth's communication is yet to be considered. On the 3d of May last Mr. Bayly, of Va., moved to refer the French Spoliation Bill to the Committee on Foreign Affairs, and since then it has been impossible to read the act or motion. It lies stacked up with a score of bills on the Speaker's table, which will sleep there long after Congress closes its session.

POOR HUMAN NATURE.

We know not when we felt more pity for two good men, than on reading the following item of foreign news:

"Bishop Ives, ex-Protestant Bishop of North Carolina, embraced Catholicism at Rome on December 26. Ives handed to the Pope the Episcopal cross, ring and seal, saying—"Holy Father, those are the signs of my rebellion." To which the Pope replied—"It is our will that these signs of your submission be suspended over the tomb of St. Peter."

Pitiable indeed, it is, to see two men, one aged, and the other middle aged, both dignitaries of large christian churches, deceiving themselves with the idea that such bubbles and baubles as these, make them any better or worse in a religious or moral sense. We respect the consciences of both the parties; believing the penitent Ives to be sufficiently insane to imagine himself a rebel at once against Rome and Heaven; and *Pio Nono* to be weak enough to imagine himself Heaven's Vicegerent, while he sits on a tottering Roman throne, which stands only as it is propped up by French or Austrian bayonets. The whole affair is a very solemn farce: solemn to the actors, and to those who, like us, would not fail to treat every man's conscience tenderly, however erroneous it may be; but ludicrous, and only ludicrous, to such as look merely at the appearance of the transaction.

DOTY, who was on trial at New York, for Perjury in the Forest divorce case, has been acquitted by the jury—as he ought to be—for the evidence against him was not worth a straw, and the testimony to his character, made him a steward of fair reputation.

Platt, a teamster of Windham, Conn., was killed in Norwich, last Saturday, in a most shocking manner. He was sitting upon the top of a load of furniture driving, when suddenly losing his balance he fell and the wheel of the wagon passed over his neck, killing him instantly.

DROWNED.—One of the crew of ship Western Star, lying at Union wharf, Boston, was drowned Thursday night, by falling overboard. Another of the crew fell overboard at the same time, but was saved by clinging to a fender. The parties had been drinking.

Henry Burnett, arrested and in custody in Boston on the several charges of abduction, adultery and assaulting an officer with a pistol, was examined on Thursday and committed for trial before the Municipal Court.

THE CHARLESTOWN EXCITEMENT.—The statement made that the Catholics own the whole of the square in Charlestown on which their church is situated, was incorrect. Several other parties own property and reside on the square.

STRONG DRINK IN THE STATE HOUSE.—Several days ago, an inquiry was raised, in the House of Representatives in Massachusetts, as to *who*, if any one, brought spirituous liquors into the State House, on a certain occasion. We then supposed it was an error, or slander; but we were in error:—

On Wednesday, March 2, quite a debate sprang up in relation to the liquor in the Judiciary room. Mr. Wiggin, of Boston, hoped the committee would be compelled to report immediately, and that the occasion might come, when another shackle should be stricken from the hands of all. He believed he had a right to bring liquor into the capitol and drink it as much as in his own house, and it was nobody's business! Mr. Ober of Beverly, said he had heard gentlemen of the House boasting during the past few weeks, that they bought the liquor; others that they had brought it in; and others that they drank it. They seemed to speak of it as a great honor. He hoped they might be enabled to enjoy the enviable reputation they desired as soon as possible. The people down his way were indignant on the subject, and wished to know all who were concerned in the matter. Mr. Morse, chairman of the committee did not see why this committee should be forced to report any sooner than the committee, on the petition of Thomas H. Perkins and others; and as to the anxiety of the gentleman from Boston (Mr. Wiggin) he thought he would be made aware of the proceedings of the committee too soon for his own satisfaction, as also other gentlemen who were attempting to laugh the thing to scorn.

THE FANATICS ARE COMING.—The Boston Chronicle of Friday says,

"We shall have a perfect avalanche of fanatics in this city next week, the railroads reducing the price of passage one-half to persons coming to attend the so called temperance convention."

CORRUPTION.—The Grand Jury of New York, on Saturday, presented to the Court of Sessions the result of their investigations.—Such a development of corruption and fraud on the part of persons occupying positions of trust and honor, the Journal of Commerce says, has no parallel in the history of municipal corporations the world over. In those cases of stupendous robbery, like the Fort Gansevoort sale, the investigation could not be prosecuted to a perfect developement of the transactions, owing to the contumacy of witnesses, in which they were protected by the action of the Court. But the Grand Jury charge specific instances of corruption against Aldermen by name, and indictments were found against which they will doubtless be held to answer. The indictments for misdemanor are against Ald. Wesley Smith, of the Eleventh Ward, and Ald. Bard of the 14th Ward.

RAILROAD ACCIDENT.—On Tuesday morning, as the down train from Northfield, on the Vermont Central Railroad, had approached nearly to the White River Junction, one of the hind wheels of the passenger car broke, letting the car down upon the track, and dragging it some dozen rods, when it rolled upon its side over a very steep bank. In this position it was held by the coupling and dragged along upon its side some distance further, when the engine was stopped. The passengers were thrown out of their seats, the stove overset in their midst, and the internal arrangements of the car broken up. Strange as it may seem, not a passenger or any other person was injured.

NEW USE OF MILK.—A novel discovery has recently been made, which is likely to effect a revolution in the milk trade. In consequence of the advance in the price of olive oil, from £40 per ton to £70, the manufacturers of woolen cloths, who use this oil in large quantities, have found out that necessity is the mother of invention. One of them in the neighborhood of Thurlstone, near Penestone, tried whether milk mixed with oil would not answer the purpose. The experiment exceeded his most sanguine expectations, the mixture being far better for the purpose than olive oil alone. The consequence has been, that milk has advanced to 1s. 4d. per gallon in the neighborhood of some of the woolen cloth mills, and cows are being bought up in all directions.—*English paper.*

PUPIL SMARTER THAN HER EXAMINER.—At one of the Cambridge schools a day or two since, a little girl, in reply to a question from one of the school committee, defined "kennel" to be a "water course," which the examiner disputed, and asked for another meaning.—The pupil insisted it was correct, and referred to Mr. Worcester, author of Worcester's Dictionary, who happened to be present, as her authority, when it was ascertained she was better versed in dictionary lore than even the committee. We may add that such "exhibitions" are by no means uncommon.

CATHOLIC EDUCATION TAX.—A rescript from the Pope has been received at Toronto, ordering the Priests to pay one tenth of their salaries towards the support of the Bishops. The rescript has been represented as levying a tithe on the Roman Catholic people of Upper Canada. It was issued by the Pope at the instance of a council of Bishops, held at Quebec last year. The money thus to be deducted from the priests' salaries is to go the support of educational institutions under the control of the Bishops, for the training of a native priesthood.

CHILD SCALDED TO DEATH.—A little boy aged two years, son of Mr. John Wornbolt, on Bunkerhill street, Charlestown, while his mother was engaged in getting supper, took hold of the tea kettle which sat on the stove, and turning it up drank a swallow of the boiling water from the spout, causing his death in a very short time.

LIQUOR CASE DECIDED.—At the Court of Common Pleas in East Cambridge, on Wednesday, Judge Merrick decided that the officers of Watertown had no authority to search the Spring Hotel and seize the liquors therein, and that Mr. Wilson, the bar keeper, and others, the defendants in the case, had a right to resist the officers and protect their property.

LOCAL.

THE ICE BUSINESS.

This business, the opening of which, in this city, we noticed some days ago, is progressing finely. The Portsmouth, Saco & Portland Railroad runs about thirty cars a day to the warehouses on Rindge's Wharf, where the ice is being stored and shipped. We understand there have been several vessel-loads of saw-dust already shipped to this port for stowage of ice; that our packets find ice a good article of freight to Boston; and that two vessels recently arrived with timber from the south, are chartered back with a freight of ice—whereas had there been nothing of this kind here, they would have been obliged to have gone in ballast to Boston, and perhaps laid up some time for freight.

Thus we see the advantages of having an article for shipment: our vessels are employed, our warehouses and wharves are rented, our stevedores and lumpers on the wharves are employed, and a general spirit of industry is fostered in the adjacent parts of the city.—This seems to be the great something that is needed in Portsmouth—an article for export. We hope, for the benefit of our city, that our business men will look to this thing, and see if they cannot help keep the ball in motion. Boston firms and Boston money go where there is a chance to make money. We have many advantages here for business among them: one of the best harbors in the world; plenty of fine warehouses; abundance of good business men—only a little too timid as to originality in the business line. We are still somewhat "behind the times," notwithstanding we have a six-story steam factory and a Railroad to Concord. D.

☞ A correspondent would call attention to the city gas lights. There are but few of them, and he says those few would give about double the light they do, were the lanterns properly cleaned. We have to pay for all the gas burnt, and we should have the benefit of all the light it will give.

☞ We received a short time ago, from Dr. Preston, a bottle of "Lyon's Kathairon," for the hair. It is a first rate article, and is sold cheap. The Kathairon makes the hair soft and glossy, without that oily appearance imparted by most preparations, and frees the head from dandruff and other impurities. It also keeps the hair from falling off. See advertisement.

☞ Gen. Pierce's Inaugural was furnished in advance for the papers in Boston, and distributed to them at the time he began to read it in Washington: but he forgot to send it to Portsmouth, the capital of his native state.

However, we don't care how often Gen. P. forgets us, so that Jackson & Co. *don't*. By their attention, we were furnished early with a copy, by express.

☞ At a meeting of the Democracy, in this City, on Saturday evening, Jefferson McIntire, Esq. was nominated as their candidate for Mayor, Richard Jenness having declined.

☞ Gen. Riley, who lectures on Temperance at the Temple, this evening, the Journal says is a gentleman devoted to the cause, and with no other fee or reward for his services than that which arises from the consciousness of doing good, he spends a portion of his time and ample fortune in this way. He has been lecturing in various parts of this State during the past month, and is highly spoken of.

☞ See Mr. Gerry's advertisement.

A REVOLUTIONARY SOLDIER.—Mr. James McDonald, one of the old soldiers under General Washington, was in Cincinnati Feb. 18. He is returning from a western visit to some friends, to his home in Richmond, Va. He was born in Glasgow, Scotland, 12th Sept. 1748, and is now 104 years old. He enjoys good health, and has a vigor common to men of fifty. He has remarkable good sight and hearing, and has never been sick but once in his life. He fought in all the principal battles in North and South Carolina, He lost an eye at the battle of the Cowpens, under General Morgan, and received two wounds at the battle of Brandywine, under Washington and La Fayette. He was at the battles of Trenton and Princeton, where the brave Col. Mercer was shot. He saw General Warren fall at Bunker Hill, while cheering on his troops to victory; and to sum up, he fought in sixteen battles in New York and Vermont, under Gen. Gates and Arnold.

ORIGIN OF HIGH PEWS.—Bishop Burnet complained that the ladies of the Princess Anne's establishment did not look at him while preaching his long sermons, as Queen Mary called them, but were looking at other objects. He therefore, after much remonstrance on their impropriety, prevailed on Queen Anne to order all the pews in St. James's Chapel to be raised so high that the fair delinquents could see nothing but himself when he was in the pulpit! The Princess laughed at the complaint; but she complied when Burnet told her that the interests of the church were in danger. The whim of Bishop Burnet was imitated in many places which had not been pewed before, and are at this hour to be seen in remote country parishes.

Mr. Seward, lately in Congress, declared that we were on the brink of such disasters from the prevalence of the railroad mania in the United States, as befell the monetary interests of Great Britain some years ago, when Mr. Hudson figured as the great promoter of such schemes. The fluctuation of the stock market, the immense prices obtained for real estate, and the heavy importations and revenues at our port, indicate the near approach of a collapse.—*Wash. Cor. N. Y. Cou. & Enq.*

SMALL POX.—A colored man, a barber in Albany, was taken with the small pox. He continued to shave his customers, after he knew he had the disease, but concealed the fact from them. A young man whom he shaved took the disease and died. The barber finally took to his bed and was hardly able to leave it, when he re-commenced his shaving business. The Chief of Police heard of it on Saturday night, and on Sunday notified the scoundrel to close his shop.

A fine little girl, a particular friend of ours, was watching intently the manœuvres of an urchin with a tiny wheelbarrow; and thought aloud, supposing herself unheard, as follows:

"Oh, dear," said she "I don't see why I ain't a little boy! I wish I was a little boy! I dont care! I think he might let me take his 'heelbarrow, *no matter I are a little girl.*" She owns a "'heelbarrow" now.—*Clev. Herald.*

Upright politicians ask *what* recommends an aspirant—corrupt ones *who*.

ON Saturday afternoon, a SCARF was picked up in the street. The owner can obtain the same at this office. mch7

ANOTHER NEW TERM.

Gerry's Two-Crayon Drawing.

Taught at No. 13 Vaughan, cor. Hanover st.

A NEW TERM will commence on THURSDAY, March 10th. Those who are desirous of taking lessons are requested to call at Mr. Gerry's Rooms previous to that time, so that arrangements may be made for the several Classes.

Will the public examine specimens of Drawing by Mr. Gerry and his scholars, at the Bookstore of Messrs. Shores, Foster and Harvey?

☞ Particular instruction will be given in enlarging pictures, which, with other instruction, will give the scholar a fine idea of Landscape sketching, from Nature.

Persons living out of the city, can, by stopping here a few days, complete a course of lessons.

☞ No expense for pupils while taking lessons, excepting the tuition.

mch 7 C. F. GERRY, A. B.

f5 H. A. BIGELOW.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

MATTERS AT WASHINGTON.

WASHINGTON, March 5.—The present Cabinet continue to fill their offices by request of President Pierce, until the new one shall be confirmed, which will probably be done on Monday.

Ex-President Fillmore is preparing for his southern tour. He will be the guest at Charleston of a distinguished Democratic politician. The following nominations will probably soon be made:

Mr. Buell of Michigan, Minister to Berlin; R. V. K. Meade of Virginia, to Berlin; Buchanan, to London; Nicholson of Tenn., to Spain; Bedinger of Virginia, to Central America; D. R. Carter of Ohio, Commissioner of Patents; Col. Gorman of Indiana, Commissioner of the Land Office.

Senator Dixon of Kentucky, is very ill, and his recovery is doubtful.

The International Copyright Treaty negotiated between Messrs. Everett and Crampton was sent into the Senate some days since. It is understood that by one of its provisions an English author is not required to have his book first printed in the United States in order to secure for it a copyright here.

Government has ordered a Caloric engine of 60 horse power, for the Navy Yard in this city.

Robert Dale Owen is strongly pressed on Gen. Pierce for Charges' to Naples.

It is said that trouble is brewing for Mr. Cushing. Mr. Benton has remonstrated against his appointment.

WASHINGTON, March 4.—The President delivered his Inaugural Address in a remarkably clear, distinct voice, and free but dignified manner. He was repeatedly interrupted by enthusiastic applause. On the conclusion the bells rang, martial music sounded, and cannons boomed in honor of the occasion.—The immense concourse gradually dispersed. Large masses followed President Pierce to the White House and waited upon him in the usual reception room.

Ex-President Fillmore took possession of the apartments at Willard's Hotel, vacated by Gen. Pierce, intending to occupy them for a few days, prior to taking his intended Southern tour.

Mr. Fillmore dined with President Pierce at the Presidential mansion this evening.

The inaugural address creates a very favorable impression as well among the opponents as the friends of the incoming administration.

Thirty-Third Congress—First Session.

FRIDAY, March 4.

EXTRA SESSION OF THE SENATE.—The Secretary called the new Senate to order.

Prayer was offered by the Rev. Dr. Butler.

Mr. Badger offered a resolution directing that the oath prescribed by the Constitution be administered to the new Senators by Hon. Lewis Cass, the oldest member of the Senate. Adopted.

The new Senators were accordingly sworn, amongst whom were Messrs. Atherton, of N. H.; Benjamin, of La.; Clayton, of Del.; Douglass, of Ill.; Evans, of S. C.; Everett, of Mass.; Houston, of Texas; Hunter of Va.; Jones, of Iowa; Sebastian, of Ark.; Stuart, of Mich.; Thompson, of Ky.; Thompson, of N. J.; Toombs, of Ga.; Wright, of N. J.—Mr. Atchison, of Missouri was appointed President, *pro tempore* and made a brief speech on taking the Chair.

At a quarter past one the Inaugural procession entered the Hall, the President elect leaning on the arm of Senator Bright, and the President on that of Senator Pratt.

Immediately afterwards the procession left the Chamber and proceeded in the order laid down in the programme, to the eastern portico of the Capitol.—Accompanying the President, were Messrs. Marcy, Campbell and the other members of the Cabinet.

After the return of the Senate to their Chamber it was ordered that the daily hour of meeting should be at 12 o'clock, and that the Senate adjourn till Monday.

SOUTH AMERICA.—By the Severn steamer, Buenos Ayres dates are received to Jan. 2d. On new Year's day a revolution broke out headed by the Minister of war. Governor Alcim had resigned. Manuel Pinto is elected Governor. A Provisional government is established, and fighting was going on when the Severn sailed.

Rio Janeiro papers mention that the ship Camargo, under American flag, landed a cargo of 600 Africans. The Brazilian steamer Alfonso had been wrecked. The Yellow Fever was extending.

CHARGE OF MANSLAUGHTER—John Coffee, brother of Michael Coffee, who was poisoned at the morocco factory of Smith Dyer, in Charlestown, a few days since, has entered a complaint against Mr. Charles W. Sewall, foreman of the factory, charging him with manslaughter. Mr. Sewall was brought before Justice Warren to answer to the charge, and at the consent of both parties the examination was postponed until the 13th inst., Mr. Sewall giving bonds in $5000 for his appearance. At the time of Coffee's death, Coroner Sumner summoned a jury and held an inquest, and the jury returned a verdict of accidental death.—*Advertiser.*

TURKEY.—No further movements have taken place in Montenegro. Prussian despatches make it certain that the Porte will accept the mediation of Austria. The Lloyd of the 12th says that Prince Daniel would accept the condition offered by Turkey, and that hostilities are suspended.

The Turkish commission in Bosnia has issued a firman granting the same privileges to Christians as to Turks. To balance this, Greek journals report a massacre of Christians at Salonica. No details are given.

Shoes have been manufactured in Galveston, Texas, from Alligator's skins. The Houston Telegraph says the skins are tanned and prepared, so that they resemble the finest calf-skin in pliability, and are beautifully mottled, like tortoise shell. Mr. Benedict, the maker, intends to send a pair of them to the World's Fair at New York.

The Greatest Chance for a Bargain
in this city, is at

French Zinc Paint.
Ground in Prepared Linseed Oil.
THE Subscribers having made arrangements to receive PURE FRENCH ZINC, fresh ground from the Factory, would respectfully call the attention of the trade, and consumers in general to this beautiful article, which when properly prepared and used makes the MOST BRILLIANT and DURABLE WHITE in use. It has been used in France for the past five years, and has entirely superceded White Lead as a paint.
The FRENCH ZINC, prepared as above, is offered in quantities to suit purchasers at the Manufacturer's Depot.
BENNETT & TREADWELL,

Coal Burners
OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at
CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

Also, sole Manufacturer of JENNENE'S PATENT SAFETY PHOSGENE GAS and LAMPS, for New England States. j10is3m

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair,
CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
for giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. Cocksmuir, 76 Bond-st. N. Y." This admirable preparation can be had of all respectable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*
D. S. BARNES, *Proprietor.*
163 Broadway, New York.
Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. E. Preston, No. 2 Congress Block, Congress st.

Henry Goulding, Proprietor,
No. 2 Andover street, Between Fitchburg and Lowell Depots.

AT THE BOSTON MACHINE WORKS may be found MACHINERY of all kinds and descriptions, including STEAM ENGINES AND BOILERS, of from one to fifty horse-power, either horizontal, vertical or oscillating style—attached or separate from the boilers.

New and Improved Steam Regulators and Valves can be attached to engines now running, and perfect regulation secured.

Also, Gang Saw Mill Work of the most approved construction, either attached to engine or run with belting. Also, Saw Arbors or Shafts, Shafting, Pulleys, Belting, &c., &c., either new or second hand; if not on hand, can be furnished at the shortest notice.

N. B.—All Machinery sold at this Establishment is warranted to give entire satisfaction to the purchaser.

Boston, Dec. 15, 1852. M1aw3m

North American Soap Co.

MANUFACTURERS, City and Country Dealers and the public are requested to give their Soap a trial. It is cheaper than other good Family Soap; can be used in cold, SALT or HARD water as effectually as the softest; will remove *Grease, Tar, Paint*, &c., and contains no ingredients injurious to the skin or most delicate fabric; is superior for Woolen Goods, and clothes washed with it require NO BOILING and but little rubbing. Numerous testimonials might be appended, but the proprietors rest upon its merits. Sold by the principal Grocers throughout the country, and orders promptly attended to. M. B. BIGELOW,
152 Washington st., up stairs, Boston,
M3md15 Agent for Massachusetts.

THE ART OF BEING BEAUTIFUL.

IT has long been a *desideratum* that some scientific man should apply himself to the study of the human scalp. Dr. JACOBY, the great Pathologist, from Berlin, has done this, and in this new field has attained the most brilliant results.—Satisfied by an analysis of the red colored alcohols and other washes, of their deleterious effects, he compounded his celebrated Berliner Haar Wasche, to the efficacy of which thousands of witnesses might be summoned, of the accompanying character:—

BOSTON, Jan 1, 1848.

This is to certify that I have had an article called the Berliner Haar Wasche applied during the past five or six weeks to my head, for the purpose of renewing and strengthening the hair. It has been very effective in producing such a result; and I can cheerfully recommend the same to those afflicted with baldness or diseases connected therewith. JONAS CHICKERING.

It frequently happens that ladies suffer from *hair eaters*, and apply some of the nostrums prepared by apothecaries, who think, because they can make poor soda water, they can prepare good hair wash. The effect of these is often highly injurious. Ladies, be none of them,—consult Dr. Jacoby, who will eradicate the nuisance and guarantee a beatiful head of hair. His motto is, *no cure, no pay.*

To those at a distance, the Champoo Washer Nos. 1 and 2, and Haar Wasche, are recommended.—There is, however, no universal specific, and all persons troubled, should if possible see Dr. Jacoby.

In the course of his scientific research, Dr. Jacoby has discovered a Hair Dye that does not stain the skin, will give any shade of color, and will stand exposure in all weather. The accompanying certificate, from a highly scientific source, must satisfy the most incredulous.

BOSTON, Nov. 18, 1851.

I have seen Mr. Moses Jacoby's Hair Dye, used in coloring hair of a deep brownish black, of a beautiful natural color, and can certify that it is perfectly efficient and permanent.

CHARLES T. JACKSON, M.D.,
Assayer to the State of Mass.

Dr. Jacoby's rooms are at No. 9 Franklin street, Boston, where he may be consulted at all hours.—There are always in attendance in both ladies' and gentlemen's rooms the most skilful hair dressers.

Boston, Dec. 16, 1852. M1aw3m

COUGH REMEDY!

FOR THE COMPLETE CURE OF
Coughs, Colds, Influenza, Asthma, Bronchitis, Spitting of Blood,
AND ALL OTHER LUNG COMPLAINTS
TENDING TO
CONSUMPTION!

THE above Expectorant, prepared by an experienced Physician and Chemist, has now become a standard Preparation, and is offered for the COMPLETE CURE of those diseases of the **Throat and Lungs**, which, if neglected, usually terminate fatally in **Consumption.** It contains no *Opium, Calomel*, or any mineral whatever, but is composed entirely of those *Roots, Herbs*, and *Vegetable substances* which have a specific influence upon the Lungs and their connected organs. Its immediate effect is to allay all irritation, and gently remove the phlegm and other morbid secretions from the Throat and Air-passages, thus relieving the Cough, by subduing the inflammation and other causes which give rise to it. It is approved of and recommended by Physicians of the highest standing, and may be given with perfect safety to the youngest child or the most delicate female.

PROPRIETOR'S DEPOT—**A. L. Scovill & Co.**, Gothic Hall, No. 316 Broadway, New York.
NEW ENGLAND DEPOT—BURR & PERRY, No. 1 Cornhill, Boston, Mass.

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tubes; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Mantle Thermometers
JOSEPH H. FOSTER,
f2 No. 5 Market street.

HOUSE AND LIFE PROTECTORS
AGAINST FIRE AND LIGHTNING.

PATENT METALLIC
LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above are manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of this Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

No. 73 Market Street, up stairs,
and orders received by
d2 J. P. BARTLETT, Agent.

No. 4 Green Street. **CARVER AND ARTIFICER IN** ALL KINDS OF STONE WORK. N.B.—Please give us a call. j1

From the Great Falls Journal.

FIRESIDE CONVERSATION.

REPORTED BY CARA DENNIS.

"Have you read the story in the last Journal, Jane?" said Mr. Howell to his wife, as she took her seat at her wok table, one evening.

"I have, Walter," replied she, "and I suppose you consider it a capital hit against sewing societies."

"That I do, Jane, capital! capital! It sets them in just the right light, and were it not for the meanness of meddling with what is more your business than my own, I would forbid your ever going to one again. I have often wondered that you will persist in going, when you know how I disapprove of them."

"My dear Walter, I belonged to a sewing society before I ever saw you. I attended one immediately previous to being your wife—but in adopting your name, I do not necessarily adopt all your prejudices and sentiments. I must think for myself, and act for myself in cases where I do not infringe on your rights and *just* authority. Come now, would you not cease to respect me, if I altered all my previously formed opinions, just because my husband thought differently?"

"Yes! Jane, perhaps I should," said Mr. Howell, laughing. "I do not want you to give up everything to me—you feel yourself perfectly secure on that point. You know I shall never stoop to acting the petty tyrant, and command you to stay away from any place that your own good sense permits your frequenting. But though I shall not *command* you, I have my own opinion about the propriety of your attending these foolish, useless, sewing societies—and I can point you out twenty of our most sensible men who think just as I do."

"Now, Walter, I think you are not quite so generous as you give yourself credit for being. You will not *command* me not to go to our society, but I see you mean to make it as uncomfortable as possible for me to attend. I really have a mind to turn round and let you have your own way in the matter, and give to others the true reason why I do not attend—namely, that my husband is not willing—I own, I should blush to say so to any one—I should be ashamed to have any person suppose, that you would control me in everything, just as if I were a child, and could not judge for myself in these matters, after marriage as well as before."

"No! Jane, you shan't give up, I will not be a tyrant. I will not demand you to surrender all your opinions and all your rights to me—I love you too well for that. I will not make my house a prison—you shall leave it now and then even to attend a sewing circle, and you shall have the society meet with you, if you will put up with the litter, and nonsense and slander, for after all you cannot deny that you have enough of these."

"Why, yes! there is enough, where any is, is too much. But we did not form the society for the purpose of littering the room, and talking nonsense and slandering."

"For what, pray, did you form it then? for I believe you accomplish little else. What was done at Mr. Wells's in the story, but to break china, slander, upset the lamp, choke the child, and steal sandwiches, ha! ha! ha! oh! Jane, that is a good one!"

"No! no! Walter," said Mrs. Howard, herself laughing heartily—"that is a miserable caricature. It is all ridicule. A person can ridicule anything. Sneers are not arguments, though they often effect the feeble-minded."

"I have much respect for your opinion Jane: now just tell what there is so mighty excellent in a sewing society, that you think it your duty to uphold them?"

"I will, Walter, but first let me tell you that *I* should not neglect positive duties at home, for the sake of going to a meeting of our society. Nor do I think a member of the society would. Women that take the trouble to meet together in this way, generally act from principle. They may reach out their hands to the poor and needy, but they also look well to the ways of their household, and eat not the bread of idleness.

A woman might neglect her home duties to attend a ball, or a whist party, but I think it is very *uncommon* to say the least, that any one would neglect her family for the sake of going to a sewing circle. I know such things are often said, just as I have heard women condemned sometimes for attending so constantly upon religious meetings, but this censure comes from the wrong source to entitle it to much respect. Many a man thinks a woman quite out of place at a sewing circle, who would think nothing of her spending half the night in a ball-room, or at a card table."

"Come, Jane, you are getting severe. Let us hear the advantages of a sewing society."

"You shall. I think them many. In the first place we do some good by them."

"Oh! my dear! don't, I beg of you, put that first—that is the last thing—the very last thing thought of."

"Well, let it be *last*, then; let that cap the climax. In the first place we get good."

"I'll allow that,—you get a good supper."

"A good supper is not to be despised. It is just as good at a sewing society as at home, or at a party. Yes, I think it relishes better at the first place—for our industry sharpens our appetites. We, ladies, furnish our tables, too, with our nicest specimens of cookery often at such times, because we stand so much in awe of each others' opinion. How could I place poor bread before Mrs. A. or heavy cake before Mrs. B., or ill-steeped tea before Mrs. C. No! I stand more in awe of the opinion of these three ladies, in these matters, than of any twenty men you could pick out, even should they chance to be those same twenty sensible persons you mentioned a while ago. Thus I learn by careful practice, how to do up these things in good style, and you are all the gainer."

"Aye, Jane?" said Mr. Howell, with an incredulous smile, as if a new idea were dawning upon him."

"Certainly—you will find the best cooks in communities where these sewing societies flourish. They ought to be encouraged for that reason. They operate as a stimulus almost as great as fairs, where premiums are offered for the best butter, cheese, &c."

"Ha! ha! ha! That's a substantial argument. Three cheers for sewing societies! Really, you *are* ingenious."

"But is not this quite as good an argument in *favor* of sewing societies, as broken china, lamps, &c., are *against* them?"

"Yes, just about."

"Then we learn there many valuable hints about needle-work—"

"What among all that heap of unfinished and ill-finished work that was left for Mrs. Wells and Janet to inspect?"

"No! Walter, that is all sheer exaggeration. We do sharpen each others' wits, I assure you, in these homely, but most useful accomplishments. I never knew how to make a decent button-hole until I learnt at a sewing society, and the best part of my knowledge of shirt making, I obtained there."

"I should be rather ashamed to own that."

"I am not at all, for it is true. Who had I to make shirts for before I was married, unless I had offered like the widow Barton to make them for some Mr. Shears."

"But you know all these things now. Sewing societies are no advantage to you at this late day, in this respect."

"But they may be to others. Besides, fashions change and improvements are made. I like to keep posted up in these matters. I am a great friend to the needle and to all the domestic comfort and tidiness, and refinement ever connected with it. You men think little of its virtues; but we women, know how much is included in being able to wield this little instrument with skill and despatch."

"Well! have you any thing else to bring forward on your side?"

"These sewing societies meet a social want of the community. They afford an opportunity of seeing our neighbors and acquaintances in a simple unostentatious manner, that is quite agreeable. We meet under circumstances most favorable to a pleasant and friendly interchange of thought and feeling. I think the relaxation accompanying such intercourse with our friends has an excellent effect upon the spirits. It has on mine I confess. I often feel wearied with the monotony and dullness of constant indoor cares. It is a relief to leave one's anxieties behind occasionally, and step into new scenes, and forget alike one's self and one's labors—and enjoy the pleasant faces and agreeable chat of kind friends. I return to home duties with fresh interest and a cheerful heart."

"Then you relish the slander and tattling as much as anybody?"

"Why, my dear husband, do you suppose slander and tattling form a necessary part of our meeting. Do you think we have made provision for them in our rules, as for instance—'one hour previous to tea shall be devoted to slander and talebearing.' I should think you thought so, you insist so much upon them."

"No! Jane, but I think them natural and unavoidable consequences upon such social gatherings. Women must talk, and generally they have nothing else to talk about but their neighbors."

"Supposing you are in the right—our neighbors themselves being present, or some of their friends, we have very little opportunity for this sort of conversation. We are necessarily under restraint. We guard our words, and I sincerely think no social gatherings could be more free from these faults than sewing societies. They may be often abused, and doubtless are—but would you condemn a really good thing because a bad use is sometimes made of it? Would you shut up the doors of our churches, because part of our congregation are fast asleep during the sermon, and another part engaged in finding out some new style of dress—and another passing a mental criticism upon the preaching or singing? No, our good things all bear the impress of our depravity—nothing is really perfect."

"But do you think it right to hold out the

temptation to ladies to give such expensive suppers as they do, when often their husbands couldn't pay their debts."

"As to that, they know their own concerns better than I do. But I think you over rate the expense of these suppers. Remember, they consist only of plain articles of domestic manufacture;—no foreign luxuries among them. Flour, butter, sugar, eggs,—these are not so expensive, if a person takes the trouble to compound them—and then it is not a dead loss as you may say. For instance, I get a supper for twenty or thirty persons once a year. This entitles me to twenty-five good suppers in return; for our society meets only once a fortnight, and but once a year at the house of each member. Twenty-five good suppers, what do you think of that, Walter?"

"I do not care anything for it, Jane; I am ashamed of you. Do not think I care any thing about the expense of your getting tea for the society, when you please. I was thinking only of Mrs. D., and whether her husband could afford it, as I know he cannot."

"Well, I was thinking of such as she, too. I was trying to show you, that it was not such a losing matter after all. Strike the balance between the expense of one supper for twenty five persons, and twenty five suppers for one person, and you see there is not much loss—especially if Mrs. D. should profit by the hint given in the story, and go without breakfast and dinner in anticipation of sandwiches in the evening! Are you not convinced now that we *get* good?"

"I am convinced, that you are quite an obstinate woman."

"No! no! you are convinced of no such thing. Come, you must grow good natured, or I cannot bring forward any other argument. I must show you that we *do* good."

"Well, show it if you can?"

"It is not a difficult task at all. We raise money in this way easier than we should in any other. We create an interest in benevolent objects, that otherwise would be unfelt. We supply *some* wants, that, but for us, would probably remain unsupplied. A benevolent spirit is cultivated, if not awakened. Benevolence is like a stream, small in its beginnings it may be—a tiny rivulet, but swelling constantly and making for itself a deeper and broader channel, until its flashing waters end in the bound ess ocean."

"You grow eloquent."

"I was thinking how great a privilege it is to do even a *little* good, in such a needy world as this; to be a member even of a humble sewing society; to contribute our mite in any way, to relieve distress, or lighten cares, or instruct ignorance. The greatest fault in that story of the sewing circle, is its evident want of sympathy with the work of giving the gospel to the heathen. The design is to throw ridicule on those great christian enterprises, so dear to all that rightly value the religion of the Bible."

"The story has done some good, Jane. I believe it has been the means of removing my prejudices. I frankly own that you are right. I will join no more in the hue and cry against sewing societies, for to hear the objections sometimes raised against them, one would almost think they are the great evils among us. I have heard them denounced as "nuisances," "schools of slander"—"mischief making concerns," &c., and I have been seriously troubled that you were connected with them at all."

"I heartily rejoice, I am sure, if you have altered your opinion—for I must confess' my dear Walter, that this want of liberality on your part—this sort of jealous interference with our "peculiar institutions," has annoyed me. I have not thought it agreed at all with your naturally generous and manly nature."

"Come, Jane, write off this conversation and send it to the Journal, as a kind of answer to that story.

"Why, no! I would have a more sensible plea for sewing societies."

"It is good enough, cousin, as an answer to that story. Anything higher and better would be out of place."

"And not quite so near the truth, either, Jane," said Mr. Howell, laughing.

"Perhaps not," replied his wife. "I do not wish to claim too much for these unostentatious societies. Let them go for what they are worth, and for no more. They are by no means the highest and only method of doing good. They are little rills, helping to swell the great current of benevolence, that is yet to gladden the earth. They are not noisome stagnant pools. A community is happier and better with them than without them, even with all the faults that mar every good thing in this world. I have only tried to remove objections against them, and to lay claim to them as a women's privilege, one of her own peculiar ways of exercising her benevolent spirit, out of her own family."

"Well, I think you have done it. Henceforth I shall say to my friends—Hands off!—this is none of our business—leave the women unmolested with their sewing societies."

FISHERMEN.

The Salem Gazette says, "We are gratified to learn that the Secretary of the Treasury has given such instructions to the Collector of this port, as authorize him to pay the fishing bounty for certain vessels in Beverly, concerning which some question has been made. The amount thus obtained amounts to about $4000, divided amongst fourteen vessels; and much credit is due to W. H. Lovett, Esq., for his efficient representation of the case, at Washington, which produced so favorable a result."

We do not know, and cannot learn from the above statement, what the difficulty was.—

But there ought to be uniform, but liberal, rules of construction for the bounty laws, so that every one desiring the bounty should know how to conduct through the season, in order to get it.

HARRISBURG, March 5.—A very serious accident occurred on Thursday night on the Pennsylvania Railroad, near Lewiston. An emigrant train and a freight train came in collision, doing great damage. Four passengers, emigrants, were killed instantly—two died yesterday, and two others are not expected to live.

Another accident is reported to have occurred yesterday near Huntingdon, on the same road, by which two persons were killed.

DAILY

Morning Chronicle.

PORTSMOUTH:

TUESDAY, MARCH 8, 1853.

ELECTION DAY.

This is to be a busy day in New Hampshire: Governor, Council, Senate, House, and County Officers are to be chosen, also three Representatives to Congress.

In this city the interest of the election is increased by having the city officers, (unwisely as we think,) chosen at the same meeting.

The Democratic Candidate for Mayor, Jefferson McIntire, Esq. having declined, Hon. R. Jenness was re-nominated last evening,—so that the three candidates for that office, now stand, in the order of their nomination:

Brackett Hutchings, by the Free Democrats.

Horton D. Walker, by the Whigs.

Richard Jenness, by the Democrats.

The following are the nominations made by several parties for the principal city offices:

WARD No. 1—*Whig*—Geo. W. Pendexter, Samuel Rowel, *Aldermen;* Robert Gray, Geo. Annable, Isaiah Wilson, Joseph H. Berry, Eli M. Robbins, Joseph P. Morse, *Com. Council;* Nathaniel K. Raynes, *Town Clerk;* Joseph Harvey, Benjamin Cheever, *Representatives.*

Democratic—James Ayers, Augustus Jenkins, *Aldermen;* Samuel Rowe, Jabez Dodge, Andrew D. Gerrish, Wm. Rand, Joseph G. Todd, Joseph P. Trefethen, *Common Council;* Oliver F. Gerrish, *Town Clerk;* Moses H. Goodrich, Samuel Spinney, *Representatives.*

Free Democratic—Same as Whig.

WARD No. 2—*Whig*—John Knowlton, Edmund M. Brown, Charles J. Colcord, *Aldermen;* William Tucker, Alfred W. Haven, Charles W. Brewster, I. Bartlett Claggett, John Trundy, James P. Bartlett, William H. Y. Hackett, John Knowlton 2d, John T. Dame, *Common Council;* Joseph D. Pillow, *Town Clerk;* James W. Emery, Samuel Adams, Samuel N. Plumer, *Representatives.*

Democratic—Amos T. Goodrich, George Chesley, Thomas Norton, *Aldermen;* Albert Hayes, William Frye, Moses Yeaton, Aaron B. Mudge, Daniel H. Spinney, William J. Laighton, George W. Towle, Richard L. Pickering, John Moulton, *Common Council;* Edward N. Fuller, *Town Clerk;* Richard Jenness, David Lowd, Joseph Amazeen, *Representatives.*

Free Democratic—David Kimball, Hampti Konney, Thomas Martin, *Aldermen;* Hall Varrell, Sylvester Gilbert, William F. Currier, Robinson F. Berry, John Clark, Wm. H. Foster, Richard L. Palmer, *Common Council;* C. C. Whittemore, *Town Clerk;* William Claggett, Jonathan Barker, John Trundy, *Representatives.*

WARD No. 3.—*Whig*—Nominations not complete last evening.

Democratic—Gideon H. Rundlett, Henry Whittemore, *Aldermen;* Enoch Bartlett, Edward J. Laighton, Isaac F. Nelson, Wm. Mervin, Abraham Q. Wendell, Stephen D. Scriggins, *Common Council;* Chas. E. Blake, *Town Clerk;* John Laighton, Richard Waldron, *Representatives.*

Free Democratic—John Dame, Joshua Stackpole, *Aldermen;* Thos. J. Whittem, Edward N. Anderson, Littleton M. Laighton, Henry Whittemore, John W. Durgin, Henry Lowd, *Common Council;* Joseph C. Walker, *Town Clerk;* William G. Nowell, Alfred T. Joy, *Representatives.*

PRESIDENTIAL OATH.

This, we are pleased to see, is no oath at all, but a mere solemn affirmation. We read, the Oath of office was administered to Gen. Pierce by Chief Justice Taney, as follows:

"I do solemnly affirm that I will faithfully execute the office of the President of the United States, and will, to the best of my ability, preserve, protect and defend the Constitution of the United States."

General P. raised his right hand, and held it aloft until the oath of office was read, and then said, "I do solemnly affirm," &c. He then delivered his inaugural speech in a clear distinct voice, from memory, without for a moment recurring to his notes. It is remarked in the papers, that the snow-storm which commenced in the morning, was nearly suspended during the ceremonies, but immediately after was renewed with great violence.

The address received commendation from all parties. Among those said to be pleased with it, are Gen. Cass, Mr. Douglass, and Gen. Scott.

It was a pleasing feature in the exercises of the day to see the cordial good feeling that existed between the incoming and outgoing presidents. In the evening both presidents were serenaded.

SAVANNAH, March 1.—The British steamer Conway has arrived from Navy Bay, via Jamaica and Nassau, bringing eighteen passengers, and the West Indian mail. Among the passengers were Capt. Ryan, of the ship Italy, and Capt. Christianson, of the ship Haidee, before reported lost.

LOCAL.

☞ The harmonious democracy of Ward No. 3 are not so harmonious as they should be. Last night at their caucus, from some cause, one of the audience gave the lie to the chairman. The chairman not deeming such a remark strictly parliamentary, left his seat and knocked the man down. As handsome a row as an Irishman would wish to see, immediately occurred.

The Upright Refrigerator is a piece of furniture, as handsome as a nice bureau, and as convenient as a good closet aside from its cooling properties. [See adv.]

☞ Capt. Clark, the fruiterer of Exchange Buildings, has just converted our newspaper table into a refreshment table, by putting a basket full of good things on the top of the newspapers, which circumstance sets us to discussing oranges and apples, dates and prunes, filberts and so forth, to the exclusion of just so many puns and jokes, and just so much political and general speculation, as might occupy the same space in our columns. The specimens are excellent—if any body doubts it, let him try them for himself.

RAILROAD PASSES.—Our readers in New Hampshire generally know that our General Court two or three years ago passed a silly law prohibiting free passes on railroads, and making some regulations about freight, at once useless and vexatious.

It is about equally well known that our legislature at its late session accepted a free ride to Boston and back, which violated that law. Shortly after the honorable legislators got back, they passed a bill, not *repealing* but *amending* the law; which amendment we have just read; and we must say they have done the business finely: the new law is just as much like the old one, as a calf is like a lion; both can stand on four legs, and both can roar; but one can scratch and bite, while the other can do neither. The new law is quite a harmless quadruped, and contains some useful provisions.

THE MISSING GIRL RETURNED.

Honora Corcoran, the missing girl, returned to Boston on Saturday, and attended the Baptist Church in Charlestown on Sunday, with her guardian, Deacon Carter.

Mayor Frothingham, of the latter city, publishes in the Boston papers, a statement signed by himself and by Alderman Sanger, dated on Sunday, March 6, which is as follows:

"The girl Hannah Corcoran, whose absence from the city has caused so much excitement, appeared before us this day, and stated that she was taken by her mother first to a boarding house in Boston, and subsequently was taken by her mother to a private family in Philadelphia. She further stated that her mother took her from Philadelphia on Thursday, and brought her to Boston."

In connexion with this, Joseph Carter certifies that his ward, the said Hannah, appeared before the Mayor and Alderman above named, in his presence, and is the same girl who was missing. She is now residing at his house.

This is probably the closing act in this singular drama—for the prime movers of her abduction will hardly dare to meddle with her again, for fear of consequences. Her return, and its attendant circumstances, show pretty plainly, that she did not go away voluntarily, or by her own free choice, but was spirited away by her zealous catholic mother, to get her out of the way of the heretics with whom she lived, and one of whom she had become. It is also plain, that without some demonstrations of popular indignation, she would have been kept concealed. Mayor Frothingham has acted wisely. To him the Catholics of Charlestown owe the preservation of their church—and to him the community also owe a high degree of respect for his decision and firmness in preserving the peace, and in having the girl brought back to quell the discontent and excitement.

The Boston Post, (one of whose editors is the Mayor of Charlestown,) says, that "Hannah seemed much pleased on reaching Mr. Carter's house, and entirely exonerates the Rev. Mr. Linden, the Catholic priest of Charlestown, from all charges of religious oppression towards her. She has not changed her Protestant belief."

MISTAKING A LIGHT.—The ship Mary Ann, Capt. Crosby, which arrived at Boston, on Friday night, from Liverpool, struck on Pollock Rip, March 2, at 6.30 A. M., and remained 8 hours. Got off with assistance from the shore, after throwing overboard about 20 tons of cargo. Leaked about 1000 strokes per hour, when she came off, and now only leaks 200 strokes per hour. Capt. C. states that he had a strong southerly current, and mistook Chatham for Cape Ann Lights.

GOLD FROM AUSTALIA.—The British ship Chouringhee, from Melbourne, Australia, with 50 passengers and 70,000 ounces of gold, came round Cape Horn, and called at Pernambuco, Jan. 16, for supplies, and sailed 21st for London—all well. She had on board a *nugget of pure gold*, weighing 46 lbs. troy, taken from the White Horse Gullies, Bendigo gold fields.

Scarf Found.

ON Saturday afternoon, a SCARF was picked up in the street. The owner can obtain the same at this office. mch7

Refrigerators.

PERKINS'S UPRIGHT REFRIGERATORS.

THIS Refrigerator having been in use for three years, and given entire satisfaction, is pronounced THE BEST now in use. They are made in the best manner, and of the best material, and are a handsome piece of furniture for the Dining Room. For convenience nothing can surpass it. Being constructed upright, and having shelves of slate upon the right and left, dishes can be put in and taken out without displacing others, as you are obliged to do in the Chest pattern; you can have access to your ice at all times without removing anything. This Refrigerator needs only to be examined to be approved. No family should be without this most useful article; it will pay for itself in a short time by preserving your butter, milk, eggs, &c., &c.

mn2 18 Pleasant street.

WHAT CAN BE GOT FOR $5.

THE UNDERSIGNED have entered into an arrangement by which they agree to furnish the Knickerbocker Magazine, (monthly,) the Home Journal, (weekly,) and the Musical World and Times, (weekly,) to new subscribers, at the very moderate price of five dollars a year for the three publications; all orders, enclosing that amount to Dyer & Willis, will be promptly attended to.

SAMUEL HUESTON,

Publisher of the Knickerbocker.

MORRIS & WILLIS,

Publishers of the Home Journal.

DYER & WILLIS,

Publishers of the Musical World and Times,

257 *Broadway, New York*

Grand Literary and Artistic Combination.

Arrangements have been made to furnish the KNICKERBOCKER MAGAZINE, the HOME JOURNAL, and the New York MUSICAL WORLD AND TIMES to new subscribers, for FIVE Dollars a year! This is cheap literature, with a vengeance. The Knickerbocker is $3 per annum; the Home Journal, $2; and the Musical World and Times, $3; making $8 a year at the usual rates. That three such works can be obtained for $5 a year, is a fact truly worthy the Caloric age, which is just now being ushered in. The Knickerbocker Magazine, edited by Lewis Gaylord Clark, it is unnecessary to speak. For twenty years it has been the most genial, humorous and "spicy" monthly in the world; and the present volume will be better than any which preceded it. The Home Journal, edited by Geo. P. Morris and N. P. Willis, is well known as the best family newspaper in America; and the Musical World and Times, edited by Richard Storrs Willis, with Lowell Mason, Geo. H. Curtis, Thomas Hastings, William B. Bradbury, Geo. F. Root, and other musical writers contributing; and which gives, among other things, over $25 worth of music and a full course of instruction in harmony annually, is the very best musical journal ever published. These three publications will post a family up in regard to everything worth knowing:—Art, Science, Literature; Music, Painting, Sculpture; Inventions, Discoveries; Wit, Humor, Fancy, Sentiment; the Newest Fashions and other attractions for Ladies; Choice New Music for the Sabbath, the Church and the Fireside; Reviews and Criticisms of Musical Works, Performers and Performances; in short, the very pick and cream of Novelty, Incident, History, Biography, Art, Literature and Science; including whatever can be given in periodicals to promote Healthy Amusement and solid instruction in the family, and help to make it Better, Wiser and Happier, may now be obtained for FIVE DOLLARS. Address DYER & WILLIS, 257 Broadway. f16

ANOTHER NEW TERM.

Gerry's Two-Crayon Drawing.

Taught at No. 13 Vaughan, cor. Hanover st.

A NEW TERM will commence on THURSDAY, March 10th. Those who are desirous of taking lessons are requested to call at Mr. Gerry's Rooms previous to that time, so that arrangements may be made for the several Classes.

Will the public examine specimens of Drawing by Mr. Gerry and his scholars, at the Bookstore of Messrs. Shores, Foster and Harvey?

☞ Particular instruction will be given in enlarging pictures, which, with other instruction, will give the scholar a fine idea of Landscape sketching, from Nature.

Persons living out of the city, can, by stopping here a few days, complete a course of lessons.

☞ No expense for pupils while taking lessons, excepting the tuition.

mch 7 C. F. GERRY, A. B.

POINTED COLLARS.—Just received by the subscriber, an assortment of the new style Muslin and Cambric Pointed Wrought Collars, from $2 50 to $6 each.

f5 H. A. BIGELOW.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

WASHINGTON RUMORS.

Washington, March 5.—Some trouble occurred here on Friday, it is said, in relation to the cabinet. General Cushing desired the State Department, to which the President and others objected. Mr. C. then grew angry, and packed up, and threatened to leave the same evening. To-day it is settled that Mr. Cushing shall have the Treasury, and Mr. Guthrie the Attorney Generalship.

Mr. Bowlin will probably be Commissioner of Indian Affairs, and Mr. Gorman will have the Land Office.

CATHOLIC MOVEMENTS—ROBBERY.

New York, March 7.—The Chicago Tribune states that efforts are being made by influential Catholics in that city to effect the removal of Mr. Cass, our Minister at Rome, and to have appointed in his place a person more acceptable to the Catholic priesthood.

Two boys, 14 years of age, were arrested in this city yesterday, on a charge of knocking down and robbing a man named Robert Crawford, in the night time.

NUMBER OF OFFICE SEEKERS.—In answer to a statement made, that there are 40,000 offices in the United States, and that 120,000 persons have made application for them, the Providence Journal remarks:

"As for putting the whole number of applicants at 120,000, this is nonsense. The number alone from Virginia will be greater, and every tenth man in New-Hampshire expects to be a foreign minister at least.

FROM HALIFAX.—The Halifax Chronicle of the 3d says—

Several of the crew of the American ship Winchester of Boston were roughly handled by the populace last evening, for alleged misconduct towards the female passengers, subsequent to the disaster and since arriving in this port. It is the imparative duty of the city authorities, within whose jurisdiction the ship is now lying, to institute a rigid investigation into the abuse in question. Justice to the American character compels us to state that the supposed criminals in this case are *not* citizens of the United States.

The Winchester was bound from Liverpool to New-York, and put into Halifax in distress.

It has been ascertained that 200,000 persons arrive in, and depart from London daily, by rail. The number who arrive in depart from this city daily by the various railroads is not far from 12,000.—*Boston Jour.*

RAPPED OUT OF THIRTEEN THOUSAND DOLLARS.—A respectable Long Island farmer, having become interested in the spiritual delusion, got entrapped by a medium,'—a Mrs French of Pittsburg,—who obtained so much influence over him, that he was induced to turn all his property into cash and even forced his wife to give up her interest, and having obtained about $13,000 paid it over to the witch, who immediately took 'French' leave, and he has attempted to kill himself, and is now in the New York Lunatic Asylum. He has a wife and two interesting daughters.

LATEST FROM EUROPE.

The steamer Baltic arrived at New York on Saturday night from Liverpool 23d Feb.

Among the passengers are Father Givazzi, seceder from the Roman Church, and four New York editors, viz., Messrs. George Jones of the Times, Charles Lasalle of the Courier des Etats Unis, Mr. Massnas of L' Phare, and E. A. Beach of the Illustrated News. Capts. R. B. Forbes and E. Howes of Boston are also passengers.

An Inauguration celebration was had on board the Baltic on the 4th.

M. Kossuth denies the authorship of the address to the Hungarians in Italy.

Capt. Penny has formed a company for permanent settlement for the whale fishery and mining in the Arctic regions.

The weather in Great Britain has been stormy, with deep snow. Wind easterly—few arrivals.

All naval non-commissioned French officers had their pay increased ten centimes per diem.

It is reported that the French government intends to remove the duty on guano imported in foreign shipping.

French weather frosty, with falls of snow.

The gates of Milan were still closed, and troops were arriving. Whistling and singing are forbidden. Two men were hanged, and it was thought that some Hungarians had been privately shot in the castle.

Gen. Radetsky proclaims the confiscation of the property of the suspected.

The frontier of Lombardy is chiefly blockaded. Mazzini had been seen on the frontier, but had not been captured.

Milan has to pay 30,000 florins every Wednesday. The city is quiet. Some few arrests had been made at Genoa.

An extensive conspiracy had been discovered in Hungary. The country is very unsettled.

The Emperor of Austria was recovering from his wound. The assassin's name is Lasso Benemy, a tailor, formerly a Hussar. He was cut down by an aide-de-camp and secured.

Austria had ordered 5000 Ticiense to leave Lombardy in 24 hours.

Prussia was blocked up with snow.

Hostilities had been resumed with the Turks and Montenigrines, but not as reported between Turkey and Austria.

The Austrian mission to Constantinople had been unsuccessful.

NEW YORK, March 6.—The steamer Bay State, which left Fall River on Friday morning, did not arrive here till about nine o'clock this evening. She had a very perilous time during the snow storm on Friday night. The weather was so thick that it was impossible to tell her bearings, and she finally came to anchor in seven fathoms of water, within three miles of what afterwards proved to be Gull Island, where she lay until morning.

Coal Burners
OF a new and elegant pattern, designed for the parlor, hall, or office, may be found at
CHAPMAN'S TIN WARE FACTORY.
In simplicity of construction, beauty of outline, and style of finish, it is unsurpassed by any Coal Stove in the market. It is so constructed that the entire contents of the grate can be instantly discharged into the ash-pan while the stove is closed air-tight, so that no dust can escape into the room to the annoyance of persons or damage of furniture. Its exterior model is of the most chaste and faultless character, rendering it by for the most attractive stove that can be introduced into the parlor or sitting room. For sale cheap at the sign of the Big Coffee Pot, Daniel street, where it may be seen in operation.
Also, for sale as above, one pattern of Hapgood's celebrated HOT-AIR PARLOR GRATE. f3

LYON'S KATHAIRON FOR THE HAIR

LYON'S KATHAIRON,
For Preserving, Restoring & Beautifying the Hair,
CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.
AS A TOILET ARTICLE,
For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—Its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.
FOR BALD OR GREY HEADS
It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. Cousinour, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.
Sold to the trade at a liberal discount, but *commissioned in no instance.*
D. S. BARNES, *Proprietor.*
161 Broadway, New York.
Sold in Portsmouth by Joseph H. Thacher, cor. State and Pleasant sts, and Wm. R. Preston, No. 2 Congress Block, Congress st.
Weeks & Potter, 154 Washington st, Boston, Wholesale Agents for New England. i8m1f11

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed Agent of the United States Patent Office, in accordance with the 10th section of the Act of 1837.

Having relinquished the agency for the transmission of models, and adopting a more expeditious mode of sending them to the Patent Office, *whereby a Patent can be procured several weeks earlier*, he continues to forward them, as before, free of expense, and to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe.

The subscriber aims to present to inventors superior facilities for obtaining patents; and is now prepared to make Specifications at rates *cheaper by ten to twenty per cent.* than those of other agencies. They can here avail themselves of the experience of 20 years' practice, and of the Library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1852. eodly

j4 TOWLE & ADAMS.

Thermometers.

IT is known to most scientific men in this country, that the late Thomas Kendall discovered a process, by which the graduation of the Thermometer scales may be made accurately to correspond with variations, which unavoidably exist in the calibre of the tube; thus overcoming what has been considered the insurmountable obstacle to the construction of a perfect Thermometer.

Profs. Silliman and Fisher, Yale College, (see Journal of Science and Arts, vol. 4, p 398,) and other scientific gentlemen, having examined this process, concur in saying that it is correct on mathematical and philosophical principles, and the only known way by which the difficulty referred to can be obviated.

This method has not been disclosed to other manufacturers of Thermometers, neither is it known to be in their possession. These Thermometers, therefore, are the only ones which can be relied upon for entire accuracy.

The subscriber has just received a lot of these Thermometers direct from the manufacturer and made expressly for his order, of various sizes and mountings, for the parlor or out of door use.

Also, a few Papier Mache Mantle Thermometers
JOSEPH H. FOSTER,
f2 No. 5 Market street.

HOUSE AND LIFE PROTECTORS

AGAINST FIRE AND LIGHTNING.

PATENT METALLIC

LADDER AND CONDUCTOR.

THIS new and important invention is one that should receive the attention of every person who owns a building, or who is interested in that which presents a "permanent safeguard" against lightning, and at the same time a light, strong and ornamental Ladder, which will securely warrant the inmates of any house the ready means of escape in case of fire.

The above is now manufactured by Messrs. Washburn, Holland & Co. of Worcester, Mass., and have received the strongest testimonials of approval from many scientific and practical men. A moment's examination of the Metallic Ladder is sufficient to convince any person of its great utility.

☞ Price per foot, 20 cents; including Lightning Rods and Points of the most approved material.

Specimens of the article may be seen at the office of the subscriber.

No. 73 Market street, up stairs,
and orders received by
d2 J. P. BARTLETT, Agent.

Livery Stable.

DENNETT & PERKINS

WOULD respectfully announce to the riding public and the citizens of Portsmouth generally, that their Stable is now supplied with as good a stock of HORSES AND CARRIAGES, for pleasure or business, as can be found in the City.

Passengers by the different Railroads will find our Carriages at the Depots in readiness to convey them to any part of the City, on the arrival of each train; and passengers taken at their residences for the Depots or to any part of the City.

Parties to the neighboring Towns and Beaches supplied with good carriages and attentive drivers on moderate terms and at short notice.

Carriages furnished for funerals.

Office No. 9 Vaughan Street, Portsmouth.
a2 DENNETT & PERKINS.

To the Riding Public.

C. H. SIDES & Co.,

KEEP the best of Horses and Carriages to let on the most reasonable terms, at the Livery Stable in
State Street,
nearly opposite the Rockingham House.

Pleasure riders will here find as good, stylish and safe teams as at any other establishment, at moderate rates—and are invited to favor us with a call.

COACHES furnished for conveying parties to any of the neighboring Beaches or Towns; also for attending FUNERALS, and conveying passengers to or from the depots, and in any and every direction, at the shortest notice, at all hours.

They are ever ready to attend to all orders in their line, and respectfully solicit a share of patronage. CHARLES H. SIDES,
WM. O. SIDES.

Portsmouth. Aug. 2, 1852. 1y

ROCKINGHAM HOUSE,

Epping, N. H.

THE Subscriber having fitted up this house and refurnished anew, is now prepared to accommodate all who may favor him with their patronage. Boarders can be accommodated on reasonable terms.

Connected with the house is a large and spacious HALL where parties of pleasure can be accommodated, with good fare and reasonable charges.

This House is situated on the line of the Portsmouth & Concord Railroad, one hundred and twenty rods from the Depot, where carriages are in readiness on the arrival of every train of cars to convey passengers to the House, free of charge.

There is also connected with the House a LIVERY STABLE, where horses and carriages can be had at all times at short notice and on reasonable terms.

A share of public patronage is respectfully solicited. H. G. O. RUNDLETT.

Epping, Aug. 3, 1852. 3tf

V. B. Palmer, American Newspaper Agent, is the only authorized Agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

A WHISPER TO GENTLEMEN.

BY FANNY FERN.

Jupiter Ammon! *don't I wish I was a man*, just to show the masculines how to play their part in the world a little better! In the first place there ain't a mother's son of you that has got as far as A B C in the art of making love, (and I've seen a few abortions in that way myself, as well as the rest of the sisters.) What woman wants to be told that "her feet and eyes are pretty," or "her form and smile bewitching!" Just as if she didn't *know* all her fine points as soon as she is tall enough to peep in the looking-glass!

No, you ineffable donkey if you must use the small coin of flattery to pay toll at the bridge of our affections, let me whisper a secret in your long ears. Compliment her upon some mental attraction she does not possess, (if you can find one!) and don't wear the knees of your pet pants threadbare at her feet, trying to make her believe that she is your "first love." We all know that is among the things that were, after you are out of jacket and trowsers.

What a *splendiferous* husband I (Fanny) should make, to be sure! if providence had so ordained it! Do you suppose that when the mother of my glorious boys wanted a six-pence to buy their shoe-strings, I'd scowl at her like a hyena, and pull my port-monnaie out of my pocket as if I were drawing a tooth? Do you suppose when her blue eyes grew lustreless, and the rose paled on her fair cheek, trotting round the domestic tread mill day after day, that I'd come home at night sulky and silent, and smoke my cigar in her face till her eyes were red as rabbits! or take myself off to a club or a game, and leave her to the exhilerating relaxation of darning my stockings?

Do you suppose that I'd trot along like a loose pony at her side, in the street, and leave her to keep up with me or not, as her strength would permit? Do you suppose I'd fly into a passion and utter words to crush the life from out her young heart, and then insult her by offering a healing plaster in the shape of a new bonnet? And don't you suppose when the anniversary of our wedding day came round, I'd write a dainty little note and leave it on her toilet table, to let her know I was still a married lover?

Pshaw! I'm sick of you all! you don't deserve the love of a generous, high-souled woman! If you want a wife—but you don't.

One woman will answer as well as another, to sew on your buttons, straps and strings, and make your puddings, and—so forth and so on.

Do you suppose we have cultivated our minds, and improved the bright and glorious gift of intellect to the best of our capacity, to minister only to your *physical* wants? Not a bit of it! When that's over we want something rational. Do you ever think of that, you selfish wretch! when you sit with your feet on the mantle piece, reading the newspaper all to yourself, or sit from tea time till ten o'clock, staring the ashes in the grate out of countenance?

Lord Harry! If I had such a block of a husband, I'd scare up the ghost of a lover somewhere, if there's any wit in woman!

IMPEACHMENT OF A JUDGE.—It has been reported by telegraph that Judge Levi Hubbell, of Wisconsin has been impeached. He has been accused of receiving a bribe in a suit pending before him; of abjudicating cases in which he was pecuniarily interested; of wilfully passing illegal sentences; of taking money paid into court, for his own use; in giving advice in his official capacity in cases before him. There are several other charges of minor importance, and one of the basest character.

THE ARCTIC OCEAN.

NORTHERN VOYAGERS.—We are glad to learn that Doctor Kane has finally completed his preparations for the renewed exploration of the Arctic Seas, upon which he designs to enter as early as possible in the coming season. He has succeeded in organizing a scientific *corps* of four gentlemen, who, acting under his own supervision, and animated, it may be hoped, by something of his own intelligent zeal in the cause of science, may bring back facts of the utmost scientific importance, even if they fail—as we hope they will not—in the main object of their hazardous and heroic search. In this corps will be an Astronomer, who will have a permanent Observatory at Smith's Sound, and a Zoologist, whose attention will be specially devoted to the lower orders of marine life—the food of the whale, whose migrations may be determined by the characteristics of the life on which it feeds.

The deck officers are four in number—two of them volunteers from the last expedition. They all hold naval appointments for the purpose of rendering them amenable to fixed discipline; but none of a higher rank than that of boatswain. They are all practical men—hard fisted and enduring; one of them has already spent six years in Baffin's Bay, and returns from a recent shipwreck. The crew consists of *nine* Bangor seals-men. They are to procure forty eight dogs from the coast of Greenland, with Esquimaux drivers, and leave with sledges, gutta-percha boats, and the equipments of a large party in the Fall.—They intend to leave New York on the 16th of April. They will carry with them the hearty good wishes of thousands and tens of thousands of their countrymen.—*N. Y. Times.*

ACCIDENT.—Mr. Moses Twombly, brakeman on the Freight train on the Boston & Maine Railroad, was knocked down on top of a car in passing under the bridge over New York street a few days since, and was taken up for dead. But we understand that he is now doing well, his injuries not being of so serious a nature, as was at first apprehended.—*Dover Enquirer.*

DAILY
Morning Chronicle.

PORTSMOUTH:
WEDNESDAY, MARCH 9, 1853.

CITY ELECTION.

Our report of the City election is as accurate as it was possible to obtain it last night. The vote in the first Ward was not declared till past ten o'clock. The large number of scattering votes thrown made the labor of counting the votes exceedingly tedious.

By the following, it will be seen that there is no choice of Mayor by the people, and the election of that officer will devolve on the City Council.

In Ward 1 the meeting adjourned at eleven o'clock to 10 o'clock this forenoon—to fill vacancies, we make it, of an Alderman, five Common Councilmen, a Moderator, and an Overseer of the Poor.

The meeting in Ward 2 adjourned to 10 o'clock this forenoon, to hear the final declaration of votes, and fill vacancies if there should be any.

In Ward 3 there are four members of the Common Council, and a number of other officers to elect, for which purpose the meeting adjourned to 10 o'clock this morning.

We were unable to obtain the scattering votes cast for the different officers.

MURDER OCCASIONED BY GAMBLING.—A stable at Lawrence, was destroyed by fire on Thursday night, and in the ruins was found the body of a young lad sixteen years old, with the skull broken. It was evident he had been murdered, his body placed in the barn and the barn set on fire in the hope of concealing the crime. Investigations proved that he had been playing cards in the evening near by, and had some difficulty with two or three of his companions about a watch.—Thoughts arise out of this sad event, worthy of serious consideration by all who are beginning to gamble, or learning to do so.

FOUND DEAD IN BED.—Coroner Smith was called Saturday forenoon to hold an inquest on view on the body of Mrs. Nancy, widow of the late Cyrus Marshall, found dead in bed at her residence, No. 40 Spring street, Boston. She leaves one daughter about ten years of age. Mrs. N. was a native of Newburyport.

M. P. Fillmore, son of the Ex-President, will form a law partnership in the city of New York, with a son of Mr. Corwin, and this same son of Mr. Corwin is strongly suspected of an intention to marry young Fillmore's sister. The whole operation is to be added to the series of Compromise measures.

Rather, we would say, of Coalitions. There is no involuntary servitude about this—no fear of dividing the Union—no selling the husband away from the wife, or the wife from the husband—nothing of sacrifice to preserve the Union—but very wisely the union is trusted, as having virtue and energy enough to save itself.

LOCAL.

GENERAL RILEY'S LECTURE,

At the Temple on Monday evening, was attended by a large audience, say 800 persons, of whom about half were women. The lecture was listened to with great attention, notwithstanding the triteness of the subject, for the author had it studded with apt allusions, well told stories, and happy hits.

One of the most amusing, was that of an old negro who used to do odd jobs for low wages, and had a running account at a grog-shop, where he drank every day. One Saturday night, he had about ninety cents, and his grog score took seventy five of them, leaving the negro but fifteen. With these he went to the meat shop, to get something for himself and wife to live upon over Sunday; but every thing he looked at was so dear that his money would not buy enough of any thing except liver. He had just told the butcher he would have a little liver, when in bustled the shop-keeper to whom he had just paid his grog score, and loudly ordered beef-steaks. The butcher turned to him as the best customer, and cut his steaks first. The negro watched, and saw him pay the butcher for his steaks exactly the same money he had just paid him for rum.

Both went home to their families, the shop-keeper with his steak and the negro with the liver. The black man, after holding a council with his wife, made up his mind to save his grog money the next week, and did so: earning about as usual, did not go near the grog shop for the week, but on Saturday night went by, to visit the meat shop as usual, for his Sunday's dinner. This time, having the whole of his ninety cents in his pocket, ordered what beef steak he wanted; and just as he had got it, the shop-keeper crept in to buy some liver only, as his treasury fell short just about as much as the black man's ran over. The latter was so pleased with the experiment, that he paid no more money to buy beef for the shop-keeper, but kept it to buy beef for himself.

Gen. Riley detailed his old military experience in giving away liquors, and his observation of his brother officers who drank them, and who ridiculed him for not doing as they did—but who, in some sad cases closed their days in clouds and darkness.

DRAWING LESSONS.

It will be seen by his advertisement that Mr. Gerry commences a new Class to-morrow His success in this vicinity has been gratifying to him and to all lovers of art. By the new system he teaches, pupils will make rapid progress. It is astonishing to see how good a copy of a fine picture a pupil will learn to make, in a short course of lessons.

From a long personal acquaintance, we can cordially recommend Mr. G. to all parents and pupils who do not know him—his pictures, and those of his scholars, to be seen at the bookstores and his room, are in themselves recommendations of his skill, as a teacher.—Those intending to avail themselves of his tuition, would do well to begin now.

THE KIMBALL BROTHERS.—The Concert to be given in the Temple this evening, is to be performed by five brothers, four of whom have been singing in this manner, during the past winter, in Massachusetts, with good success; and the fifth is Israel Kimball, the teacher of our city high school for boys, and well known as a singer and teacher of music.

There is little doubt the Temple will be well filled on the occasion.

MR. KING.—The New Orleans Picayune learns from a gentleman who came a passenger on the Empire City, and who saw the Vice President elect in Havana, at his residence, that the health of Mr. King has not improved. Our informant entertains strong fears that the distinguished invalid cannot recover, his disease being too deeply seated.

The Havana correspondent of the N. Y. Journal of Commerce, under date of Feb. 25, says Mr. King is reported better, walking about and passing most of his time in the sugar house on the estate of Mr. Jencks.—And on March 1st.—Mr. King not so well—effects of our cold weather.

CHARLESTOWN, MASS.—The Missing Girl excitement, it is to be hoped, made its last exhibition on Monday evening. A curious crowd of several hundred assembled about Richmond street about 9 o'clock, but when they were commanded by the Mayor to disperse, they faithfully obeyed the command, and departed.

These were probably, for the most part, of the number of those who don't take the papers, and who not knowing that the girl had returned, determined to ascertain for themselves. The mob was quite numerous, and the military were ready, but were not called upon to act.

A stranger, whose name could not be ascertained, fell from the top of the Washington Monument on Friday, and was taken up lifeless.

DISASTERS.

Ship Charles, of London, fm Cardiff for San Francisco, was abandoned Feb. 5th, 20 miles NNW of Scilly, with nine ft water in hold. The crew were taken off by ship Hemisphere, arr at Liverpool from New Orleans.

PROVINCETOWN, March 5th.—Last night at 11 o'clock, sch Narcissa, Bunce, of and from Cold Spring, N. J., for Boston, with moulding sand, came ashore outside in a thick snow-storm. She got her boat out, but the painter parted and the boat was lost. The crew was compelled to stay by the vessel until this morning at 7 o'clock, when she was discovered by two men on the beach, with the sea making a complete breach over her. The captain and crew were all in the main rigging, with the exception of the cook, Thomas Nympha, aged about 40 years, who while going up the rigging was washed overboard. About 8 o'clock, Wm. J. Jones, seaman, of Kittery, Me., fell into the sea and was drowned. The captain, mate and one seaman, remained in the rigging until a rope was got to the vessel, when they were landed safe on shore, but very much exhausted. The Narcissa is five years old, 93 tons. If the weather holds good, she may be got off.

The merry Spring has come,
and so has the time to
Replenish your Wardrobe
at the
Clothing & Furnishing Store,
No. 37 Market Street,
ON THE LOW-PRICED SYSTEM.

MOSES & DOWNIE

HAVING satisfied themselves by their immense sales during the past year, that the low-price Cash system is the most profitable way of doing business, and feeling truly thankful for the success that has attended their efforts to give satisfaction, take this opportunity to inform their friends and the public that they have made very large additions to their stock of
CLOTHING & FURNISHING GOODS.
They manufacture all of their Clothing, and warrant every article they make to give satisfaction.
They have now on hand a very large stock of Over, Dress, Frock, Sack and Business COATS, of every quality, color and style, just made under their own supervision, from new and beautiful goods.
Their assortment of VESTS can't be beat.
Their large stock of PANTS of every quality and style, is full and complete.
They have just received for their Spring custom trade a fine lot of CLOTHS, CASSIMERES, DOESKINS, and VESTINGS, which they will MAKE TO ORDER
in as good style as any store in the city.
We also keep a large assortment of CAPS, BOOTS AND SHOES, &c., which with our large stock of Clothing and Furnishing Gooks, enables us to show to the public,
The largest, best made and cheapest stock of goods ever offered in Portsmouth—and we will sell them as low as they can be bought in Boston.
Don't forget—No. 37 Market Street,

Jonker's Gutta Percha Oil.

THIS new and excellent article for Polishing Boots, Shoes, Harnesses, &c., is impervious to water and will not soil the whitest article. Warranted to soften and preserve the leather.—For sale by (mh9) JOHN YEATON.

MARSH'S PATENT OIL for sale by
mh9 JOHN YEATON.

French Zinc Paint.
Ground in Prepared Linseed Oil.

THE Subscribers having made arrangements to receive PURE FRENCH ZINC, fresh ground from the Factory, would respectfully call the attention of the trade, and consumers in general to this beautiful article, which when properly prepared and used makes the MOST BRILLIANT and DURABLE WHITE in use. It has been used in France for the past five years, and has entirely superceded White Lead as a paint.
The FRENCH ZINC, prepared as above, is offered in quantities to suit purchasers at the Manufacturer's Depot.
BENNETT & TREADWELL,
f24 No. 16 Market street.

ANOTHER NEW TERM.
Gerry's Two-Crayon Drawing,
Taught at No. 13 Vaughan, cor. Hanover st.

A NEW TERM will commence on THURSDAY, March 10th. Those who are desirous of taking lessons are requested to call at Mr. Gerry's Rooms previous to that time, so that arrangements may be made for the several Classes.
Will the public examine specimens of Drawing by Mr. Gerry and his scholars, at the Bookstore of Messrs. Shores, Foster and Harvey?
☞ Particular instruction will be given in enlarging pictures, which, with other instruction, will give the scholar a fine idea of Landscape sketching, from Nature.
Persons living out of the city, can, by stopping here a few days, complete a course of lessons.
☞ No expense for pupils while taking lessons, excepting the tuition.
mch 7 C. F. GERRY, A.B.

Refrigerators.

PERKINS'S UPRIGHT REFRIGERATORS.
THIS Refrigerator having been in use for three years, and given entire satisfaction, is pronounced THE BEST now in use. They are made in the best manner, and of the best material, and are a handsome piece of furniture for the Dining Room. For convenience nothing can surpass it. Being constructed upright, and having shelves of slate upon the right and left, dishes can be put in and taken out without displacing others, as you are obliged to do in the Chest pattern; you can have access to your ice at all times without removing anything. This Refrigerator needs only to be examined to be approved. No family should be without this most useful article; it will pay for itself in a short time by preserving your butter, milk, eggs, &c., &c.

POTASH—for sale by
mh5 JOHN YEATON.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

LATE FROM TEXAS.

New York, March 7.—New Orleans papers of the 28th, contain Galveston dates to the 25th ult., and Indianola to the 24th.

A tremendous gale took place at Galveston on the 22d ult., commencing about 3 A. M., from the northwest, and moderating towards the evening. The Galveston News says the large new store of Messrs. S. Cyr & Cot, had its metal roof partially blown off. The new wharf of Mr. Parsons, at which several vessels were lying, was carried away, and some 200 tons of Railroad Iron, now belonging to the Harisburg Company, and other merchandise lying on the wharf, was precipitated into the water. The steamer Farmer was blown sternwards on the flats, where she has since remained.

A letter from Galveston to the Secretary of the New York Board of Underwriters, dated 26th ult., says on Tuesday last we had a very severe gale at this place, doing considerable damage, that portion of which is covered by insurance, so far as I have learned, is as follows:

B. S. Parsons's wharf, carrying with it about 255 tons of railroad iron.

Sch. Jenny Lind, loaded with cotton, had to throw overboard 73 bales.

The Railroad Iron is insured in Boston, and the cotton in New York.

The steamer Washington, on the Trinity river, struck on a snag, and came near filling with water. Her cago of cotton was more or less damaged.

The steamer Jack Hays, on the Trinity river, broke down her guards, and 200 bales went overboard.

Col. Kinney has recently sold one half of his interest in the town of Corpus Christi, for the sum of $100,000.

The steamers in the Brazos and Trinity are actively moving, and produce promises to become more active than it has been for some time. There are about 2000 bales of cotton at the mouth awaiting reshipment, and the arrivals from Trinity in town and at the mouth, amount to about 3000 bales.

CABINET MINISTERS CONFIRMED.

On Monday, at Washington, the Senate unanimously confirmed President Pierce's nomination of the following gentlemen as members of his Cabinet, viz:—

Secretary of State, WILLIAM L. MARCY, of New York.

Secretary of the Treasury, JAMES GUTHRIE, of Kentucky.

Secretary of the Interior, ROBERT MCCLELLAND, of Michigan.

Secretary of War, JEFFERSON DAVIS, of Mississippi.

Secretary of the Navy, JAMES C. DOBBIN, of North Carolina.

Post Master General, JAMES CAMPBELL, of Pennsylvania.

Attorney General, CALEB CUSHING, of Massachusetts.

GREAT FIRE.—*New Orleans, March 2.*—The most disastrous fire that ever occurred in New Orleans, broke out on Wednesday afternoon in the upper part of the Alabama Cotton Press. The flames spread rapidly, and gained a tremendous headway before the engines arrived. It destroyed nearly all the contents of the Press, besides a large quantity of cotton piled in the streets. It far exceeds the first estimates. 18,000 bales of cotton were destroyed, valued at $800,000 The property was mostly insured.

It is believed that several negroes have perished in the flames. Many other presses in the city were in great danger, but were saved. The fire is still smouldering, and the engines are kept constantly at hand.

On Sunday evening, Feb 27, four men in the employ of the Glasgow Mills at Hadley Falls, opposite Holyoke, Mass., returning home from Holyoke, were brutally assaulted with stones by seven unknown men, who were lying in wait for them by the way. One of the number, John Jacob Bliss, had his head cut open, and died in consequence. Another had his head shockingly cut, and is still confined to his bed. All efforts have thus far failed to discover the perpetrators of the gross outrage and murder.

A Mr. Canney, from Clarke county, Ky., with others, pursued and captured ten of their slaves in Wayne county, Indiana, on the 25th ult. The abolitionists commenced blowing horns to alarm the neighborhood; after a severe contest, in which Mr. Canney was severely wounded, the negroes were all captured and taken back to Kentucky.

☞ The Bangor Mercury states that the shooting lady at Oldtown, upon being discharged, received nine cheers and $25 from the crowd present.

☞ The eminent merchant and packet owner, Samuel S. Howland, Esq., senior partner of the house of Howland & Aspinwall, died at Rome on the 9th of February last.

☞ One of the solid men of Boston, the venerable Samuel Appleton, on Monday, presented to the Superintendent of the Public Schools, for the purchase of text-books, the sum of $500, and James Nightingale sent Mayor Seaver $100 for the benefit of the City Library.

☞ The Scarlet Fever is very prevalent in Boston and neighborhood. The disease has fallen heavily upon the family of Hon. N. P. Banks of Waltham. His two only children are lying dead; both having fallen victims to this terrible disease.

MAINE.—The Maine House of Representatives passed an order on Friday to adjourn *sine die* March 17, but the Senate laid the hasty order on the table, by a vote of 16 to 3.

The Greatest Chance for a Bargain in this city, is at

f8 JAMES NOWELL.

VALUABLE PROPERTY FOR SALE
IN FRAMINGHAM, MASS.
THE house heretofore known as the FRAMINGHAM HOTEL, situated in Framingham Centre, Mass., having been put in complete and thorough repair throughout, is now offered for sale. The main house is 50 feet on the street, 60 feet of which has a piazza, and contains 30 rooms, including a large hall; has a large and dry cellar, Ice House, and the best of water. The whole premises have been occupied the past year as a private residence, during which time many improvements have been made in and about the house and grounds, the front yard having been enclosed, set with large trees, and grassed. The house is well calculated for a genteel Boarding House or Hotel, for which it is much wanted; and the Board of Education have decided to remove the State Normal School, now located at West Newton, to Framingham, the site for which is only a few minutes' walk from the premises, makes this property particularly desirable for this purpose, as it will secure, in connection with boarders from the city, a profitable business the year round.

It is also desirable as a private residence, having every convenience as such, and being situated in close proximity to the Common, several Churches, High School, (free,) and only a few minutes' walk from the depot. The size of the House, to any one having a large family, would not be objectionable, as the hall and other parts could be fitted up in a manner which would add much to the convenience and comfort of a residence in the country; or a part of it could be so used, and the remainder let, without inconvenience. To persons, therefore, in pursuit of property for either of the above purposes, or for investment, an opportunity offers rarely to be met with. Terms of sale will be liberal, and possession given at any time.

For further information, apply by letter or otherwise, to L. WIGHT, Framingham, or in Boston to J. K. PORTER & CO., 27 Water st.
Dec. 27. WSistf
